COLUMBUS NEIGHBORHOOD HEALTH CENTER, INC. 403(b) PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2013 AND 2012

1. Description of the Plan:

General:

The following description of Columbus Neighborhood Health Center, Inc. 403(b) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan was established January 1, 2012 and covers all eligible employees of Columbus Neighborhood Health Center, Inc. (CNHC or the Company). Employees are eligible to defer under the 403(b) provision immediately upon hire. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The plan administrator is responsible for oversight of the Plan and with the help of an investment adviser, determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the CNHC's Board of Trustees.

Contributions:

Effective November 1, 2012, participants may elect to have a portion of their compensation (as defined) deferred and contributed to the Plan on both a pre-tax and after-tax basis. Each year, participants may contribute up to 100% of their compensation (which may not exceed annual dollar limits established by the Internal Revenue Service) into the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute, at the discretion of the plan administrator, amounts representing distributions from other qualified retirement plans or IRAs (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

CNHC may make discretionary contributions to participants' accounts as determined by the Company's Board of Trustees. Participants are eligible to receive employer discretionary contributions if they complete at least one hour of service during the Plan year. During 2013, CNHC made a discretionary contribution based on participant's eligible wages earned during the first quarter of the Plan year. During 2012, CNHC made discretionary contributions based on participants' eligible wages earned during quarters one through three of the Plan year. CNHC contributed 3% of quarterly compensation for 2013 and 2012.

Participant accounts:

Each participant's account is credited with the participant's contributions and Company contributions, as well as Plan earnings. Participants' accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (continued):

Vesting:

Participants are immediately vested in their contributions plus earnings thereon. A year of service means a period a participant completes 1,000 hours of service. Vesting in the Company's contributions plus earnings thereon is in accordance with the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	50%
4 or more	100%

Payment of benefits:

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or in the form of an annuity. For termination of service other than death, a participant may receive the value of the vested interest in their account as a lump-sum distribution. All distributions are to be made in cash.

Notes receivable from participants:

Active participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Note transactions are treated as transfers between investment funds and the participant notes fund. Repayment of a note must be made over a period not to exceed five years, unless the note is used to purchase a principal residence, in which case the note is to be repaid over a reasonable period of time that may exceed five years. The notes are secured by the balance in the participant's account. Principal and interest must be paid through payroll deductions or in cash on a timely basis. The balance of notes receivable was $8,681 at December 31, 2013. There were no notes receivable at December 31, 2012.

Forfeitures:

When certain terminations of participation in the Plan occur, the nonvested portion of a participant's account (as defined) represents a forfeiture. Forfeitures may be used to reduce Company contributions or to pay Plan expenses.

The amount of unallocated forfeited accounts amounted to $22,283 at December 31, 2013. There were no forfeitures in 2012.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared on an accrual method of accounting.

Use of estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates and assumptions.

Investment valuation and income recognition:

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator, with the assistance of an investment adviser, determines the Plan's valuation policies utilizing information provided by the trustee. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded daily. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold during the year as well as held at the end of the year.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses are paid by the Plan with the expense allocated to each participant. Third-party administrator fees and other professional fees are currently paid by CNHC and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are be included in administrative expenses. CNHC provides other accounting and administrative services at no cost to the Plan. No such employees, nor CNHC, receive compensation from the Plan. Administrative expenses of the Plan paid by CNHC amounted to $16,417 in 2013 and $6,318 in 2012. Additionally, investment related expenses are included in net appreciation (depreciation) in fair value of investments.

2. Summary of significant accounting policies (continued):

Subsequent events:

In preparing these financial statements, the Plan's management has evaluated events and transactions for potential recognition through October 8, 2014, the date the financial statements were available to be issued.

3. Investments:

The following presents the fair value of investments (all participant directed) at December 31, 2013 and 2012. Investments that represent 5% or more of the Plan's net assets in either year are separately identified.

The Plan's investments (including gains and losses on investments bought and sold during the year, as well as held at the end of the year) appreciated (depreciated) in value as follows:

	2013	2012
Mutual funds	$ 59,636	$ (9)

4. Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Money market funds are valued based on its face value which approximates its fair value.

The mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation techniques are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair value measurements (continued):

Assets measured at fair value on a recurring basis at December 31, 2013 and 2012 were as follows:

	2013		2012	
	Level 1	Total	Level 1	Total
Mutual funds:				
Blended funds	$ 387,608	$ 387,608	$ 107,536	$ 107,536
Bond funds	203,269	203,269	71,321	71,321
Value funds	121,003	121,003	34,791	34,791
Growth funds	135,469	135,469	27,822	27,822
Money market funds	22,309	22,309	429	429
	$ 869,658	$ 869,658	$ 241,899	$ 241,899

5. Information certified by trustee:

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2012, and net appreciation (depreciation) in fair value of investments, interest and dividends for the years ended December 31, 2013 and 2012, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by MG Trust Company, LLC (the trustee of the Plan).

6. Plan termination:

Although it has not expressed intent to do so, CNHC has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Tax status:

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the "Code"). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71. The plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service and the Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The statute of limitations is open for years since the Plan began on January 1, 2012.

8. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
