VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the VML, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General - The Plan is a defined contribution plan sponsored by VML, Inc. (the "Company") for the benefit of its full-time employees who have three months of service and are age twenty-one or older. The Plan excludes employees covered by a collective bargaining agreement, non-resident aliens and leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Company's 401(k) Advisory Committee (the "Committee"), which is a committee of the board of directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company.

Contributions - Participants may contribute up to 100% of annual pretax and after-tax compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. The Plan allows for automatic enrollment of eligible employees at 3% of eligible compensation, as defined by the Plan, unless specified otherwise. The Company's matching contribution is discretionary as determined annually by the Executive Committee. For the years ended December 31, 2013 and 2012, the Executive Committee elected to match 75% of the first 6% of participants' contributions. Additional amounts may be contributed at the option of the Company. No such additional discretionary contributions were made for the years ended December 31, 2013 and 2012. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers 27 mutual funds and a common collective trust as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Vesting - Participants' contributions plus actual earnings are 100% vested immediately. Employer contributions are subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
1	0%
2	20%
3	50%
4	75%
5	100%

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to termination, retirement, or permanent disability, participants may receive the vested interest in their account in one lump sum payment or in a series of monthly, quarterly, or annual installments over a period not to exceed the life expectancy or the joint life expectancy of the participant and designated beneficiary. Participants may also roll over their account to an Individual Retirement Account or another qualified employer plan or elect to defer distribution until age 65. If the vested interest in their account is less than \$1,000, participants will automatically receive a lump sum distribution. Upon death, distributions may be made to beneficiaries in installments or as a single lump sum.

Forfeited accounts - At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$52,628 and \$91,853, respectively. These accounts will be used to reduce employer contributions and to pay administrative expenses. For the years ended December 31, 2013 and 2012, employer contributions were reduced by \$271,188 and \$44,642, respectively, from forfeited nonvested accounts. Also, for the years ended December 31, 2013 and 2012, administrative expenses were reduced by \$50,278 and \$42,768, respectively, from forfeited nonvested accounts.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Unit values - Individual participant accounts for the common collective trust fund are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the fund, but do have an interest therein represented by units valued daily. The fund earns dividends and interest, which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Transfer out - During the year ended December 31, 2013, \$1,304,193 was transferred out of the Plan to the Young & Rubicam 401k/Savings Plan, a plan sponsored by Young & Rubicam Inc., as a result of the Company's spin-off of employees transferred to Seattle Wunderman Network, LLC effective July 1, 2013.

Reclassification - Certain items from the 2012 financial statements have been reclassified to conform with the 2013 presentation.

NOTES TO FINANCIAL STATEMENTS

(4) **Information prepared and certified by the trustee**

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company ("State Street"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest
- Dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) **Fair value measurements**

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(5) Fair value measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust: Valued at the NAV of units of a bank collective trust or its equivalent. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the respective trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor generally reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(6) **Common collective trust with Diversified Investment Advisors**

The Diversified Investment Advisors Stable Pooled Fund ("Stable Pooled Fund") is solely invested in the Wells Fargo Stable Return Fund G. This fund is a stable value fund, sponsored by the Wells Fargo Bank, N.A., which invests in stable value investment vehicles such as guaranteed investment contracts, bank investment contracts and synthetic guaranteed investment contracts issued by highly rated financial institutions and corporations as well as obligations of the U.S. Government or its agencies. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The Stable Pooled Fund imposes certain restrictions on the Plan, and the Stable Pooled Fund itself may be subject to circumstances that impact its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the Stable Pooled Fund to transact at less than contract value is not probable.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(6) **Common collective trust with Diversified Investment Advisors (continued)**

Certain events limit the ability of the Plan to transact at contract value with the financial institution issuer. Such events include the following: (i) material amendments to the Plan's structure or administration; (ii) changes to the Plan's competing investment options including the elimination of equity wash provisions; (iii) complete or partial termination of the Plan, including a merger with another plan; (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; (v) bankruptcy of the plan sponsor or other plan sponsor events (e.g., the closing or sale of a subsidiary, employing unit, or affiliate) which could cause a significant withdrawal from the Plan; (vi) any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Plan; or (vii) the delivery of any communication to plan participants designed to influence a participant not to invest in the Plan. At this time, the Plan does not believe that the occurrence of any such market value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

(7) **Related party transactions and party-in-interest transactions**

Certain Plan investments are cash and cash equivalents managed by State Street. State Street is the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan also invests in certain funds managed by the Plan's recordkeeper, Transamerica. The Diversified Stable Pooled Fund is managed by Transamerica; therefore, transactions with this fund qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator of \$58,893 and \$47,062 for the years ended December 31, 2013 and 2012, respectively, which was not covered by revenue sharing.

Transactions with a financial advisor and securities broker qualify as party-in-interest transactions. CAPTRUST Financial Advisors is the financial advisor to the Plan. The Plan made direct payments to the financial advisor of \$47,103 and \$40,420 for the years ended December 31, 2013 and 2012, respectively.

The Company pays directly any other fees related to the Plan's operations.

(8) **Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

VML, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(9) Tax status

The Internal Revenue Service ("IRS") has determined that the prototype 401(k) plan is designed in accordance with applicable sections of the IRC and informed Diversified (now known as Transamerica), the recordkeeper of the Plan, of such in a letter dated March 31, 2008. Although, the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

(10) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(11) Subsequent events

The Plan has evaluated subsequent events through October 8, 2014, which is the date the financial statements were available to be issued and noted the following items for disclosure:

Effective January 1, 2014, the Studiocom 401(k) Profit Sharing Plan was merged into the Plan. As of that date, the Plan was amended to allow prior service with Studiocom, Inc. for eligibility and vesting purposes and Studiocom, Inc. became a participating employer in the Plan. Also, during January 2014, 111 participants with balances of \$2,377,436 were transferred into the Plan.

Effective January 1, 2014, the Biggs|Gilmore Communications Retirement Savings Plan was merged into the Plan. As of that date, the Plan was amended to allow prior service with Biggs|Gilmore Communications, Inc. for eligibility and vesting purposes and Biggs|Gilmore Communications, Inc. became a participating employer in the Plan. Also, in the second quarter of 2014, 149 participants with balances of \$7,994,109 were transferred into the Plan.
