(formerly SymphonyIRI Group, Inc. Amended and Restated 401(k) Retirement Savings Plan and Trust)

Notes to Financial Statements

December 31, 2013

1. Description of the Plan

The following description of the Information Resources, Inc. (the Company or Plan Sponsor) Amended and Restated 401(k) Retirement Savings Plan and Trust (formerly SymphonyIRI Group, Inc. Amended and Restated 401(k) Retirement Savings Plan and Trust) (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. The plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective April 12, 2013, the name of the Company changed from SymphonyIRI Group, Inc. to Information Resources, Inc., subsequently changing the name of the plan to the Information Resources, Inc. Amended and Restated 401(k) Retirement Savings Plan and Trust on the same effective date.

Eligibility

A regular full-time employee (at least 40 hours per week) becomes eligible to participate as of the latter of attaining age 21 or the first of the month following the date of employment; a regular part-time employee (less than 40 hours per week) is eligible to participate upon attaining age 21 and working 1,000 hours in a plan year. Temporary employees (regardless of hours worked per week) who are hired, rehired, or transferred into a temporary status are not eligible to participate while classified as temporary.

Contributions

Participants may contribute between 2% and 50% of their cash compensation, as defined under the Plan, in any combination of pretax or Roth contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions.

Each year, the Company may elect to make a matching contribution to the Plan on behalf of those employees who make elective deferral contributions to the Plan during the year. The Company's matching contribution is based on a maximum of 6% of each participant's compensation, as defined. Company matching contributions were 35% of the amount contributed by participants in 2013 and 2012.

1. Description of the Plan (continued)

All contributions are subject to certain limitations of the Internal Revenue Code (the Code).

Investment Options

Participants may direct employee and Company contributions to one or a combination of fund options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's elective deferral contribution and the Company's matching contribution, if any, and allocation of plan earnings. Plan earnings are allocated based on the participant's share of earnings or losses of their respective elected investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Forfeitures are used to reduce the Company's matching contributions and to pay administrative expenses. Forfeitures of $378,740 and $275,829 were used in 2013 and 2012, respectively. Such forfeitures included $107,197 and $233,594 that was available at December 31, 2013 and 2012, respectively. The 2013 and 2012 balances were used to reduce the respective year's Company contribution receivable, future year Company contribution, and administrative expenses.

Vesting

Participants are immediately vested in their elective deferral contributions and rollovers, plus actual earnings thereon. Vesting in the Company's matching contribution is based on years of continuous service. A participant is 100% vested after five years of service. A participant also becomes 100% vested upon retirement, disability, or death.

Participant Loans

Participants may, subject to certain conditions and limitations, borrow from the Plan up to a maximum of the lesser of $50,000 or 50% of such participants' vested accounts. The minimum loan amount is $1,000. Payments made by participants on outstanding loans are made biweekly and range from 6 to 240 months.

1. Description of the Plan (continued)

Payment of Benefits

On termination of service, a participant with an account balance of $1,000 or less will receive a single lump sum equal to the value of his or her account. Participants with account balances exceeding $1,000 can elect to receive a lump-sum distribution or may defer payment until a later date. Payment of such deferred amounts to participants must be made no later than the 60th day after the end of the plan year during which the latter of the following events occurs: (a) the participant reaches age 65 or (b) the participant retires, but no later than April 1 after the close of the plan year in which the participant attains age 70 1/2, regardless of whether the participant actually retires.

Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Administrative Expenses

Administrative expenses are generally paid by the Company. Certain management fees and other related expenses are paid by the Plan.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

2. Significant Accounting Policies (continued)

Investment Valuation and Investment Income

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest, dividends, interest income on notes receivable from participants, and investment expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

The fair value of individual investments that represent 5% or more of the Plan's net assets available for benefits is as follows:

	December 31	
	2013	**2012**
Fidelity OTC Portfolio Fund	**$ 27,594,734**	$ 19,018,298

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest-level input that is significant to the fair value measurement in its entirety.

4. Fair Value Measurements (continued)

The following is a description of the valuation techniques and inputs used for each major class of assets measured at fair value by the Plan:

Registered investment companies: valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year-end.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2013:

5. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated September 27, 2013, stating that the Plan is qualified under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Related-Party Transactions

The Plan holds shares of registered investment companies managed by Fidelity, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

8. Subsequent Events

Management evaluated subsequent events for the Plan through October 3, 2014, the date the financial statements were available to be issued.
