Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit information to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) at December 31, 2013, is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. inContact, Inc. 401(k) Plan

Notes to the Financial Statements

December 31, 2013 and 2012

1. Description of Plan

The following brief description of the inContact, Inc. (the “Company”) 401(k) Plan (the “Plan”) is provided for general information only. Participants should refer to the Plan agreement for more complete information.

General. The Plan is a defined contribution 401(k) plan and profit sharing plan covering all employees of the Company. Employees are eligible to make salary deferrals upon hire, but must work for the Company for at least 90 days to be eligible for employer match. Employees who have worked for the Company for at least one year and are 21 years or older are eligible for employer profit sharing, if declared. Upon becoming eligible to participate, employees may enroll in the Plan on the next entry date – immediately for employee deferrals; quarterly for Company match; and January 1 or July 1 for employer profit sharing contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions. Participation in the Plan is voluntary. Each year, participants are allowed to make contributions to the Plan up to a maximum of 90% of compensation, not to exceed the Internal Revenue Service limits of \$17,500 in 2013. Participants over 50 years of age can also make catch-up contributions. The Plan allows both pre-tax and Roth contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans, subject to certain restrictions. The Company may contribute a discretionary matching amount that is determined at the end of each year by management. Additional amounts called “non-elective contributions” may be contributed at the option of the Employer.

Participant Accounts. Each participant’s account is credited with the participant’s contribution and allocations of (a) the Company’s matching and additional contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Upon enrollment, a Participant directs all contributions in one percent increments to any of the Plan’s fund options. At any time, participants may change their investment allocations, which will go into effect as soon as practicable after the change is received.

inContact, Inc. 401(k) Plan

Notes to the Financial Statements

1. Description of Plan (continued)

Vesting. Participants are immediately vested in their contributions, the non-elective contributions and participant earnings, if any. Company matching and profit sharing contributions, and earnings, become vested to the participant as follows:

Years of Service in Plan	Percentage Vested
One year	25%
Two years	50%
Three years	75%
Four years	100%

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Distributions and Withdrawals. On termination of service due to death, total disability, or retirement, a participant is eligible to receive a lump sum distribution equal to the participant's vested account balance. Prior to the normal retirement age, as defined by the Plan, a participant who is 59 ½ or older is eligible to receive an in-service distribution. A participant may also withdraw in a lump sum up to 100% of their vested balance in their elected deferral account, excluding any earnings thereon, to pay for any financial hardship as defined in the Plan.

As of December 31, 2013 and 2012, the Plan had \$1,136,217 and \$579,991, respectively, of plan assets that were allocated to participants that had withdrawn from the Plan, but for which disbursement of those funds from the Plan had not yet been made.

Forfeited Accounts. Forfeitures on unvested portions are used to pay Plan expenses or offset future employer contributions. During the year ended December 31, 2013, \$33,339 of forfeitures was used to reduce employer contributions. As of December 31, 2013 and 2012, there were \$10 and \$3,789, respectively, of unallocated forfeitures.

Notes to the Financial Statements

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Notes to the Financial Statements

2. Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Additional administrative expenses of approximately \$29,000 incurred during the year ended December 31, 2013 were paid by the Company on behalf of the Plan and are not reflected in the accompanying financial statements.

Subsequent events

For the year ended December 31, 2013, the Company has evaluated subsequent events for the potential recognition and disclosure through October 6, 2014, the date of financial statement issuance.

3. Investments

The Plan's investments at December 31, 2013 and 2012 were held by State Street Global Services in separate accounts and various sub-accounts related to the investment option chosen by the participant. The following table presents the current values of investments at December 31, 2013 and 2012, which, in addition to the investment income information as shown on the accompanying statements of changes in net assets available for benefits, has been certified as complete and accurate by State Street Global Services. Below are investments that represent 5% or more of net assets available for benefits. Investments are at fair value as determined by quoted market price and are as follows:

	2013	2012
T Rowe Price Retire 2030 – ADV	\$ 2,549,553	\$ 1,609,604
Blackrock Gbl Allocation Ins	1,122,171	1,054,615

Vanguard 500 Index	498,016	216,753

Notes to the Financial Statements

3. Investments (continued)

During the year ended December 31, 2013, the Plan's investments that represent 5% or more of net assets available for benefits appreciated (depreciated) in fair value as follows:

T Rowe Price Retire 2030 – ADV	\$ 352,292
Blackrock Gbl Allocation Ins	83,591
T Rowe Price Retire 2050 – ADV	179,203
Vanguard 500 Index	87,129
Other	512,862
	<u>\$ 1,215,077</u>

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include:</p> <ul style="list-style-type: none"> • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

inContact, Inc. 401(k) Plan

Notes to the Financial Statements

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at fair value based on quoted redemption values on the last business day of the Plan year.

Common collective trusts: Valued at their respective net asset value as reported by the funds daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012.

Assets at Fair Value as of December 31, 2013				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 9,744,520	\$ —	\$ —	\$ 9,744,520
Common collective trusts	—	89,306	—	89,306
Total assets at fair value	\$ 9,744,520	\$ 89,306	\$ —	\$ 9,833,826

Assets at Fair Value as of December 31, 2012				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 6,246,236	\$ —	\$ —	\$ 6,246,236
Common collective trusts	—	106,552	—	106,552
Total assets at fair value	\$ 6,346,916	\$ 106,552	\$ —	\$ 6,352,788

Notes to the Financial Statements

5. Stable Value Fund Options

Investment options of the Plan included MetLife Group Annuity Contract No. 25554 (the “Contract”) issued by Metropolitan Life Insurance Company (“MetLife”) to the trustee, to establish a stable value fund (the “Fund”). Wilmington Trust Retirement and Institutional Services Company (“WTRISC”) is the trustee and is responsible for maintaining and administering the Trust. The Contract is administered by Met Life and is managed by MetLife and WTRISC.

The Contract simulates the performance of a guaranteed investment contract through the guarantee of a specific interest rate and a portfolio of financial instruments that are owned by MetLife. The participating plans’ assets are the unit ownership interests in the Contract. The separate account investments are owned by MetLife. The Contract provides that the Trust execute transactions at contract value. MetLife guarantees the contract value, which represents contributions, plus interest, less participant-initiated withdrawals or transfers. This is the Contract’s guaranteed value. The Contract’s fair value equals the Contract’s proportionate share of the fair value of the separate accounts. A participating plan’s fair value in the Contract equals the Contract’s fair value times the ratio of the plans’ guaranteed value to the Contract’s guaranteed value.

The average yields earned by the Contract for the years ended December 31, 2013 and 2012, were (1.94%) and 3.75%, respectively. This represents the annualized earnings (loss) of the separate account investments owned by MetLife in which the Contract funds are invested divided by the fair value of the Contract at December 31, 2013 and 2012.

The average yields earned by the Contract with an adjustment to reflect the actual interest rate credited to participants in the Contract for the years ended December 31, 2013 and 2012, were 2.21% and 2.52%, respectively. This represents the annualized earnings credited to participants in the Contract divided by the fair value of the Contract at December 31, 2013 and 2012.

6. Related-Party Transactions

Certain plan investments are shares of funds managed by State Street Global Services record keeper of the Plan, and therefore, these transactions qualify as party-in-interest. Any purchases and sales of these funds are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

inContact, Inc. 401(k) Plan

Notes to the Financial Statements

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate, amend, modify or suspend the Plan at any time, subject to the provisions of ERISA. In the event the Plan is terminated, the entire value of the investment funds shall be applied for the exclusive benefit of participants, and no part of the funds will revert to the Company. Upon termination of the Plan, the Company will have no obligation to continue making contributions to the Plan, and the Company contribution account for each participant will become 100% vested and nonforfeitable.

8. Tax Status

The Plan has not applied for nor received a determination letter from the Internal Revenue Service stating that the Plan is qualified under Section 401(k) of the Internal Revenue Code (the "Code"). However, the plan administrator believes that the Plan is qualified and, therefore, the related trust is exempt from taxation. The Company has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as reported on Form 5500 with that reported in the accompanying financial statements:

	<u>2013</u>	<u>2012</u>
