NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of Harmac Medical Products, Inc. Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan sponsored by Harmac Medical Products, Inc. (the Company) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The 401(k) Committee, which is composed of members of the Company's Board of Directors and management, is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Eligibility:

Employees of the Company are eligible to participate in the Plan when they have completed five months of service and are age 21 or older.

Contributions:

Participants may make voluntary pre-tax or post-tax contributions to the Plan up to 100% of their eligible compensation, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make additional contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover).

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 5% of eligible compensation and their contributions invested in one of Principal Life Insurance Company's pooled separate accounts based on the participant's expected date of retirement until changed by the participant. Participants' deferral rates are automatically increased by 1% each year, up to a maximum of 8%, unless they opt to contribute a different percentage.

The Company makes matching contributions equal to 50% of participant contributions, up to a maximum of 5% of the participant's eligible compensation, as defined by the Plan. The Plan permits the Company to make discretionary contributions. The Company did not make discretionary contributions for the years ended December 31, 2013 and 2012.

Contributions are subject to certain limitations of the Internal Revenue Code (the Code). Participants direct the investment of contributions into various investment options offered by the Plan.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Participant accounts:

Each participant's account is credited with the participant's contributions, Company contributions, an allocation of Plan earnings, reduced for benefits paid and an allocation of investment management and recordkeeping fees, and charged directly for benefit processing fees, if applicable. Allocations of Plan earnings and investment management and recordkeeping fees are based on the investments held by the participant. The benefit to which a participant is entitled is limited to that which can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Company contributions become 40% vested after two years of credited service, as defined, with vesting increasing at 20% increments each year thereafter, to 100% after five years of credited service.

A participant also becomes 100% vested if the Plan is terminated, upon reaching normal retirement age of 65, upon reaching an early retirement age of 55 and completing 5 years of service, or if they die or become disabled while still employed by the Company.

Forfeitures:

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $-0- and $277, respectively. Forfeitures of nonvested Company contributions are used to pay administrative expenses of the Plan or to reduce the Company's contributions. Forfeitures of $-0- and $28 were used to pay administrative expenses and forfeitures reduced Company contributions by $10,443 and $4,310 in 2013 and 2012, respectively.

Payment of benefits:

On termination of service due to death, disability or retirement, a participant or his or her beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or an annuity equal to the value of his or her account. Distributions are also permitted in the event of financial hardship, as defined by the Plan.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description (Continued)

Administrative expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from the financial statements. The Plan pays for investment management, recordkeeping and benefit processing fees which are charged directly to the participant's account. Investment expenses related to fund management are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment from the Plan.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements have been prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the collective investment trust, as well as the adjustment of the fully benefit-responsive collective investment trust from fair value to contract value. The statements of changes in net assets available for benefits are prepared using the contract value basis for the fully benefit-responsive collective investment trust.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan's 401(k) Committee determines the Plan's valuation policies utilizing information provided by the custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Excess contributions:

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. No liability was required to be recorded at December 31, 2013 and 2012.

NOTES TO FINANCIAL STATEMENTS

Note 2. Significant Accounting Policies (Continued)

Benefits:

Benefits are recorded when paid.

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events:

Subsequent events have been evaluated through October 1, 2014, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

Note 4. Fair Value Measurements

Accounting principles generally accepted in the United States of America establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). These funds are required to publish their daily net asset value (NAV) and to transact at that price. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The funds held by the Plan are deemed to be actively traded.

NOTES TO FINANCIAL STATEMENTS

Note 4. Fair Value Measurements (Continued)

Collective investment trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchase and sales) may occur daily. The investment in the collective investment trust is fully benefit-responsive.

Guaranteed interest accounts: The guaranteed interest accounts are valued at fair value by Principal Life using a market value adjustment approach. The calculated fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates, while also considering the creditworthiness of the issuer. In determining the reasonableness of the methodology, the 401(k) Committee evaluates a variety of available information, including general economic conditions and market developments. The guaranteed interest accounts are not fully benefit-responsive.

Pooled Separate Accounts: Valued at the NAV of units of the pooled separate account. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. Pooled separate accounts are comprised primarily of shares of registered investment companies held through sub-accounts of a separate account of an insurance company. The Plan has concluded that the NAV, as adjusted (for mutual fund dividends, mutual fund splits and administrative maintenance charges and other items) and reported by the insurance company, is used as a practical expedient to estimate fair value. The investments are redeemable daily at the adjusted NAV under agreements with the insurance company. However, it is possible that the redemption rights may be restricted or eliminated in the future.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

NOTES TO FINANCIAL STATEMENTS

Note 4. Fair Value Measurements (Continued)

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2013 and 2012, respectively:

Description	**Fair Value at December 31, 2013**	Fair Value at December 31, 2012	Redemption Frequency	Redemption Notice Period
Collective investment trust	**$ 576,222**	$ 372,923	Daily	None
Pooled separate accounts	**$ 5,169,964**	$ 3,843,727	Daily	None

There were no unfunded commitments related to the collective investment trust or pooled separate accounts at December 31, 2013 or 2012.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note 6. Tax Status

The Plan adopted a nonstandardized form of a prototype plan sponsored by Principal Life. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status dated March 31, 2008. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTES TO FINANCIAL STATEMENTS

Note 7. Party-in-Interest Transactions

A party-in-interest is defined under the Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, certain participants, and others.

Certain Plan investments are held or managed by Principal Life. Principal Life is one of the custodians as defined by the Plan and, therefore, transactions within these investment funds qualify as party-in-interest transactions. Fees paid by the Plan to Principal Life amounted to $1,574 and $5,881 for the years ended December 31, 2013 and 2012, respectively. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment from the Plan.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
