NOTE A – PLAN DESCRIPTION

The following description of Agility Recovery Solutions, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, established on January 1, 2003, covering all employees who have attained the age of eighteen and completed six consecutive months of employment service from the eligible commencement date. Each employee becomes eligible to participate in the Plan on January 1, April 1, July 1, or October 1 after the employee has met the eligibility requirements. The Plan is subject to the provisions of the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan allows participants to contribute any amount of their eligible compensation, as defined by the Plan, on a tax-deferred basis subject to Internal Revenue Service regulation limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan includes a discretionary company matching contribution equal to 50% of the first 5% of participant contributions for the year ended December 31, 2013. In addition, the employer established a safe harbor contribution equal to 3% of employee compensation for the plan year. For the plan year ended December 31, 2013, discretionary company matching contribution and the safe harbor contribution totaled $127,270 and $228,957, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer matching contributions, an allocation of any discretionary contribution, allocations of plan earnings, and charged with benefit payments and transaction fees related to distributions, allocations of plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their voluntary contributions and employer contributions, plus actual earnings thereon.

Investment Options

Participants may direct their investments into any of the various investment options offered by the Plan. Participants have daily access to their investment balances. Changes may be self-directed by the participants through internet or telephone transfers.

NOTE A – PLAN DESCRIPTION (Continued)

Notes Receivable from Participants

Participants may borrow from the Plan up to 50% of their vested account balance, but not less than $1,000 or more than $50,000. Generally, loan terms may not exceed five years unless such funds are used to purchase a primary residence, in which case the term may not exceed 30 years. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate as published in the Wall Street Journal as of the first day of the calendar quarter immediately preceding the date of the loan plus 2%. Loans outstanding at December 31, 2013, carry interest rates at 5.25%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or designated beneficiary may elect to receive a lump sum distribution or installments equal to the value of the participant's vested interest in his or her account balance at the date of distribution. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or in installments. A participant may also receive a distribution in the event of financial hardship as defined by the Plan.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

Accounting Records

The accounting records of the Plan are maintained by E Plan Services (the "Record Keeper"), which serves as the record keeper of the Plan. Annual statements of account regarding investments are furnished to the Plan by Wilmington Trust, N.A (the "Trustee").

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates and assumptions.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

In accordance with U.S. GAAP, a fully benefit-responsive stable value fund held by a defined contribution plan is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the stable value fund as well as the adjustment to the fully benefit-responsive stable value fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of its investments includes the Plan's net gains on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued and unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Contributions

Contributions from plan participants and matching contributions from the Plan Sponsor are recorded in the year in which the participants' contributions are withheld from amounts paid. All participant and employer contributions are participant-directed.

Administrative Expenses

As provided by the Plan agreement, certain administrative expenses of the Plan are paid out of plan assets while the remainder is paid by the plan sponsor.

Payment of Benefits

Benefits payments to participants are recorded upon distribution

Subsequent Events

The Plan has evaluated subsequent events through October 6, 2014, the date the financial statements were available to be issued.

NOTE C – INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets at December 31:

	2013	2012
Investments at fair value:		
Wellesley Income Investment Fund	$ 431,830	$ *
500 Index Investment Fund	429,306	246,336
Yacktman Service Fund	383,425	243,970
Growth Fund of America	370,775	229,987
Growth Opportunities I Mid Cap Growth Fund	357,224	232,722
Value Fund of America	279,427	204,731
Value Opportunity Investment Fund	276,733	*
EuroPacific Growth Fund	257,475	182,505
Bancorp Master Demand Money Market Fund	*	548,987
Lord Abbett Small Cap Value Fund	*	163,356

* Amount represents less than 5% of net assets

During the year ended December 31, 2013, the Plan's net appreciation in fair value of investments was attributable entirely to the Plan's investments in mutual funds.

NOTE D – FAIR VALUE MEASUREMENTS

Fair value as defined under U.S. GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. U.S. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels. There were no changes in fair value methodologies for the year ended 2013. The following is a description of the valuation methodologies used for assets held by the Plan measured at fair value.

NOTE D – FAIR VALUE MEASUREMENTS (Continued)

Mutual Funds
These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Money Market Fund
These investments are public investment vehicles valued using $1 for the NAV. As pretax and transacted values for money market funds are readily available in the active market in which those securities are traded, they are classified as level 1 of the valuation hierarchy

Stable Value Fund
These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV per share or the equivalent is used for fair value purposes as a practical expedient. These investments are classified within Level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Fair Value
Mutual Funds:				
Growth Funds	$ 1,091,206	$ --	$ --	$ 1,091,206
Blended Funds	911,961	--	--	911,961
Value Funds	1,182,246	--	--	1,182,246
International Funds	257,475	--	--	257,475
Bond Funds	216,598	--	--	216,598
Target Retirement Funds	441,336	--	--	441,336
Money Market Funds	134,420	--	--	134,420
Stable Value Fund	--	66,797	--	66,797
Total assets	$ 4,235,242	$ 66,797	$ --	$ 4,302,039

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E – STABLE VALUE FUND

The MetLife Stable Value Fund is a collective trust fund sponsored by Metropolitan Life Insurance Company. Each investor's beneficial interest in the net assets of the trust is represented by units, an unlimited number of which are authorized. Unit transactions are subject to terms, conditions, and limitations defined in the Declaration of Trust. Trust units are issued and redeemed only on a valuation date and at the net asset value per unit computed on that date. Trust units may be redeemed on a daily basis to meet benefit payments and other participant initiated withdrawals permitted by retirement plans invested in the trust. The investment objectives of the trust are to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant initiated transactions under a retirement plan without penalty or adjustment. The trust will attempt to achieve these objectives by investing principally in guaranteed investment contracts ("GICs") issued by insurance companies; investment contracts issued by banks ("BICs"); structured or synthetic investment contracts ("SICs") issued by banks, insurance companies, and other issuers, as well as the securities supporting such SICs (underlying assets); separate account contracts ("SACs"); and other similar instruments that are intended to maintain a constant net asset value while permitting participant initiated, benefit-responsive withdrawals for certain events.

The Stable Value Fund investment has been identified as a fully benefit-responsive investment. Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the benefit-responsive investments, plus earnings, less participant withdrawals, and administrative expenses. The benefit-responsive investments impose certain restrictions on the Plan, and the investments themselves may be subject to circumstances that impact their ability to transact at contract value, as described in the following paragraphs. Plan management believes that the occurrence of events that would cause the investments to transact at less than contract value is not probable.

The existence of certain conditions can limit the trust's ability to transact at contract value with the issuers of its investment contracts. Specifically, any event outside the normal operation of the trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to such withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unit holder, tax disqualification of the trust or a unit holder, and certain trust amendments if the issuers' consent is not obtained. To the extent a unit holder suffers a tax disqualification or legal termination event, under normal circumstances, it is anticipated that liquid assets would be available to satisfy the redemption of such unit holder's interest in the trust without the need to access investment contracts.

In addition to the limitations noted above, issuers of investment contracts have certain rights to terminate a contract and settle at an amount that differs from contract value. For example, certain breaches by the trust of its obligations, representations, or warranties under the terms of an investment contract can result in its termination at market value, which may differ from contract value. Investment contracts also may provide for termination with no payment obligation from the issuer if the performance of the contract constitutes a prohibited transaction under ERISA or other applicable law, if the trust or the trustee suffers an insolvency, or if there is a change in law or accounting standards that makes it impermissible to account for an investment contract on a contract-value basis.

NOTE F – UNAUDITED INVESTMENT INFORMATION CERTIFIED BY TRUSTEE

The accompanying financial statements include the following unaudited information as of and for the year ended December 31, 2013, that was obtained from data prepared and certified to be complete and accurate by the Trustee:

Investments	$	4,302,039
Notes receivable from participants	$	195,935
Net appreciation in fair value of investments	$	551,133
Interest, dividend, and other income	$	138,060
Interest income on notes receivable from participants	$	7,890

The certification mentioned above includes all investment information discussed in Notes C and D.

NOTE G – EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Wilmington Trust, N.A. Wilmington Trust, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Contract administrator fees paid by the Plan to the Trustee amounted to $2,028 for the year ended December 31, 2013.

The accounting records of the Plan are maintained by the Record Keeper and therefore, the Record Keeper qualifies as party-in-interest entity. Record keeper fees paid by the Plan amounted to $8,812 for the year ended December 31, 2013.

NOTE H – INCOME TAX STATUS

The Plan has not obtained a determination letter from the Internal Revenue Service (the “IRS”) stating that the Plan was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). The Plan is relying on the IRS approval of the standardized prototype plan that it is utilizing. The IRS has determined and informed the Trustee by a letter dated March 31, 2008, that the prototype plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE H – INCOME TAX STATUS (Continued)

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2010.

NOTE I – PLAN TERMINATION

Although it has not expressed any intent to do so, the plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the amounts credited to the accounts of the participants will become fully vested in their accounts and will be distributed to the participants or their beneficiaries under the terms of the plan agreement.

NOTE K – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
