1. Description of Plan

The following description of The Ultimate Umbrella Company, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

A. General

The Plan is a defined contribution plan covering all full-time employees of The Ultimate Umbrella Company, Inc. ("the Company") who have attained age 21 and completed nine months of continuous service. The Plan was established on January1, 2007, and amended and restated on February 1, 2011. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is intended to be a qualified defined contribution plan which satisfies the requirements of Section 401(k) of the Internal Revenue Code (the "Code)". Under the Code, participants are not liable for federal income taxes on employee contributions, Company contributions, or Plan earnings until such time as they are partially or completely withdrawn from the Plan.

The Plan's trustee and record-keeper are Frontier Trust Company and Ascensus, Inc., respectively.

Each year, participants may elect to contribute pre-tax dollars to the Plan by having their compensation reduced by a maximum of the lesser of (a) 100% of compensation, (b) the IRS defined limit for the year, or (c) such other amount as shall be determined by the plan administrator from time to time as defined in the Plan. Participants may elect to make after-tax contributions to the plan. Upon consent of the plan administrator, participants can also elect a direct rollover of an existing balance from a tax-qualified retirement or saving plan into the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions in addition to the IRS defined limit for the year. Participants may elect to contribute to any of the investment options offered by the Plan's Trustee and may transfer among funds as often as is permitted under the investment alternatives chosen.

The Company contributes 100 percent of the first 4 percent of base compensation that a participant contributes to the Plan. Participants direct the investment of their allocated share of the Company's contributions into investment options provided by the Plan.

B. Participants' Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (Continued)

C. Vesting

Participants are vested immediately in their contributions, their allocated share of the Company's safe harbor contributions, and actual earnings thereon.

D. Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at the prime rate. Principal and interest is paid ratably through bi-weekly payroll deductions.

E. Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installments. For termination of benefits for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

2. Summary of Significant Accounting Policies and Other Information

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

B. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

C. Contributions

Participant contributions are recognized as revenue when deducted by the Company from the employee's compensation. Company contributions are recognized as revenue when the Company is obligated to contribute, which occurs when the Company deducts the employee's contribution.

2. Summary of Significant Accounting Policies and Other Information (Continued)

D. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

E. Fair Value Measurements

US GAAP establishes a hierarchy that prioritizes the inputs to valuation techniques to measure fair value giving the highest priority to unadjusted quoted market prices in active markets (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement) when market prices are not readily available or reliable. The three levels of the fair value hierarchy are described below:

Level 1: quoted prices in active markets for identical securities;

Level 2: prices determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, and others);

Level 3: prices determined using other significant unobservable inputs. In situations where quoted market prices or observable inputs are unavailable or less reliable, unobservable inputs may be used. Unobservable inputs may include management's own assumptions about the factors market participants would use in pricing an investment. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Plan. The Plan considers observable data to be market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Changes in valuation techniques may result in transfers in or out of an assigned level within the hierarchy. For the year ended December 31, 2013 and 2012, there were no significant transfers between Level 2 and 3.

2. Summary of Significant Accounting Policies and Other Information (Continued)

F. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

G. Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

H. Payment of Benefits

Benefits are recorded when paid.

I. Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

J. Subsequent Events

The plan has evaluated subsequent events through September 30, 2014, the date the financial statements were available to be issued.

3. Investments

The December 31, 2013 and 2012, Statement of Net Assets Available for Benefits, the investment activities included on the December 31, 2013 Statement of Changes in Net Assets Available for Benefits, the accompanying notes to the financial statements, and the December 31, 2013 and 2012, Schedule of Assets (Held at End of Year) were prepared in part or entirely from information certified by the Trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's investments are maintained by the Trustee who

4. Fair Value Measurements

The following table sets forth by level, within the fair value hierarchy, the Plan's net assets available for benefits at fair value at December 31, 2013 and 2012.

	2013			
	Level 1	Level 2	Level 3	Total
Money Market	$ -	$ -	$ 1,621	$ 1,621
Mutual Funds		-		
Growth	1,263,091	-	-	1,263,091
Income	460,180	-	-	460,180
Index	78,386	-	-	78,386

Index	64,885	-	-	64,885
	$1,391,410	$ -	$ -	$ 1,391,410

The fair value of money market funds is based on the fair value of the underlying assets held by the fund. The fair value of the mutual funds is based on quoted market prices.

5. Related Party Transactions

Administrative functions are performed by officers and employees of the Company at no cost to the Plan.

6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of termination, participants become 100% vested in their employer contributions.

7. Net Asset Available for Benefits

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2013	2012
Net assets available for benefits per financial statements	$ 1,996,343	$ 1,543,082
Employee contributions receivable	(4,803)	-
Employer contributions receivable	(5,804)	-
Other	(541)	-
Net assets available for benefits per Form 5500	$ 1,985,195	$ 1,543,082

8. Tax Status of the Plan

The Plan is exempt from income taxes under the Code Section 401(a). The Plan adopted the Prototype Non-standardized Profit Sharing Plan with a cash and deferral arrangement developed by Ascensus, Inc., which obtained a favorable IRS determination letter on March 31, 2008, in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the Code and that any employer adopting this form of plan will be considered to have a plan qualified under the Code. The Plan has been amended since the determination letter; however, the Plan's administrator believes that the Plan is in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

1. Description of Plan

The following description of The Ultimate Umbrella Company, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

A. General

The Plan is a defined contribution plan covering all full-time employees of The Ultimate Umbrella Company, Inc. ("the Company") who have attained age 21 and completed nine months of continuous service. The Plan was established on January1, 2007, and amended and restated on February 1, 2011. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is intended to be a qualified defined contribution plan which satisfies the requirements of Section 401(k) of the Internal Revenue Code (the "Code)". Under the Code, participants are not liable for federal income taxes on employee contributions, Company contributions, or Plan earnings until such time as they are partially or completely withdrawn from the Plan.

The Plan's trustee and record-keeper are Frontier Trust Company and Ascensus, Inc., respectively.

Each year, participants may elect to contribute pre-tax dollars to the Plan by having their compensation reduced by a maximum of the lesser of (a) 100% of compensation, (b) the IRS defined limit for the year, or (c) such other amount as shall be determined by the plan administrator from time to time as defined in the Plan. Participants may elect to make after-tax contributions to the plan. Upon consent of the plan administrator, participants can also elect a direct rollover of an existing balance from a tax-qualified retirement or saving plan into the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions in addition to the IRS defined limit for the year. Participants may elect to contribute to any of the investment options offered by the Plan's Trustee and may transfer among funds as often as is permitted under the investment alternatives chosen.

The Company contributes 100 percent of the first 4 percent of base compensation that a participant contributes to the Plan. Participants direct the investment of their allocated share of the Company's contributions into investment options provided by the Plan.

B. Participants' Accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as allocation of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (Continued)

C. Vesting

Participants are vested immediately in their contributions, their allocated share of the Company's safe harbor contributions, and actual earnings thereon.

D. Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined quarterly, is set at the prime rate. Principal and interest is paid ratably through bi-weekly payroll deductions.

E. Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installments. For termination of benefits for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

2. Summary of Significant Accounting Policies and Other Information

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

B. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (US GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

C. Contributions

Participant contributions are recognized as revenue when deducted by the Company from the employee's compensation. Company contributions are recognized as revenue when the Company is obligated to contribute, which occurs when the Company deducts the employee's contribution.

2. Summary of Significant Accounting Policies and Other Information (Continued)

D. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

E. Fair Value Measurements

US GAAP establishes a hierarchy that prioritizes the inputs to valuation techniques to measure fair value giving the highest priority to unadjusted quoted market prices in active markets (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement) when market prices are not readily available or reliable. The three levels of the fair value hierarchy are described below:

Level 1: quoted prices in active markets for identical securities;

Level 2: prices determined using other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, and others);

Level 3: prices determined using other significant unobservable inputs. In situations where quoted market prices or observable inputs are unavailable or less reliable, unobservable inputs may be used. Unobservable inputs may include management's own assumptions about the factors market participants would use in pricing an investment. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Plan. The Plan considers observable data to be market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Changes in valuation techniques may result in transfers in or out of an assigned level within the hierarchy. For the year ended December 31, 2013 and 2012, there were no significant transfers between Level 2 and 3.

2. Summary of Significant Accounting Policies and Other Information (Continued)

F. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

G. Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

H. Payment of Benefits

Benefits are recorded when paid.

I. Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

J. Subsequent Events

The plan has evaluated subsequent events through September 30, 2014, the date the financial statements were available to be issued.

3. Investments

The December 31, 2013 and 2012, Statement of Net Assets Available for Benefits, the investment activities included on the December 31, 2013 Statement of Changes in Net Assets Available for Benefits, the accompanying notes to the financial statements, and the December 31, 2013 and 2012, Schedule of Assets (Held at End of Year) were prepared in part or entirely from information certified by the Trustee, in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's investments are maintained by the Trustee who

4. Fair Value Measurements

The following table sets forth by level, within the fair value hierarchy, the Plan's net assets available for benefits at fair value at December 31, 2013 and 2012.

	2013			
	Level 1	Level 2	Level 3	Total

	$1,391,410	$ -	$ -	$ 1,391,410

The fair value of money market funds is based on the fair value of the underlying assets held by the fund. The fair value of the mutual funds is based on quoted market prices.

5. Related Party Transactions

Administrative functions are performed by officers and employees of the Company at no cost to the Plan.

6. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of termination, participants become 100% vested in their employer contributions.

7. Net Asset Available for Benefits

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	2013	2012
Net assets available for benefits per financial statements	$ 1,996,343	$ 1,543,082
Employee contributions receivable	(4,803)	-
Employer contributions receivable	(5,804)	-
Other	(541)	-
Net assets available for benefits per Form 5500	$ 1,985,195	$ 1,543,082

8. Tax Status of the Plan

The Plan is exempt from income taxes under the Code Section 401(a). The Plan adopted the Prototype Non-standardized Profit Sharing Plan with a cash and deferral arrangement developed by Ascensus, Inc., which obtained a favorable IRS determination letter on March 31, 2008, in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the Code and that any employer adopting this form of plan will be considered to have a plan qualified under the Code. The Plan has been amended since the determination letter; however, the Plan's administrator believes that the Plan is in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

9. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
