BALL AUTOMOTIVE GROUP 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2013 AND 2012

A. Description of Plan

The following description of the Ball Automotive Group 401(k) Plan (the Plan) provides only general information. The Plan was restated effective November 1, 2010. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Ball Automotive Group (the company) who have completed at least six months of service and are at least 21 years old. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 15% of their compensation, not to exceed the limits of Internal Revenue Code Sections 401(k), 404 and 415 which for the years ended December 31, 2013 and December 31, 2012 were $17,500 and $17,000, respectively. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to an additional $5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover).

All contributions under the Plan are to be invested in shares of investment companies for which Sentry Life Insurance Company acts as transfer agent and which are selected by the employer as investment options under the Plan. The Plan allows participants to self-direct their account balances among certain investments. At December 31, 2013 and 2012, all funds, except for common stock (see Note G), were self-directed by the participants.

Participant Accounts

Each participant's account is credited with the participant's contributions and Plan investment earnings or losses of the trust fund. Participants will only realize the gain or loss of their individual investment selections. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their 401(k) contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Note terms range from one to five years or up to fifteen years for the purchase of a primary residence. The notes are secured by the participant's vested account balance. Each note bears an interest rate equal to the prime rate in effect at the time of the loan plus 2.00%. The current interest rate is 5.25%. Principal and interest are paid ratably through payroll deductions on a level amortization basis.

A. Description of Plan (Concluded)

Payment of Benefits

On termination of employment, a participant will receive benefits equal to the value of the participant's contributions to the Plan and all related earnings thereon. The participant has the option to receive the benefits in the form of deferred annuities, to continue the account until retirement, a cash payment, installment payments or a direct rollover.

Upon retirement, a participant will receive 100% of the value of the participant's account balance. The participant has the option to receive the benefits in the form of a cash payment, installment payments, joint survivor annuity, life annuity or continuation of account until the age of 70½.

Upon death prior to retirement, the full value of a participant's account will be paid to a spouse or another beneficiary. The account balance will be paid in the form of an annuity, installments or a one-sum cash payment.

Forfeited Accounts

Forfeitures do not exist in the Plan as participants are immediately vested in their 401(k) contributions plus actual earnings thereon.

Plan Administrator Fees

All routine Plan administrative expenses including, but not limited to, fees of accountants, counsel, and other specialists and their agents, and other costs of administering the Plan may be paid out of the trust fund unless paid by the employer. For the year ended December 31, 2013, administrative fees paid by the Plan totaled $16,080.

B. Summary of Accounting Policies

Date of Management's Review

For the year ended December 31, 2013, the Plan has evaluated subsequent events for potential recognition and disclosure through September 29, 2014, the date on which the financial statements were available to be issued. It has been determined that no subsequent events or transactions need to be recognized or disclosed in these financial statements.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

B. Summary of Accounting Policies (Concluded)

Investment Valuation and Income Recognition

The Plan's investments, except for the investment in the guaranteed interest account and notes receivable from participants, are presented at fair value. Fair value of the funds is determined based on the underlying investments of the related funds as reported by Sentry Life Insurance Company, based on quoted market prices. Such investments are credited with earnings of the underlying investments and charged for Plan withdrawals and administrative expenses incurred.

Investment contracts held by a defined-contribution plan are required to be reported at fair value; however, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan offers a guaranteed interest account which is a type of investment contract. The statements of net assets available for benefits presents the fair value of the guaranteed interest account investment, as well as the adjustment, if any, of the fully benefit-responsive guaranteed interest account investment from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Notes receivable from participants are valued at the outstanding balance which approximates fair value.

Purchases and sales of these investments are reflected on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

C. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2013	2012
Guaranteed Fund	$ 386,191	$ 414,945
Small Cap Growth Account III	$ 85,296	**
Sentry 2015 Target Retirement Account	**	$ 81,815
Sentry 2025 Target Retirement Account	$ 346,936	$ 352,644
Notes receivable from participants	$ 79,192	$ 96,823

** less than 5%

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $130,936 as follows:

Mutual funds	$ 107,133
Common stock	8,462
Interest income	15,341
Total appreciation	$ 130,936

D. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of their future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lower priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

D. Fair Value Measurements (Continued)

Level 1 Fair Value Measurements

The fair value of mutual funds is based on net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements

The fair value of the guaranteed fund is based on the underlying assets of the contracts. The fair value is expressed in units.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012.

E. Information Prepared and Certified by Custodian (Unaudited)

At December 31, 2013 and 2012, the Plan's investments were held by the custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reportin g and Disclosure under the Employee Retirement Income Security Act of 1974.

The fair value of investments at December 31, 2013 and 2012, as reported by the custodian, is summarized as follows:

	2013	2012
Investments, at fair value exclusive of common stock	$ 1,158,116	$ 1,122,135
Net appreciation in fair value of investments	$ 107,133	
Interest income	$ 10,222	

F. Contract with Insurance Company

The Plan has a fully benefit-responsive investment contract with Sentry Life Insurance Company (Sentry). Sentry maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Sentry. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. Sentry may not terminate the contract at any amount less than contract value.

Sentry is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed on at least an annual basis for resetting. The crediting rate of the contract will track current market yields on a trailing basis.

	2013	2012
Average yields	2.75%	2.90%

G. Nonparticipant-directed Investments

During 2002, the Plan received 407 shares of common stock as a result of the demutualization of a holding company. Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investments is as follows:

	2013	2012
Net Assets:		
Common stock	$ 20,069	$ 11,608

	Year Ended December 31, 2013
Change in Net Assets:	
Unrealized appreciation of common stock	8,462
	$ 8,462

H. Plan Termination

Although it has not expressed any intent to do so, the company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

I. Tax Status

The Internal Revenue service has determined and informed Sentry Life Insurance Company by a letter dated March 31, 2008, that the protype Plan is designed in compliance with the applicable requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2011.

J. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

K. Excess Contributions Payable

Contributions received from participants for 2013 are net of payments of $11,631 refunded in 2014 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. That amount is also included in the Plan's statement of net assets available for benefits as excess contributions payable at December 31, 2013.

As required by the Internal Revenue Service, refunds not made in a timely manner result in levy of an excise tax. The excise tax will be calculated and remitted with Form 5330 by the Plan administrator in late 2014.

L. Related Party Transactions

Certain Plan investments are units of pooled separate accounts managed by Sentry Life Insurance Company. Sentry is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services amounted to $16,080 for the year ended December 31, 2013.

M. Reconciliation of Form 5500 to Financial Statements

The following is a reconciliation of the net assets per Form 5500 for the years ended December 31, 2013 and 2012 to the financial statements:

	2013	2012
