NOTE 1 DESCRIPTION OF PLAN

The following brief description of the Retech Systems LLC 401(k) Profit Sharing Plan (the Plan) is provided for general information. Participants should refer to the Plan document and the amendments thereto for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Retech Systems LLC (the Company). Employees are eligible to participate in elective deferrals as well as participate in the employer match and nonelective (profit sharing) contributions to the Plan at their date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan was established effective January 8, 2001, with a restated effective date of January 1, 2002.

The Plan includes an automatic enrollment policy. All eligible employees that make no enrollment election, either positive or negative, within their first 30 days of becoming eligible, will be automatically enrolled at a 3% savings rate increasing 1% each year up to 8%.

Contributions

Participants may contribute up to 50% of their annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are also eligible to make catch-up contributions. Company matching contributions are discretionary. In addition, Company non-elective (profit sharing) contributions are discretionary.

The Company made matching contributions of 50% of the participants' contributions, up to the first 8% of compensation deferred by the participant. The total matching contribution for calendar year 2013 was $237,572. The Company reallocated 2012 forfeitures as employer contributions for calendar year 2013. Both employee and employer contributions are subject to the nondiscrimination requirements of the Internal Revenue Code.

Participants direct the investment of their contributions into various investment options offered by the Plan.

Forfeitures

Forfeitures of terminated non-vested account balances can be used to reduce the Company's matching contributions, plan expenses, or be reallocated as employer contributions of the subsequent year. As of December 31, 2013 and 2012, forfeited non-vested accounts totaled $13,574 and $2,246, respectively, to be reallocated as employer contributions in the following year of 2014 and 2013, respectively.

NOTE 1 DESCRIPTION OF PLAN (continued)

Participant Accounts

Each participant's account is credited with the participant's contributions, credited with allocations of the Company's matching contribution and nonelective (profit sharing) contribution, if any, and charged with an allocation of the Plan's earnings or losses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.00%, commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings or losses thereon. Participants vest in the Company's matching and profit sharing contributions based upon years of employment with the Company (after three years of service for employees hired after February 1, 2009). Existing employees hired on or before February 1, 2009, vested immediately after attaining two years of service.

Payment of Benefits

Generally, upon termination of service and at any point in time thereafter, an employee may elect to receive a lump sum amount equal to his or her vested account balance. However, if the employee's vested balance is less than $5,000, he or she must receive a lump sum distribution. In certain hardship situations, as described in the Plan, participants may withdraw all or part of their vested account balances while actively employed.

Date of Management's Review

Subsequent events were evaluated through September 30, 2014, which is the date the financial statements were available to be issued.

NOTE 2 SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are maintained on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value of mutual funds is based on quoted market prices in an active market as of the last day of the Plan year. Fair value of guaranteed accounts is based on the contract value with a market value adjustment factor representing current market conditions. Investment transactions are recognized principally on the trade date. All Plan assets are held by Great-West Life & Annuity Insurance Company ("GWL&A"), the custodian, who maintains custody of the investments and executes all investment transactions.

Concentrations of Credit Risk

The Plan has investments that are subject to market fluctuations that may materially affect investment balances.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

During the year ended December 31, 2013, contract administrator fees of $2,823 were paid by the Plan. All other administrative expenses of maintaining the Plan were paid by the Company, except those specifically allocated to individual participant accounts per provision of the Plan.

NOTE 3 INVESTMENTS

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated in value by $1,047,466. The following presents participant-directed investments that represent 5% or more of the net Plan's assets:

	December 31, 2013
Key Guaranteed Portfolio Fund	$ 1,576,640
Maxim Index 600	1,154,301

Munder Mid-cap Core Growth A	732,271
Maxim S & P 500 Index	639,172
American Funds Capital World G/I R3	634,372

NOTE 4 FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

SFAS No. 157, *Fair Value Measurements,* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements: The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

Level 2 Fair Value Measurements: The guaranteed investment contract with an insurance company that is not actively traded. The reported value is reported daily based upon the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

Level 3 Fair Value Measurements: The participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance. The following table provides further details of the Level 3 fair value measurements.

NOTE 4 FAIR VALUE MEASUREMENTS (continued)

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

NOTE 5 INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan is in a benefit-responsive investment contract with GWL&A, which maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the plan by GWL&A. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $1,576,640 and $1,361,664, respectively. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

NOTE 5 INVESTMENT CONTRACT WITH INSURANCE COMPANY (continued)

The average yield earned by the Plan for the benefit responsive fund can be derived by averaging the quarterly gross interest rates for the fund over the year. The actual average yield earned by the Plan for the benefit responsive fund for 2013 is 1.26% and for 2012 is 1.45%.

Certain events might limit the Plan's ability to transact at contract value with GWL&A, such as complete or partial plan termination. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the schedule maturity date.

NOTE 6 RECONCILIATION OF FINANCIAL STATEMENT TO SCHEDULE H OF FORM 5500

NOTE 6 RECONCILIATION OF FINANCIAL STATEMENT TO SCHEDULE H OF FORM 5500 (continued)

	Participant	Employer

Add: Refundable participant contributions	6,972	-
Contributions per Schedule H of Form 5500	$ 661,205	$ 237,572

NOTE 7 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to suspend or discontinue contributions at any time and to terminate the Plan in whole or in part, subject to the provisions of ERISA. In the event of Plan termination, the Trustee shall determine whether the assets of the Plan shall be liquidated and distributed or whether the assets shall continue to be held in trust and distributed in accordance with the terms of the Plan.

NOTE 8 TAX STATUS

The Plan is under a prototype plan arrangement with GWL&A, which has received a letter from the Internal Revenue Service stating that its master prototype plan is designed in accordance with applicable regulations of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 9 CERTIFIED INFORMATION

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, GWL&A, the custodian for the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for plan benefits as of December 31, 2013, the schedule of assets held for investment purposes as of December 31, 2013, and the related transactions reflected in the statement of changes in net assets available for plan benefits for the year ended December 31, 2013.

NOTE 10 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 11 RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by GWL&A, the trustee and custodian of the assets, therefore, these transactions and the insurance contract with GWL&A, qualify as party-in-interest transactions. GWL&A has not engaged in any nonexempt transactions that would require to be reported. Fees paid by the Plan for the investment management services amounted to $2,823 for the year ended December 31, 2013.

The Plan allows for participant loans which creates a party-in-interest transaction. The value of participant loans at December 31, 2013 was $136,811.

NOTE 12 CORRECTIVE DISTRIBUTIONS

The Plan made corrective distributions to participants of $11,996, which includes allocable 2013 income, to participants that exceeded their allowed Actual Deferral Percentage for 2012.

NOTE 13 RECLASSIFICATIONS

Certain amounts in the 2012 financial statements have been reclassified to conform to the 2013 presentation.
