NOTE A-PLAN DESCRIPTION:

The Plan is a defined contribution plan covering all employees of High Tech Lending, Inc. (the Company). The plan was adopted on January 1, 2013. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The following is a summary of the major provisions of the Plan. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. Participation-All employees are eligible for employee salary deferral unless classified under excluded employee categories. Employees covered under a collective bargaining agreement, non-resident aliens who do not receive any compensation from U.S. sources and leased employees are not eligible to participate in the Plan. To be eligible for employer contributions, employees must have at least one year of service and be age 21 or older.

2. Contributions-Contributions to the Plan include salary deferral contributions authorized by participating employees and employer contributions. Participants may contribute to the plan at their discretion a portion of their annual pre-tax wages not to exceed $17,500 for the year ended December 31, 2013. Minimum participant deferral is 1% of plan compensation. The Plan also allows for catch-up contributions subject to Internal Revenue Service (IRS) limitations. The Company may make discretionary matching contributions to eligible participants. Discretionary matching contributions are made to the plan as a percentage of the participant's salary deferral.

   The Company may also make discretionary employer contributions to eligible participants. Discretionary employer contributions are made to the plan as either a percentage of the participant's compensation or as a dollar amount. In addition to any other contributions authorized under the Plan, the Company may make a special discretionary contribution called a qualified non-elective contribution (QNEC). There were no employer contributions for the year ended December 31, 2013.

   The total of any participant's salary deferral plus contributions made by the Company cannot be greater than the lesser of 100% of the employee pay or $51,000 for the tax year 2013.

3. Participant Accounts-Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings and, (c) appreciation in the value of investments and charged with an allocation of administrative expenses and investment losses and depreciation in the value of investments. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A-PLAN DESCRIPTION-CON'T:

4. Vesting-Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the discretionary matching and employer contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service or upon and after attaining normal retirement age of 65, if the participant is employed by the Company on or after that date.

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants are automatically 100% vested in QNEC contributions.

5. Investment Options-Upon enrollment in the Plan, a participant may direct employee contributions in investment options offered by the Plan. Participants may change their investment options at any time.

6. Participant Loans-Participants may borrow from their vested account balances up to a maximum of the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and charged a reasonable rate of interest which is disclosed at the time of loan request. The current interest rate as of December 31, 2013 is the prime interest rate plus one percentage point for a total of 4.25%. There are no outstanding participant loans as of December 31, 2013.

7. Payment of Benefits-On termination of service due to termination of employment, death, disability, or retirement, a participant or beneficiary may elect to receive the vested interest in his or her account in the form of a single lump sum distribution.

8. Hardship Withdrawals-Withdrawal of a portion of a participant's account will be permitted due to an immediate and heavy financial need, if it meets the IRS requirements.

9. Forfeitures-Forfeitures of unvested Company matching or employer contributions from terminated participant accounts can be used to offset future Company matching contributions, to offset future Company employer contributions, or to pay Plan administration expenses. There were no forfeitures during the year ended December 31, 2013.

NOTE B-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1. Basis of Accounting-The financial statements of the Plan are prepared using the accrual method of accounting.

2. Use of Estimates-The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

3. Subsequent Events-In accordance with generally accepted accounting principles, the Plan evaluates events or transactions that occur subsequent to year end for potential recognition or disclosure in the financial statements through the date on which the financial statements are available to be issued. The financial statements were approved by management and available to be issued on September 15, 2014. No events have occurred that, in the opinion of management, warrant recognition in the financial statements or disclosure in the notes to the financial statements as of December 31, 2013.

4. Administrative Expenses-Administrative expenses are paid by the either the plan or the plan sponsor. There were no administrative expenses paid during the year ended December 31, 2013.

5. Payment of Benefits-Benefits are recorded when paid.

6. Investment Valuation and Income Recognition-The Plan's investments are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note J for further discussion of fair market value measurements.

   Purchase and sale of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

NOTE C-INVESTMENTS:

The Plan's investments are held by a custodian, Great-West Financial, and are recorded at fair value. Information about the net assets relating to the participant-directed investments at December 31, 2013 is as follows:

In the event of Plan termination, participants will become fully vested in their employer contribution.

NOTE E-INCOME TAX STATUS:

Effective January 1, 2013, the Plan adopted a volume submitter profit-sharing plan. The Plan's legal counsel received determination letter dated March 31, 2008, in which the IRS stated that Plan is designed in conformity with the applicable requirements of the Internal Revenue Code (IRC).

Generally accepted accounting principles prescribes requirements for the recognition, measurement, classification and disclosure in the financial statements of uncertain tax positions taken or expected to be taken by the Plan. Management has evaluated the Plan's design and operation and has concluded that the Plan is designed and has been operated in compliance with the applicable requirements of the IRC. Further, management believes that the Plan has maintained its tax exempt status and has taken no uncertain tax positions that require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is subject to routine audits by the IRS and generally, the Plan's tax returns remain open for federal income tax examination for three years from the date of filing.

NOTE F-RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that, such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

NOTE G-PARTY-IN-INTEREST TRANSACTIONS:

The Plan utilizes a third-party administrator, ASC Institute, LLC. The Plan's investments are held by Great-West Financial, which is the custodian defined by the Plan; therefore, these transactions qualify as party-in-interest transactions.

NOTE I-INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information included in the accompanying financial statements and supplemental schedules were obtained from data that has been prepared and certified to as complete and accurate by the trustee, Great-West Financial, pursuant to ERISA, 29 CFR 2520.1035(c) for the plan year ended December 31, 2013.

Investments, at fair value		
Registered Investment Companies	$	243,076
Funds Held in Insurance Company General Account		3,068
Investment Income (Loss)	$	8,586

NOTE J-FAIR VALUE MEASURMENTS:

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy under generally accepted accounting principles are described below:

Level 1 - Quoted market prices in active markets for identical assets or liabilities
Level 2 - Observable market-based inputs or unobservable inputs corroborated by market data
Level 3 – Unobservable inputs reflecting the reporting entity's own assumptions

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques followed need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no change in the methodologies used at December 31, 2013.

Registered Investment Companies-Shares of mutual funds are valued at the published net asset value per share at the reporting date.

Funds Held in Insurance Company General Account-Shares of common and collective trust funds are valued at quoted market prices for similar assets in active markets.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair values or certain financial instruments could result in a different fair value measurement at the reporting date.
