Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

September 26, 2014

To the Participants and Plan Administrator of
The Raymond Corporation Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Raymond Corporation Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the ***Basis for Disclaimer of Opinion*** paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by JP Morgan Chase Bank N.A., the Trustee of the Plan, except for comparing such information with the related information included in the

financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the ***Basis for Disclaimer of Opinion*** paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedules

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and the Schedule H, Line 4j - Schedule of Reportable Transactions as of and for the year ended December 31, 2013, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the ***Basis for Disclaimer of Opinion*** paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Mortality

For non-disabled participants: The prescribed mortality assumption under Section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants.

Retirement

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Attained Age	Annual Rate
55	.050
56-59	.025
60	.100
61	.050
62	.500
63-64	.250
65	.750
66-69	.250
70 and over	1.000

The retirement rates yield an average expected retirement age of 62.

Disability rates

Half of the rates in Social Security Study #75.

Disabled mortality

Revenue Ruling 96-7 mortality table for participants disabled after December 31, 1994.

Compensation increases

For purposes of determining the target normal cost and the additional funding target for maximum deductible contribution purposes, compensation is assumed to increase by 4.500% per annum.

Future increases in Social Security

For purposes of determining target normal cost and the additional funding target for maximum deductible contribution purposes, the National Average Wage Index is assumed to increase by 4.000% per annum.

Form of payment

Participants are assumed to elect the normal form of ten year certain and life annuity.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 85% of eligible participants are assumed to be married and male spouses are assumed to be three years older than female spouses.

Employees

It was assumed that there will be no new or rehired employees.

Plan compensation

Compensation assumed paid in the current year beginning on the valuation date is the prior year compensation adjusted by the salary increase assumption.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Valuation date

First day of plan year.

Funding target

Present value of accrued benefits.

Target normal cost

Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Participant Data

Employee data was supplied by the employer as of the valuation date via a secure website.

Changes in assumptions and methods since last actuarial valuation

The following changes in assumptions and methods were made as part of this valuation:

- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2011 to September 2012 and reflect the rate corridors of MAP-21.
- The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.
- The assumed plan-related expenses added to the target normal cost were changed from \$202,905 for 2012 to \$192,499 for 2013. The assumption used to derive this amount did not change.

Schedule SB, Part V Summary of Plan Provisions

Plan Year

The twelve-month period ending December 31.

Coverage and Participation

Prior to a freeze in participation, all employees were eligible to participate under the Plan after attainment of age 21 and one year of service. In the event an employee fails to complete 1000 hours of service in the first twelve months of employment, such employee must complete 1000 hours in any subsequent calendar year in order to be eligible to participate. Employees hired on or after November 30, 2009 will not be eligible to participate in this Plan.

Benefit Service

Commences on date of hire. Benefit Service includes a full year of service for each twelve months of employment. A fraction of a year of service is granted for periods of employment of less than twelve months.

Vesting Service

Commences on completed date of hire. Vesting Service includes a full year of service for each twelve months of employment, plus certain periods of layoff or other absences of less than twelve months duration.

Normal Retirement Benefit

Normal Retirement Date: The first day of the month on or after the later of attainment of age 65 or five years of plan participation.

Monthly Benefit: the greater of (a) or (b) or (c) or (d) or (e):

(a) 0.6% of Final Average Earnings times Benefit Service

(b) \$156 times Benefit Service

(c) The accrued benefit on December 31, 1988 under the prior plan plus the pension based on service since December 31, 1988 based on the greater of (a) or (b) above.

(d) The accrued benefit on December 31, 1993 under the prior plan plus the pension based on service since December 31, 1993 based on the greater of (a) or (b) above.

(e) For certain grandfathered employees as of December 31, 1988, the old plan formula applies to all Benefit Service. The old formula is 1% of Final Average Earnings times Benefit Service offset by 1.5% of the participant's Social Security benefit at normal retirement times Benefit Service (limited to 33-1/3).

Normal Form of Retirement Income: 10 Years Certain and Life.

Late Retirement

Late Retirement Date: First day of any month following Normal Retirement Date.

Monthly Benefit: Benefit commences upon actual retirement based on service and compensation on the retirement date or, if greater, the benefit which would have been payable at normal retirement, actuarially increased to the late retirement date.

Early Retirement Benefit

Eligibility: Age 55 and 15 years of Benefit Service.

Monthly Benefit: A deferred benefit equal to normal retirement benefit but based on service and pay at Early Retirement Date; or an immediate benefit equal to the deferred benefit but actuarially reduced for each month that the employee's Early Retirement Date precedes his Normal Retirement Date, unless the employee is age 62 with 30 years of Benefit Service in which case the benefit is unreduced. The reduction factors are as follows:

Age	Reduced benefit
55	36.5%
56	40.1%
57	44.1%
58	48.6%
59	53.6%
60	59.2%
61	65.5%
62	72.6%
63	80.6%
64	89.7%
65	100.0%

Disability Benefit

Eligibility: Total and permanent disability after 15 years of Benefit Service and eligible for Social Security benefits.

Monthly Benefit: A benefit commencing the first day of the month next following the expiration of 6 months from the date of disability payable until the attainment of age 65, at which time the participant will begin receiving retirement benefits.

Vested Benefits Upon Termination of Service

Upon termination of employment when an employee has at least five years of Vesting Service, a deferred vested pension is payable at Normal Retirement Date equal to the benefit accrued to date of termination, or an actuarially reduced benefit is payable at or after age 55 if employee has completed 15 years of Vesting Service.

SCHEDULE SB ATTACHMENTS

Death Benefits for Participants in Active Service

Upon death after the attainment of age 55 and the completion of 15 years of Benefit Service but before Normal Retirement Date, a death benefit is payable to the spouse equal to the pension that would have been payable if the employee had retired early and had elected a 50% joint and survivorship option immediately before his death.

Upon death after the completion of 15 years of Benefit Service but before age 55, a death benefit is payable equal to the pension that would have been payable had the employee terminated service on the date of death, survived to age 55, and retired with a 50% joint and survivorship option.

In the case of an employee who dies after completing at least five years of Vesting Service but less than 15 years of Benefit Service, a death benefit is payable as above, except age 65 is used in place of age 55. There is a charge for this coverage to reflect the actuarial cost of the benefit payable to the spouse.

Final Average Compensation/Salary

The average of the 3 highest consecutive years of earnings out of the last 10 years that are immediately prior to the retirement or termination of employment of the participant.

Retiree Health Care Enhancement

A participant who retires after April 1, 1993 who is age 55 with 15 years of Benefit Service will receive an additional \$150 per month payable temporarily from age 62 until age 65 as long as he is living.

Employee Contributions

They are not required or permitted.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Future plan changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Forms of payment

Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a ten year certain and life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 66 2/3%, 75% or 100% joint and survivor annuity, a life annuity, or (for married participants) a ten year certain and life annuity. A lump sum is available if the equivalent actuarial value of pension benefits are \$5,000 or less. Actuarial equivalence for lump sums is based on 417(e) applicable interest rate and mortality table. Actuarial equivalence for all other forms of payment is based on Appendix A of the plan document.

Independent Auditor's Report

September 26, 2014

To the Participants and Plan Administrator of
The Raymond Corporation Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Raymond Corporation Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statement of changes in net assets available for benefits for the year ended December 31, 2013, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the ***Basis for Disclaimer of Opinion*** paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by JP Morgan Chase Bank N.A., the Trustee of the Plan, except for comparing such information with the related information included in the

financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of December 31, 2013 and 2012, and for the year ended December 31, 2013, that the information provided to the plan administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the ***Basis for Disclaimer of Opinion*** paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedules

The supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) and the Schedule H, Line 4j - Schedule of Reportable Transactions as of and for the year ended December 31, 2013, are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the ***Basis for Disclaimer of Opinion*** paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

The Raymond Corporation Pension Plan

Notes to Financial Statements

December 31, 2013 and 2012

1. Description of the Plan

The following description of The Raymond Corporation Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan which covers substantially all employees of The Raymond Corporation (the "Company") and which provides for pension and disability benefits. Employees are eligible to participate in the Plan upon completing one year of service and attaining the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended to freeze participation such that individuals hired or rehired after November 30, 2009 will not be eligible to participate in this Plan.

Administration

The Plan is administered by the Company's Investment Committee.

Pension Benefits

Employees with five or more years of service are fully vested in the Plan and entitled to a retirement benefit. Employees whose benefits are valued at less than \$5,000 will receive a lump sum distribution from the Plan. Employees whose benefits are valued at \$5,000 or more are entitled to an annual pension benefit beginning at the normal retirement age (65) equal to the greater of six-tenths of one percent of the participant's final average earnings multiplied by the number of years of benefit service or \$156 multiplied by the number of years of benefit service. These pension benefits are paid monthly. The Plan permits early retirement for employees upon completion of 15 years of benefit service and after attaining age 55. The normal form of benefit is the 10 Year Certain and Life payment option. Employees may elect to receive their pension benefits in the form of a 10-year certain period, a joint and survivor annuity or optional life. Participants who separate from service and meet the eligibility conditions for early retirement receive a supplemental pension equal to \$150 per month payable from age 62 until age 65 while the participant remains living.

Death and Disability Benefits

If a vested, married employee dies while in active status, a death benefit equal to 50% of the employee's monthly pension benefits is paid to the employee's spouse. The spouse may elect commencement of the monthly benefit payments at the date the employee would have reached normal retirement age or at the date the employee would have attained age 55 for a reduced benefit, if the employee was eligible for early retirement. If a vested, married participant dies while already receiving benefits, the amount of the spousal benefit would depend on various elections the retiree would have made prior to receiving benefits. Active employees with at least 15 years of benefit service who become totally disabled and are awarded social security disability are entitled to receive monthly disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits.

Funding Policy and Vesting

The Company's policy is to contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to Plan members and to fund the Plan's current service cost. Employees who have less than five years of vesting service have no vested interest in accrued retirement benefits, while employees having five years or more of vesting service have a 100% vested interest in accrued retirement benefits. The Plan has met the ERISA minimum funding requirements.

The Raymond Corporation Pension Plan

Notes to Financial Statements

December 31, 2013 and 2012

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Cash and cash equivalents

The Company considers all highly liquid instruments purchased with an original maturity of three months or less as cash equivalents.

Investment Valuation and Income Recognition

Investments are stated at fair value.

Investments in mutual funds are valued at the latest quoted sales price on the last business day of the year, which represents the net asset value of shares held by the Plan at year end.

The net appreciation (depreciation) in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments, is presented in the Statement of Changes in Net Assets Available for Benefits.

Purchases and sales of securities are reflected on a trade-date basis. Gains or losses on sales of securities are based on the specific cost of investments sold.

Dividend income is recorded on the ex-dividend date. Income from other investments is recorded as earned on an accrual basis.

Payment of Benefits

Benefit payments are recorded upon distribution.

Administrative Expenses

Certain administrative expenses of the Plan were paid by the Company with the remainder being paid by the Plan.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service the employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based principally on employees' compensation during their years of credited service. The accumulated plan benefits for active employees are based on their average compensation to the valuation date. Benefits payable under all circumstances--retirement, death, disability, and termination of employment are included, to the extent that they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets and disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

The Raymond Corporation Pension Plan

Notes to Financial Statements

December 31, 2013 and 2012

Risks and Uncertainties

The contributions to the Plan and the actuarial present value of accumulated plan benefits are based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the actuarial present value of accumulated plan benefits and the changes in the actuarial present value of accumulated plan benefits.

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Subsequent Events

The Plan has performed an evaluation of subsequent events through September 26, 2014, which is the date the financial statements were available to be issued.

Effective, January 1, 2014, the Plan has been amended. The definition of Annual Earnings has been modified. The Plan was also amended to reflect certain provisions of the Pension Protection Act of 2006.

The Raymond Corporation Pension Plan
Notes to Financial Statements
December 31, 2013 and 2012

3. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by an actuary from Towers Watson and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits at December 31 is as follows:

	2013	2012
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 29,289,160	\$ 27,542,361
Other participants	29,219,909	27,675,864
	<u>58,509,069</u>	<u>55,218,225</u>
Nonvested plan benefits	4,075,813	3,937,285
	<u>\$ 62,584,882</u>	<u>\$ 59,155,510</u>

The changes in the present value of accumulated plan benefits for the years ended December 31 is as follows:

	2013	2012
Actuarial present value of accumulated plan benefits at beginning of year	<u>\$ 59,155,510</u>	<u>\$ 53,686,100</u>
Increase during the year attributable to		
Benefits accumulated for service rendered	2,182,136	2,538,313
Increase due to the decrease in the discount period	4,623,065	4,371,051
Benefits paid	(3,370,386)	(3,172,562)
Change in assumption	98,951	1,532,705
Actuarial (losses) gains	<u>(104,394)</u>	<u>199,903</u>
Net increase	<u>3,429,372</u>	<u>5,469,410</u>
Actuarial present value of accumulated plan benefits at end of year	<u>\$ 62,584,882</u>	<u>\$ 59,155,510</u>

The Raymond Corporation Pension Plan

Notes to Financial Statements

December 31, 2013 and 2012

Significant assumptions underlying the actuarial computations are:

Valuation interest rate	7.75% in 2013 and 2012
Average retirement age	Age 62
Mortality Table	The prescribed mortality assumption under section 430(h)(3)(A) of the Internal Revenue Code using static tables with separate mortality rates for annuitants and non-annuitants.

These foregoing actuarial assumptions are based on the presumption that the Plan will continue. In the event of Plan termination, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The Company contributions of \$5,300,000 and \$5,450,000 in 2013 and 2012, respectively, met the minimum funding requirements under ERISA.

4. Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The standard describes three levels of inputs that may be used to measure fair value, which are provided in the table below. The related fair market value of these financial instruments is estimated using market based level 1 inputs obtained from independent quoted market prices for identical instruments with identical maturities.

Level 1:	Quoted prices in active markets for identical assets or liabilities, which includes listed equities.
Level 2:	Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.
Level 3:	Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category includes auction rate securities where independent pricing information was not able to be obtained.

There have been no changes in the methodologies used at December 31, 2013 and 2012.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

There were no transfers between Level 1 and Level 2 for the years ended December 31, 2013 and 2012.

5. Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2013 and 2012, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by JPMorgan Chase Bank, N.A. (the trustee of the Plan).

Furthermore, the Plan's independent accountants did not perform auditing procedures with respect to this information, except to compare such information to the related information included in the financial statements and supplemental schedules.

The Plan's investments are held by a bank-administered trust fund. During 2013, the Plan's investments (including investments bought, sold, and held during the year) appreciated (depreciated) in fair value as follows:

The Raymond Corporation Pension Plan

Notes to Financial Statements

December 31, 2013 and 2012

6. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated February 21, 2012 that the Plan is tax-exempt under the appropriate sections of the Internal Revenue Code (IRC). Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to former employees or their beneficiaries receiving benefits three years before the date the Plan terminated, or employees who would have been receiving benefits had they retired three years before the date the Plan terminated.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government Agency) up to applicable limitations (discussed subsequently).
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the plan are insured by the PBGC if the Plan terminates. Generally, the Pension Benefit Guaranty Corporation (PBGC) guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

8. Related-Party Transactions

A portion of fees paid during the year for legal, accounting, and other services rendered by parties-in-interest were paid by the Company. These expenses amounted to approximately \$89,000 and \$100,000 for the years ended December 31, 2013 and 2012, respectively.
