## 1. Description of Plan

The following description of Canteen Service Company of Owensboro, Inc. (Company) Profit-Sharing/401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan covering all employees of the Company, and its related companies Canteen Service Company of Kentuckiana, Inc. and Derringer Food Group, Inc., who have one year of service and are age 21 or older. The plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA) of 1974.

The Company added Derringer Food Group, Inc. as a participating employer under the Plan effective November 4, 2013, recognizing all previous service for Derringer Food Services for eligibility and vesting purposes. Loans in the amount of $66,200 were transferred into the Plan from the former Derringer Food Services 401(k) Plan in 2013. In addition, rollovers in the amount of $1,845,280 were received from the Plan in 2013. The Company also amended the Plan to recognize prior service for eligibility and vesting with Fischer Candy Company and RDM Sales & Service, effective February 1, 2013 and March 1, 2013, respectively.

### Contributions

Each year, participants may contribute up to 75 percent of pretax annual compensation, as defined by the plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants are permitted to make Roth elective deferrals. Participants may also contribute amounts representing distributions from other qualified plans. The Company contributes 50 percent of the first six percent of eligible compensation that a participant contributes to the Plan. Contributions are subject to certain limitations.

### Participant Accounts

All contributions are allocated at the direction of the participant among selected investment funds. Each fund's investment income or loss, less any investment management fee, is allocated to the participants' accounts based on their proportionate interest in the fund. The value of participant accounts will fluctuate with the market value of the securities in which the accounts are invested. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

## 1. Description of Plan, Continued

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Eligible participants may borrow from their accounts a minimum of $500, up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms may not exceed five years, unless for the purchase of a home. Loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25 percent to 6 percent, which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive either a lump sum amount, equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service due to other reasons a participant may receive the value of the vested interest in his or her account as a lump sum distribution. In-service distributions are also permitted upon meeting certain requirements as defined by the Plan.

Forfeitures

Forfeited nonvested accounts were $702 and $3,968 at December 31, 2013 and 2012, respectively. These accounts will be used to reduce future Company contributions. Employer contributions were reduced by $8,826 and $1,908 from forfeited nonvested accounts during the years ended December 31, 2013 and 2012, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

## 2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The financial statements of the Plan are prepared on the accrual basis of accounting.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contract, as well as the adjustment of the investment contract from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Management determines the Plan's valuation policies utilizing information provided by investment advisors and custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

## 2. Summary of Significant Accounting Policies, Continued

Payment of Benefits

Benefits are recorded when paid.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability. The Plan distributes excess contributions to the applicable participants prior to March 15 of the following year.

Expenses

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. Fees related to the administration of participant loans and distributions of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

## 4. Information Prepared and Certified by Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, the custodian has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

| | 2013 | 2012 |
|---|---|---|
| Net assets: | | |
| Mutual funds, at fair value | $ 4,375,681 | $ 2,267,804 |

| Interest and dividends | 130,490 | 65,208 |
| | $ 527,167 | $ 284,592 |

## 5. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

The following is a description of the valuation methodologies used for the investments measured at fair value.

*Mutual funds:* Mutual funds are valued at quoted market prices in an exchange and active market and are classified as Level 1 investments.

*Common collective trust:* The MetLife Managed GIC Stable Value Fund (Fund), held in a common collective trust fund, invests entirely in the MetLife Group Annuity Contract 25157 which consists of separately managed investment portfolios. The Fund is valued at its net asset value (NAV) per share as of the valuation date. Fair value is based on the underlying investments, as determined by the quoted market prices, when available, or by using alternative fair valuation methods, such as discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated swap rate at year end, less any liabilities. The Fund's objective is the safety and preservation of principal and accumulated interest. There were no unfunded commitments at December 31, 2013 and 2012. The redemption frequency is daily with a redemption notice period of 2 days. If the Plan were to initiate a full redemption of the fund, the redemption notice period is 60 days. The Fund is classified as a Level 3 investment.

At least annually, Plan management and the Board of Directors review and approve the Plan's fair value measurement policies and procedures and determine if the valuation techniques used in fair value measurements are still appropriate. There have been no changes in valuation techniques and related inputs for the years ended December 31, 2013 and 2012

## 6. Tax Status

The Internal Revenue Service (IRS) ruled on March 31, 2008 that the Non-Standardized Prototype Profit Sharing Plan with CODA (the prototype of McKay Hochman Co., Inc. upon which the Plan is based), as then designed, was in compliance with the applicable requirements of Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. Plan management believes the Plan has no uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

## 7. Related Party and Party-In-Interest Transactions

Two Plan board members are currently participants in the Plan and one serves as administrator of the Plan. Fees paid during the year for investment management, administrative, and recordkeeping services rendered by parties-in-interest were based on customary and reasonable rates for such services and were $15,690 and $20,783 for the years ended December 31, 2013 and 2012, respectively.

## 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

## 9. Subsequent Events

Canteen added John Conti Coffee, Co. (Conti) as a participating employer to the Plan, effective August 8, 2014, recognizing all previous service for Conti for eligibility and vesting purposes.

The Plan's management evaluated subsequent events through October 9, 2014, the date the financial statements were available to be issued.
