INDEPENDENT AUDITOR'S REPORT

Investment Committee
The Select Family 401(k) Plan
Shelby Township, Michigan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Select Family 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by Transamerica Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions, as of or for the year ended December 31, 2013 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**THE SELECT FAMILY
401(k) PLAN**

NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

1. DESCRIPTION OF PLAN

The following description of The Select Family 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of New Koosharem Corporation (the Company) and other participating employers. The Company has completed an adoption agreement of their plan document which describes the specific rules to which their participating employees are subject. Each other employer becomes a participating employer in the Plan by completing an adoption and acceptance agreement which allows some variation for their employees from the choices elected by the Company for their employees. The remaining description of the Plan reflects the rules in effect for employees of the Company, the employer whose employees' accounts represent the majority of plan assets.

Eligibility

Employees become eligible to join the Plan once they have completed six months of service and are 21½ or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary matching and nonmatching contributions to non-highly compensated participants. During 2012, the Company instituted a discretionary matching contribution of 25% of employee contributions up to a maximum of 4% of eligible wages as defined by the plan document, for employees with one to three years of service. For employees with more than three years of service, the Company contributes 50% of employee contributions up to a maximum of 4% of wages. For the years ended December 31, 2013 and 2012, the Company matched \$77,189 and \$16,435, respectively. For the years ended December 31, 2013 and 2012, the Company did not make any discretionary nonmatching contributions.

**THE SELECT FAMILY
401(k) PLAN**
NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN

Contributions (Continued)

All contributions are subject to certain limitations.

Investment Options

Participants may direct all their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the plan provisions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion and the nonmatching contributions of their accounts is based on the following table:

<u>Years of Service</u>	<u>Percentage</u>
2	20%
3	40%
4	60%
5	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participants account and bear interest at rates that range from 4.25% to 9.25%, which are commensurate with local prevailing rates as determined by the plan administrator. The term of the loan may not exceed five years unless the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest is paid ratably through payroll deductions.

**THE SELECT FAMILY
401(k) PLAN**
NOTES TO FINANCIAL STATEMENTS (Continued)

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Under certain conditions participants may receive a hardship distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company. Loan administration fees and fees for distribution processing are charged directly to the participant's account and are included in administrative expenses.

Forfeited Accounts

At December 31, 2013 and 2012, forfeited nonvested accounts totaled \$2,576 and \$118,032, respectively. During 2013 and 2012, total forfeitures used to reduce employer contributions were \$119,320 and \$47,173, respectively. During 2013 and 2012, total forfeitures used to reduce administrative expenses were \$201 and \$823, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of changes in net assets available for benefits is prepared on a contract value basis which approximates fair value.

Use of Estimates

The preparation of financial statements is in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**THE SELECT FAMILY
401(k) PLAN**
NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

The Plan has evaluated subsequent events through October 3, 2014, which was the date that these financial statements were available for issuance, and determined that there were no significant nonrecognized subsequent events through that date.

Reclassifications

Certain amounts as reported in the prior year have been reclassified to conform to the current year presentation.

3. GUARANTEED INVESTMENT CONTRACT WITH AN INSURANCE COMPANY

The Plan entered into a benefit-responsive investment contract with Transamerica Life Insurance Company (Transamerica). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was \$1,953,541 and \$2,288,196, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, and there is no guaranteed interest rate under the contract. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:

	2013	2012
Based on actual earnings	1.70%	1.90%
Based on interest rate credited to participants	1.70%	2.00%

Transamerica Stable Value Option Advantage Opt	1,953,541	2,288,196

** Investment represents less than 5% of net assets

During 2013 and 2012, the Plan's investments in pooled separate accounts (including investments bought, sold, and held during the year) appreciated in value by \$2,325,804 and \$1,524,784, respectively.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) guidance on fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

5. FAIR VALUE MEASUREMENTS (Continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: Investments in shares of pooled separate accounts held with an insurance company are stated at estimated fair market value and are valued by the insurance company based on the net asset value of shares held by the Plan at year end. The net asset value is determined by the insurance company based on the market value of the underlying investments held in the pooled fund.

Group Annuity Contract: Investments in shares of pooled separate accounts held with an insurance company are stated at estimated fair market value and are valued by the insurance company based on the net asset value of shares held by the Plan at year end. The net asset value is determined by the insurance company based on the market value of the underlying investments held in the pooled fund. Transamerica's Stable Value Option Advantage Fund investment choice has no stated maturity. Interest rates are reset monthly as of the beginning of each month, during which a new interest rate is applied daily to the total outstanding balance of the investment. For deposit liabilities with no defined maturities, the fair value to be disclosed is the amount payable on demand at the reporting date. Accordingly, the contract value is also the fair market value to be disclosed.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

- (a) This category includes investments in equity securities and fixed income securities. The investment style is either moderate allocation or conservative allocation. Some accounts have fixed asset allocations and others allow managers discretion to allocate between equities and bonds, depending on their view of return and risk.
- (b) This category includes investments in fixed income securities, mortgage-backed securities, and other structured products with medium-term maturities.
- (c) This category includes investments in equity securities that seek long-term capital appreciation by investing in companies within the market capitalization range of the Russell 1000 Growth Index.
- (d) This category includes investments in equity securities of non-U.S. companies, bonds, and other short-term assets. Investments within this category may invest in a wide variety of securities of companies not located in the U.S.
- (e) This category includes investments in equity securities of the largest companies. Investments within this category may invest in securities that would be found on the S&P 500 Index and seek to mirror the composition of the index.
- (f) This category includes investments in equity securities of medium-sized companies. Investments within this category may invest in securities that would be found on the S&P 400 Index.

5. FAIR VALUE MEASUREMENTS (Continued)

- (g) This category includes investments in equity securities of companies in certain sectors within the economy, including utilities and real estate.
- (h) This category includes investments in equity securities of smaller-sized companies. Investments within this category may invest in securities whose returns closely track those of the Russell 2000 Index.
- (i) This category includes accounts with investments in U.S. equity, international equity, fixed income, short-term fixed income, and inflation-protected assets. The accounts invest in various underlying mutual funds that in turn buy stock, bonds, and other securities in these market sectors. The fund attempts to allocate risk and investments based on a projected retire date.
- (j) The investment seeks a stable return and safety of principal. The investment seeks to protect against any loss of principal while providing returns in excess of money market funds and one-year treasury bills. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis, and there is no set maturity. The effective credited interest rate is set monthly and effective on the first day of the month. Contract charges may reduce this return.

Investments in this category can be redeemed immediately at the participant level and per the terms of the contract there are certain rules the plan level must follow regarding contract termination.

Changes in Fair Values Levels

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on that actual date of the event or changes in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the years ended December 31, 2013 and 2012, there were no such transfers.

6. CERTIFICATION OF FINANCIAL INFORMATION

The following financial data included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2013 and 2012 has been certified as complete and accurate by Transamerica Life Insurance Company, the custodian of plan assets, and has not been audited by the independent auditors for the Plan: investments at fair value, notes receivable from participants, interest, interest on notes receivable from participants, and net appreciation in fair value of investments.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

8. TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated October 15, 2012, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan may have been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. During 2012, the Plan was notified that it was selected for a Department of Labor (DOL) audit for the period of January 1, 2009 through June 30, 2013. As of the date of this report, the DOL has not finished their field work and has not assessed penalties. The plan administrator believes it is no longer subject to tax authority examinations for years prior to 2010.

9. RELATED PARTY TRANSACTIONS

Certain plan investments and notes receivable from participants are managed by Transamerica Life Insurance Company, the custodian and, therefore, these transactions qualify as party-in-interest. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. PROHIBITED TRANSACTIONS

During 2012, the Company failed to remit to the Plan's trustee certain employee contributions totaling \$69,139 within the period prescribed by Department of Labor's regulations. The Company also had late contributions in 2010 and 2011 totaling \$1,262,470. Delays in remitting contributions to the trustee were due to administrative errors, which the Company has since corrected. The plan is currently under audit by the Department of Labor and plans to make contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delays at the completion of the audit.
