1. DESCRIPTION OF PLAN:

The following description of the Paycor, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1994, covering eligible employees of Paycor, Inc. (the "Company"). To be eligible to participate in the Plan, an individual must be an employee of the Company who has completed at least three months of service and attained at least age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986, as amended (the "Code").

Contributions

Participants may elect to contribute to the Plan, on a pre-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code). The Plan also allows after tax contributions or Roth 401(k) contributions. The combined pretax and after tax contributions cannot exceed established IRS limits. The Plan allows for automatic enrollment of eligible employees at a 3% deferred rate. Employees may opt out of the automatic enrollment at any time. The Company may, in its discretion, match participants' 401(k) contributions, up to the limit determined by the Company. The Company contributes 50% of employee contributions up to 6% of their eligible salary. The Company may also, in its discretion, elect to make a profit sharing contribution. There was no profit sharing contribution for the year ended December 31, 2013.

Additionally, the Plan accepts direct rollovers from other plans and arrangements, and rollover contributions from participants. Contributions are subject to certain limitations.

Participant accounts

A participant's account is credited with the contributions made to the Plan on behalf of the participant and adjusted for earnings and losses thereon. The benefit to which a participant is entitled is the vested amount that is in such participant's account at any given time.

Vesting/forfeitures

Participants are immediately 100% vested in their 401(k) and 401(k) Roth contributions, catch-up contributions, rollover contributions, and qualified non-elective contributions made on their behalf, as adjusted for earnings and losses thereon. Participants vest in their matching contributions in accordance with terms of the Plan, and are fully vested after six years. Forfeited matching contributions are used to reduce future matching contributions, or to pay the Plan's administrative expenses. In 2013, the Company used \$40,000 toward the employer match and \$61,257 to pay Plan administrative expenses. Forfeited accounts totaled \$57,743 and \$47,368 at December 31, 2013 and 2012, respectively.

Benefits

Distributions may generally be made to a participant upon the participant's retirement (including early retirement), death, or termination of his employment with the Company. Additionally, prior to termination from employment, a participant may withdraw all or a portion of his vested account balance upon attaining age 65, or incurring a financial hardship (if certain requirements are satisfied). Benefits shall be paid to participants in the form of lump sum or installment payments upon termination of employment.

Death benefits

A participant's vested account balance remaining in the Plan will be paid to the participant's beneficiary.

Notes receivable from participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest rates that range from 3.25% to 5.25%, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest is paid ratably through bi-weekly payroll deductions.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon terms of the plan document.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through October 6, 2014, the date the financial statements were available to be issued. No events or transactions have occurred subsequent to year end that require further disclosure.

3. INVESTMENTS:

The Plan provides for participant directed investment programs for investments. Investments of employee contributions and related employer contributions can be made into various funds in accordance with each participant's election.

The following investments represent 5% or more of the Plan's net assets available for benefits as of December 31:

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$3,907,277 as follows:

Mutual funds	\$ 3,415,091
Common collective trust funds	<u>492,486</u>
	<u>\$ 3,907,277</u>

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy measurements are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money market and mutual funds: Valued at the daily closing price as reported by the fund. Money market and mutual funds held by the Plan are open-end funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Common collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined that the fund will sell the investment for an amount different than the reported NAV. Participant transactions may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's cash and investments at fair value as of December 31, 2013 and 2012:

5. INCOME TAX STATUS:

The prototype plan document provider for the Plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service (IRS) ruled that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with applicable requirements of the Code. Paycor, Inc. has elected not to apply for its own determination letter covering the Plan.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. If the Plan is terminated, participants will become 100% vested in their accounts, to the extent they are not already vested.

7. INFORMATION CERTIFIED BY THE PLAN'S ASSET CUSTODIAN:

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the asset custodian has certified to the completeness and accuracy of all investments as of December 31, 2013 and 2012, and the related investment activity for the year ended December 31, 2013.

8. RELATED PARTY TRANSACTIONS:

Certain Plan investments are common collective trust funds issued by Reliance Trust Company. Reliance Trust Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
