401(k) Plan
Notes to the Financial Statements
(See Independent Auditor's Report)
as of December 31, 2013 and December 31, 2012

Note 1 - *Description of Plan*

The following description of the Jenkins Services, Inc. ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

A. General

The Plan is a defined contribution plan covering all employees of the Company who have one-half year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, not to exceed the dollar limitation contained in Internal Revenue Service Code Section 402(g)(for 2013 $17,500), and to deposit such amount in the Plan fund. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make matching contributions to each participant based on his or her elective deferral in a percentage set by the Company prior to the end of each plan year. The Company may also make a discretionary contribution amount determined in its sole judgement. This discretionary contribution, if any, will be allocated in proportion to each eligible employees' compensation as a ratio of all eligible employees' compensation.

Note 1 - *Description of Plan (continued)*

C. Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings and, (c) forfeited balances of terminated participants' non-vested accounts, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting

Participants are immediately vested in their contributions. Company contributions and actual earnings on all contributions become vested after one year of service. A participant is 100% vested after six years of credited service, or upon reaching normal retirement age, or becoming totally disabled or dying, or if the Company completely discontinues contributions to the Plan.

E. Participants' Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Notes fund. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator.

Note 1 - *Description of Plan (continued)*

F. Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments, or applied to the purchase of an annuity contract. For termination of services due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

G. Forfeited Accounts

For the year ended December 31, 2013, forfeited non-vested accounts totaled $4,191. These amounts were used to offset employer contributions.

H. Administrative Fees and Expenses

All reasonable costs, charges, and expenses incurred by the Trustee or Plan Administrator in connection with the administration of the Plan (including fees for auditing services rendered to the Plan Administrator) may be paid by the Company, but if not paid by the Company when due, shall be paid from the fund.

Note 2 - *Summary of Accounting Policies*

A. Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Note 2 - *Summary of Accounting Policies (continued)*

B. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Recognition of Income

The basis of investments held by the Plan are adjusted annually to the closing market value and unrealized gains and losses are recorded as part of this adjustment. Realized gains and losses on investments are computed using adjusted basis (beginning of year market value) on the first-in, first-out method. Security transaction expenses are considered in computing realized gains and losses on investments.

D. Investments

Investments in registered investment companies (mutual funds) are carried at fair market value (net asset value), as determined by quoted prices in an active market. Net appreciation (depreciation) in the fair market value of the investments is reflected in the statement of changes in net assets available for plan benefits. Dividends are considered in the fair market value determination.

E. Payment of Benefits

Benefits are recorded when paid.

Note 2 - *Summary of Accounting Policies (continued)*

F. Subsequent Events

Subsequent events have been evaluated by management through the date of the independent auditor's report. Material subsequent events, if any, are disclosed in a separate footnote to these financial statements.

Note 3 - *Plan Termination*

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 4 - *Information Prepared by Principal Trust Company*

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared by Principal Trust Company.

Balance Sheet as of	December 31, 2013	December 31, 2012
Registered investment companies	$6,604,305	$4,545,530
Statement of Changes in Net Assets for year ended December 31, 2013		
Net investment gain	$1,106,379	
Dividend income	$ 77,053	
Interest income	$ 11,363	

Note 5 - Income Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code. Management is not aware of any tax positions that would have a significant impact on its financial position. Its tax returns for the last 4 years remain subject to examination.

Note 6 - Fair Value Measurements

In accordance with U.S. generally accepted accounting principles, the Plan provides a fair value hierarchy that prioritizes the inputs for the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Note 6 - Fair Value Measurements (continued)

- if the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Gains and losses (realized and unrealized) included in changes in net assets are reported in net appreciation (depreciation) in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

There have been no changes in methodologies used during 2013 and 2012. Following is a description of the valuation methodologies used for assets measured at fair value:

Registered Investment Companies (Mutual Funds): Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6 - Fair Value Measurements (continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value:
