Note 1 - Plan Description

The following brief description of the American Sugar Refining and Subsidiaries Hourly Savings and Investment Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a deferred compensation plan (defined contribution plan) covering all eligible employees of American Sugar Refining, Inc. (the "Company") who were or are covered by a collective bargaining agreement that provided for participation in the Plan. Employees are eligible for participation in the Plan upon their date of employment. The assets of the Plan are included in a pool of investments known as the American Sugar Master Trust (the "Master Trust") along with the assets of the American Sugar Salary Savings and Investment Plan and the Domino Foods, Inc. Savings and Investment Plan. The assets of the Master Trust are held by Fidelity Management Trust Company (the "Trustee"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions

Participants may contribute up to 20% of their compensation, subject to maximums established by law. The Company makes annual contributions to the Plan equal to a sum pursuant to various collective bargaining agreements. Eligible employees may also make "catch up" contributions as allowed under the Internal Revenue Code. The Plan offers numerous investment fund options with the Trustee. Each participant may direct their contributions among the funds in multiples of at least 1%. The investment options are described in the summary plan description.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's contribution, and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Employer and participant contributions are fully vested immediately, plus actual earnings/losses thereon.

Note 1 - Plan Description (Continued)

Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $1,253 and $2,727, respectively. These accounts will be used to reduce future employer contributions. During 2013 and 2012, employer contributions were reduced by $2,727 and $-0-, respectively from forfeited non-vested accounts.

Notes Receivable from Participants

Participants may borrow from their fund accounts, a minimum of $1,000 or, if less, the entire value of the participant's account, but not less than in one hundred dollar increments and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Note terms shall not exceed five years unless the loan is used to purchase a primary residence. The notes are secured by the balance in the participant's account and bear interest at rates that ranged from 4.25% to 9.25% at December 31, 2013 and 2012. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or annual installments in the form of an annuity payment. For termination of services for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

In 2013, the Plan was amended to allow participants reaching the age of 59 1/2 to elect to withdraw up to their entire vested balance.

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Note 2 - Summary of Significant Accounting Policies (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The fair value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, less actual distributions and allocated administrative expenses. See note 3 for discussion of fair value measurements.

The ratio of the Plan's assets to the value of all assets held in the Master Trust is used to allocate interest income, dividend income and net appreciation (depreciation) in the fair value of investments on a daily basis. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Plan investment related expenses and administrative expenses are paid by the Plan to the extent that they are not paid by the Company in accordance with the Plan document.

Reclassifications

Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform to the current year financial statements presentation.

Subsequent Events

The Plan has evaluated subsequent events and transactions through October 7, 2014, the date that the financial statements were available to be issued.

Note 3 - Investments in Master Trust

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and several other American Sugar Refining, Inc. sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Fidelity Management Trust Company, the Trustee of the Plan. The Plan's interest in the net assets of the Master Trust at December 31, 2013 and 2012, was approximately 28% and 30%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated daily to the individual plans based upon the balances invested by each plan.

The following table presents the fair value of investments held by the Master Trust as of December 31, 2013 and 2012:

	2013	2012
Investments, at fair value:		
Short-term investment funds	$ 8,647,053	$ 6,542,224
Mutual funds	150,048,285	131,846,355
Total investments	$ 158,695,338	$ 138,388,579

Net investment income of the Master Trust for the years ended December 31, 2013 and 2012 is as follows:

	2013	2012
Net investment income:		
Interest on short-term investment funds	$ 353	$ 6,541
Investment gain from common/ collective trusts	-	226,566
Dividends from mutual funds	5,444,549	3,105,288

Net investment income	$ 20,062,905	$ 12,458,022

Note 3 - Investments in Master Trust (Continued)

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. It defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Master Trust's principal or most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date.

The fair value hierarchy generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The Master Trust determines the fair market value of its investment in securities based on the established fair value definition and hierarchy levels. The three levels within the hierarchy that may be used to measure fair value are:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted; quoted prices for similar assets or liabilities; quoted prices in markets that are less active than traded exchanges; and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

The lowest level of input that is a significant component of the fair value measurements determines the placement of the entire fair value measurement in the hierarchy. The Master Trust's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the classification of fair value assets and liabilities within the fair value hierarchy levels.

Note 3 - Investments in Master Trust (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Short-term investment funds:

The short-term investment funds consist of an investment in a U.S. cash reserve fund, valued at the closing price reported on the active market on which the individual security is traded.

Mutual funds:

Mutual funds are valued at the closing price every business day. The mutual funds held by the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

The preceding valuation methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2013 and 2012:

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2013 and 2012, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 4 - Related Party Transactions

Certain Master Trust investments are shares of mutual funds managed by Fidelity Investments. Fidelity Management Trust Company (the "Trustee") is a related party to Fidelity Investments and, therefore, these transactions qualify as party-in-interest transactions.

In 2012, the Plan was amended to allow for a Participant Revenue Credit program ("PRC") with the Trustee. The PRC allows for recordkeeping revenues received by the Company in connection with plan services exceeding agreed-upon compensation to be allocated to the accounts of eligible participants. PRC funds reduce the management fees otherwise paid by the Plan.

Management fees of $8,740 and $548 were paid by the Plan to the Trustee of the Plan, for the plan years ended December 31, 2013 and 2012, respectively. These transactions qualify as party-in-interest transactions.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right at any time to terminate the Plan, or the Plan and Trust, by delivering to the plan administrator and the Trustee written notice of such termination.

Note 6 - Tax Status

The Internal Revenue Service has determined and informed the Plan by a letter dated September 2, 2014, that the Plan is designed in accordance with Section 401(a) of the Internal Revenue Code. The Company believes that the Plan, as amended, is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. Employee benefit plans are subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress for the Plan. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 7 - Information Certified by the Plan's Trustee (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

	2013	2012
Investments, at fair value:		
Plan interest in American Sugar Master Trust	$44,344,470	$41,333,403
Receivables:

Plan interest in American Sugar Master Trust investment income	$ 5,368,218	$ 3,675,789
Interest income on notes receivable from participants	$ 71,524	$ 69,870

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 8 - Transfer of Assets

The transfers of assets into and out of the Plan represent changes in participants' eligibility for their respective plans.

Note 9 - Risks and Uncertainties

The Plan, through its interest in the Master Trust, invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
