The Raymond Corporation Savings Plan

Notes to Financial Statements

December 31, 2013 and 2012

1. Description of the Plan

The following description of The Raymond Corporation Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for more complete information.

General

The Plan is a prototype defined contribution 401(k) salary reduction and profit sharing plan. Substantially all employees of The Raymond Corporation and Raymond Muscatine Inc. (the "Company") are eligible to participate in the Plan. Employees become eligible for elective deferral and employer match portions of the Plan subsequent to completion of three months of service and attaining the age of 21. Once an employee meets the eligibility requirements, the Plan automatically enrolls them under its Automatic Enrollment feature. Under Automatic Enrollment, a participant is automatically enrolled to begin making elective contributions of 5% of their annual compensation to the 401(k) plan. This deferral percentage is increased automatically by 1% each year, up to a maximum of 10%, unless the participant elects a different percentage or expressly elects not to participate in the Plan. Employees become eligible to receive an allocation of any employer profit sharing contributions upon completion of one hour of service and being employed by the Company on the last day of the Plan year. In addition, any participant who died, terminated employment after attaining normal retirement age, or became disabled during the Plan year will be eligible to receive an allocation of any employer profit sharing contribution that is made. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

The plan is administered by the Company's Investment Committee.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions

Participants may contribute up to 50% of pretax annual compensation subject to the maximum allowable contributions under the Internal Revenue Code of \$17,500 and \$17,000 for 2013 and 2012, respectively. Participants who are at least 50 years of age by the end of the calendar year are allowed to make additional "catch-up contributions" of \$5,500 for 2013 and 2012. The Company match, QACA non-elective, and discretionary profit sharing contributions, plus actual earnings thereon, are fully vested after two years. Participants who have less than two years of vesting service have no vested interest in the Company match, QACA non-elective, and discretionary profit sharing contributions or actual earnings thereon. Participant contributions can be changed daily. Effective 1/1/2012, the Company will make a 3% QACA non-elective contribution to the account of each eligible participant.

The Plan accepts rollover contributions and transfers from other qualified plans.

Investment Options

Investments are held by Bank of America, N.A. (the "trustee"). Upon enrollment in the Plan, participants have a choice of allocating their contribution and the Company matching contribution in 1% increments to nineteen individual funds. Investment elections can be changed daily. A brief description of these investment options, as provided by the plan administrator, is as follows:

Participants may only borrow against their own contributions and accrued earnings thereon and may not borrow against the Company's matching contributions and accrued earnings thereon. Loan terms range from 1-5 years or up to 25 years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined yearly by the Company's Administrative Committee. 2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Cash and cash equivalents

The Company considers all highly liquid instruments purchased with an original maturity of three months or less as cash equivalents.

Investment Valuation and Income Recognition

Investments are stated at fair value.

The Raymond Corporation Savings Plan

Notes to Financial Statements

December 31, 2013 and 2012

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes of Net Assets Available for Benefits is prepared on a contract value basis.

The Plan's interest in the common/collective trusts is based on the fair value of the common/collective trust's underlying investments as based on information reported by the investment advisor using the audited financial statements of the collective trust at year end. The Wells Fargo Stable Return Fund and the SSGA S&P 500 Index Fund, both of which are included in common/collective trusts, are valued using net asset value ("NAV"). The NAV at December 31, 2013 for the Wells Fargo Stable Return Fund and the SSGA S&P 500 Index Fund are \$104.89 (2012: \$103.54) and \$16.70 (2012: \$12.65), respectively.

Investments in mutual funds are valued at the latest quoted sales price on the last business day of the year, which represents the net asset value of shares held by the Plan at year end.

These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The net appreciation in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments, is presented in the statement of changes in net assets available for benefits.

Purchases and sales of securities are reflected on a trade-date basis. Gains or losses on sales of securities are based on the specific cost of investments sold.

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Currently, there is no valuation allowance recorded; however, management will record an allowance, if and when potentially uncollectible participant notes receivable become material. If a participant defaults on a note receivable and distribution from the participant account has been made during the plan year, because the participant has left the Plan, the defaulted note receivable will be reported as benefits paid to participants on the statement of changes in net assets available for benefits and deducted from the receivable balance.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain administrative expenses of the Plan were paid by the Company with the remainder being paid by the Plan.

The Raymond Corporation Savings Plan

Notes to Financial Statements

December 31, 2013 and 2012

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various participant-directed investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Subsequent Events

The Plan has performed an evaluation of subsequent events through September 26, 2014, which is the date the financial statements were available for issuance.

Effective, January 1, 2014, the Plan has been amended. The definition of Plan compensation has been modified.

3. Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard describes three levels of inputs that may be used to measure fair value, which are provided in the table below. The related fair market value of these financial instruments is estimated using market based level 1 inputs obtained from independent quoted market prices for identical instruments with identical maturities and level 2 inputs obtained from independent quoted market prices for similar instruments with similar maturities.

Level 1:	Quoted prices in active markets for identical assets or liabilities, which includes listed equities.
Level 2:	Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.
Level 3:	Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category includes auction rate securities where independent pricing information was not able to be obtained.

There have been no changes in the methodologies used at December 31, 2013 and 2012.

4. Investments

Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2013 and December 31, 2012, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Bank of America, N.A. (the trustee of the Plan). The contract value of the guaranteed investment contract was certified by the trustee.

Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to this information, except to compare such information to the related information included in the financial statements and supplemental schedule.

The fair values of individual investments that represent 5% or more of the Plan's net assets as of December 31 are as follows:

5. Income Tax Status

The Internal Revenue Service has determined and informed the trustee by a letter dated March 31, 2008 that the prototype plan, used by the Plan, is tax-exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan sponsor and the Plan's legal counsel believe that the plan is currently designed and operated in accordance with the IRC.

The Raymond Corporation Savings Plan

Notes to Financial Statements

December 31, 2013 and 2012

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, at any time, to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, each participant would continue to be fully vested in the value of his or her account. At termination, the net assets of the Plan would be distributed to each participant based upon his or her account balance as of the distribution date.

7. Related-Party Transactions

The Company pays certain legal, accounting and other administrative fees of the Plan which approximated \$118,000 and \$106,000 in 2013 and 2012, respectively. Plan investments include shares of mutual funds managed by Bank of America, N.A. Bank of America, N.A. is the trustee and recordkeeper as defined by the Plan and therefore, these transactions qualify as exempt party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.
