Banner Pharmacaps Inc.
401(k) Plan

Notes to Financial Statements

1. Description of Plan

The following is a brief description of the Banner Pharmacaps Inc. 401(k) Plan (the "Plan"). Participants should refer to the plan document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all eligible employees of Banner Pharmacaps Inc. (the "Company"). An employee is eligible to become a participant of the Plan on the first day of the month after the completion of three months of service and attainment of age 18 years or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective December 14, 2012, all of the outstanding shares of the Company were acquired by Patheon, Inc. This transaction had no impact on the Plan for 2012 or 2013. During 2014, the assets of the Plan were transferred to the Patheon US Retirement Savings Plan and the Plan was terminated effective January 3, 2014.

Contributions – Eligible employees are automatically enrolled at a 3% deferral percentage which will increase by increments of 1% each January 1 up to a maximum of 6% unless they elect an alternative percentage or decline participation. Participants may otherwise contribute up to 100 percent of their annual compensation to the Plan on both a pre-tax and after-tax ("Roth") basis. Participants may also contribute up to 100% of bonuses. However, contributions cannot exceed the limitations imposed by the Internal Revenue Code ("IRC"). Participants who have attained age 50 are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Company matching contributions for 2013 and 2012 were made under the Safe Harbor provision, which provides for matching contributions to the account of each eligible participant in an amount equal to the sum of 100% of the amount of the participant's elective deferrals that do not exceed 3% of the participant's compensation plus 50% of the amount of the participant's deferrals between 3% and 5% compensation. The Company may also make discretionary profit sharing contributions to the Plan as determined by its Board of Directors. No discretionary profit sharing contributions were made in 2013 and 2012.

See accompanying independent auditor's report.

1. Description of Plan (Concluded)

Participant Accounts – Each participant account is credited with the participant's contribution, employer matching contributions, the Company's discretionary contributions, if any, plan earnings, and charged with an allocation of administrative expenses.

Vesting – Plan participants are 100 percent vested in all salary deferrals and the Company Safe Harbor matching contributions. Participants vest in Company profit sharing contributions according to the following schedule:

Completed Years of Service	Vested Percentage
Less than 1 year	50%
After 1 year	100%

Payment of Benefits – Upon termination of service due to death, disability, retirement or separation, a participant may elect to receive either a partial or lump-sum distribution or installment payments under various options. In-service distributions may be made to participants who have reached age 59½. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan.

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The notes are secured by the balance in the participant's account. Participants may only have one outstanding loan at any time. Notes are repaid ratably through payroll deductions.

Administrative Expenses – The Company absorbs substantially all expenses incidental to the administration of the Plan. Distribution and loan fees are paid from participant accounts.

Forfeitures – Forfeitures of terminated participants' non-vested amounts are used to offset Company Safe Harbor matching contributions. Forfeitures of $0 were used to offset the Company's Safe Harbor matching contributions in 2013 and 2012.

See accompanying independent auditor's report.

2. Summary of Significant Accounting Policies

Basis of Accounting – The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments are primarily stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Certain investment contracts with ING National Trust ("ING") are included in the financial statements at contract value. Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through ING. The statements of net assets available for benefits present the fair value of the investment in these contracts, as well as the adjustment of the investment from fair value to contract value for these investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan document.

See accompanying independent auditor's report.

2. Summary of Significant Accounting Policies (Concluded)

Payment of Benefits – Benefits are recorded when paid.

Subsequent Events – Management has evaluated events occurring subsequent to the balance sheet date through October 6, 2014, the date that the financial statements were available to be issued determining no additional events require adjustment to or disclosure in the financial statements.

3. Investments

The values of investments that represent 5 percent or more of the Plan's net assets are as follows:

	January 3, 2014	December 31, 2013	December 31, 2012
At contract value:			
ING Fixed Account	**$ ***	$ 7,685,656	$ 8,181,689
At fair value:			
The Growth Fund of America	*****	2,298,347	2,044,897
U.S. Stock Index Portfolio	*****	2,274,519	2,112,770
T. Rowe Price Capital Appreciation Portfolio	*****	1,891,948	1,599,321
Washington Mutual Investors Fund	*****	1,877,701	1,702,517

SmartRetirement 2035 Fund	*****	1,759,181	1,657,890
FMR Diversified Mid-Cap Portfolio	*****	1,722,268	*

* Less than 5%

During 2014, 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	Period ended January 3, 2014	Year ended December 31, 2013	Year ended December 31, 2012
Mutual funds	**$ (201,299)**	$ 4,271,587	$ 2,480,503

See accompanying independent auditor's report.

4. Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

	January 3, 2014	December 31, 2013	December 31, 2012
Investments	**$ -**	$ 32,446,050	$ 31,003,445
Notes receivable from participants	**-**	749,514	636,504

	Period ended January 3, 2014	Year ended December 31, 2013	Year ended December 31, 2012
Interest and dividends	**$ 3,383**	$ 1,258,884	$ 709,798
Net appreciation (depreciation) in value of investments	**(201,299)**	4,271,587	2,480,503
Interest income on notes receivable from participants	**11**	25,658	24,763

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

See accompanying independent auditor's report.

6. Income Tax Status

The Plan has adopted a non-standardized plan document sponsored by ING. The Internal Revenue Service ("IRS") has determined and informed ING by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits relative to the Plan for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. Plan Termination

Effective January 3, 2014, the Company terminated the Plan. In accordance with plan provisions, all participants became 100% vested in their account balances which were transferred into the Patheon US Retirement Savings Plan.

8. Transactions with Parties-In-Interest

Fees paid by the Plan to ING were $25, $8,250 and $6,275 for 2014, 2013 and 2012. Plan investments include mutual funds and a group annuity contract managed by ING, which is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest.

See accompanying independent auditor's report.

9. Investment Contracts

The Plan holds certain benefit-responsive investment contracts with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. ING is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

The crediting rates and average yields were as follows:

	2014	2013	2012
Crediting rates	**3.0%**	3.0%	3.0%
Average yield	**3.0%**	3.0%	3.0%

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with the participants, is probable.

10. Fair Value Measurements

The Plan has adopted ASC 820, "Fair Value Measurements and Disclosures" ("ASC 820") which establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under ASC 820 are as follows:

Basis of Fair Value Measurements

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

See accompanying independent auditor's report.

10. Fair Value Measurements (Continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2013 and 2012.

Mutual funds and money market funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end. The NAV for these investments is a quoted price in an active market and is classified within Level 1 of the valuation hierarchy.

Common collective trust funds: The ING Fixed Account is available through an annuity contract with ING and is an obligation of ING's general account. The primary objective is stability of principal. The ING Fixed Account guarantees minimum rates of interest. The current rate is subject to change at any time, but will never fall below the guaranteed minimum. It is valued as determined by the issuer and is classified within Level 2 of the valuation hierarchy. There are no reserves for credit risk of the issuer or otherwise.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

See accompanying independent auditor's report.

10. Fair Value Measurements (Continued)

The following table summarizes the investments by level as defined within the fair value hierarchy as of December 31, 2013.
