1. DESCRIPTION OF PLAN

The following description of the Den-Tex Central, Inc. Employee 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a participant directed defined contribution 401 (k) profit sharing plan covering salaried employees (excluding highly-compensated individuals) of Den-Tex Central, Inc. (the Company) who have attained six months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

The Plan was established effective October 1, 1998, and restated effective January 1, 2002 to reflect certain provisions of the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

B. Employee Contributions

Each calendar year, participants may contribute up to 30% of their total compensation to the 401(k) Plan deferral, subject to federal limitations. Rollover contributions are accepted by the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

The Company made discretionary matching contributions of twenty-five cents ($0.25) for each dollar contributed up to a maximum of the first 4% of compensation deferred.

C. Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, and allocations of Plan earnings and losses. Allocations are based upon participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Eligible participants can enter the Plan on the first day of the next calendar quarter of the Plan year following six months of employment.

D. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. In the event of termination of employment for reasons other than death, retirement, or disability, a participant shall have a vested right in all Company generated portions of his or her account based on years of continuous employment with the Company as follows:

25% after 2 Years of Service
50% after 3 Years of Service
75% after 4 Years of Service
100% after 5 Years of Service

If a participant is not fully vested in the employer matching contribution on the date of separation, the non-vested portion will be forfeited and used to pay plan expenses or reduce future employer matching contributions.

E. Notes Receivable from Participants

Participants may borrow from their fund accounts and repay the amount borrowed, with interest, into their 401(k) account through payroll deductions. Participants may borrow a minimum of $1,000 from their accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, whichever is less. Loans may be repaid over a maximum period of five years. Any loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with market rates for similar loans.

F. Payment of Benefits

After election by the participant or their representative, benefits are payable upon termination of employment or by death, retirement or disability of the participant as soon as it is administratively feasible.

If a participant ceases employment with a vested account balance of $5,000 or less, the amount will be paid at that time. If the vested amount is greater than $5,000, there are options available regarding payout.

Deferred contributions may be available for withdrawal due to financial hardship, as defined by the plan.

Distributions of vested or rollover amounts are permitted in – service after age $59^{1/2}$ (limited to one withdrawal during any one-year period).

G. Forfeitures

In the event of a forfeited account balance, forfeitures may be used to pay Plan expenses. See additional information under D. above.

H. Administrative Expenses

Administrative costs of the Plan other than the asset fees or fees directly charged to a participant for a benefit payment are paid directly by the Company.

I. Investment Options

The assets of the Plan are allocated to the various funds at the discretion of the participant. There are over twenty investment options available for the investment of the participants' elective and matching contributions and are shown individually in the accompanying supplemental schedule.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The financial statements of the plan are prepared on a modified cash basis, which is a comprehensive basis of accounting other than generally accepted accounting principles.

B. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities.

C. Investment Valuation and Income recognition

The Plan's assets are held in mutual funds and a contract with an insurance company. The contract with the insurance company is valued at contract value, which approximates market value. All accounts are valued daily.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net investment gain or loss includes those on investments bought and sold as well as held during the year.

The investments in all of the funds are presented at fair market value, based on quoted market prices of the underlying securities within each fund at March 31, 2014 and 2013. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

D. Payments of Benefits

Benefits are recorded when paid.

E. Risk and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

F. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

G. Subsequent events

The Plan has evaluated subsequent events through the issuance date. No events were identified that would require disclosure in the accompanying financial statements.

3. INVESTMENTS

The following presents investments in mutual funds that represent five-percent or more of the Plan's net assets and their current value as of March 31, 2014 and 2013:

	2014	2013
Principal Bond & Mortgage Separate	$ 202,799	$ 206,249
Principal Lifetime 2020 Separate	75,224	-
Principal Lifetime 2030 Separate	157,218	82,951
Principal Large Cap Growth II Separate	102,734	82,703
Principal S & P 500 Index Separate	257,284	259,261

There are no reportable conditions that need to be disclosed in conjunction with Federal Form 5500, Schedule H, part 4, line 4j.

4. TAX STATUS

The Internal Revenue Service has determined and informed the Company, through the custodian, by letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan document is a prototype plan provided by Principal Financial Group, a related entity to Principal Life Insurance Company.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

5. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company, the Plan's custodian, has certified that the following data included in the accompanying financial statements and schedule is complete and accurate:

a) Investments, as presented in the accompanying statements of net assets available for benefits as of March 31, 2014 and 2013.

b) Net appreciation in fair value of pooled separate accounts and interest from the guaranteed interest account contract, as presented in the accompanying statements of changes in net assets available for benefits for the year ended March 31, 2014 and 2013.

c) The schedules of assets held for investment purposes at March 31, 2014 and 2013, as presented on the accompanying supplemental schedule.

6. PARTY-IN-INTEREST TRANSACTIONS

Principal Life Insurance Company manages all investments of the Plan. As Principal Life Insurance Company is the custodian of the Plan, these transactions qualify as party-in-interest transactions. Principal Life Insurance Company has not engaged in any non-exempt transactions that would be required to be reported.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and their balances will be distributed in accordance with the Plan agreement.

8. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

At March 31, 2014 and 2013, the Plan's investments were held by the Trustee. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at March 31, 2014 and 2013 as reported by the trustee is detailed in the accompanying supplemental schedule of assets held for investment purposes.

9. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1-
Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2-
Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability; and

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3-
Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2014 and 2013.

Mutual Funds- Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Investment Contract- Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. Most participant transactions are executed using contract value without adjustment. For these types of contracts, the contract value is a good proxy for fair value.

In determining the reasonableness of the methodology, a variety of factors are evaluated including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2014 and 2013:

INPUT LEVELS BY INVESTMENT CATEGORY

	2014	2013
Level 1	$ -	$ -
Level 2		
Balanced/Asset Allocation	326,881	183,481
Fixed Income	235,361	229,641
International Equity	63,513	50,983
Large U.S. Equity	360,538	341,964
Small/Mid U.S. Equity	83,303	61,976
Other	878	1,285

Level 3		
Short-Term Fixed Income	272,946	308,078
	$ 1,343,420	$1,177,408

EFFECT OF LEVEL 3 INPUTS ON NET ASSETS OR LIABILITIES

The following table shows the effect that Level 3 investments have on the plan's financial activity for the years ended March 31, 2014 and 2013:

Investment Contract-Short Term Fixed Income

		2014	2013

Unrealized gain or (loss)	$	(3,261)	587

10. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan includes a benefit-responsive investment contract called the Guaranteed Interest Account 5 Year. The unallocated, pooled separate accounts are maintained in a group annuity contract. The fund is credited with participant and matching contributions and interest earnings and is charged for participant withdrawals. Benefit payments are made at fair value (no termination or surrender charge adjustments) for plan benefit events and investment transfers initiated by plan participants. The fund provides a guarantee of principal and interest. The general account assets of Principal Life Insurance Company back these guarantees. The contract is included on the financial statements at fair value.

The Guaranteed Interest Account 5 Year is a general account product. Contributions and transfers allocated to this investment option will be credited interest at a guaranteed interest rate Principal Life Insurance Company declares for a set period of time (the guarantee period). Guaranteed interest rates for new allocations are subject to change daily, and each amount allocated to the guaranteed interest account will earn interest based on this guaranteed interest rate in effect for the date that the amount is allocated to this guaranteed interest account.
