RAISING CANE'S RETIREMENT SAVINGS PLAN
PLANO, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Raising Cane's Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of Raising Cane's USA, LLC (the Company or Employer) who are not covered by a collective bargaining agreement and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year participants may contribute up to the maximum deferral amount indicated by the Internal Revenue Service (IRS) (designated salary deferrals) which is contributed to the Plan on the employees' behalf. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make contributions in the form of Roth deferral contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or defined contribution plans.

The Company may make matching contributions based on the discretion of the Board. The Company's matching contribution for the year ended December 31, 2013 was 25% up to 6% of employee salary deferrals. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with (1) the participant's contribution, and Employer matching contributions, if any, and (2) an allocation of the Plan's earnings and administrative expenses. The allocation of earnings is based on the actual performance of the fund in which the participant chose to invest their money, less any applicable fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in Employer contributions is based on the number of completed years of service as follows:

Less than 2 years	0%
2 years	25%
3 years	50%
4 years	75%
5 years	100%

Payment of Benefits: Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In service withdrawals are permitted for participants who have attained the Plan's normal retirement age of 65.

Forfeitures: At December 31, 2013 and 2012, forfeited non-vested accounts totaled $13,147 and $6,875, respectively.

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at estimated fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Plan Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

3. Investments (unaudited)

During the year ended December 31, 2013 the Plan's investments in mutual funds (including investments bought, sold, and held during the year) appreciated in value by $381,379. Investments that represented 5% or more of the Plan's net assets at the end of the Plan year are as follows at December 31:

	December 31,	
	2013	2012
Fidelity Retirement Money Market	$ 394,335	$ 348,891
Fidelity International Discovery	253,803	178,283
Fidelity Freedom 2030	192,543	140,437
Fidelity Freedom 2035	**	127,495
Fidelity Freedom 2040	405,142	236,397
Fidelity Freedom 2045	234,251	135,638
Fidelity Freedom 2050	244,567	136,270
Fidelity Contrafund	278,479	175,324
	$ 2,003,120	$ 1,478,735

** Amounts represented less than 5% of net assets available for benefits at the end of the Plan year.

4. Fair Value Measurements

The *Fair Value and Disclosures* topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the framework are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds and money market fund: Value at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan administration believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. **Fair Value Measurements (continued)**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013

	Level 1	Level 2	Level 3

Total assets at fair value	$ 2,316,690	$ -	$ -

5. **Income Tax Status**

The Plan is a qualified cash or deferred arrangement established under Section 401(k) of the Internal Revenue Code. It is exempt from income taxes under Section 401(a) of the Internal Revenue Code. The Plan has executed an adoption agreement using Fidelity Management Trust Company non-standardized profit sharing/401(K) plan and relies on the determination letter issued for the prototype plan dated March 31, 2008. Although the Plan has been amended, the Plan administrator believes the Plan continues to operate in accordance with applicable rules and therefore, remains tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination.

5. **Income Tax Status (continued)**

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, all participants are 100% vested in their accounts.

7. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. **Information Prepared and Certified by the Trustee**

Pursuant to 29 CFR 2520.103-8 the Plan qualified for a limited scope audit. Information relating to investment assets, investment transactions, investment earnings and the schedule of assets held for investment purposes was certified as complete and accurate by the trustee, Fidelity Management Trust Company, as of December 31, 2013 and 2012, and for the year ended December 31, 2013.

9. **Excess Contributions**

For the year ended December 31, 2013, the Plan failed to satisfy the relevant nondiscrimination provisions of the Plan. In order to be in compliance, the Plan returned certain excess contributions by March 15, 2014. For the year ended December 31, 2013, excess contributions to be returned to participants were approximately $19,000 and are recorded as a liability on the Statement of Net Assets Available for Benefits at December 31, 2013.

RAISING CANE'S RETIREMENT SAVINGS PLAN
PLANO, TEXAS

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Raising Cane's Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all full-time employees of Raising Cane's USA, LLC (the Company or Employer) who are not covered by a collective bargaining agreement and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year participants may contribute up to the maximum deferral amount indicated by the Internal Revenue Service (IRS) (designated salary deferrals) which is contributed to the Plan on the employees' behalf. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make contributions in the form of Roth deferral contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or defined contribution plans.

The Company may make matching contributions based on the discretion of the Board. The Company's matching contribution for the year ended December 31, 2013 was 25% up to 6% of employee salary deferrals. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with (1) the participant's contribution, and Employer matching contributions, if any, and (2) an allocation of the Plan's earnings and administrative expenses. The allocation of earnings is based on the actual performance of the fund in which the participant chose to invest their money, less any applicable fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in Employer contributions is based on the number of completed years of service as follows:

Less than 2 years	0%
2 years	25%
3 years	50%
4 years	75%
5 years	100%

Payment of Benefits: Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In service withdrawals are permitted for participants who have attained the Plan's normal retirement age of 65.

Forfeitures: At December 31, 2013 and 2012, forfeited non-vested accounts totaled $13,147 and $6,875, respectively.

NOTES TO FINANCIAL STATEMENTS

2. Summary of Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at estimated fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefits are recorded when paid.

Plan Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

3. Investments (unaudited)

During the year ended December 31, 2013 the Plan's investments in mutual funds (including investments bought, sold, and held during the year) appreciated in value by $381,379. Investments that represented 5% or more of the Plan's net assets at the end of the Plan year are as follows at December 31:

	December 31,	
	2013	2012
Fidelity Retirement Money Market	$ 394,335	$ 348,891
Fidelity International Discovery	253,803	178,283
Fidelity Freedom 2030	192,543	140,437
Fidelity Freedom 2035	**	127,495
Fidelity Freedom 2040	405,142	236,397
Fidelity Freedom 2045	234,251	135,638
Fidelity Freedom 2050	244,567	136,270
Fidelity Contrafund	278,479	175,324
	$ 2,003,120	$ 1,478,735

** Amounts represented less than 5% of net assets available for benefits at the end of the Plan year.

4. Fair Value Measurements

The *Fair Value and Disclosures* topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the framework are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds and money market fund: Value at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan administration believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. **Fair Value Measurements (continued)**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

Assets at Fair Value as of December 31, 2013

5. **Income Tax Status**

The Plan is a qualified cash or deferred arrangement established under Section 401(k) of the Internal Revenue Code. It is exempt from income taxes under Section 401(a) of the Internal Revenue Code. The Plan has executed an adoption agreement using Fidelity Management Trust Company non-standardized profit sharing/401(K) plan and relies on the determination letter issued for the prototype plan dated March 31, 2008. Although the Plan has been amended, the Plan administrator believes the Plan continues to operate in accordance with applicable rules and therefore, remains tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination.

5. **Income Tax Status (continued)**

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, all participants are 100% vested in their accounts.

7. **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. **Information Prepared and Certified by the Trustee**

Pursuant to 29 CFR 2520.103-8 the Plan qualified for a limited scope audit. Information relating to investment assets, investment transactions, investment earnings and the schedule of assets held for investment purposes was certified as complete and accurate by the trustee, Fidelity Management Trust Company, as of December 31, 2013 and 2012, and for the year ended December 31, 2013.

9. **Excess Contributions**

For the year ended December 31, 2013, the Plan failed to satisfy the relevant nondiscrimination provisions of the Plan. In order to be in compliance, the Plan returned certain excess contributions by March 15, 2014. For the year ended December 31, 2013, excess contributions to be returned to participants were approximately $19,000 and are recorded as a liability on the Statement of Net Assets Available for Benefits at December 31, 2013.

NOTES TO FINANCIAL STATEMENTS
