THE AXIO DATA GROUP 401(K) PLAN

**FINANCIAL REPORT
DECEMBER 31, 2013**

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of
The AXIO Data Group 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The AXIO Data Group 401(k) Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2013, the related statement of changes in net assets available for benefits from May 1, 2013 ("Date of Inception") through December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the Trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of December 31, 2013, and from the Date of Inception through December 31, 2013, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

THE AXIO DATA GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following description is provided for general information purposes. Participants of The AXIO Data Group 401(k) Plan, (the "Plan"), should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan became effective on May 1, 2013 as a defined contribution plan covering all eligible employees of JOC Group, Inc., (the "Plan Sponsor"), Portelligent Inc, UBM Aviation Worldwide LLC, and RISI, Inc.(collectively known as the "Company"). The participants of the Plan were terminated from a prior employer plan at which point all participants became 100% vested in that Plan. There were elective rollovers from the prior Plan of \$18,210,925 for the year ended December 31, 2013. Employees of the Company are eligible to participate in the elective deferral portion of the Plan immediately upon hiring. Temporary employees and interns become eligible to participate in the Plan upon reaching 21 years of age and the completion of 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Eligible employees may defer up to 50 percent of compensation as defined on a "pre-tax" or "after-tax" basis through the Roth 401(k) option subject to certain IRS limitations. Participants who have attained age 50 by the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan Sponsor will make a non-discretionary matching contribution equal to 50% of each eligible participant's deferral amount up to 6%. In order for participants to be eligible for the non-discretionary contribution, the employees need to be making deferred contributions into the Plan. The Plan Sponsor may also make discretionary employer non-elective contributions. In order to be eligible to receive the discretionary employer non-elective contribution, participants must be employed at the end of the year. The Plan Sponsor did not make a discretionary employer non-elective contribution from the Date of Inception through December 31, 2013.

Participant Accounts - Individual accounts are established for each Plan participant. Each participant's account is credited with the participant's pre-tax contributions, the employer contributions (including the employer discretionary non-elective contributions and non-discretionary matching contributions), and the proportionate share of dividends, interest and investment gains (losses). The participant's account is reduced by withdrawals and losses on investments. The benefit to which a participant is entitled is the benefit that will be provided from the participant's vested account.

Vesting - Participants maintain 100% vesting in their voluntary deferral. Participants vest in the employer non-discretionary match and employer discretionary non-elective contribution components of their individual account in accordance with the following schedule:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

THE AXIO DATA GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Payment of Benefits - In most cases, upon termination of service due to death, disability, retirement or termination of employment, vested balances will be distributed to a participant or beneficiary in the form of a lump sum payment directly from the Plan.

Forfeited Accounts - At December 31, 2013, forfeited non-vested accounts totaled \$3,778. This account will be used to reduce future administrative expenses or the Company's discretionary profit sharing or matching contributions. The Company did not utilize any of the forfeited non-vested account during 2013.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by defined-contribution plans are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment from fair value to contract value. There was no fair value to contract value adjustment as of December 31, 2013 as fair value approximated contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions in net assets available for benefits during the reporting period. Actual results, as determined at a later date, could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

THE AXIO DATA GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Money Market Fund - Money market fund includes a highly liquid short-term investment purchased with a maturity of three months or less.

Payment of Benefits - Benefits are recorded when paid.

Hardship Withdrawals - The Plan provides for hardship withdrawals from participants' vested balances, not to exceed an amount required to meet an immediate need created by hardship, and then only to the extent that such immediate need cannot be satisfied by other sources reasonably available to the participant. Permissible circumstances for hardship withdrawals include medical expenses, purchase of a home, tuition payments, amounts necessary to prevent eviction from the participants' personal residence, and such other circumstances as the Plan Administrator may determine in accordance with Internal Revenue Service rules and regulations. All contributions to the Plan will be suspended for six months following a hardship withdrawal.

Risks and Uncertainties - Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the financial statements.

The Plan may have investments in funds with contractual cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by sub-prime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Subsequent Events - The Plan Administrator has evaluated subsequent events through October 7, 2014, the date the financial statements were available to be issued. The effects of those events and transactions that provide additional pertinent information about conditions that existed at the Statement of Net Assets Available for Benefits date have been recognized in the accompanying financial statements.

Note 3 - Information Certified by the Trustee:

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following information included in the financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the Statement of Net Assets Available for Benefits as of December 31, 2013.
- Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits from the Date of Inception through December 31, 2013.
- Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year), as of December 31, 2013.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

THE AXIO DATA GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

- *Mutual funds*: Valued at the closing price in the active market in which the fund is traded.
- *Money market fund*: Valued at the closing price in the active market in which the fund is traded.
- *Common collective trust*: Investments in common collective trusts consisted of investments in benefit-responsive investment contracts, fixed income securities, and money market funds. The fair value of the Trusts were determined by the Trust's trustee based on the Net Asset Value (NAV) of units in the common collective trusts and is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments within the Trust less liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

THE AXIO DATA GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	<i>Investments at Fair Value as of December 31, 2013</i>			
	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>

Total investments, at fair value	<u>\$ 19,521,890</u>	<u>\$ 626,009</u>	<u>\$ -</u>	<u>\$ 20,147,899</u>

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. From the Date of Inception through December 31, 2013, there were no significant transfers in or out of levels 1, 2, or 3.

Note 5 - Notes Receivable from Participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested and non-forfeitable account balance, whichever is less, and may not have more than two loans outstanding at any time. Loans bear a reasonable rate of interest and are secured by the balance in the participant's account. Loans are repaid through payroll deductions generally, within five years.

THE AXIO DATA GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 6 - Investments:

Investments that represent 5% or more of the Plan's net assets as of December 31, 2013 are:

*Spartan 500 Index	\$	2,093,380
American Century One Choice 2020 Instl		1,907,208
American Century One Choice 2025 Instl		1,856,452
American Century One Choice 2035 Instl		1,056,233
MFS Value Instl		1,184,085
AllianzGI NFJ Small-Cap Value A		1,852,875
T. Rowe Price Mid-Cap Value		1,495,629

* - Amount represents a party-in-interest to the Plan

From the Date of Inception through December 31, 2013, the Plan's investments in Mutual Funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$1,255,748.

Note 7 - Common Collective Trust:

The Plan invests in benefit-responsive investment contracts, fixed income securities, and money market funds through its common collective trust (the "CCT"). The CCT's contract values are a relevant measurement attribute since the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits does not reflect adjustments from fair value to contract value at December 31, 2013 as the contract value approximated fair value.

The CCT held by the Plan is an investment which has an objective to mirror similar investments traded in an active market. In the event of a complete redemption the terms of the contract prohibit the Plan from making a direct exchange from this fund to such competing funds. The Plan must first exchange to a non-competing fund for 90 days. This requirement is imposed by the contract issuer as a condition of the issuer's promise to pay certain withdrawals and exchanges at book value. There are no unfunded commitments.

Note 8 - Plan Termination:

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions. Under no circumstances may the Plan Sponsor take ownership of any of the Plan's assets as a result of such termination.

THE AXIO DATA GROUP 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 9 - Tax Status:

The Plan was written on an IRS pre-approved Volume Submitter Document, which obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that the Trust is exempt from Federal income taxes under Section 501(a) of the IRC. Therefore, they believe that the Plan is qualified and the related Trust is tax exempt as of the financial statement date, thus, no provision for Federal income taxes has been made in the accompanying financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset), or disclosure in the financial statements.

Note 10 - Related Party Transactions:

Certain Plan investments were money market and mutual funds managed by Fidelity Management Trust Company ("Fidelity"). Fidelity is the Trustee as defined by the Plan document and, therefore, these transactions qualify as party-in-interest transactions. Administrative fees paid to the Trustee totaled \$1,294 in 2013.
