Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Saint-Gobain Corporation 401(k) Plan for Hourly Employees (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2013 and 2012 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Fidelity Management Trust Company (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and participant notes receivable and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2013 and 2012 that the information provided to the plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets held at end of year as of December 31, 2013 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Saint-Gobain Corporation 401(k) Plan for Hourly Employees

Notes to Financial Statements

December 31, 2013 and 2012

1. Description of Plan

The following description of the Saint-Gobain Corporation 401(k) Plan for Hourly Employees (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible Saint-Gobain Corporation (the "Company") hourly non-union and eligible union employees, as defined by the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan, along with the Saint-Gobain Corporation 401(k) Plan for Salaried Employees, is a participant in the Saint-Gobain Corporation Defined Contribution Plan Master Trust (the "Master Trust"). The Trustee is Fidelity Management Trust Company (the "Trustee").

Eligibility

Employees are eligible to join the Plan immediately upon employment with the Company. After six months of service, non-union employees will be automatically enrolled in the Plan. The eligibility for union employees is explained in their union contract.

Contributions

Each year, participants may contribute up to 50 percent of eligible compensation, on a pretax or after-tax basis, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company match differs by division and is defined in the Plan document. The rollover contribution amount of \$1,218,596 and \$940,121 for 2013 and 2012, respectively, consisted largely of assets rolled over by employees acquired in the acquisition of various businesses.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of the available investment options.

Saint-Gobain Corporation 401(k) Plan for Hourly Employees

Notes to Financial Statements

December 31, 2013 and 2012

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, losses or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that is available in the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants are vested in Company contributions in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1	0%
At least 1 year, but less than 2 years	20%
At least 2 years, but less than 3 years	40%
At least 3 years, but less than 4 years	60%
At least 4 years, but less than 5 years	80%
5 or more years	100%

Forfeited Accounts

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are utilized to reduce future Company contributions and future Company payments of Plan administrative expenses.

The balance in the forfeiture account for the Plan was \$147,951 and \$110,981 at December 31, 2013 and 2012, respectively. The amount of forfeitures used to reduce Company payments of Plan administrative expenses was \$166,661 and \$72,031 in 2013 and 2012, respectively. The amount of forfeitures used to reduce Company contributions was \$12,222 and \$313,730 in 2013 and 2012, respectively.

Payment of Benefits

Retired or terminated participants may elect to receive a lump-sum amount immediately equal to the vested value of his or her account, a lump-sum payment at any future date, or may elect specified monthly, quarterly, or annual payments. Terminated employees may maintain an account in the Plan as permitted by the Plan document.

Active employees may withdraw all or part of their after-tax accounts and Company contributions in accordance with the Plan document and Internal Revenue Service guidelines. Withdrawals of before-tax accounts requested due to financial hardship of an employee are granted in accordance with the Plan document and Internal Revenue Service guidelines following a review of the appropriate documentation by the Company. All withdrawals are subject to certain restrictions in accordance with the Plan document.

Participant Notes Receivable

Under the terms of the Plan, participants may borrow from their accounts a minimum of \$1,000 for general purpose and housing notes receivable. General purpose notes receivable must be repaid within five years and housing notes receivable within 15 years. The maximum amount that can be borrowed is the lesser of (a) 50 percent of account balance, or (b) \$50,000 reduced by any current notes receivable balance or excess of the highest outstanding notes receivable balance in the last 12 months over the current notes receivable balance.

Participant notes receivable are secured by the remainder of the vested account balance in the participants' accounts and generally bear interest at 1 percent over the prime rate. The interest rate is fixed for the life of the notes receivable.

Plan Expenses

Plan administrative expenses are principally for loan-related and recordkeeping fees. The Company pays audit fees and certain other administrative fees on behalf of the Plan.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Master Trust

The Interest Income Fund (the "Fund"), which invests in fully benefit-responsive synthetic investment contracts, is stated at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. These investment contracts are fair valued using a discounted cash flow model that considers recent fee bids as determined by recognized dealers, discount rate, and the duration of the underlying portfolio securities. For purposes of determining the fair value of the underlying assets of the Master Trust, certain investments in money market funds are valued at cost which approximates fair value while other money market funds and mutual funds are valued at fair value based on quoted market prices. Underlying debt securities for which quotations are readily available are valued at their most recent bid prices (sales prices if the principal market is an exchange) in the principal market in which such securities are normally traded, as determined by recognized dealers in such securities, or securities are valued on the basis of information provided by a pricing service. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Investment Contracts with Insurance Companies under the Master Trust

The Master Trust, through its investment in the Fund, invests in synthetic investment contracts. A synthetic investment contract is a wrap contract paired with an underlying investment or investments, usually a portfolio, owned by the Master Trust, of high-quality, short- to intermediate-term fixed income securities. The Master Trust purchases wrap contracts from insurance companies. Investment gains and losses are amortized over the expected duration through the calculation of the interest rate applicable to the Master Trust on a prospective basis. Wrap contracts accrue interest using a formula called the “crediting rate.” Wrap contracts use the crediting rate formula to convert market value changes in the covered assets into income distributions in order to minimize the difference between the market and contract value of the covered assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the Fund’s current market value at the Fund’s current yield to maturity for a period equal to the Fund’s duration. The crediting rate is the discount rate that equates the estimated future market value with the Fund’s current contract value. Crediting rates are reset quarterly. The wrap contracts provide a guarantee that the crediting rate will not fall below 0 percent.

Certain events limit the ability of the Master Trust to transact at contract value with the contract issuer. Such events include the following: (i) the Plan’s failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code; (ii) the establishment of a defined contribution plan that competes with the Plan for employee contributions; (iii) any substantive modification of the Plan or the administration of the Plan that is not consented to by the wrap issuer; (iv) complete or partial termination of the Plan; (v) any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the Fund’s cashflow; (vi) merger or consolidation of the Plan with another plan, the transfer of plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the plan sponsor; (vii) any communication given to participants by the Plan sponsor or any other Plan fiduciary that is designed to induce or influence participants not to invest in the Fund or to transfer assets out of the Fund; (viii) exclusion of a group of previously eligible employees from eligibility in the Plan; (ix) any early retirement program, group termination, group layoff, facility closing, or similar program; and (x) any transfer of assets from the Fund directly to a competing option. The Plan administrator does not believe that the occurrence of any such event, which would limit the Master Trust’s ability to transact at contract value with participants, is probable.

Notes to Financial Statements

December 31, 2013 and 2012

A contract issuer may terminate a wrap contract at any time. In the event that the market value of the Fund's covered assets is below their contract value at the time of such termination, the Master Trust may elect to keep the wrap contract in place until such time as the market value of the Fund's covered assets is equal to their contract value. The synthetic investment contracts generally impose conditions on both the Master Trust and the issuer. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Master Trust to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Plan agreement. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in the contract; or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Master Trust were unable to obtain a replacement investment contract, withdrawing plans may experience losses. The Master Trust may seek to add additional issuers over time to diversify the Master Trust's exposure to such risk, but there is no assurance that the Master Trust may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Master Trust unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay the Master Trust the excess, if any, of contract value over market value on the date of termination. If a synthetic investment contract terminates due to a decline in the rating of the issuer, the issuer may be required to pay the Master Trust the cost of acquiring a replacement contract (i.e., replacement cost) within the meaning of the contract. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Master Trust to the extent necessary for the Master Trust to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

Since the synthetic investment contracts purchased by the Master Trust are fully benefit-responsive, contract value is the relevant measurement attribute for such contracts. Contract value represents contributions to the Fund plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Based on actual earnings	1.80%	1.96%

Plan Participation in the Master Trust

Contributions to the Master Trust and benefits paid are accounted for specifically by the participating plans. Each plan's relative interest in the Master Trust is determined based on its proportionate share of assets contributed to the Master Trust on February 1, 1992, as adjusted for contributions and benefit payments subsequent to February 1, 1992. The relative interest for plans not made part of the Master Trust on February 1, 1992 is determined based on assets subsequently transferred to the Master Trust, if any, and contributions and benefit payments subsequent to transfer date or date of creation of the individual plans. Investment income is allocated monthly to the participating plans based on their relative interest in the Master Trust. See Note 5 for Master Trust financial information. Each participating plan has an undivided interest in the Master Trust.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balance plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 24, 2014, which is the date the financial statements were available to be issued.

3. Transfers (To) From Other Plans

From time to time, participants in the Plan change roles and responsibilities within the Company and become eligible for other Company-sponsored plans. As such, transfers to and from the Plan generally relate to participant account balances being transferred between the Plan and the Saint-Gobain Corporation 401(k) Plan for Salaried Employees, another Company-sponsored plan. Other transfers relate to divestitures or acquisition activity by the Company.

In December 2012, the Latrobe Hourly 401(k) plan merged approximately \$5,936,000 into the Plan.

Business Acquisition Transfers

During the fourth quarter of 2012, approximately \$10,000 was transferred in from Sage Electrochromics, a joint venture that was fully acquired in June 2013.

4. Risks and Uncertainties

The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risk. Due to the level of the risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

5. Investment in Master Trust

A summary of net assets of the Master Trust as of December 31 is as follows:

	<u>2013</u>	<u>2012</u>
Assets:		
Receivables	\$ 7,374	\$ 529,906
Investments, at fair value:		
Money market funds	48,407,590	49,101,690
Mutual funds	<u>1,145,387,877</u>	<u>951,352,113</u>
	1,193,795,467	1,000,453,803
Interest Income Fund:		
Money market funds, at fair value	1,628,220	4,821,402
Wrap rebid value, at contract value	396,842	677,727
Security-backed contracts, at contract value	<u>276,748,889</u>	<u>288,912,503</u>
Total Master Trust assets	<u><u>\$ 1,472,576,792</u></u>	<u><u>\$ 1,295,395,341</u></u>

Investment income for the Trust is as follows:

	<u>2013</u>	<u>2012</u>
Net appreciation in fair value of investments:		
Mutual funds - Net appreciation	\$ 170,191,233	\$ 104,147,360
Interest	877,150	985,492
Dividends	<u>44,849,095</u>	<u>24,748,118</u>
	<u><u>\$ 215,917,478</u></u>	<u><u>\$ 129,880,970</u></u>

The Plan's interest in the net assets of the Master Trust was approximately 30.4 percent and 31.4 percent at December 31, 2013 and 2012, respectively.

Notes to Financial Statements

December 31, 2013 and 2012

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination or complete discontinuance of contributions, participants will become 100 percent vested in their accounts.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated November 20, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the trust and recognize a tax liability (or asset) if the trust has taken an uncertain position that more likely than not would not be sustained upon examination by the IRC. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

8. Related Party Transactions

Certain Master Trust investments are shares of money market funds, mutual funds, and interest income funds managed by Fidelity Investments. Fidelity Investments is an affiliate of the Trustee; therefore, transactions in these investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

9. Unaudited Information

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified to the completeness and accuracy of all investments and participant notes receivable reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, the related income and losses reflected in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2013 and 2012, the Master Trust information summarized in Note 5 and 11, and the Schedule of Assets Held at End of Year as of December 31, 2013.

Notes to Financial Statements

December 31, 2013 and 2012

10. Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to the synthetic investment contracts held in the Master Trust being recorded at contract value on the financial statements and at fair value on Form 5500. The net assets on the financial statements were lower than on Form 5500 at December 31, 2013 and 2012 by \$3,099,267 and \$5,567,032, respectively. Additionally, the investment income from the synthetic investment contracts on Form 5500 for the years ended December 31, 2013 and 2012 is lower than the financial statements by \$2,467,765 and \$30,868, respectively.

11. Fair Value Measurement

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012, and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan and Master Trust also hold other assets not measured at fair value on a recurring basis including contributions receivable. The fair value of these assets is equal to the carrying amounts in the accompanying financial statements due to the short maturity of such instruments.

The Plan's policy is to recognize transfers in and transfers out of the Level 1, 2, and 3 fair value classifications as of the end of the month of the event of change in circumstances that caused the transfer. During the years ended December 31, 2013 and 2012, there were no significant transfers between levels.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Fidelity Management Trust Company (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and participant notes receivable and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2013 and 2012 that the information provided to the plan administrator by the Trustee is complete and accurate.

Saint-Gobain Corporation 401(k) Plan for Hourly Employees

Notes to Financial Statements

December 31, 2013 and 2012

1. Description of Plan

The following description of the Saint-Gobain Corporation 401(k) Plan for Hourly Employees (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible Saint-Gobain Corporation (the "Company") hourly non-union and eligible union employees, as defined by the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan, along with the Saint-Gobain Corporation 401(k) Plan for Salaried Employees, is a participant in the Saint-Gobain Corporation Defined Contribution Plan Master Trust (the "Master Trust"). The Trustee is Fidelity Management Trust Company (the "Trustee").

Eligibility

Employees are eligible to join the Plan immediately upon employment with the Company. After six months of service, non-union employees will be automatically enrolled in the Plan. The eligibility for union employees is explained in their union contract.

Contributions

Each year, participants may contribute up to 50 percent of eligible compensation, on a pretax or after-tax basis, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company match differs by division and is defined in the Plan document. The rollover contribution amount of \$1,218,596 and \$940,121 for 2013 and 2012, respectively, consisted largely of assets rolled over by employees acquired in the acquisition of various businesses.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of the available investment options.

Saint-Gobain Corporation 401(k) Plan for Hourly Employees

Notes to Financial Statements

December 31, 2013 and 2012

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, losses or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that is available in the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Participants are vested in Company contributions in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1	0%
At least 1 year, but less than 2 years	20%
At least 2 years, but less than 3 years	40%
At least 3 years, but less than 4 years	60%
At least 4 years, but less than 5 years	80%
5 or more years	100%

Forfeited Accounts

When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeitures are utilized to reduce future Company contributions and future Company payments of Plan administrative expenses.

The balance in the forfeiture account for the Plan was \$147,951 and \$110,981 at December 31, 2013 and 2012, respectively. The amount of forfeitures used to reduce Company payments of Plan administrative expenses was \$166,661 and \$72,031 in 2013 and 2012, respectively. The amount of forfeitures used to reduce Company contributions was \$12,222 and \$313,730 in 2013 and 2012, respectively.

Payment of Benefits

Retired or terminated participants may elect to receive a lump-sum amount immediately equal to the vested value of his or her account, a lump-sum payment at any future date, or may elect specified monthly, quarterly, or annual payments. Terminated employees may maintain an account in the Plan as permitted by the Plan document.

Active employees may withdraw all or part of their after-tax accounts and Company contributions in accordance with the Plan document and Internal Revenue Service guidelines. Withdrawals of before-tax accounts requested due to financial hardship of an employee are granted in accordance with the Plan document and Internal Revenue Service guidelines following a review of the appropriate documentation by the Company. All withdrawals are subject to certain restrictions in accordance with the Plan document.

Participant Notes Receivable

Under the terms of the Plan, participants may borrow from their accounts a minimum of \$1,000 for general purpose and housing notes receivable. General purpose notes receivable must be repaid within five years and housing notes receivable within 15 years. The maximum amount that can be borrowed is the lesser of (a) 50 percent of account balance, or (b) \$50,000 reduced by any current notes receivable balance or excess of the highest outstanding notes receivable balance in the last 12 months over the current notes receivable balance.

Participant notes receivable are secured by the remainder of the vested account balance in the participants' accounts and generally bear interest at 1 percent over the prime rate. The interest rate is fixed for the life of the notes receivable.

Plan Expenses

Plan administrative expenses are principally for loan-related and recordkeeping fees. The Company pays audit fees and certain other administrative fees on behalf of the Plan.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Master Trust

The Interest Income Fund (the "Fund"), which invests in fully benefit-responsive synthetic investment contracts, is stated at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. These investment contracts are fair valued using a discounted cash flow model that considers recent fee bids as determined by recognized dealers, discount rate, and the duration of the underlying portfolio securities. For purposes of determining the fair value of the underlying assets of the Master Trust, certain investments in money market funds are valued at cost which approximates fair value while other money market funds and mutual funds are valued at fair value based on quoted market prices. Underlying debt securities for which quotations are readily available are valued at their most recent bid prices (sales prices if the principal market is an exchange) in the principal market in which such securities are normally traded, as determined by recognized dealers in such securities, or securities are valued on the basis of information provided by a pricing service. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Investment Contracts with Insurance Companies under the Master Trust

The Master Trust, through its investment in the Fund, invests in synthetic investment contracts. A synthetic investment contract is a wrap contract paired with an underlying investment or investments, usually a portfolio, owned by the Master Trust, of high-quality, short- to intermediate-term fixed income securities. The Master Trust purchases wrap contracts from insurance companies. Investment gains and losses are amortized over the expected duration through the calculation of the interest rate applicable to the Master Trust on a prospective basis. Wrap contracts accrue interest using a formula called the “crediting rate.” Wrap contracts use the crediting rate formula to convert market value changes in the covered assets into income distributions in order to minimize the difference between the market and contract value of the covered assets over time. Using the crediting rate formula, an estimated future market value is calculated by compounding the Fund’s current market value at the Fund’s current yield to maturity for a period equal to the Fund’s duration. The crediting rate is the discount rate that equates the estimated future market value with the Fund’s current contract value. Crediting rates are reset quarterly. The wrap contracts provide a guarantee that the crediting rate will not fall below 0 percent.

Certain events limit the ability of the Master Trust to transact at contract value with the contract issuer. Such events include the following: (i) the Plan’s failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code; (ii) the establishment of a defined contribution plan that competes with the Plan for employee contributions; (iii) any substantive modification of the Plan or the administration of the Plan that is not consented to by the wrap issuer; (iv) complete or partial termination of the Plan; (v) any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the Fund’s cashflow; (vi) merger or consolidation of the Plan with another plan, the transfer of plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the plan sponsor; (vii) any communication given to participants by the Plan sponsor or any other Plan fiduciary that is designed to induce or influence participants not to invest in the Fund or to transfer assets out of the Fund; (viii) exclusion of a group of previously eligible employees from eligibility in the Plan; (ix) any early retirement program, group termination, group layoff, facility closing, or similar program; and (x) any transfer of assets from the Fund directly to a competing option. The Plan administrator does not believe that the occurrence of any such event, which would limit the Master Trust’s ability to transact at contract value with participants, is probable.

Notes to Financial Statements

December 31, 2013 and 2012

A contract issuer may terminate a wrap contract at any time. In the event that the market value of the Fund's covered assets is below their contract value at the time of such termination, the Master Trust may elect to keep the wrap contract in place until such time as the market value of the Fund's covered assets is equal to their contract value. The synthetic investment contracts generally impose conditions on both the Master Trust and the issuer. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Master Trust to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Plan agreement. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; has a decline in its long-term credit rating below a threshold set forth in the contract; or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Master Trust were unable to obtain a replacement investment contract, withdrawing plans may experience losses. The Master Trust may seek to add additional issuers over time to diversify the Master Trust's exposure to such risk, but there is no assurance that the Master Trust may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Master Trust unable to achieve its objective of maintaining a stable contract value. The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default (other than a default occurring because of a decline in its rating), the issuer will generally be required to pay the Master Trust the excess, if any, of contract value over market value on the date of termination. If a synthetic investment contract terminates due to a decline in the rating of the issuer, the issuer may be required to pay the Master Trust the cost of acquiring a replacement contract (i.e., replacement cost) within the meaning of the contract. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Master Trust to the extent necessary for the Master Trust to satisfy outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice.

Since the synthetic investment contracts purchased by the Master Trust are fully benefit-responsive, contract value is the relevant measurement attribute for such contracts. Contract value represents contributions to the Fund plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

	2013	2012
Average yield for synthetic investment contracts:		
Based on actual earnings	1.80%	1.96%
Based on interest rate credited to participants	1.78%	2.04%

Plan Participation in the Master Trust

Contributions to the Master Trust and benefits paid are accounted for specifically by the participating plans. Each plan's relative interest in the Master Trust is determined based on its proportionate share of assets contributed to the Master Trust on February 1, 1992, as adjusted for contributions and benefit payments subsequent to February 1, 1992. The relative interest for plans not made part of the Master Trust on February 1, 1992 is determined based on assets subsequently transferred to the Master Trust, if any, and contributions and benefit payments subsequent to transfer date or date of creation of the individual plans. Investment income is allocated monthly to the participating plans based on their relative interest in the Master Trust. See Note 5 for Master Trust financial information. Each participating plan has an undivided interest in the Master Trust.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balance plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 24, 2014, which is the date the financial statements were available to be issued.

3. Transfers (To) From Other Plans

From time to time, participants in the Plan change roles and responsibilities within the Company and become eligible for other Company-sponsored plans. As such, transfers to and from the Plan generally relate to participant account balances being transferred between the Plan and the Saint-Gobain Corporation 401(k) Plan for Salaried Employees, another Company-sponsored plan. Other transfers relate to divestitures or acquisition activity by the Company.

In December 2012, the Latrobe Hourly 401(k) plan merged approximately \$5,936,000 into the Plan.

Business Acquisition Transfers

During the fourth quarter of 2012, approximately \$10,000 was transferred in from Sage Electrochromics, a joint venture that was fully acquired in June 2013.

4. Risks and Uncertainties

The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rate, market and credit risk. Due to the level of the risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

5. Investment in Master Trust

A summary of net assets of the Master Trust as of December 31 is as follows:

	<u>2013</u>	<u>2012</u>
Assets:		
Receivables	\$ 7,374	\$ 529,906
Investments, at fair value:		
Money market funds	48,407,590	49,101,690
Mutual funds	<u>1,145,387,877</u>	<u>951,352,113</u>
	1,193,795,467	1,000,453,803
Interest Income Fund:		
Money market funds, at fair value	1,628,220	4,821,402
Wrap rebid value, at contract value	396,842	677,727
Security-backed contracts, at contract value	<u>276,748,889</u>	<u>288,912,503</u>
Total Master Trust assets	<u><u>\$ 1,472,576,792</u></u>	<u><u>\$ 1,295,395,341</u></u>

Investment income for the Trust is as follows:

	<u>2013</u>	<u>2012</u>
Net appreciation in fair value of investments:		
Mutual funds - Net appreciation	\$ 170,191,233	\$ 104,147,360
Interest	877,150	985,492
Dividends	<u>44,849,095</u>	<u>24,748,118</u>
	<u><u>\$ 215,917,478</u></u>	<u><u>\$ 129,880,970</u></u>

The Plan's interest in the net assets of the Master Trust was approximately 30.4 percent and 31.4 percent at December 31, 2013 and 2012, respectively.

Notes to Financial Statements

December 31, 2013 and 2012

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination or complete discontinuance of contributions, participants will become 100 percent vested in their accounts.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated November 20, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the trust and recognize a tax liability (or asset) if the trust has taken an uncertain position that more likely than not would not be sustained upon examination by the IRC. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2010.

8. Related Party Transactions

Certain Master Trust investments are shares of money market funds, mutual funds, and interest income funds managed by Fidelity Investments. Fidelity Investments is an affiliate of the Trustee; therefore, transactions in these investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

9. Unaudited Information

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified to the completeness and accuracy of all investments and participant notes receivable reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012, the related income and losses reflected in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2013 and 2012, the Master Trust information summarized in Note 5 and 11, and the Schedule of Assets Held at End of Year as of December 31, 2013.

Notes to Financial Statements

December 31, 2013 and 2012

10. Reconciliation to Form 5500

The net assets on the financial statements differ from the net assets on Form 5500 due to the synthetic investment contracts held in the Master Trust being recorded at contract value on the financial statements and at fair value on Form 5500. The net assets on the financial statements were lower than on Form 5500 at December 31, 2013 and 2012 by \$3,099,267 and \$5,567,032, respectively. Additionally, the investment income from the synthetic investment contracts on Form 5500 for the years ended December 31, 2013 and 2012 is lower than the financial statements by \$2,467,765 and \$30,868, respectively.

11. Fair Value Measurement

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2013 and 2012, and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Plan and Master Trust also hold other assets not measured at fair value on a recurring basis including contributions receivable. The fair value of these assets is equal to the carrying amounts in the accompanying financial statements due to the short maturity of such instruments.

The Plan's policy is to recognize transfers in and transfers out of the Level 1, 2, and 3 fair value classifications as of the end of the month of the event of change in circumstances that caused the transfer. During the years ended December 31, 2013 and 2012, there were no significant transfers between levels.
