Notes to Financial Statements
(Modified Cash Basis)

1. Description of the Plans

The accompanying financial statements comprise the ADM Retirement Plan (the Retirement Plan) and the ADM Pension Plan for Hourly-Wage Employees (the Hourly Plan) (collectively, the Plans) of Archer-Daniels-Midland Company (ADM or the Company) that participate in the Archer Daniels Midland Master Retirement Trust (the Master Trust).

The Company's funding policy with respect to the Plans is to contribute at least the necessary amount each year to meet the minimum amount required by the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plans have met the ERISA minimum funding requirements for 2013 and 2012.

The Company is free to terminate the Plans at any time, subject to the provisions of ERISA. In the event of the termination of the Plans, the net assets of the Plans shall be allocated to provide benefits in the order of priority prescribed by ERISA. However, the Pension Benefit Guaranty Corporation guarantees the payment of all nonforfeitable basic benefits subject to certain limitations prescribed by ERISA.

More complete information about the Plans, including vesting and benefit provisions, is contained in a summary plan description available from the Company.

On September 20, 2012, the Company amended the Plans and notified certain former employees of the Company of its offer to pay those employees' pension benefit in a lump sum. Former employees eligible for the voluntary lump-sum payment option were generally those who were vested traditional formula participants of the Plans who terminated employment prior to August 1, 2012, and who had not yet started receiving monthly payments of their pension benefits. In accordance with the terms of these amendments, voluntary lump sum payments of \$90 million were made to participants in the Retirement Plan and \$44 million to participants in the Hourly Plan in 2012.

Notes to Financial Statements
(Modified Cash Basis)

1. Description of the Plans (continued)

ADM Retirement Plan

The Retirement Plan is a defined benefit plan covering substantially all regular salaried employees of ADM and its participating affiliates.

In January 2012, the Retirement Plan was amended to offer one-time incentives to certain salaried employees as part of a voluntary early retirement window.

From time to time, the assets and liabilities of acquired pension plans covering the salaried employees of acquired ADM subsidiaries or locations are merged into the Retirement Plan, as is the policy of ADM.

ADM Pension Plan for Hourly-Wage Employees

The Hourly Plan is a defined benefit plan covering those employees of ADM and its participating affiliates who are working at participating locations (as described in the plan document) and who are paid on an hourly rate basis. The Hourly Plan provisions for those locations that are not represented by a collective bargaining agreement, as well as those represented by a collective bargaining agreement, have been modified by the addition of appendices to the Hourly Plan specifying those provisions for the locations that differ from the corresponding provisions of the basic plan provisions.

From time to time, the assets and liabilities of acquired pension plans covering the hourly employees of acquired ADM subsidiaries or locations are merged into the Hourly Plan, as is the policy of ADM.

2. Significant Accounting Policies

Basis of Accounting

The accounting records of the Plans are maintained on a modified cash basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States. Under the modified cash basis, investments are recorded at fair value, and transactions are recorded when cash is received or paid rather than in the time period in which income is earned or expenses are incurred.

Benefits Paid

Benefits are recorded when paid.

Notes to Financial Statements
(Modified Cash Basis)

2. Significant Accounting Policies (continued)

Investments

The Plans' investments held in the Master Trust are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions, attributable under the Plans' provisions to services rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered through the valuation date.

ADM Retirement Plan

Effective January 1, 2009, salaried employees who were vested (five or more years of service before January 1, 2009) continued with the existing traditional pension formula. Salaried employees with less than five years of service before January 1, 2009, participate in a point-based cash balance pension formula with a three-year vesting schedule.

Benefits for retired or terminated employees or their beneficiaries under the traditional pension formula are based on the employees' highest average monthly salary for 60 consecutive months out of the last 180 consecutive months of credited service. Benefits for retired or terminated employees or their beneficiaries under the cash balance pension formula are based on the employee's cash balance account.

ADM Pension Plan for Hourly-Wage Employees

Effective January 1, 2009, most non-bargaining hourly employees, as well as those represented by a collective bargaining agreement, who were hired prior to January 1, 2009, that have a pension plan at their location continued with the existing traditional pension formula. Non-bargaining hourly employees who are hired or rehired on or after January 1, 2009, participate in a point-based cash balance pension formula. Employees represented by a collective bargaining agreement who were hired or rehired on or after January 1, 2009, participate in the pension formula applicable to their respective location.

Benefits for retired or terminated employees or their beneficiaries under the traditional formula are based on the applicable benefit level and the employees' credited service as determined by hours worked. Benefits for retired or terminated employees or their beneficiaries under the cash balance pension formula are based on the employee's cash balance account.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Plan Expenses

All costs and expenses incurred in connection with the operation of the Plans with regard to the purchase and sale of investments, as well as certain professional fees, are paid out of the Master Trust. Other administrative expenses and actuarial and audit fees are paid by ADM, the plan sponsor.

Subsequent Events

On August 5, 2014, the Company amended its U.S. qualified pension plans and began notifying certain eligible individuals of its offer to pay those individuals' pension benefit in a lump sum. Individuals eligible for the voluntary lump sum payment option are generally those who are retirees, surviving joint annuitants, beneficiaries, and alternate payees of the U.S. qualified pension plans who are currently receiving a payment and commenced their benefit prior to June 30, 2014. The voluntary lump sum payments, to be paid from plan assets, will depend on actual participation rates and payout amounts, which will not be known until October 2014.

Management evaluated subsequent events for the Plans through October 9, 2014, the date that these financial statements were available to be issued.

3. Master Trust Investment Information

All investment information disclosed in the accompanying financial statements for the Plans and Master Trust, including investments held at December 31, 2013 and 2012, and net appreciation (depreciation) in fair value of investments, interest, dividends, and investment expenses for the years ended December 31, 2013 and 2012, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Northern Trust Company, the custodian.

The Plans' investments are held in the Master Trust established for the investment of assets of the Plans. Each participating retirement plan has an undivided interest in the Master Trust. The Retirement Plan and Hourly Plan's interest in the net assets of the master trust was approximately 72% and 28%, respectively, at December 31, 2013 and 2012. Investment income (loss) and expenses are allocated among the Plans based upon each plan's pro rata share in the net assets of the Master Trust.

4. Fair Value Measurements

The Master Trust assets are valued as required by Accounting Standards Codification (ASC) 820. ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels are described below:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Observable inputs, including Level 1 prices that have been adjusted, quoted prices for similar assets or liabilities, quoted prices in markets that are less active than traded exchanges, and other inputs that are observable or can be substantially corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are a significant component of the fair value of the assets or liabilities.

Following is a description of the valuation techniques and inputs used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Common stock:

Equity securities are valued based on quoted exchange prices and are classified within Level 1 of the valuation hierarchy.

Equity mutual funds:

Equity mutual funds are valued at the closing price reported on the active market on which they are traded and are classified within Level 1 of the valuation hierarchy.

Common collective trust (CCT) funds:

The fair values of the CCTs are based on the cumulative net asset value (NAV) of their underlying investments. The investments in CCTs are comprised of international equity and short-term investments. The investments are valued at NAV based on the closing market value of the units bought or sold as of the valuation date and are classified in Level 2 of the fair value hierarchy.

4. Fair Value Measurements (continued)

U.S. Treasury instruments:

U.S. Treasury instruments are valued at the closing price reported on the active market on which they are traded and classified within Level 1 of the valuation hierarchy.

U.S. government agency, state, and local government bonds:

U.S. government agency obligations and state and municipal debt securities are valued using third-party pricing services and are classified within Level 2 of the valuation hierarchy.

Corporate debt instruments:

Corporate debt instruments are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. These debt instruments are classified within Level 2 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the plan administrator of the Plans believes the valuation methods are appropriate and consistent with other market participants' methods, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Plans' overall investment strategy is to achieve broad diversification of asset types, fund strategies, and fund managers. The target allocations for the Plans' assets are 60% equity securities and 40% fixed income. Equity securities include investments in large-cap, mid-cap, and small-cap companies located in the U.S. and globally. Fixed income securities include corporate bonds of domestic and foreign companies from diversified industries, mortgage-backed securities, U.S. Treasury instruments, U.S. government agencies, and state and local issuers.

4. Fair Value Measurements (continued)

a) International equity: The fund's investment objective is to seek long-term growth of capital and income through investing primarily in foreign equity securities. Issuances and redemptions are restricted to the last day of the month. The fund units are valued at NAV based on the closing market value of the units bought or sold as of the valuation date and are classified in Level 2 of the fair value hierarchy.

b) Short-term investments: Securities are valued at fair value. There are no redemption restrictions for this fund. The fund units are valued at NAV based on the closing market value of the units bought or sold as of the valuation date and are classified in Level 2 of the fair value hierarchy.

Level 3 Gains and Losses:

There are no assets in the Plans classified as Level 3 in the fair value hierarchy; therefore, there are no gains or losses to disclose.

5. Accumulated Plan Benefits

The Plans' consulting actuaries estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for death, disability, withdrawal, or retirement) between the valuation date and the expected payment date.

As of the latest actuarial valuation of the Plans, the present values of accumulated plan benefits were as follows:

	<u>December 31, 2012</u>	
	Retirement Plan	Hourly Plan
Actuarial present value of vested benefits:		
Participants and beneficiaries currently receiving payments	\$ 622,813,356	\$202,839,127

From December 31, 2011 to December 31, 2012, the valuation discount rate and cash balance interest rate decreased from 4.00% to 3.90% and 3.13% to 2.90%, respectively. The mortality table used to calculate accumulated plan benefits changed from the 2012 Static Mortality Table for Annuitants and Non-Annuitants to the 2013 Static Mortality Table for Annuitants and Non-Annuitants for healthy lives. The effect of these changes in assumptions from the December 31, 2011 valuation to the December 31, 2012 valuation increased the present value of accumulated plan benefits by \$20.9 million. The present value of accumulated plan benefits as of December 31, 2011 was \$1,317 million.

From December 31, 2011 to December 31, 2012, the valuation discount rate and cash balance interest rate decreased from 3.95% to 3.80% and 3.13% to 2.90%, respectively. The mortality table used to calculate accumulated plan benefits changed from the 2012 Static Mortality Table for Annuitants and Non-Annuitants to the 2013 Static Mortality Table for Annuitants and Non-Annuitants for healthy lives. 7. Income Tax Status

The Plans received determination letters from the Internal Revenue Service (IRS) dated March 13, 2013, stating the Plans are qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plans were amended. Once qualified, the Plans are required to operate in conformity with the Code to maintain their qualification. The plan administrator believes the Plans are being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plans, as amended, are qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plans and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plans have recognized no interest or penalties related to uncertain tax positions. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

8. Risks and Uncertainties

The Plans invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

ADM Pension Plan for Hourly-Wage Employees

EIN: 41-0129150 PN: 003

Schedule SB, Part V—Summary of Plan Provisions

History of Plan

A separate pension plan for ADM hourly employees was first established effective September 1, 1952. Effective September 1, 1957, a separate plan for employees represented by the American Federation of Grain Millers was established and the Hourly Trust Fund assets were allocated between the continuing hourly plan and the Grain Miller Plan.

The hourly plan provided for monthly benefits upon retirement of \$2.50 for each year of service. At various dates between September 1, 1963, and December 31, 1976, the plan provisions for those employee units (locations) represented by a union have been modified by the addition of an appendix to the plan specifying those provisions for the employee unit that differ from the corresponding provisions of the basic plan.

Effective January 1, 1968, the basic plan was amended and restated. The benefit rate was increased to \$3.00 for each year of service. The concept of modification of provisions via an appendix was maintained.

Effective January 1, 1973, the basic plan was amended for those employee units not covered by a separate appendix. The amendment included the following changes: the benefit rate increased to \$6.00 for each year of service; the minimum disability benefit increased to \$100.00 and the maximum disability benefit of \$100.00 was deleted; eligibility provisions for vesting were liberalized; and reduction factors for early commencement of benefits were liberalized.

Effective January 1, 1976, the basic plan was amended to comply with the Employee Retirement Income Security Act of 1974 (ERISA). These changes included providing for 100% vesting after ten or more years of service, and the introduction of a preretirement surviving spouse's benefit. In addition, the benefit rate of the basic plan was increased to \$8.00.

Effective January 1, 1983, the North Kansas City, Red Wing, Winona and Atkinson plans were merged into the General Hourly Plan.

Effective August 1984, preretirement death benefit coverage was extended to active vested employees on an employer paid basis and to terminated vested employees on an employee paid basis.

Effective January 1, 1989, in accordance with the Tax Reform Act of 1986, a 5-year cliff vesting schedule was adopted.

Effective December 15, 1990, the Pfizer plan was merged into the General Hourly Plan. Benefits for former Pfizer employees continued under Pfizer plan provisions. As of January 1, 1993, the future benefit rate for these employees was frozen at the rate equal to the accrued benefit divided by credited service.

Effective December 31, 1993, the Supreme Sugar, Cedar Rapids, St. Charles, and Fleischmann Hourly plans were merged into the General Hourly Plan.

Effective October 1, 1997, participation was extended to former ED&F Man employees. Benefits for these participants will be based on a final average pay formula.

Effective February 1, 1998, participation was extended to former Countrymark employees. Benefits for these participants will be calculated based on a cash balance formula.

Effective December 31, 1999, the Moorman Manufacturing Company hourly employees merged into this plan.

Effective January 1, 2000, ADM unpurchased annuities previously purchased from an insurance carrier for former Moorman employees and will now pay these benefits from this plan.

Effective January 1, 2009, new hires on or after January 1, 2009 in certain locations (date may vary by location and union) are eligible for the Cash Balance formula. All other employees continue to have benefit calculated under the Traditional formula.

Effective December 31, 2011, the Grain Miller Plan was merged into the General Hourly Plan. Benefits for former Grain Miller plan participants continued under Grain Miller plan provisions. Also, effective December 31, 2011, hourly employees of the Golden Peanut Pension Plan were merged into the General Hourly Plan. Benefits for former hourly Golden Peanut plan participants will be calculated under the General Hourly Plan's Cash Balance formula.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption change:

- The cash balance interest crediting rate was updated from 3.13% (October 2011 30-year Treasury rate) to 2.90% (October 2012 30-year Treasury rate).

These changes were made to better reflect the anticipated plan experience. The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.

Schedule SB, Part V—Summary of Plan Provisions

History of Plan

A separate pension plan for ADM hourly employees was first established effective September 1, 1952. Effective September 1, 1957, a separate plan for employees represented by the American Federation of Grain Millers was established and the Hourly Trust Fund assets were allocated between the continuing hourly plan and the Grain Miller Plan.

The hourly plan provided for monthly benefits upon retirement of \$2.50 for each year of service. At various dates between September 1, 1963, and December 31, 1976, the plan provisions for those employee units (locations) represented by a union have been modified by the addition of an appendix to the plan specifying those provisions for the employee unit that differ from the corresponding provisions of the basic plan.

Effective January 1, 1968, the basic plan was amended and restated. The benefit rate was increased to \$3.00 for each year of service. The concept of modification of provisions via an appendix was maintained.

Effective January 1, 1973, the basic plan was amended for those employee units not covered by a separate appendix. The amendment included the following changes: the benefit rate increased to \$6.00 for each year of service; the minimum disability benefit increased to \$100.00 and the maximum disability benefit of \$100.00 was deleted; eligibility provisions for vesting were liberalized; and reduction factors for early commencement of benefits were liberalized.

Effective January 1, 1976, the basic plan was amended to comply with the Employee Retirement Income Security Act of 1974 (ERISA). These changes included providing for 100% vesting after ten or more years of service, and the introduction of a preretirement surviving spouse's benefit. In addition, the benefit rate of the basic plan was increased to \$8.00.

Effective January 1, 1983, the North Kansas City, Red Wing, Winona and Atkinson plans were merged into the General Hourly Plan.

Effective August 1984, preretirement death benefit coverage was extended to active vested employees on an employer paid basis and to terminated vested employees on an employee paid basis.

Effective January 1, 1989, in accordance with the Tax Reform Act of 1986, a 5-year cliff vesting schedule was adopted.

Effective December 15, 1990, the Pfizer plan was merged into the General Hourly Plan. Benefits for former Pfizer employees continued under Pfizer plan provisions. As of January 1, 1993, the future benefit rate for these employees was frozen at the rate equal to the accrued benefit divided by credited service.

Effective December 31, 1993, the Supreme Sugar, Cedar Rapids, St. Charles, and Fleischmann Hourly plans were merged into the General Hourly Plan.

Effective December 31, 1995, the Premiere and Jackson Hourly plans were merged into the General Hourly Plan.

Effective September 30, 1996, Southern Cellulose hourly employees were merged into the General Hourly Plan.

Effective February 28, 1997, Grace Cocoa employees from Plan H (Merkens) and Ambrosia were merged into the General Hourly Plan.

Effective May 31, 1997, Benson-Quinn hourly employees were merged into the General Hourly Plan.

Effective October 1, 1997, participation was extended to former ED&F Man employees. Benefits for these participants will be based on a final average pay formula.

Effective February 1, 1998, participation was extended to former Countrymark employees. Benefits for these participants will be calculated based on a cash balance formula.

Effective December 31, 1999, the Moorman Manufacturing Company hourly employees merged into this plan.

Effective January 1, 2000, ADM unpurchased annuities previously purchased from an insurance carrier for former Moorman employees and will now pay these benefits from this plan.

Effective December 31, 2001, the Consolidated Nutrition hourly employees were merged into the plan.

Effective September 30, 2002, the Minnesota Corn Processing employees were acquired.

Effective January 1, 2009, new hires on or after January 1, 2009 in certain locations (date may vary by location and union) are eligible for the Cash Balance formula. All other employees continue to have benefit calculated under the Traditional formula.

Effective December 31, 2011, the Grain Miller Plan was merged into the General Hourly Plan. Benefits for former Grain Miller plan participants continued under Grain Miller plan provisions. Also, effective December 31, 2011, hourly employees of the Golden Peanut Pension Plan were merged into the General Hourly Plan. Benefits for former hourly Golden Peanut plan participants will be calculated under the General Hourly Plan's Cash Balance formula.

See separate binder of specific provisions by appendix of the current plan provisions.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following non-prescribed assumption change:

- The cash balance interest crediting rate was updated from 3.13% (October 2011 30-year Treasury rate) to 2.90% (October 2012 30-year Treasury rate).

These changes were made to better reflect the anticipated plan experience. The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
