**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

1. DESCRIPTION OF THE PLAN

General

The Van Wert County Hospital 401(k) Plan (the Plan), is a defined contribution plan covering eligible employees of The Van Wert County Hospital Association (the Hospital). Employees are eligible to participate in the Plan upon attainment of age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participants should refer to the Summary Plan Description for more complete information regarding the provisions of the Plan, a copy of which is available from the Hospital.

Contributions

Participants may make contributions to the Plan, subject to certain limitations. The Hospital makes a matching contribution of 50% of the first 2% contributed by the participants. Additionally, the Hospital may make a discretionary contribution at the end of the Plan year to all participants. The discretionary contribution, if made, is allocated in the same ratio as each participant's compensation bears to the total of such compensation of all participants.

Vesting

Participants are immediately vested in their contribution plus actual earnings thereon. Vesting in the Hospital contributions portion of their accounts plus actual earnings thereon is based on years of credited service. A participant is 100% vested after three years, with no vesting prior to three years of service. A participant or his or her beneficiary is immediately vested in his or her account upon death, retirement or termination of employment due to total permanent disability. Forfeitures of account balances by participants not fully vested are applied against Hospital contributions.

Participant Accounts

Participants direct the investment of their accounts among the investment funds offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

**VAN WERT COUNTY HOSPITAL
401(k) PLAN**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

Benefit Payments

On termination, a participant will receive a lump sum amount or joint and survivor annuity, equal to the value of the participant's vested interest in his or her account.

Participant Loans

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. Interest is calculated at a rate commensurate with loans from the trustee/recordkeeper and at local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through monthly payroll deductions.

Forfeitures

At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$7,672 and \$27,782, respectively. Forfeitures used during 2013 and 2012 were \$32,094 and \$2,958, respectively. These accounts are used to reduce employer contributions.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Changes in Net Assets Available for Benefits is prepared using fair value, which approximates contract value, for the fully benefit-responsive investment contract.

**VAN WERT COUNTY HOSPITAL
401(k) PLAN**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

Valuation of Assets

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and schedule. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Participant Loans

Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Administrative Expenses

Expenses of maintaining the Plan may be paid by the Hospital or the Plan at the Hospital's discretion.

Subsequent Events

The Plan has evaluated events or transactions occurring subsequent to the statement of net assets available for benefits date for recognition and disclosure in the accompanying financial statements through the date the financial statements are available to be issued which is September 30, 2014.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value *measurement*.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluate the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2013, there was one transfer into Level 3. There were no such transfers for the year ended December 31, 2012. Transfers into Level 3 from Level 2 were made due to the absence of observable market data. No other transfers between Levels occurred in 2013 and 2012.

VAN WERT COUNTY HOSPITAL 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2013 and 2012:

Pooled separate accounts: Represents accumulation units and the value is based on the underlying share values adjusted for dividends, distributions and the daily equivalent of any fee charged by the trustee. The value of each accumulation unit is published each day. Each investment account is exclusively invested in shares of a specific mutual fund as directed by the participant (Level 2).

Insurance contracts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments which comparable durations considering the credit-worthiness of the issuer (Level 3).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Insurance contract	\$ -	-	\$ 577,760	\$ 577,760
Pooled separate accounts:				
Pooled separate account - domestic equity	-	9,103,301	-	9,103,301
Pooled separate account - foreign equity	-	319,261	-	319,261
Pooled separate account - fixed income	-	3,777,772	-	3,777,772
Total assets at fair value	\$ -	\$ 13,200,334	\$ 577,760	\$ 13,778,094

**VAN WERT COUNTY HOSPITAL
401(k) PLAN**

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Insurance contract	\$ -	\$ 719,164	\$ -	\$ 719,164
Pooled separate accounts:				
Pooled separate account - domestic equity	-	7,786,576	-	7,786,576
Pooled separate account - foreign equity	-	303,738	-	303,738
Pooled separate account - fixed income	-	3,576,800	-	3,576,800
Total assets at fair value	\$ -	\$ 12,386,278	\$ -	\$ 12,386,278

Certain events limit the Plan's ability to transact at contract value with American United Life Insurance Company. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The following table sets forth the Plan's assets that are carried at fair value on a recurring basis, classified within Level 3 of the valuation hierarchy for the year ended December 31, 2013:

	2013
Beginning balance	\$ -
Contributions, net exchanges	11,908
Transfer in to level 3	719,164
Interest income	10,228
Sales, repayment settlements net	(163,540)
Ending balance	\$ 577,760

The fair value of the Guaranteed Investment Contract is based on significant unobservable inputs, including the credit worthiness of the issuer, American United Life Insurance Company and the terms of the investment contract. Significant fluctuations in any of the inputs in isolation could result in a significantly different fair value measurement.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

4. INVESTMENTS

The Plan has all of its investments managed by the American United Life Insurance Company (trustee) whereby all the Hospital contributions are remitted to the custodian and invested. The accounts are credited with actual earnings on the underlying investments and charged for plan withdrawals. The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certification from the trustee of the Plan that all the information provided by them is complete and accurate. Information included in the accompanying financial statements as to investments, interest and dividend income, net appreciation in fair value of investments and all information in the supplemental schedule is presented in reliance solely upon those certifications.

Investments that represent five percent or more of the Plan's net assets available for benefit are separately identified and presented in the following table:

	2013	2012
American Century Real Estate	\$ 784,892	\$ 756,310
American Century Ginnie Mae	\$ 1,267,693	*
American United Life Fixed account	*	\$ 719,164
Goldman Sachs Small-Cap Value	\$ 1,681,961	\$ 1,391,791
Goldman Sachs Mid-Cap Value	\$ 1,873,490	\$ 726,714
PIMCO Total Return	\$ 1,402,848	\$ 2,272,117
Russell Lifepoints 2025 Strategy	\$ 744,573	\$ 682,966

* Less than 5% of net assets available for benefits.

Insurance Contracts

The Plan has entered into a benefit-responsive investment contract with American United Life Insurance Company (AUL). AUL maintains the investments in fixed accounts. These accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value, which is an appropriate determination of fair value for the contract as reported to the Plan by AUL. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012**

American United Life Insurance Contracts – This is a common/collective trust which invests primarily in a diversified portfolio of insurance company contracts. The contracts are as follows:

- For insurance contract #G36148, the average yield was 1.75% for 2013, and the crediting interest rate as of December 31, 2013 was 1.75%.

Crediting interest rates are determined by dividing earned income for the day by the new contract value. On December 31, 2013 and 2012, fair value approximates contract value and there are no valuation reserves.

The Plan has a benefit-responsive investment contract with American United Life Insurance Company ("AUL"). AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on an agreed-upon formula with the issuer, but cannot be less than 1% as of December 31, 2013. Such interest rates are reviewed on an annual basis for resetting.

The investment contracts do not permit the insurance company to terminate the agreements prior to the scheduled maturity dates.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become fully vested in their account balances.

DECEMBER 31, 2013 AND 2012**

6. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Plan, by letter, dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been restated since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by various federal and state taxing authorities. Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes it is no longer subject to income tax examinations for years prior to 2010.

8. TRANSACTIONS WITH PARTIES-IN-INTEREST

All Plan investments are maintained by American United Life Insurance Company. Certain administrative expenses, including costs to prepare the annual IRS Form 5500 and the audit of the annual financial statements, are paid by the Plan's sponsor. Blue & Co., LLC is the Plan auditor.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
