Report on the Financial Statements

We have audited the accompanying financial statements of the Atrium Centers Inc. Employee Stock Ownership Plan (the Plan) which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2013 and 2012, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2013 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF PLAN:

The following description of the Atrium Centers Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Atrium Centers Inc. Employee Stock Ownership Plan was established on December 27, 2012 (retroactively effective to January 1, 2012) and covers employees of Atrium Centers Inc. and its participating subsidiaries (collectively, the Companies). The Plan operates, in relevant part, as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator is appointed by the Board of Directors. The trust department of an independent third-party bank is the Plan's Trustee.

The Plan purchased Atrium Centers Inc. (the Company) common stock using the proceeds of notes payable (see Note 7) and holds cash and common stock in a trust established under the Plan. As the Plan makes note repayments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements of the Plan as of December 31, 2013 and 2012 and for the years then ended, present separately the assets and liabilities and changes therein pertaining to:

- the accounts of employees with vested rights allocated stock (Allocated) and
- common stock not yet allocated to employees (Unallocated)

Eligibility

Employees of the Companies who were otherwise eligible and an active employee on December 27, 2012 automatically became participants in the Plan. Employees of the Companies hired after December 27, 2012 are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such Plan year and are at least 18 years old.

Employer contributions

The Companies are obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its quarterly scheduled payments of principal and interest due on the notes payable.

Payment of benefits

Distributions are generally made in equal annual installments over a period not to exceed five years. Distributions due to death, disability, or retirement commence on or about the 180th day following the end of the year of the event. Distributions for other separations from service commence no later than the fifth Plan year following the separation from service. Distributions are made in cash or the Atrium stock represented by the units in the account will be distributed subject to the requirement that it be immediately purchased by the Company for cash. The amount to be distributed is based on the account valuation date immediately preceding the distribution.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2013 and 2012, the Company did not repurchase shares from participants.

Vesting

If a participant's employment with the Companies ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Companies. Participants become 20% vested after two years of service and vest an additional 20% per year until fully vested after six years of service. The Plan also provides that a participant that reaches normal retirement age or becomes disabled or dies while employed by the Companies will become 100% vested. Normal retirement age is age 65 for participants employed on December 27, 2012, and age 65 for participants hired after that date with completion of 5 years of service.

Forfeitures

Forfeited nonvested account balances are held in a special account for up to five years before being reallocated. When reallocated, forfeitures are allocated to each participant's account based upon the relation of the participant's account balance to the account balances of all participants. There were no forfeiture allocations during 2013 and 2012.

Administrative expenses

Certain administrative expenses are paid by the Companies and are excluded from these financial statements. Other expenses are paid by the Plan as provided in the Plan agreement.

Voting rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participant's nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance to the aggregate of all participants' account balances.

Put option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants is not readily tradable on an established market, or is subject to trading limitations, including a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the value of the stock based on the last completed valuation date. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a 6-year period. In each of the first 5 years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify can first transfer the amount to the Atrium Centers Inc. 401(k) Plan to the extent possible and then receive a cash distribution for any remaining amount.

Plan termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Plan administrator shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the note suspense account to the extent it determines such sale to be necessary in order to repay the notes payable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following accounting principles and practices of the Plan are set forth to facilitate the understanding of data presented in the financial statements:

Basis of accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Risks and uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Investment valuation and income recognition

The Atrium Centers Inc. common stock is valued at fair value (see Note 6). Dividend income is accrued on the ex-dividend date. Purchases and sales of securities are recorded on a trade date basis. Realized gains and losses are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through September 30, 2014, the date the financial statements were available to be issued.

3. TAX STATUS:

The Plan is intended to constitute an employee stock purchase plan within the meaning of IRC Section 423. Issuance of shares under this plan is not intended to result in taxable income to participants in the Plan, based on provisions of the IRC. Accordingly, the Plan is designed to be exempt from income taxes. The Companies believe the Plan has been operated in accordance with the IRC, and therefore, no provision for income taxes has been reflected in the accompanying financial statements. The Plan has applied for but has not yet received a determination letter from the Internal Revenue Service.

Accounting principles generally accepted in the United States of American require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or applicable state and local taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Since the Plan began in 2012, the only years that would be subject to income tax examination are 2012 and 2013.

4. ADMINISTRATION OF PLAN ASSETS:

The Plan's assets, which consist principally of sponsor Company common shares, are held by the Trustee of the Plan. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan. Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan.

5. INVESTMENTS:

The Plans investments, at December 31, 2013 and 2012 are presented in the following table:

	<u>2013</u>		<u>2012</u>	
	<u>Allocated</u>	<u>Unallocated</u>	<u>Allocated</u>	<u>Unallocated</u>
Atrium Centers Inc. common stock * :				
Number of shares	<u>22,630</u>	<u>296,870</u>	<u>-</u>	<u>319,500</u>

* Exceeds 5% of net assets available for benefits.

6. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measures at fair value.

Interest bearing cash: Valued at cost, which approximates fair value.

Atrium Centers Inc. common stock: The fair value of the Atrium Centers Inc. common stock held by the Plan at December 31, 2013 was valued using a weighted average approach based on the market and discounted cash flow methods. The fair value of the Atrium Centers Inc. common stock held by the Plan at December 31, 2012 was valued upon the market valuation technique where the appraiser took into account recent comparable sales of Company stock (the market approach) and changes in debt and cash to determine the fair value of the Company common stock. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the Plan trustee, reviews in detail, discusses and approves the valuation report.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013

Atrium Centers Inc. common stock	\$ 11,872,620	Market approach	Discount for lack of marketability

7. NOTES PAYABLE:

In 2012, the Plan entered into five separate note agreements totaling \$17,141,175. The proceeds of the notes were used to purchase Atrium Centers Inc. common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 22,630 shares of common stock and 23,162 shares of interest bearing cash being released and allocated for the year ended December 31, 2013. No shares were released and allocated for the year ended December 31, 2012.

The notes payable consist of the following:

	<u>2013</u>	<u>2012</u>
Indirect note payable to the Company; repayable in quarterly installments of principal and interest at 6%. Matures in 2032.	\$ 9,732,114	10,000,000
Unsecured note payable to an affiliate of the Company; repayable in quarterly installments of principal and interest at 5%. Matures in 2022.	1,841,691	2,000,000
Subordinated nonrecourse purchase money notes payable to certain owners of the Company; repayable in quarterly installments of principal and interest at 10%. Matures in 2022.	<u>4,824,440</u>	<u>5,141,175</u>
	\$ <u>16,398,245</u>	<u>17,141,175</u>

The scheduled amortization of the loan for the next 5 years and thereafter is as follows:

2014	\$ 800,315
2015	862,533
2016	930,021
2017	1,003,259
2018	1,082,770
Thereafter	<u>11,719,347</u>
	\$ <u>16,398,245</u>

8. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS:

The Plan invested in Atrium Centers Inc. common stock and has certain indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Notes 1 and 4, the Plan has a number of service providers. Such parties are parties-in-interest under ERISA.
