AMERICAN BANK
EMPLOYEE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

Note 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the American Bank Employee Savings Plan (the "Plan") have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to employee retirement Plans and in accordance with the terms of the trust agreement. The Plan is designed to hold and invest Plan assets for retirement benefits of the Plan participants.

Date of Management's Review

The plan has evaluated subsequent events through August 25, 2014, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in The United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. The accounting records of the Plan are maintained on the cash basis.

Expenses

Certain expenses of maintaining the Plan are paid directly by the plan sponsor and are excluded from these financial statements. Investment related expenses paid through revenue sharing arrangements are included in Investment Income.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid

Note 2 - DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a contributory defined contribution Plan covering all employees of American Bank who have attained the age of 18. The Plan became effective November 1, 1990. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Company contributes on behalf of each participant an amount elected by the participant in his or her salary modification agreement. The Plan provides for discretionary employer matching contributions. Additionally, the Plan provides for discretionary employer contributions and qualifying non-elective contributions. Amounts forfeited during the Plan year shall be used to reduce matching contributions.

The Plan adopted the automatic enrollment feature of the Pension Protection Act of 2008. The automatic enrollment feature does not apply to participants who elect to make contributions to the Plan or elect not to contribute ("opt out") to the Plan. If you made such an election, your contribution level will not automatically change. The default automatic contribution for new employees who do not make a timely election when they first become eligible (either to contribute or to opt out) is 2% of eligible compensation. The amount is automatically withheld each pay period and contributed to the participant's Plan account. Participants can change their contributions level at the beginning of each quarter.

Participant Accounts

Each participant's account is credited with an allocation of participant contributions, the employer contribution and Plan earnings. Allocations of additional discretionary employer contributions, if any, will be allocated to only non-highly compensated participants, based on the ratio of each participant's compensation to total compensation of all eligible participants. Allocations of Plan earnings are based upon the ratio of each participant's average account balance to the total of all participants' average account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years of credited service. Following is the complete vesting schedule:

YEARS OF SERVICE	VESTING PERCENTAGE
1	20%
2	40%
3	60%
4	80%
5	100%

Note 2 - DESCRIPTION OF PLAN – (Continuation)

Payment of Benefits

Benefits are distributable upon termination or retirement. Normal retirement age under the Plan is sixty-five. Benefits are normally paid in a lump sum. The participant may elect an alternative form of payment.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited non-vested accounts totaled $35,769. and $48,150 respectively. These accounts will be used to reduce future employer contributions. The employer contributions were reduced by $25,784 and $25,692 from forfeited non-vested accounts in 2013 and 2012, respectively.

Note 3 - INFORMATION CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to as complete and accurate by the Trustee, Mid-Atlantic Trust Company:

	DECEMBER 31,	
	2013	2012
Investments, at Fair Value:

TOTAL INVESTMENTS	25,374,153	20,335,276
Investment Income	3,723,125	2,106,315

Note 4 – FAIR VALUE MEASUREMENTS

FASB ASC 820, Fair Value Measurements & Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follow:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from, or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are inputs that are unobservable and significant to the fair value measurement.

Valuation Methodology

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value.

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at the end of the year. The fair value of the money market fund is based on a dollar for dollar value of the cash reserves in the account; the money market fund seeks to preserve the value on a $1 investment at $1 per share.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 – FAIR VALUE MEASUREMENTS – (Continuation)

The following table sets forth, by level within the fair value hierarchy, the major classes of the Plan's investments at fair value:

Note 5 - INVESTMENTS – (Continuation)

In 2013 and 2012, the Plan's investments (including investments bought, sold and held during the period and dividend income) appreciated in value by $3,481,600 and $1,736,348, respectively.

Note 6 – INVESTMENT PROGRAMS

All investments of the Plan are participant-directed. The Plan currently sponsors 17 investment options for participants. Participants can change their investment election at anytime. Undirected participants' and employer contributions will be invested in the Plan's qualified default investment alternative (QDIA), InterServ Conservative funds family designated by age according to the individual participant's expected year of retirement in both 2013 and 2012.

Note 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination or complete discontinuance of contributions, participants will become 100 percent vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the company may determine.

Note 8 - TAX STATUS

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan has obtained a favorable tax determination letter from the Internal Revenue Service and the Plan sponsor believes that the Plan continues to qualify and to operate as designated.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan's evaluation was performed for the tax periods ended December 31, 2010 through December 31, 2013, the tax years which principally remain subject to examination by major tax jurisdictions as of December 31, 2013.

Note 10 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
