INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Bainbridge Communities Management 401(k) Profit Sharing Plan and Trust

Report on the Financial Statements

We have audited the accompanying financial statements of the Bainbridge Communities Management 401(k) Profit Sharing Plan and Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2013, and delinquent participant contributions for the year then ended are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

(1) Description of plan

The following description of the Bainbridge Communities Management 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description, both of which are available from the plan administrator, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by Bainbridge Communities Management, LLC (the "Company") for the benefit of its full-time employees who have at least six months of service, are age twenty-one or older, and are not excluded by certain provisions outlined in the plan document. Additionally, the Plan covers all full-time employees of Bainbridge Mid-Atlantic Management, LLC ("Mid-Atlantic") and Bainbridge NC Management, LLC ("NC Management"), who satisfy the same eligibility requirements. Mid-Atlantic and NC Management are related entities under common ownership with the Company.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The plan administrator has the overall responsibility for the operation and management of the Plan. The plan administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions - Participants may contribute up to 90% of their pretax annual compensation, as defined in the plan document, without exceeding the maximum annual amount allowed by the Internal Revenue Code (the "Code"), or may elect to make Roth 401(k) deferrals. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions, as defined in the plan document. Participants direct the investment of all contributions into various investment options offered by the Plan.

Each year, the Company may make discretionary profit sharing contributions on behalf of participants meeting certain eligibility requirements, as outlined in the plan document. The Company's discretionary profit sharing contributions, if any, are allocated to participants on a pro rata basis determined by the ratio that each qualifying participant's compensation for the plan year bears to the total compensation of all qualifying participants. The Company's discretionary profit sharing contributions are invested in accordance with each participant's own investment options and are subject to certain limitations prescribed by the Code. During the years ended December 31, 2013 and 2012, the Company made no such contributions to the Plan.

Participant investment account options - The Plan currently offers various mutual funds and a money market fund as investment options for participants.

(1) Description of plan (continued)

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, if any, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions is based on years of continuous service. A participant is 100% vested in the Company's discretionary profit sharing contributions after six years of credited service, as defined in the plan document.

Forfeited accounts - Forfeited accounts are used to reduce future Company contributions. There were no forfeitures during the years ended December 31, 2013 and 2012, and no unapplied forfeitures at December 31, 2013 and 2012.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability, retirement, or other reasons as outlined in the plan document, a participant may elect to receive distributions from the Plan. Participants may also receive in-service distributions upon attaining 59 ½ years of age provided the participant is 100% vested in the Company's contributions. Distributions of $1,000 or less are to be made in the form of a lump-sum payment. All other distributions may be in the form of a lump-sum payment, installments, or an annuity.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable. The statements of changes in net assets available for benefits are prepared on a contract value basis.

(2) Summary of significant accounting policies (continued)

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make note repayments and the plan administrator deems the note to be in default, the note balance is reduced and a benefit payment is recorded.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Investment related expenses are included in net appreciation in fair value of investments.

(3) Investments

The following investments represent 5% or more of the Plan's net assets:

	December 31,	
	2013	2012
Fidelity Advisor Balanced T	$ 399,442	$ 311,364
Fidelity Advisor Strategic Income T	114,114	120,386

Fidelity Prime Fund; Daily Money Class	*	72,047
Fidelity Advisor Freedom 2035 T	*	63,390

* Not applicable, investment amount is below 5%.

(3) Investments (continued)

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	Years Ended December 31,	
	2013	2012
Mutual funds	$ 141,348	$ 86,535

(4) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820*, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

(4) Fair value measurements (continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at the NAV of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	Investments at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total

(4) Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

	Investments at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual funds:

Total investments at fair value	$ 1,034,977	$ -	$ -	$ 1,034,977

Certain of the Plan's investments included in the 2012 table have been reclassified to conform to the risk groupings disclosed in the 2013 table.

(5) Excess contributions refundable

The Company was notified that the Plan failed certain limitation and discrimination tests in connection with participant contributions for the year ended December 31, 2012. Accordingly, the Plan recorded excess contributions refundable in the amount of $74,078 at December 31, 2012. All excess contributions and corresponding earnings have been refunded to various participants.

(6) Delinquent participant contributions

Defined contribution plans are required to remit employee contributions, including participant note repayments, to the Plan as soon as they can be reasonably segregated from the employer's general assets. While the Company has remitted all contributions and note repayments to the Plan, participant contributions and note repayments totaling $3,487 were not remitted to the Plan within the required timeframe during the year ended December 31, 2013. The Company is in the process of calculating and remitting lost earnings associated with these delinquent remittances to the Plan.

(7) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company's contributions.

(8) Tax status

The Internal Revenue Service ("IRS") has determined and issued an opinion letter dated March 31, 2008 stating that the prototype 401(k) profit sharing plan adopted and utilized by the Company through December 31, 2013 was designed in accordance with applicable sections of the Code. Although the Plan had been amended since the date of this letter, the plan administrator believes that the Plan and related trust was designed and continued to operate in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2010.

(9) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) Reconciliations of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to Schedule H of Form 5500:

	December 31, 2013	December 31, 2012
Net assets available for benefits per the financial statements	$ 1,360,130	$ 981,935
Excess contributions refundable	-	74,078
Net assets available for benefits per Schedule H of Form 5500	$ 1,360,130	$ 1,056,013

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements for the years ended December 31, 2013 and 2012 to Schedule H of Form 5500:

	Years Ended December 31, 2013	Years Ended December 31, 2012
Net increase per the financial statements	$ 378,195	$ 111,575
Current year excess contributions refundable	-	74,078
Prior year excess contributions refundable	(74,078)	(70,014)
Net increase per Schedule H of Form 5500	$ 304,117	$ 115,639

(11) Subsequent events

Effective January 1, 2014, ING Insurance and Annuity Company (subsequently renamed Voya Insurance and Annuity Company) became the Plan's trustee, and The Pension Studio became the Plan's third party administrator.

Accordingly, effective January 1, 2014, the Company adopted a new plan document. Significant changes to participant benefits under the new plan document include, but are not limited to, the removal of the limitation of a participant's contributions to the Plan to 90% of pretax annual compensation (provided the participant's contributions do not exceed limitations set forth by the Code), the addition of discretionary Company matching contributions, and an increase to $5,000 as the threshold under which a participant's distribution must be in the form of a lump sum payment.

The Plan has evaluated subsequent events through October 8, 2014, which is the date the financial statements were available to be issued. Except as described above, no significant matters were identified for disclosure during this evaluation.

INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Bainbridge Communities Management 401(k) Profit Sharing Plan and Trust

Report on the Financial Statements

We have audited the accompanying financial statements of the Bainbridge Communities Management 401(k) Profit Sharing Plan and Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2013, and delinquent participant contributions for the year then ended are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

(1) Description of plan

The following description of the Bainbridge Communities Management 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan document or summary plan description, both of which are available from the plan administrator, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by Bainbridge Communities Management, LLC (the "Company") for the benefit of its full-time employees who have at least six months of service, are age twenty-one or older, and are not excluded by certain provisions outlined in the plan document. Additionally, the Plan covers all full-time employees of Bainbridge Mid-Atlantic Management, LLC ("Mid-Atlantic") and Bainbridge NC Management, LLC ("NC Management"), who satisfy the same eligibility requirements. Mid-Atlantic and NC Management are related entities under common ownership with the Company.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The plan administrator has the overall responsibility for the operation and management of the Plan. The plan administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions - Participants may contribute up to 90% of their pretax annual compensation, as defined in the plan document, without exceeding the maximum annual amount allowed by the Internal Revenue Code (the "Code"), or may elect to make Roth 401(k) deferrals. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions, as defined in the plan document. Participants direct the investment of all contributions into various investment options offered by the Plan.

Each year, the Company may make discretionary profit sharing contributions on behalf of participants meeting certain eligibility requirements, as outlined in the plan document. The Company's discretionary profit sharing contributions, if any, are allocated to participants on a pro rata basis determined by the ratio that each qualifying participant's compensation for the plan year bears to the total compensation of all qualifying participants. The Company's discretionary profit sharing contributions are invested in accordance with each participant's own investment options and are subject to certain limitations prescribed by the Code. During the years ended December 31, 2013 and 2012, the Company made no such contributions to the Plan.

Participant investment account options - The Plan currently offers various mutual funds and a money market fund as investment options for participants.

(1) Description of plan (continued)

Participant accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, if any, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contributions is based on years of continuous service. A participant is 100% vested in the Company's discretionary profit sharing contributions after six years of credited service, as defined in the plan document.

Forfeited accounts - Forfeited accounts are used to reduce future Company contributions. There were no forfeitures during the years ended December 31, 2013 and 2012, and no unapplied forfeitures at December 31, 2013 and 2012.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits - On termination of service due to death, disability, retirement, or other reasons as outlined in the plan document, a participant may elect to receive distributions from the Plan. Participants may also receive in-service distributions upon attaining 59 ½ years of age provided the participant is 100% vested in the Company's contributions. Distributions of $1,000 or less are to be made in the form of a lump-sum payment. All other distributions may be in the form of a lump-sum payment, installments, or an annuity.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value, if applicable. The statements of changes in net assets available for benefits are prepared on a contract value basis.

(2) Summary of significant accounting policies (continued)

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make note repayments and the plan administrator deems the note to be in default, the note balance is reduced and a benefit payment is recorded.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Investment related expenses are included in net appreciation in fair value of investments.

(3) Investments

The following investments represent 5% or more of the Plan's net assets:

	December 31,	
	2013	2012
Fidelity Advisor Balanced T	$ 399,442	$ 311,364
Fidelity Advisor Strategic Income T	114,114	120,386

Fidelity Advisor Equity Growth T	84,287	56,712
Fidelity Advisor Small Cap T	73,581	*
Fidelity Prime Fund; Daily Money Class	*	72,047
Fidelity Advisor Freedom 2035 T	*	63,390

* Not applicable, investment amount is below 5%.

(3) Investments (continued)

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	Years Ended December 31,	
	2013	2012
Mutual funds	$ 141,348	$ 86,535

(4) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820*, Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

(4) Fair value measurements (continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Valued at the NAV of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013:

	Investments at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total

(4) Fair value measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2012:

	Investments at Fair Value as of December 31, 2012			
	Level 1	Level 2	Level 3	Total
Mutual funds:

Certain of the Plan's investments included in the 2012 table have been reclassified to conform to the risk groupings disclosed in the 2013 table.

(5) Excess contributions refundable

The Company was notified that the Plan failed certain limitation and discrimination tests in connection with participant contributions for the year ended December 31, 2012. Accordingly, the Plan recorded excess contributions refundable in the amount of $74,078 at December 31, 2012. All excess contributions and corresponding earnings have been refunded to various participants.

(6) Delinquent participant contributions

Defined contribution plans are required to remit employee contributions, including participant note repayments, to the Plan as soon as they can be reasonably segregated from the employer's general assets. While the Company has remitted all contributions and note repayments to the Plan, participant contributions and note repayments totaling $3,487 were not remitted to the Plan within the required timeframe during the year ended December 31, 2013. The Company is in the process of calculating and remitting lost earnings associated with these delinquent remittances to the Plan.

(7) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company's contributions.

(8) Tax status

The Internal Revenue Service ("IRS") has determined and issued an opinion letter dated March 31, 2008 stating that the prototype 401(k) profit sharing plan adopted and utilized by the Company through December 31, 2013 was designed in accordance with applicable sections of the Code. Although the Plan had been amended since the date of this letter, the plan administrator believes that the Plan and related trust was designed and continued to operate in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes that the Plan is no longer subject to income tax examinations for years prior to 2010.

(9) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) Reconciliations of financial statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2013 and 2012 to Schedule H of Form 5500:

	December 31, 2013	December 31, 2012
Net assets available for benefits per the financial statements	$ 1,360,130	$ 981,935
Excess contributions refundable	-	74,078
Net assets available for benefits per Schedule H of Form 5500	$ 1,360,130	$ 1,056,013

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements for the years ended December 31, 2013 and 2012 to Schedule H of Form 5500:

	Years Ended December 31, 2013	Years Ended December 31, 2012
Net increase per the financial statements	$ 378,195	$ 111,575
Current year excess contributions refundable	-	74,078
Prior year excess contributions refundable	(74,078)	(70,014)
Net increase per Schedule H of Form 5500	$ 304,117	$ 115,639

(11) Subsequent events

Effective January 1, 2014, ING Insurance and Annuity Company (subsequently renamed Voya Insurance and Annuity Company) became the Plan's trustee, and The Pension Studio became the Plan's third party administrator.

Accordingly, effective January 1, 2014, the Company adopted a new plan document. Significant changes to participant benefits under the new plan document include, but are not limited to, the removal of the limitation of a participant's contributions to the Plan to 90% of pretax annual compensation (provided the participant's contributions do not exceed limitations set forth by the Code), the addition of discretionary Company matching contributions, and an increase to $5,000 as the threshold under which a participant's distribution must be in the form of a lump sum payment.

The Plan has evaluated subsequent events through October 8, 2014, which is the date the financial statements were available to be issued. Except as described above, no significant matters were identified for disclosure during this evaluation.
