DIRECTV Puerto Rico Retirement Plan

Notes to Financial Statements

December 31, 2013 and 2012

Note 1 - Description of the plan

The following description of the DIRECTV Puerto Rico Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all regular employees of DIRECTV de Puerto Rico (the Plan Sponsor), who have three months of service, as defined. There is no age requirement to be participant of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute an amount of their compensation, as defined in the Plan, not exceeding the maximum deferral specified by local law. The Plan Sponsor contributes dollar-for-dollar up to 3.5% of the base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Plan Sponsor such as the profit sharing contribution and/or a discretionary matching not to exceed 6% of compensation, as defined. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans, subject to the conditions and limitations set forth in the Plan agreement.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Plan Sponsor's contribution and, (b) Plan earnings. Allocation of Plan earnings is based on the participant's account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Plan Sponsor's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested upon attaining five years of credited service, 60% upon attaining four years, 40% upon attaining three years and 20% upon attaining two years. Notwithstanding the above, all participants are 100% vested upon attaining age 65.

Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or periodic installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

Upon participant's termination from employment or withdrawal from the Plan for any reason other than death, retirement or disability, the employer contributions on behalf of the participants not then vested are forfeited and used first to reduce future employer contributions and then to reduce the Plan's administrative expenses. Total forfeitures as of December 31, 2013 and 2012 amounted to \$4,987 and \$8,947, respectively.

Administrative expenses

Administrative expenses are paid by the Plan, as provided in the Plan document, unless paid by the Plan Sponsor.

Plan termination

Note 2 - Summary of significant accounting policies

Basis of Presentation

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis of Accounting

The financial statements are prepared under the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investments valuation and income recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risk and uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2 - Summary of significant accounting policies – (continued)

Payment of benefits

Benefits are recorded when paid.

Benefits payable

The Plan accounts for benefits payable in accordance with the guidance provided by the AICPA Audit and Accounting Guide, Audits of Employee Benefit Plans. This guidance requires that benefits payable to persons who have withdrawn from participation in a defined contribution plan be disclosed in the notes to the financial statements rather than recorded as a liability of the Plan. As of December 31, 2013, no benefits payable are owed to the participants. As of December 31, 2012, net assets available for benefits include benefits payable of \$18,733, due to participants who withdrew from or suspend their participation in the plan.

Subsequent events

The Plan has evaluated the impact of subsequent events through September 5, 2014, which is the date the financial statements were available to be issued. No events have occurred subsequent to the statement of asset available for benefit and to the date financial statements were available to be issued, that would require additional adjustment, to or disclosure in the financial statements.

Note 5 - Fair value measurements

FASB ASC 820-10-35 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active market that the plan has the ability to access. |
| Level 2 | <p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- | | |
|---------|---|
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |
|---------|---|

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

Notes receivable from participants are valued at amortized cost which approximates fair value.

Note 5 - Fair value measurements – (continued)

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013				
	Level 1	Level 2	Level 3	Total

Note 6 - Income taxes

The Plan constitutes a qualified plan, exempted from income tax under the provisions of Section 1081.01 of the Internal Revenue Code for a New Puerto Rico (the 2011 Code), as amended.

The Plan obtained a favorable determination letter on February 9, 2011, in which the Commonwealth of Puerto Rico tax authorities stated that the Plan, as then designed, was in compliance with the applicable requirements of Section 1081.01. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the 2011 Code. The Plan is currently requesting a new determination letter from the Puerto Rico Treasury Department for changes in the plan document that take effect in 2013.

Note 7 - Party-in-interest transactions

During the years ended December 31, 2013 and 2012, the Plan Sponsor remitted participant contributions aggregating to \$382,832 and \$420,085, respectively, to the Plan past their due dates.

The Plan did not comply with the discrimination test for the years ended December 31, 2013 and 2012. This test requires compliance with a determined percentage of contributions to the Plan as established in Section 1081.01. The Plan Sponsor had the following alternatives to correct this non-compliance: additional employer contributions to non-highly compensated participants; reimbursement to highly compensated participants to their excess contributions, which would result in reporting this reimbursement as taxable income for the year in which the noncompliance takes place; or reclassifying the excess contributions of high compensated participants as a post-tax contributions, which require reporting this excess amount as a taxable income for the year in which reclassification take place. The Plan Sponsor elected to make additional employer contributions to non-highly compensated participants amounting to \$2,372 and \$6,888 for 2013 and 2012, respectively. The additional contribution of 2013 and 2012 was transferred from the forfeiture account.
