Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

The Administrative Committee
AXIA Incorporated Salaried Employees' Retirement Plan
Fairburn, Georgia

We were engaged to audit the accompanying financial statements of AXIA Incorporated Salaried Employees' Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Retirement Insurance and Annuity Company, U.S. Bank, N.A., and Metropolitan Life Insurance Company "MetLife", the certifying entities of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the certifying entities hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from each certifying entity as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan administrator by them is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedule H, Line 4i - Schedule of Assets (Held at Year-End) and Supplemental Schedule H, Line 4j - Schedule of Reportable Transactions, which are the responsibility of Plan management, are presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the certifying entities, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Respectfully submitted,

Hancock As Kew & Co., LLP

Actuarial Cost Method

I. ACTUARIAL COST METHOD

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described in "Plan Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year for all Participants plus an estimate of the expenses to be paid from the plan assets during the plan year.

Target Liability and Funding Shortfall

As of January 1, 2008, a Target Liability is established which represents the present value of accrued benefits. This Target Liability is offset by adjusted assets, and the remainder (i.e. Funding Shortfall), if any, is amortized over seven years.

Subsequent changes in the Funding Shortfall due to asset experience, liability experience, plan amendments, and/or actuarial assumption changes will be amortized over a seven year period from their valuation dates.

Discount Rate

The plan sponsor has elected to use the Segment Rate approach for discount rate purposes, with an applicable month that is 4 months prior to the valuation date. In addition, beginning with the 2012 plan year, solely for purposes of determining the minimum required contribution level, applicability of benefit restrictions, and for the at-risk determination, the adjusted 24-month average segment rates established by the Moving Ahead for Progress in the 21st Century Act (MAP-21) have been incorporated.

The adjusted 24-month average segment rates are generated by taking the unadjusted 24-month average segment rates for the sponsor-chosen lookback month and adjusting them so that each individual segment rate is not outside of the stipulated corridor around the corresponding 25-year average segment rate for the given plan year. For the 2013 plan year, the stipulated corridor is 85% - 105% of these 25-year average segment rates.

II. ASSET VALUATION METHOD

Assets have been valued in accordance with generally accepted procedures as described below.

All funds invested are valued in the following manner:

Definitions

i(t)	assumed growth rate, set equal to the lesser of the expected return on assets or the applicable 3 rd segment rate for Plan Year t.
C(t)	sum of contributions and other additions to the fund from all sources other than investment transactions in Plan Year t
W(t)	sum of all withdrawals and other decreases to the fund from all sources other than investment transactions in Plan Year t
AV(t)	Actuarial Value of Assets as of Plan Year t
MV(t)	Market Value of Assets as of Plan Year t
EV(t)	Expected Value of Assets as of Plan Year t
G/L(t)	Gain or Loss for Plan Year t

Actuarial Cost Method

Method

A description of the method used to determine the current year's Actuarial Value of Assets {AV(t)} is below.

For the preceding 2 years, G/L(t) is determined as follows:

$$EV(t) = MV(t-1) * (1 + i(t-1)) + [C(t-1) - W(t-1)] * (1 + i(t-1) * m)$$

Where m represents a proportionate yield consistent with the portion of the year for which C and W are invested

$$G/L(t-1) = EV(t) - MV(t)$$

For the current year, AV(t) is determined as follows:

$$AV(t) = MV(t) + 2/3 * G/L(t-1) + 1/3 * G/L(t-2)$$

Corridor Limits

The Actuarial Value of Assets may not be less than 90% or more than 110% of the current market value of plan assets as of the applicable valuation date [as required by IRC Section 430(g)(3)(B)(iii)].

Please note, as highlighted above, the assumed asset growth rate for each year is limited to the applicable 3rd segment rate by law. As a result, if the plan's expected rate of return is greater than this applicable rate, this method is expected to produce an actuarial value of assets that can be expected to be slightly less than the market value of assets, on average.

The market value of the Guaranteed Deposit Account is an estimate only and not the result of the precise calculation which would be done at contract discontinuance or to measure the impact of excess withdrawals in any calendar year. It does not constitute an offer by Prudential or a final experience adjustment. Please be sure that anyone to whom you quote this value receives this explanation.

Actuarial Assumptions

Assumptions have been chosen to anticipate the long range experience of the Plan. Consistency among assumptions is important as each interacts with the others; equally important is the recognition of inflationary trends in the economy.

As the Enrolled Actuary for the Plan, I certify to the reasonableness of these assumptions, in aggregate, as required by ERISA.

The actuarial assumptions used to compute Plan costs are:

Investment Return:

For ASC 960 purposes:

7.00% per annum, compounded annually, net of investment and contract fees.

For minimum required contribution level, applicability of benefit restrictions, and at risk determination only:

Segment Rates with a 4 month lookback, as adjusted by the 85%-105% corridor around the 25-year average segment rates (4.94%, 6.15%, and 6.76% for the 2013 plan year)

For all other purposes:

Segment Rates with a 4 month lookback, unadjusted (1.75%, 4.62%, and 5.72% for the 2013 plan year)

Estimated Expenses:

An estimate of the administrative expenses expected to be paid from plan assets. For 2013 this amount is \$130,000.

Mortality

Funding:

The IRS 2013 Static Mortality Table.

ASC 960:

56-57	3%
58-60	5%
61	10%
62-64	20%
65	100%

Salary Scale:

Salaries are assumed to increase at an annual rate of 4.50%.

Survivor's Benefit:

It is assumed that husbands are 5 years older than wives and that 80% of the Participants who are or will become eligible for coverage under the Survivor's Benefit will be survived by an eligible survivor.

Plan Provisions

Earnings

Earnings mean Total Compensation received from the Employer including severance pay, value of stock options, stock appreciation rights, insurance benefits, reimbursed moving expenses and other similar benefits. In any year in which a full time employee does not work the number of hours that constitute a normal full-time work schedule, earnings is annualized.

Final Average Earnings

Average Monthly Earnings is 1/12 of the Average Earnings for the five highest consecutive years within the past fifteen years.

Final Average Earnings 1/12 of the Average Earnings for the three consecutive years, ending with the plan year of terminations. Earnings are limited to the Social Security taxable Wage base.

As of March 31, 2003, the plan was amended to freeze salary increases; however, any participant who is active as of December 31, 2003, and who is age 60, or age 50 with 5 years of service as of that date will receive credit for future salary increases.

Service

Last period of employment starting with (a) initial employment after January 1, 1976, (b) date as specified in prior plan if hired before January 1, 1976, (c) re-employment after termination prior to January 1, 1976, (d) reemployment after break in service after January 1, 1976, whichever is later, and ending upon the break in service date.

For employees hired after January 1, 1986

1. Service, which is used for benefit eligibility purposes, does not include any plan year in which an employee works less than 1000 hours. Years of service prior to the plan year in which an employee attains age 18 on or after January 1, 1985 or the employee attained age 22 before January 1, 1985 are excluded.
2. Credited Service which is used for benefit computation purposes, does not include years of service before participation and is adjusted for years on which the employee works less than the full-time work schedule. Credited service for an employee of Fischboin Company Division will not begin prior to July 1, 1979. Credited service for an employee of the Marco Paper Products Company includes service after August 20, 1971. Credited service for an employee of Nostaway Division of the Beaver Dam, Kentucky location includes service after July 31, 1988. Credited service for an employee of Jensen Tools, Inc. includes services after January 2, 1974.
3. Credited Service for Benefit computation was frozen as of March 31, 2003.

Maximum credited service is 30

Plan Provisions

Early Retirement Benefit (Cont')

Social Security Supplement – an employee with credited service prior to January 1, 1994, retiring under the early retirement provisions, is eligible for a temporary supplemental benefit payable until age 65 equal to the amount determined in (b.) 'Under the Accrued Benefit Formula', with average monthly salary, Final Average Earnings, Covered Compensation, Social Security and Credited Service all determined as of December 31, 1993. If the participant was a super highly compensated employee as of December 31, 1988, the amount determined in (b.) is calculated as of December 31, 1988.

Deferred Vested Benefit

Eligible after 5 years of Service

Accrued Monthly Benefit payable at age 65. If a participant eligible for early retirement decides to commence early, the early retirement benefit will be equal to the accrued benefit multiplied by the early retirement factor below based on age.

Disability Retirement Benefit

Eligible after 10 years of Service

Accrued Monthly Benefit determined as with the normal retirement benefit but using credited service which includes period during which the participant is disabled.

Vesting Schedule

100% vested after 5 years

Preretirement Spouse Benefit

If a participant who has completed five years of service dies prior to his/her benefit commencement date, such participant, if he/she was married to his spouse for the entire year prior to his/her death, is eligible for a surviving spouse pension equal to the amount to which the surviving spouse would have been entitled if the participant's commencement date had been the day before his death, or age 55 if later, and his pension had been determined as described above, and had been payable in the form of a 50% Joint and Survivor Annuity.

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Actuarial Cost Method

I. ACTUARIAL COST METHOD

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described in "Plan Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year for all Participants plus an estimate of the expenses to be paid from the plan assets during the plan year.

Target Liability and Funding Shortfall

As of January 1, 2008, a Target Liability is established which represents the present value of accrued benefits. This Target Liability is offset by adjusted assets, and the remainder (i.e. Funding Shortfall), if any, is amortized over seven years.

Subsequent changes in the Funding Shortfall due to asset experience, liability experience, plan amendments, and/or actuarial assumption changes will be amortized over a seven year period from their valuation dates.

Discount Rate

The plan sponsor has elected to use the Segment Rate approach for discount rate purposes, with an applicable month that is 4 months prior to the valuation date. In addition, beginning with the 2012 plan year, solely for purposes of determining the minimum required contribution level, applicability of benefit restrictions, and for the at-risk determination, the adjusted 24-month average segment rates established by the Moving Ahead for Progress in the 21st Century Act (MAP-21) have been incorporated.

The adjusted 24-month average segment rates are generated by taking the unadjusted 24-month average segment rates for the sponsor-chosen lookback month and adjusting them so that each individual segment rate is not outside of the stipulated corridor around the corresponding 25-year average segment rate for the given plan year. For the 2013 plan year, the stipulated corridor is 85% - 105% of these 25-year average segment rates.

II. ASSET VALUATION METHOD

Assets have been valued in accordance with generally accepted procedures as described below.

All funds invested are valued in the following manner:

Definitions

i(t)	assumed growth rate, set equal to the lesser of the expected return on assets or the applicable 3 rd segment rate for Plan Year t.
C(t)	sum of contributions and other additions to the fund from all sources other than investment transactions in Plan Year t
W(t)	sum of all withdrawals and other decreases to the fund from all sources other than investment transactions in Plan Year t
AV(t)	Actuarial Value of Assets as of Plan Year t
MV(t)	Market Value of Assets as of Plan Year t
EV(t)	Expected Value of Assets as of Plan Year t
G/L(t)	Gain or Loss for Plan Year t

Actuarial Cost Method

Method

A description of the method used to determine the current year's Actuarial Value of Assets {AV(t)} is below.

For the preceding 2 years, G/L(t) is determined as follows:

$$EV(t) = MV(t-1) * (1 + i(t-1)) + [C(t-1) - W(t-1)] * (1 + i(t-1) * m)$$

Where m represents a proportionate yield consistent with the portion of the year for which C and W are invested

$$G/L(t-1) = EV(t) - MV(t)$$

For the current year, AV(t) is determined as follows:

$$AV(t) = MV(t) + 2/3 * G/L(t-1) + 1/3 * G/L(t-2)$$

Corridor Limits

The Actuarial Value of Assets may not be less than 90% or more than 110% of the current market value of plan assets as of the applicable valuation date [as required by IRC Section 430(g)(3)(B)(iii)].

Please note, as highlighted above, the assumed asset growth rate for each year is limited to the applicable 3rd segment rate by law. As a result, if the plan's expected rate of return is greater than this applicable rate, this method is expected to produce an actuarial value of assets that can be expected to be slightly less than the market value of assets, on average.

The market value of the Guaranteed Deposit Account is an estimate only and not the result of the precise calculation which would be done at contract discontinuance or to measure the impact of excess withdrawals in any calendar year. It does not constitute an offer by Prudential or a final experience adjustment. Please be sure that anyone to whom you quote this value receives this explanation.

Actuarial Assumptions

Assumptions have been chosen to anticipate the long range experience of the Plan. Consistency among assumptions is important as each interacts with the others; equally important is the recognition of inflationary trends in the economy.

As the Enrolled Actuary for the Plan, I certify to the reasonableness of these assumptions, in aggregate, as required by ERISA.

The actuarial assumptions used to compute Plan costs are:

Investment Return:

For ASC 960 purposes:

7.00% per annum, compounded annually, net of investment and contract fees.

For minimum required contribution level, applicability of benefit restrictions, and at risk determination only:

Segment Rates with a 4 month lookback, as adjusted by the 85%-105% corridor around the 25-year average segment rates (4.94%, 6.15%, and 6.76% for the 2013 plan year)

For all other purposes:

Segment Rates with a 4 month lookback, unadjusted (1.75%, 4.62%, and 5.72% for the 2013 plan year)

Estimated Expenses:

An estimate of the administrative expenses expected to be paid from plan assets. For 2013 this amount is \$130,000.

Mortality

Funding:

65	100%

Salary Scale:

Salaries are assumed to increase at an annual rate of 4.50%.

Survivor's Benefit:

It is assumed that husbands are 5 years older than wives and that 80% of the Participants who are or will become eligible for coverage under the Survivor's Benefit will be survived by an eligible survivor.

Plan Provisions

Earnings

Earnings mean Total Compensation received from the Employer including severance pay, value of stock options, stock appreciation rights, insurance benefits, reimbursed moving expenses and other similar benefits. In any year in which a full time employee does not work the number of hours that constitute a normal full-time work schedule, earnings is annualized.

Final Average Earnings

Average Monthly Earnings is 1/12 of the Average Earnings for the five highest consecutive years within the past fifteen years.

Final Average Earnings 1/12 of the Average Earnings for the three consecutive years, ending with the plan year of terminations. Earnings are limited to the Social Security taxable Wage base.

As of March 31, 2003, the plan was amended to freeze salary increases; however, any participant who is active as of December 31, 2003, and who is age 60, or age 50 with 5 years of service as of that date will receive credit for future salary increases.

Service

Last period of employment starting with (a) initial employment after January 1, 1976, (b) date as specified in prior plan if hired before January 1, 1976, (c) re-employment after termination prior to January 1, 1976, (d) reemployment after break in service after January 1, 1976, whichever is later, and ending upon the break in service date.

For employees hired after January 1, 1986

1. Service, which is used for benefit eligibility purposes, does not include any plan year in which an employee works less than 1000 hours. Years of service prior to the plan year in which an employee attains age 18 on or after January 1, 1985 or the employee attained age 22 before January 1, 1985 are excluded.
2. Credited Service which is used for benefit computation purposes, does not include years of service before participation and is adjusted for years on which the employee works less than the full-time work schedule. Credited service for an employee of Fischboin Company Division will not begin prior to July 1, 1979. Credited service for an employee of the Marco Paper Products Company includes service after August 20, 1971. Credited service for an employee of Nostaway Division of the Beaver Dam, Kentucky location includes service after July 31, 1988. Credited service for an employee of Jensen Tools, Inc. includes services after January 2, 1974.
3. Credited Service for Benefit computation was frozen as of March 31, 2003.

Maximum credited service is 30

Plan Provisions

Early Retirement Benefit (Cont')

Social Security Supplement – an employee with credited service prior to January 1, 1994, retiring under the early retirement provisions, is eligible for a temporary supplemental benefit payable until age 65 equal to the amount determined in (b.) 'Under the Accrued Benefit Formula', with average monthly salary, Final Average Earnings, Covered Compensation, Social Security and Credited Service all determined as of December 31, 1993. If the participant was a super highly compensated employee as of December 31, 1988, the amount determined in (b.) is calculated as of December 31, 1988.

Deferred Vested Benefit

Eligible after 5 years of Service

Accrued Monthly Benefit payable at age 65. If a participant eligible for early retirement decides to commence early, the early retirement benefit will be equal to the accrued benefit multiplied by the early retirement factor below based on age.

Independent Auditor's Report

The Administrative Committee
AXIA Incorporated Salaried Employees' Retirement Plan
Fairburn, Georgia

We were engaged to audit the accompanying financial statements of AXIA Incorporated Salaried Employees' Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Prudential Retirement Insurance and Annuity Company, U.S. Bank, N.A., and Metropolitan Life Insurance Company "MetLife", the certifying entities of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the certifying entities hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained a certification from each certifying entity as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan administrator by them is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedule H, Line 4i - Schedule of Assets (Held at Year-End) and Supplemental Schedule H, Line 4j - Schedule of Reportable Transactions, which are the responsibility of Plan management, are presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the certifying entities, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Respectfully submitted,

Hancock Askew & Co., LLP

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the AXIA Incorporated Salaried Employees' Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

On December 12, 2009, the Plan's assets and liabilities, along with the assumption of the Plan's sponsorship and fiduciary responsibilities of the Plan Administrator, were transferred from AXIA Incorporated (AXIA) to Porex Holding Corporation (the Company). Porex is the Plan Sponsor and Plan Administrator.

The Plan is a defined benefit pension plan and trust that is designed to provide retirement income to all noncollective bargaining unit employees of AXIA. Other employers included in the Plan are Ames Taping Tool Systems, Co., Ames Taping Tool Systems, Inc., TapeTech Tool Company, Inc., Nestaway (spun-off August 31, 2005), Fischbein Company (spun-off August 31, 2005), Mid America Machine, Corp. (spun-off August 31, 2005), Nestaway Division, Clinton, North Carolina (spun-off August 31, 2005), Nestaway Division, McKenzie, Tennessee (spun-off August 31, 2005), and Flexible Materials Handling (spun-off August 31, 2005).

The Administrative Committee, along with the Trustees, control and manage the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Participation in the Plan was automatic for eligible employees who had attained the age of 21 and completed 1 year of service as of March 31, 2003, when the Plan was closed to new entrants.

Pension Benefits

The amount of retirement benefits to be received depends upon the participant's years of credited service and date of termination. Credited service did not include any Plan year in which the participant worked less than 1,000 hours. Credited service also did not include years of service before participation in the Plan. Credited service which is limited to 30 years and salary increases were frozen as of March 31, 2003.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

1. Description of the Plan (cont.)

Pension Benefits (cont.)

The amount of the benefit payment may be actuarially adjusted, depending upon the annuity payment method chosen by the participant from the options available under the Plan. Normal retirement benefits start at age 65. The Plan contains provisions for early retirement benefits, total and permanent disability benefits, death benefits, surviving spouse benefits, refund benefits, and deferred vested benefits, all of which may affect the calculation of the amount of the participant's benefit payments.

Plan participants became 100% vested in the Plan after 5 years of service. If the total actuarial value of a participant's retirement or deferred vested benefit is \$5,000 or less, the Pension Committee may direct the benefit payment to be paid in a lump-sum amount. All Plan participants are 100% vested at December 31, 2013.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in accordance with the funding requirements established by ERISA and at a rate deemed necessary to maintain the Plan on an actuarially sound basis. The amounts of the contributions are based upon the computations of the Plan's independent actuary (see Note 3), and have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. All funding requirements of ERISA have been met for the years ended December 31, 2013 and 2012.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance companies. See Note 5 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gain and losses on investments bought and sold as well as held during the year.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (cont.)

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through the date of this report, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the years of service that participants have rendered. The actuarial present value of accumulated Plan benefits has been determined by an independent actuary, and is that amount which results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the benefit information date and the expected payment dates. The effect of Plan amendments on accumulated Plan benefits is recognized during the year in which such amendments become effective.

3.	Actuarial Present Value of Accumulated Plan Benefits (cont.)	The changes in the actuarial present value of accumulated Plan benefits are as follows:			
			2013		2012
		Actuarial present value of accumulated Plan benefits, January 1	\$ 20,620,545	\$	18,877,481
		Increase (decrease) during the year attributable to

		Net (decrease)/increase	(611,652)		1,743,064
		Actuarial present value of accumulated Plan benefits, January 1 of following year	\$ 20,008,893	\$	20,620,545

4. Plan Termination

The Plan has been established in confidence that it will continue in effect indefinitely. However, the Company reserves the right to amend or terminate the Plan at any time. If the Plan were terminated, the Company would make no further contributions to the trust, pension accruals would cease and all active Plan participants would become 100% vested in their accrued pension to the extent funded.

The apportionment of Plan assets upon termination of the Plan is first used to defray cost of liquidation and distribution of the trust fund. The order of allocation would then be first to retired employees and certain participants eligible to receive pension benefits; second, to the benefits guaranteed under Title IV of ERISA; third, to nonforfeitable benefits under the Plan; and, then to all other benefits.

Benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC). Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of a participant's monthly benefit that the PBGC guarantees.

5. Investments

At December 31, 2013 and 2012, all investments of the Plan were nonparticipant directed.

The fair value of individual investments that represent 5% or more of the Plan's net assets are as follows:

	2013	2012
NFJ Small-Cap Value A Fund	\$ 1,206,962	\$ 913,130
American Mutual Fund	\$ 1,605,810	\$ 1,245,807
Global Real Estate	\$ 2,106,550	\$ 2,018,728
Total Return Fund	\$ 3,494,241	\$ 3,539,182
International Bond	\$ 1,312,102	\$ 1,354,006
Growth Index Fund	\$ 4,865,708	\$ 3,664,950
Wasatch-Holsington U.S. Treasury Fund	\$ 1,310,294	\$ 1,563,049
Emerging Markets Stock Index	\$ *	\$ 933,431
Small-Cap Growth Fund	\$ 1,298,729	\$ 1,076,503

* Investment balance is less than 5%.

The Plan's investments (including investments purchased, sold as well as held during the year) appreciated in fair value as follows:

	2013	2012
Fair value determined by quoted market price, certified by the Trustees		
Mutual funds	\$ 1,630,899	\$ 1,586,269
Pooled separate accounts	22	93
	\$ 1,630,921	\$ 1,586,362

6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to the unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

6. Fair Value Measurements (cont.)

Level 2	Inputs to the valuation methodology are quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Money Market Fund: Investments in the money market fund are stated at fair value based upon quoted market prices of the net asset value of shares held by the Plan at year-end.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered by the Securities and Exchange Commission. The funds are required to publish their daily Net Asset Value (NAV) and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Account: Fair value for pooled separate accounts is determined by prices published daily by the account manager, which is the Net Asset Value of the account.

Guaranteed Interest Contract: Valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Notes to Financial Statements

6. Fair Value Measurements (cont.)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2013.

Level 3 Assets – Guaranteed Interest Contract

<i>Year ended December 31,</i>	<i>2013</i>
Balance, beginning of year	\$ 233,221
Interest income	48,979
Withdrawals and transfers	(70,327)
Balance, end of year	\$ 211,873

7. Guaranteed Interest Contract

The Guaranteed Interest Contract represents an unallocated group annuity contract with an insurance company to provide a fixed rate of return. This investment is reflected at contract value, which approximates fair value, in both the financial statements and the supplemental schedule, as the contract is fully benefit-responsive. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was 13.82% for the years ended December 31, 2013 and 2012, respectively. This rate is established at the beginning of each Plan year for contributions received during that year.

8. Risks and Uncertainties

The Plan invests in various investment securities. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and Supplemental Schedules.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. Tax Status

The Plan obtained its latest determination letter, dated August 27, 2008, in which the Internal Revenue Service (IRS) stated the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC; and therefore believes that the Plan, as amended, is qualified and the related trust is tax exempt.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

9. Tax Status (cont.) Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

10. Related Party Transactions Certain Plan investments are managed by the Trustees and, therefore, these transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expense related to plan operations and investment activity to various service providers. These transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

13. Reconciliation of Financial Statements to Form 5500 The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

<i>December 31,</i>	2013	2012
Net assets available for benefits per the financial statements	\$ 19,796,296	\$ 18,081,199
Employer contributions receivable	(425,413)	(167,060)

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements for the year ended December 31, 2013 to Schedule H of Form 5500:

Net increase per the financial statements	\$ 1,715,097
