RESOURCE VENTURES 401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Resource Ventures 401(k) Plan and Trust ("the Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all eligible employees of Resource Ventures, Inc. ("the Company") who are age 21 or older. An eligible employee is an employee who is not an independent contractor or nonresident alien. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Participants may contribute up to a portion of pretax annual compensation, as defined in the Plan, up to the maximum allowable by the Internal Revenue Code. Employees age 50 or over are eligible to make additional catch-up contributions. Participant contributions are limited to amounts available after other withholding from the participant's pay. The Company may make a discretionary contribution to the Plan in an amount to be determined by the Company. The Company made a discretionary matching contribution of 30% of the first 7% of a participant's salary deferrals on a per pay basis. The Company did not make an additional profit sharing amount in 2013. Participants may contribute Roth elective deferrals on an after-tax basis in lieu of pretax salary deferrals that participants are otherwise eligible to make under the plan. The Plan has implemented an automatic contribution election of 7% of pretax annual compensation for new participants. Participants may opt out of this election.

Participant Accounts: Each participant's account is credited with the participant's contributions and an allocation of the Company's contributions and Plan earnings and is charged with his or her withdrawals. Allocations are based on participant earnings or account balances, as defined by the Plan.

Participants may elect to direct the investment of current contributions, future contributions, or their accumulated account balances among alternative investment funds established by the Plan's Administrator.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service in accordance with the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 1	0%
1	33%
2	66%
3 or more	100%

Forfeited Accounts: Amounts forfeited by participants who have terminated employment with the Company will be allocated first to pay administrative expenses. Any forfeiture left after paying plan expenses are used to offset future Company contributions.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits: On termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's account, if not greater than \$5,000. If the participant's account is greater than \$5,000, the distribution shall be by lump sum payment or by periodic payments. Participants, or their beneficiaries, are entitled to receive 100% of their vested value of his or her account upon termination, normal retirement (age 65), death, or total and permanent disability. Participants are also eligible for in-service distributions of all or a portion of the participant's vested account upon reaching the age of 59 ½. For termination of service due to other reasons, a participant may receive the value of his or her account as a lump-sum distribution or by periodic payment.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with current rates as determined by the Plan administrator. Principal and interest are paid through payroll deductions.

Hardship Distributions: Participants can apply for hardship distributions not exceeding the lesser of the amount needed to satisfy the financial hardship or the vested amount of the participant's account balance.

Administrative and Investment Management Expenses: Loan origination fees associated with notes receivable from participants and certain record keeping fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income (loss) reported by the Plan. All other expenses of the Plan are paid by the Company.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results could differ from these estimates.

Contributions: Participant contributions are recognized when participant contributions are withheld and employer contributions are recognized when due. Rollover contributions are recognized when approved by the Company.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Fully Benefit-Responsive Investment Contracts: While Plan investments are presented at fair value in the statement of net assets available for benefits, any material difference between the fair value of the Plan's direct and indirect interests in fully benefit-responsive investment contracts and their contract value is presented as an adjustment line in the statement of net assets available for benefits, because contract value is the relevant measurement attribute for that portion of the Plan's net assets available for benefits. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses. Participants in fully benefit-responsive contracts may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan holds an indirect interest in such contracts through its investment in a stable value fund. No adjustments from fair value to contract value are presented in the statements of net assets available for benefits, as the amounts of the adjustments have been determined to be immaterial.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Risks and Uncertainties: The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 3 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following presents the valuation methods and assumptions used by the Plan to estimate the fair values of investments.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Pooled Separate Accounts: The fair values of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (Level 2 inputs). Several of the pooled separate accounts invest in open-ended mutual funds. Other pooled separate accounts invest in foreign and domestic equity securities. The investment strategies of the pooled separate accounts are consistent with the mutual funds held or the type of securities held. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

Stable Value Fund: The fair values of participation units in the stable value collective trust are based upon the net asset values of such fund, after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts, as reported in the audited financial statements of the fund as of the Plan's financial statement date (Level 2 inputs). The fund invests in conventional and synthetic investment contracts issued by life insurance companies, banks, and other financial institutions as well as cash equivalents, with the objective of providing preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The fund generally provides for redemptions by the Plan at reported net asset value per share within 30 days after written notification has been received.

Collective Trusts: The fair values of participation units in the collective trusts, other than the stable value fund, are based upon the net asset values of reported by the fund managers as of the financial statement dates and recent transaction prices (Level 2 inputs). The collective trusts invest in mutual funds, collective trusts and pooled separate accounts, with the objective of seeking total return consistent of long-term growth of capital and/or current income, consistent with the investment strategy of an investor who expects to retire at a specified date. The collective trusts generally provide for daily redemptions by the Plan at reported net asset value per share with no advance notice requirements.

Substantially all information pertaining to the Plan's investments included in the financial statements was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Principal Life Insurance Company and Delaware Charter Guarantee and Trust d/b/a Principal Trust Company (Principal Trust Company). This information has not been audited by independent accountants.

NOTE 4 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS (Continued)

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by as follows:

Mutual Funds	\$ 273,745
Common Collective Trusts	1,667,659
Pooled Separate Accounts	<u>1,055,101</u>
	<u>\$ 2,996,505</u>

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor ("DOL") regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. The Plan holds units of pooled separate accounts managed by Principal Life Insurance Company and units of collective trusts managed by Principal Trust Company which qualify as party-in-interest investments. The Plan also holds units of a Stable Value Fund issued by Union Bond & Trust Company, which is associated with Principal Life Insurance Company; therefore this investment constitutes a party-in-interest investment. Transactions with Principal Life Insurance Company and Principal Trust Company including payment of record keeping fees and investment management fees qualify as party-in-interest transactions. Some administrative expenses of the Plan are paid directly by the Company. Notes receivable from participants also represent party-in-interest transactions.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 – TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.
