DAVID PEYSER SPORTSWEAR, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

1 - DESCRIPTION OF PLAN

The following description of the David Peyser Sportswear, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all nonunion full-time current and former employees of David Peyser Sportswear, Inc. (the "Company"), the plan sponsor and plan administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Prior to January 28, 2013, Reliance Trust Company ("Reliance") served as the trustee of the Plan and ING Institutional Plan Services, LLC ("ING") served as the Plan's custodian and recordkeeper on behalf of Reliance. Effective January 28, 2013, ING National Trust replaced Reliance as the Plan's Trustee. In December 2013, ING Life Insurance and Annuity Company ("ILIAC") replaced ING as the Plan's custodian and two individuals replaced ING National Trust as trustees.

Contributions

Each year, participants may contribute a portion of their pre-tax compensation, as defined in the Plan, subject to certain Internal Revenue Code ("Code") limitations. All eligible employees who have attained age 21 can make pre- and after-tax contributions. Participants who have attained age 21 must complete 1,000 hours of service and be employed on the last day of the plan year to meet the requirements for a discretionary matching contribution. The Company may make profit sharing and matching contributions at its discretion. The Company did not make any contributions during the year ended December 31, 2013. Contributions are subject to a ceiling defined by the Code.

The Plan also permits eligible employees who are age fifty or older by the end of the calendar year to make catch-up contributions. Matching contributions do not apply to catch-up contributions.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution, if applicable, and plan earnings. Each participant's account is charged with withdrawals and plan losses and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of contributions into various investment options offered by the Plan. In connection with the change to ILIAC, the Plan changed the investment options available to participants. The Plan currently offers the ING fixed account and various pooled separate accounts as investment options for participants.

1 - DESCRIPTION OF PLAN (Continued)

Investments (Continued)
The Pension Protection Act created the Qualified Default Investment Alternative ("QDIA"). The QDIA provides employers a safe harbor from fiduciary risk when selecting an investment for a participant or beneficiary who fails to elect his or her own investment. The Plan has selected the Vanguard Target Date Funds as the QDIA.

At December 31, 2012, the Plan held an interest in MCM Stable Asset Fund ("MCM") as an investment option available to participants. MCM is a common collective trust, reported as a fully benefit-responsive contract and managed by Union Bond & Trust Company ("UBT"). The principal value of MCM remains stable, as it has all or a portion of its assets invested in high quality money market instruments, investment companies and collective investment trusts. MCM is fully invested in the UBT Stable Value Fund ("Stable Value Fund"), another collective trust fund, which invests in conventional, synthetic and separate account investment contracts (collectively, "contracts") issued by life insurance companies, banks and other financial institutions. Characteristics of these contracts allow for their principal value to remain stable regardless of the volatility of the financial markets. For liquidity purposes, the Stable Value Fund may have all or a portion of its assets invested in high-quality money market instruments, investment companies and collective investment trusts. The Stable Value Fund also employs the services of sub-advisors to provide strategy-specific advice wherein the sub-advisor is compensated directly from the earnings of that strategy and not out of the trustee management fee. Morley Capital Management is the investment advisor for MCM. In connection with the change from ING to ILIAC, the Plan liquidated its investment with MCM during 2013.

Effective October 1, 2013, the Plan offered the ING Fixed Account as an investment option to its participants. The ING Fixed Account is a fixed income investment option which guarantees a minimum rate of interest which, once credited, becomes part of the principal and the investment grows through compound interest. The guarantee is based on the claims-paying ability of ILIAC. The ING Fixed Account declared an interest rate of 1.15% (no less than 1%) through December 31, 2013. This rate is subject to change at any time and includes the effect of any additional services and features selected by the plan sponsor. Surrender charges do not apply to the Plan.

Vesting
Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in Company contributions plus earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Participant Loans
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, subject to certain other restrictions. The loans are secured by the balance in the participant's account and bear interest at 5.25%, commensurate with local prevailing rates as determined by the plan administrator. Loan terms range from 1 to 10 years. Principal and interest are paid ratably through payroll deductions.

1 - DESCRIPTION OF PLAN (Continued)

Hardship Withdrawals
The Plan provides for hardship withdrawals, not to exceed an amount required to meet the immediate need created by the hardship, and then only to the extent such immediate need cannot be satisfied by other sources readily available to the participant. Permissible circumstances for hardship withdrawals include education expenses, costs directly related to the purchase of a principal residence, and costs necessary to prevent eviction from the participant's personal residence, and such other circumstances as the plan administrator may determine based on rules set forth in the Internal Revenue Service regulations. Salary deferral contributions are suspended for six months after withdrawal.

Forfeitures
Forfeitures of amounts not vested are used to reduce the Company's future contributions. There were no forfeitures during the year ended December 31, 2013.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The Company has adopted a policy of preparing its financial statements on the modified cash receipts and disbursements basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("GAAP"). The basis differs from GAAP in that dividend and interest income is recorded as earned, the purchase and sale of securities are recorded on a trade-date basis and dividends are recorded on the ex-dividend date.

Use of Estimates
Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and reported revenues and expenses. Actual results could differ from those estimates.

Notes Receivable from Participants
Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when earned. Related fees are recorded as administrative expenses and are expensed when incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a deemed distribution is recorded.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation

GAAP defines fair value, provides guidance for measuring fair value and requires certain disclosures. GAAP discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). GAAP provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect management's own assumptions.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Money Market Fund

Shares in the SSGA Money Market Fund were valued at amortized cost which approximates current market value and were considered to be valued using Level 2 inputs.

Mutual Funds

Shares of mutual funds were valued at quoted market prices, which represented the net asset value of shares held by the Plan at year-end. Investments in mutual funds were classified as Level 1 assets.

Common Collective Trust - MCM

Investments in the common collective trust consisted of investments in MCM. The fair value of these investments were determined by MCM's trustee based on the fair value of the underlying securities within MCM, which represented the net asset value of the shares held by the Plan at year-end. Investments in MCM were classified as Level 2 assets.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation (Continued)

Pooled Separate Accounts

Fair value of investments in pooled separate accounts has been estimated using the observable net asset value ("NAV") per share of the underlying investments. Contributions sent to ILIAC are used to purchase units in pooled separate accounts in which the primary underlying investment is the named mutual fund which is actively traded. As the pooled separate accounts receive money, contributions are sent to the mutual fund company in exchange for shares. In the daily valuation process, ILIAC use the observable NAV from the mutual fund companies to calculate the unit values for the pooled separate accounts. Investments in pooled separate accounts are classified as Level 2 investments.

ING Fixed Account

The ING Fixed Account is not publicly traded. Fair value of the ING Fixed Account is determined using observable credited interest rates. The credited rate is communicated to the plan and credited daily. Any market value adjustment or contract surrender charge would be based on formulas and schedules provided in the contract with ILIAC. The ING Fixed Account is classified as a Level 2 asset.

Fully Benefit-Responsive Investment Contracts

As described by GAAP, common collective trusts relating to fully benefit-responsive investment contracts held by a defined contribution plan are to be reported at fair value. However, contract value is the relevant measurement criteria for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Income Recognition

Net appreciation in the fair value of investments includes both realized and unrealized gains and losses, based on the value of assets at the beginning of the year or at the time of purchase during the year.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant is entitled to receive a lump-sum amount equal to the value of his or her vested account.

Valuation of accounts is made as of the last day of the month in which the participant's employment is terminated. Benefit claims are recorded as expenses when they have been approved for payment and paid by the Plan.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses, Management Fees and Operating Expenses
The Company is responsible for certain costs and expenses of administering the Plan such as trustee fees. Management fees and operating expenses charged to the Plan for investments in mutual funds and pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected in net appreciation in fair value of such investments.

Subsequent Events
These financial statements were approved by management and available for issuance on October 7, 2014. Management has evaluated subsequent events through this date.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $544,139 during the year ended December 31, 2013, as follows:

MCM	$ 13,211
Mutual funds	427,212

6 - RELATED PARTY TRANSACTIONS

Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation, recordkeeping and financial reporting of the Plan. The Company pays these individuals' salaries and also pays other administrative expenses on behalf of the Plan. Certain fees, to the extent not paid by the Company, are paid by the Plan.

7 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Participants may invest in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

8 - INCOME TAX STATUS

The Company adopted a pre-approved prototype plan offered by ILIAC. The Internal Revenue Service has determined that the prototype plan, by letter dated March 31, 2008, is designed in accordance with applicable sections of the Code. Although the plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the Code.

Federal, state and local income tax returns are subject to examination by tax authorities for three years from the date of filing.

9 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in employer contributions.

10 - CORRECTIVE DISTRIBUTIONS

During the year ended December 31, 2013, corrective distributions of $826 were made to certain active participants to refund excess contributions required to satisfy the relevant nondiscrimination provisions of the Plan.
