Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Beverage Distributors Company, LLC Employees Savings 401(k) & Profit Sharing Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established on April 1, 1981 and most recently amended on March 1, 2013. The Plan is available to employees age 21 years or older who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is available to both union and non-union employees and not available to leased employees.

The Board of Directors of Beverage Distributors Company, LLC (the "Company") administers the Plan. Fidelity Management Trust Company ("Fidelity") serves as custodian, manages Plan assets, and maintains the Plan's records. Fidelity offers Plan participants a variety of investment options through various mutual funds, a money market fund, and a common/collective trust fund at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 60% of their annual compensation, as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Additional catch-up contributions are available to any participant who is age 50 or older and has made the maximum contribution for the year.

Effective March 1, 2013, employees no longer can have a fixed dollar amount deferral. Also, participants who do not affirmatively elect to have a specified amount contributed to the Plan or opt out of deferring into the Plan will automatically have 3% of their compensation deferred upon meeting eligibility requirements. All previously eligible non-participating employees were auto enrolled on March 31, 2013. In conjunction with auto enrollment, the Plan has auto deferral escalation of 1% of eligible compensation each year, to a maximum of 6%, for participants who do not change their deferral election. Employee contributions to the Plan are made through regular payroll deductions.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions (continued)

On an annual basis, the Company matches 50% of pre-tax contributions by participants who are union members, up to a maximum of $500 per participant per Plan year. Such matching contributions totaled $35,811 for the year ended December 31, 2013. The Company has the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions are so designated, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½. The Company also makes an annual contribution of $300 for each participant and may contribute additional amounts at the discretion of the Board of Directors. As of March 1, 2013, all non-union employees hired after this date will not receive the annual $300 contribution by the Company. Such contributions totaled $148,500 for the year ended December 31, 2013. In addition to the $300 per participant contribution, the Company's Board of Directors may authorize a discretionary annual profit sharing contribution to the Plan, no such contribution was made for the year ended December 31, 2013. This contribution is allocated to participants' accounts based on a formula that considers participants' eligible compensation. Union members are not eligible for the Company's discretionary annual profit sharing contribution. Effective March 1, 2013, at the Plan's year-end, the Company may also make additional discretionary matching contributions. Discretionary matching contributions to the Plan totaled $708,359 for the year ended December 31, 2013. Total employer contributions for the year ended December 31, 2013 were $892,670.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contributions, Plan earnings or losses thereon, administrative expenses, and forfeitures. The investment earnings or losses are allocated daily to each participant's account in the proportion that each participant's balance bears to the total of all participants' accounts in each investment. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are immediately 100% vested in their voluntary contributions, Company annual and matching contributions, and allocated earnings or losses thereon.

Any Company discretionary annual profit sharing and discretionary matching contributions (including forfeitures) and the earnings or losses thereon will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1 but less than 2	25%
2 but less than 3	50%
3 or more	100%

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Employees terminated prior to January 1, 2005 are still subject to a prior vesting schedule.

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the fifth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated.

Payments of Benefits

Upon termination of service, death, disability, or attaining normal retirement age, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or annual installments over a selected period. For termination of service for other reasons, a participant may receive the value of the vested account balance as a lump-sum distribution. Accounts with balances less than $1,000 may be immediately distributed upon a distribution event. For accounts where no alternative election is made with vested balances more than $1,000 but less than $5,000, the account will be rolled into an individual retirement account designated by the Company. Participants may make hardship withdrawals subject to approval by the Plan administrator. In-service withdrawals at age 59 1/2 are permitted by the Plan. Benefits are recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and will be reallocated on the earlier of the fifth consecutive one-year break in service or the end of the Plan year following the payment of the vested account balance. Forfeitures may first be used to reduce Plan expenses or non-elective employer contributions and then may be allocated to participants in the same manner as the Company's contribution. Forfeitures totaling $16,253 were reallocated to participants during the year ended December 31, 2013. The balance of this account at December 31, 2013 and 2012 was $25,541 and $16,253, respectively.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value as reported to the Plan by Fidelity. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The fair value of the common/collective trust fund is calculated by discounting the related cash flows based on current yields of similar instruments with comparable duration.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment returns for such investments.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan holds these contracts within the common/collective trust fund. The statements of net assets available for benefits present the fair value of the investment. The statement of changes in net assets available for benefits as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value as of December 31, 2013 and 2012 are prepared on a contract basis. The adjustment from fair value to contract value as of December 31, 2013 and 2012 was $(49,294) and $(111,767), respectively.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by Fidelity are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Fair Value Accounting

The Financial Accounting Standards Board Accounting Standards Codification ("ASC") Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following assets are measured at fair value on a recurring basis.

Note 2 - Fair Value Accounting (continued)

There were no changes to the valuation techniques used during the year ended December 31, 2013.

Note 2 - Fair Value Accounting (continued)

Reported Net Asset Values

The common/collective trust fund fair value as of December 31, 2013 and 2012 is $3,270,371 and $3,905,573, respectively, with no unfunded commitment. Trust units may be redeemed on a daily basis. Under the term of the Declaration of Separate Fund, retirement plans invested in the trust are required to provide 12 months advance written notice to the custodian prior to redemption of trust units for any Plan sponsor or Plan fiduciary withdrawal.

The investments seek to preserve capital, as well as to provide a competitive level of income over time consistent with the preservation of capital. The funds invest in conventional and synthetic investments; debt obligations issued by the U.S. government, domestic and non-U.S. corporations, and U.S. local, city, and state government; mortgage and asset-backed securities; private placements; derivative instruments; cash and short-term obligations; collective investment vehicles and shares of investment companies; and various other securities.

Note 3 - Assets Certified by Custodian

Fidelity has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2013 and 2012 and the income earned or losses incurred on the investments for the year ended December 31, 2013, as reflected in the accompanying financial statements and supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by Fidelity, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Assets Certified by Custodian (continued)

The fair value of investments greater than 5% of net assets available for benefits was as follows:

	December 31, 2013		December 31, 2012	
Mutual funds				
Qualified Plan Advisors Growth Allocation Fund	$ 6,242,843		$ -	*
Fidelity Spartan U.S. Equity Index Fund	$ 2,368,758		$ 3,643,217	
Qualified Plan Advisors Aggressive Allocation Fund	$ 1,248,677		$ -	*

PIMCO Funds Total Return Admin Fund	$ -	*	$ 2,608,270	
Common/collective trust fund				
Fidelity Managed Income Portfolio Fund	$ 3,270,371		$ 3,905,573	

* Indicates investment not in excess of 5% of net assets available for benefits at respective date.

During 2013, the Plan's investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value as follows:

Mutual funds	$ 3,198,915
Common/collective trust fund	(28,398)
	$ 3,170,517

Note 4 - Investment Contracts with Insurance Company

In 2013 and 2012, the Plan entered into a fully benefit-responsive investment contract with Fidelity. Fidelity maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value as reported to the Plan by Fidelity with an adjustment shown to contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contact value for credit risk of the contract issuer or otherwise. The average yield was 1.54% to 1.70% and the crediting interest rate was 0.89% to 1.05% for 2013 and 2012, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%.

Note 5 - Income Tax Status

The Plan has adopted a prototype plan sponsored by Fidelity, which has received a favorable opinion letter from the IRS dated March 31, 2008. The Plan has been amended since the date of this opinion letter; however, the Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Accordingly, no provisions for federal or state income taxes have been included in the accompanying financial statements.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 6 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Note 8 - Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds, a money market fund, and units of a common/collective trust fund managed by Fidelity. Fidelity is the custodian as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules.

Note 9 - Reconciliation to Form 5500

Contributions, receivables, investment gain, and adjustment from fair value to contract value for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2013.

The Plan's investment in a common/collective trust fund includes an investment in fully benefit-responsive investment contracts. The accompanying financial statements report this investment at net contract value while the Form 5500 reports this investment at fair value for both 2013 and 2012, resulting in a $(62,473) difference in net appreciation in fair value of investments for 2013 and $(49,294) and $(111,767) in net assets available for benefits as of December 31, 2013 and 2012, respectively. In addition, the Form 5500 does not include the employer contributions receivable at December 31, 2013 and 2012, resulting in differences in the employer receivable and contributions as compared to the accompanying financial statements as of and for the years ended December 31, 2013 and 2012.

Note 10 - Subsequent Events

The Plan administrator has evaluated subsequent events through the auditors' report date, which is the date the financial statements were available for issuance.
