NATERRA INTERNATIONAL, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of the Naterra 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan became effective on January 1, 1997 and was amended and restated effective May 1, 2010.

Effective January 1, 2013, the Plan Trustee, Hartford Life Insurance Company was acquired by Massachusetts Mutual Life Insurance Company.

Eligibility

The Plan is a "401(k) Plan" covering all eligible employees of Naterra International, Inc. and Beauty Manufacturing Solutions, Inc. (the Employers) who are a minimum of twenty-one years of age and have completed one month of service.

Contributions

Participating employees may contribute, through payroll deductions from 1% to 15% of their eligible compensation up to a maximum as defined in the Internal Revenue Code, as deferred contributions. Effective January 1, 1997, the Plan is operating under a deferral election. The entry date to the plan shall be the first date of each month during the plan year in which the employee has been employed for one month.

The Employers make a matching safe harbor contributions equal to 100% of the employee's salary deferral contributions up to the first 4% of their eligible compensation. In addition, as of each Plan year-end, the Employers may make a special discretionary contribution equal to a certain percentage of employee compensation. No special discretionary contribution was made or declared for the year ended December 31, 2013. Each participant's share is based on the ratio of their compensation to the total compensation for all participants. For a participant to qualify for a matching safe harbor contribution and special discretionary contribution, the participant must be employed on any day of the plan year.

At the discretion of the Plan Administrator, the participant may be permitted to deposit or rollover into the Plan, assets he or she has received from other plans. The rollovers will be placed in the participant's account based upon their election allocations in the Plan enrollment form, which would be 100% vested.

NOTE 1. DESCRIPTION OF PLAN – CONTINUED

Vesting

Safe harbor employer matching contributions vest immediately. Vesting of special discretionary employer contributions in the participant's account is determined under the following schedule, based on years of credited service.

Years of Credited Service	Vested Percentage
Less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

However, the participant will always be 100% vested upon the normal retirement age, disability, or death. Regardless of this vesting schedule, participants will be 100% vested in their own contributions to the Plan.

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts are used to pay Plan expenses first and then to offset Employers contributions to the Plan. No forfeitures were used to offset employee's contributions for the year ended December 31, 2013. Unallocated forfeitures as of December 31, 2013 and 2012 were $5,562 and $5,453, respectively.

Notes Receivable From Participants

Participants may borrow from their vested fund accounts up to a maximum equal to the lesser of $50,000 or 50% of the non-forfeitable account balance. All notes must be a minimum of $1,000. All notes must have a definite repayment period which range up to 60 months, and participants may have up to three outstanding notes at a time. The notes are collateralized by the balance in the participant's accounts and bear a reasonable rate of interest based on prevailing market conditions.

NOTE 1. DESCRIPTION OF PLAN – CONTINUED

Benefit Payments

Participants are entitled to receive their benefits under the Plan in the event of retirement, termination of employment, disability, or death. At the time a participant is entitled to receive a distribution under the Plan, the plan administrator will direct the trustee to pay the benefits in either one lump sum or, if elected by the participant and the vested account balance exceeds $5,000, in installment payments. For termination of service due to other reasons, a participant may receive the value of the vested account balance as a lump sum distribution or rollover.

Administration

Substantially all administration expenses incurred by the Plan are paid by the Employers except for fees charged by the trustee for processing loans and early redemption penalties.

Plan Termination

Although it has not expressed any intent to do so, the Employers have the right under the Plan to suspend or discontinue its contributions at any time and to terminate the Plan in whole or in part, subject to the provisions of ERISA. In the event of Plan termination, Plan participants will become 100% vested in their Employers contributions. After provisions for the expenses of administration, the proportionate interests will be distributed to the participants.

Subsequent Events

The Plan administrator has evaluated all events or transactions that occurred after December 31, 2013 up through October 8, 2014, the date the financial statements were available to be issued. During this period there were no material recognizable subsequent events.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates

The accompanying financial statements are prepared on the accrual basis of accounting. Employee contributions are recorded in the period during which the Employers make payroll deductions from the Plan participants' earnings. Employers contributions are recorded in the same period. Benefit payments are recorded in the period in which they are distributed. Income and expenses are recorded in the period earned and incurred, respectively. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to use estimates and assumptions that affect reported amounts in the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation

The Plan's investments are in pooled separate account which invest in mutual funds and are stated at fair value, based on quoted market prices at the Plan's year-end. Fair value of mutual funds is based on quoted market prices in an active market as of the last day of the Plan year. Shares of guaranteed investment contracts are valued at the unit value as reported by the investment manager, which are reported at contract value which approximates fair value. Notes receivable from participants are valued at the unpaid principal balance plus any accrued but unpaid interest. Purchases and sales of investments are recorded on a trade date basis. Interest is allocated to participant accounts on a pro-rata basis depending on the participant's account balance. Dividends are allocated based on the number of shares in a participant's account.

Market and Credit Risks

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following is a summary of the Plan's financial information and data certified by the Trustee, Massachusetts Mutual Life Insurance Company (2013), and Hartford Life Insurance Company (2012), as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for reporting and Disclosure under the Employee Retirement Income Security Act (ERISA) of 1974:

	December 31, 2013	December 31, 2012
Pooled separate accounts	$ 2,008,802	$ 1,755,157
Guaranteed investment contract	28,239	91,524
Notes receivable from participants	79,800	46,988

	Year Ended December 31, 2013
Investment income:	
Interest from notes receivable from participants	$ 1,993
Dividends	77,619
Net appreciation in value of investments	292,584

NOTE 4. TAX STATUS

Effective March 31, 2008, the Plan has received a favorable determination letter regarding its status under Section 401 of the Internal Revenue Code (IRC) as amended and, accordingly is exempt from federal income taxation. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

In accordance with current guidance related to accounting for uncertainties in income taxes, the Plan is required to recognize in its financial statements the financial effects of a tax position, if that position is more likely than not of being sustained upon examination, including resolution of any appeals or litigation processes based upon the technical merits of the tax position. The new requirements also provide guidance on measurement, classification, interest and penalties and disclosure.

NOTE 4. TAX STATUS – CONTINUED

Tax positions taken related to the Plan's tax exempt status, unrelated business activities taxable income and deductibility of expenses and other miscellaneous tax positions have been reviewed, and management is of the opinion that material positions taken would more likely than not be sustained by examination. Accordingly, the Plan has not recorded an income tax liability for uncertain tax benefits. The Plan's tax years 2010 through 2012 remain subject to examination.

NOTE 6. FAIR VALUE MEASUREMENT

In accordance with current guidance on fair value measurements and disclosures, the Plan defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities which are required to be recorded at fair value, the Plan considers the principal or most advantageous market in which the Plan would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions and credit risk.

The Plan applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels, and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 inputs: Quoted prices in active markets for identical assets or liabilities.

Level 2 inputs: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 inputs: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Pooled Separate Accounts: Valued at the price reported by the party holding the funds, which is redeemable by the Plan with no restrictions.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at that reporting date.

NOTE 6. FAIR VALUE MEASUREMENT – CONTINUED

Below are the Plan's financial instruments carried at fair value on a recurring basis by the fair value hierarchy levels as described above:

	As of December 31, 2013			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Assets:

Guaranteed interest accounts	-	91,524	-	91,524
Total assets	$ -	$ 1,846,681	$ -	$1,846,681

Management has re-evaluated the classification of certain investments and has determined that the investments previously considered level 1 investments were more appropriately classified as level 2 so the prior presentation has been changed to reflect the new classification.

NOTE 7. PARTY IN INTEREST TRANSACTIONS

Parties–in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, party rendering services to the Plan, the employer, and certain others. As such, transactions conducted by the Trustees qualify as party-in-interest transactions.

Benefit Payments

Participants are entitled to receive their benefits under the Plan in the event of retirement, termination of employment, disability, or death. At the time a participant is entitled to receive a distribution under the Plan, the plan administrator will direct the trustee to pay the benefits in either one lump sum or, if elected by the participant and the vested account balance exceeds $5,000, in installment payments. For termination of service due to other reasons, a participant may receive the value of the vested account balance as a lump sum distribution or rollover.

Administration

Substantially all administration expenses incurred by the Plan are paid by the Employers except for fees charged by the trustee for processing loans and early redemption penalties.

Plan Termination

Although it has not expressed any intent to do so, the Employers have the right under the Plan to suspend or discontinue its contributions at any time and to terminate the Plan in whole or in part, subject to the provisions of ERISA. In the event of Plan termination, Plan participants will become 100% vested in their Employers contributions. After provisions for the expenses of administration, the proportionate interests will be distributed to the participants.

Subsequent Events

The Plan administrator has evaluated all events or transactions that occurred after December 31, 2013 up through October 8, 2014, the date the financial statements were available to be issued. During this period there were no material recognizable subsequent events.

NOTE 2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting and Use of Estimates

The accompanying financial statements are prepared on the accrual basis of accounting. Employee contributions are recorded in the period during which the Employers make payroll deductions from the Plan participants' earnings. Employers contributions are recorded in the same period. Benefit payments are recorded in the period in which they are distributed. Income and expenses are recorded in the period earned and incurred, respectively. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to use estimates and assumptions that affect reported amounts in the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Investment Valuation

The Plan's investments are in pooled separate account which invest in mutual funds and are stated at fair value, based on quoted market prices at the Plan's year-end. Fair value of mutual funds is based on quoted market prices in an active market as of the last day of the Plan year. Shares of guaranteed investment contracts are valued at the unit value as reported by the investment manager, which are reported at contract value which approximates fair value. Notes receivable from participants are valued at the unpaid principal balance plus any accrued but unpaid interest. Purchases and sales of investments are recorded on a trade date basis. Interest is allocated to participant accounts on a pro-rata basis depending on the participant's account balance. Dividends are allocated based on the number of shares in a participant's account.

Market and Credit Risks

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following is a summary of the Plan's financial information and data certified by the Trustee, Massachusetts Mutual Life Insurance Company (2013), and Hartford Life Insurance Company (2012), as complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for reporting and Disclosure under the Employee Retirement Income Security Act (ERISA) of 1974:

	Year Ended December 31, 2013
Investment income:

Net appreciation in value of investments	292,584

NOTE 4. TAX STATUS

Effective March 31, 2008, the Plan has received a favorable determination letter regarding its status under Section 401 of the Internal Revenue Code (IRC) as amended and, accordingly is exempt from federal income taxation. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

In accordance with current guidance related to accounting for uncertainties in income taxes, the Plan is required to recognize in its financial statements the financial effects of a tax position, if that position is more likely than not of being sustained upon examination, including resolution of any appeals or litigation processes based upon the technical merits of the tax position. The new requirements also provide guidance on measurement, classification, interest and penalties and disclosure.

NOTE 4. TAX STATUS – CONTINUED

Tax positions taken related to the Plan's tax exempt status, unrelated business activities taxable income and deductibility of expenses and other miscellaneous tax positions have been reviewed, and management is of the opinion that material positions taken would more likely than not be sustained by examination. Accordingly, the Plan has not recorded an income tax liability for uncertain tax benefits. The Plan's tax years 2010 through 2012 remain subject to examination.

NOTE 6. FAIR VALUE MEASUREMENT

In accordance with current guidance on fair value measurements and disclosures, the Plan defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities which are required to be recorded at fair value, the Plan considers the principal or most advantageous market in which the Plan would transact and the market-based risk measurements or assumptions that market participants would use in pricing the asset or liability, such as inherent risk, transfer restrictions and credit risk.

The Plan applies the following fair value hierarchy, which prioritizes the inputs used to measure fair value into three levels, and bases the categorization within the hierarchy upon the lowest level of input that is available and significant to the fair value measurement:

Level 1 inputs: Quoted prices in active markets for identical assets or liabilities.

Level 2 inputs: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 inputs: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Pooled Separate Accounts: Valued at the price reported by the party holding the funds, which is redeemable by the Plan with no restrictions.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at that reporting date.

NOTE 6. FAIR VALUE MEASUREMENT – CONTINUED

Below are the Plan's financial instruments carried at fair value on a recurring basis by the fair value hierarchy levels as described above:

	As of December 31, 2013			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value

Total assets	$ -	$ 1,846,681	$ -	$1,846,681

Management has re-evaluated the classification of certain investments and has determined that the investments previously considered level 1 investments were more appropriately classified as level 2 so the prior presentation has been changed to reflect the new classification.

NOTE 7. PARTY IN INTEREST TRANSACTIONS

Parties–in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, party rendering services to the Plan, the employer, and certain others. As such, transactions conducted by the Trustees qualify as party-in-interest transactions.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2013 - 12/31/2013 and indirect compensation is presented on a calendar year basis ending 12/31/2013.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

[1] Please refer to the Schedule C of the Form 5500 and its instructions (available at: http://www.dol.gov/ebsa/5500main.html), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

Please review other service providers, below, to determine whether direct fees were also paid to them. Also, please review your records to determine whether other service providers may have received any compensation not reported below (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, or a plan auditor).

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation **$16.84**

Bank accounts and investments associated with short-term investment pool, 200 Hopmeadow Road, Simsbury, CT 06089

This is an estimate based on the annual average rate of float (0.1133% for 2013) earned on the bank accounts and investments associated with the short-term investment pool for the 2013 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding for your plan is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor. The Plan Sponsor should consult with their tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. MassMutual's Code of Conduct generally restricts MassMutual employees from giving to or receiving gifts from customers and/or business partners having a value of over $100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including MassMutual, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-MassMutual parties may not be available to MassMutual.

Please consult with your legal or tax advisors if you have any questions.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Hartford Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds. Massachusetts Mutual Life Insurance Company (together, with its affiliates, "MassMutual") acquired The Hartford's retirement plans business effective January 1, 2013. In connection with the acquisition, The Hartford appointed MassMutual to provide all of administrative services necessary to support your plan's contract. In this role, MassMutual receives all charges, fees and compensation – both direct and indirect – as payable to The Hartford for the services provided to your plan under the packaged retirement services programs.

The list includes any investment option held by the plan on at least one month end during the 2013 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

* This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that some of the funds available through your service contract or arrangement are funds from The Hartford Financial Services Group, Inc.'s proprietary family of mutual funds (The Hartford Mutual Funds). These proprietary mutual funds have contracts for services with companies that are affiliated with Hartford Securities Distribution Company Inc.

The Hartford-affiliated companies that provide these services, and are compensated in connection with those services, are listed below. For more information about these proprietary mutual funds, see the applicable fund prospectus.
