HILL-ROM, INC. SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

NOTE 1 - DESCRIPTION OF PLAN

The following description of Hill-Rom, Inc. Savings Plan (the Plan) provides only general information. Plan participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan was organized effective July 1, 1987, as a defined contribution retirement savings plan covering all eligible employees of Hill-Rom Holdings, Inc. and its subsidiaries (the Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, a bargaining participant may authorize the Employer to contribute to the Plan a salary reduction amount not to exceed 20% of the participant's annual compensation, as defined by the Plan Agreement. The Employer contributes to certain bargaining participant's accounts an amount equal to 40% of the first 5% or 50% of the first 6% of the participant's salary reduction contributions. Each year, a non-bargaining participant may authorize the Employer to contribute up to 40% of the participant's compensation. The Employer contributes 3% or 4% of each eligible participant's compensation, depending on the classification of the participant.

Participants who attain age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions from amounts representing distributions from other qualified plans.

The Employer has amended the Plan for certain non-bargaining participants. Under the terms of the Plan amendment, employees hired after July 1, 2003 are no longer eligible to participate in the Hill-Rom, Inc. Pension Plan (the Pension Plan). Employees hired prior to July 1, 2003 made an election to continue to participate in the Pension Plan or to freeze their Pension Plan accruals effective December 31, 2003. Continuing Plan participants (those who did not elect to freeze their Pension Plan benefit accruals) and commissioned participants receive 3% Employer contributions to the Plan. Participants with a hire date on or after July 1, 2003 and frozen Pension Plan participants receive 4% Employer contributions and Employer matching contributions of $.50 up to 6% of eligible participant compensation. The benefits of Pension Plan frozen participants will be paid in accordance with the Pension Plan provisions.

The Plan includes an auto-enrollment provision whereby all newly eligible non-bargaining participants are automatically enrolled in the Plan unless an affirmative election not to participate in the Plan or participation at a different deferral rate is executed. Automatically enrolled participants have their contribution rate set at 6% of eligible compensation and their contributions are invested in a designated fund until an investment election is made by the participant.

Participants direct the investment of their contributions, as well as those made by the Employer, into various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contributions and Employer matching contributions, as well as allocations of the Plan earnings. Participant accounts may also be charged with an allocation of certain administrative expenses of the Plan. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting and Forfeitures: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's matching contribution portion of their account is based on years of continuous service. Employer matching contributions are 100% vested after 3 years of continuous service. Employer 3% or 4% contributions are immediately 100% vested.

At December 31, 2013 and 2012, forfeited nonvested accounts of terminated participants totaled $76,958 and $239,150, respectively. These accounts will be used to reduce future Employer contributions or pay Plan expenses. In 2013, forfeited nonvested accounts of $403,180 were used to reduce Employer contributions.

Notes Receivable from Participants: Participants may borrow from their account a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The repayment terms of the notes cannot exceed five years except for the purchase of the participant's principal residence, for which the terms may exceed five years per the Plan Agreement. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through regular payroll deductions.

Payment of Benefits: Upon the occurrence of a distributable event due to separation from service by termination, death, disability, or retirement, as defined by the Plan Agreement, a participant may elect to receive a lump-sum cash distribution equal to the value of the participant's vested interest in his or her account. Hardship and in-service withdrawals, as defined in the Plan Agreement, are also permitted from a participant's account.

Plan Termination: Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the modified cash basis of accounting. This method of accounting differs from accounting principles generally accepted in the United States in that contributions and income are recorded when received, rather than when earned and expenses are recorded when paid rather than when the obligation is incurred.

Estimates: The preparation of financial statements in accordance with the modified cash basis of accounting requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Hill-Rom Holdings, Inc. Master Trust (Master Trust) was established on April 1, 2008, to hold the investment assets of the following plans sponsored by Hill-Rom Holdings, Inc.: Hill-Rom, Inc. Savings Plan and Hill-Rom, Inc. Retirement Account Program. Investments and the income therefrom, are based on segregated investment portfolios within the Master Trust. Accordingly, the Plan's net investment income (loss) from the Master Trust includes only its segregated share of the Master Trust's interest and dividends and net appreciation (depreciation) in fair value of its investments. See Note 4.

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Master Trust's assets include a fully benefit-responsive guaranteed investment contract (see Note 4). The Plan's statements of net assets available for benefits present the fair value of this investment, as well as the adjustment of this investment from fair value to contract value. The Plan's statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants are stated at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are treated as distributions based upon the terms of the Plan Agreement.

Payment of Benefits: Benefits are recorded when paid.

Plan Expenses: Administrative expenses for maintaining the Plan may be paid by the Employer or the Plan, at the Employer's discretion. Certain administration fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments, which is included in net investment income from Hill-Rom Holdings, Inc. Master Trust on the statement of changes in net assets available for benefits.

Tax Status: The Internal Revenue Service (IRS) has determined and informed the Employer by a letter dated December 5, 2011, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in process. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through October 9, 2014, the date the financial statements were available to be issued. See Note 10.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Following is a description of the valuation methodologies used by the Plan for investment assets that are held by the Hill-Rom Holdings, Inc. Master Trust, and measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual Fund Shares and Money Market Fund Shares: Valued at the published net asset value (NAV), as reported by each fund, of the shares held by the Plan at the reporting date.

Guaranteed Investment Contract: Valued at fair value reported by the sponsoring insurance company based on the fair value of the bonds held by the collective trust fund which underlies the guaranteed investment contract (GIC). The guaranteed interest rate provided to participants at contract value for the synthetic GIC is adjusted periodically by the insurer to reflect the current yields on similar instruments with comparable durations, considering the creditworthiness of the issuer. The fair value of the underlying bonds is based on quoted market prices when available or by pricing models and matrix pricing which maximizes the use of observable inputs. See below for significant unobservable inputs used and the related quantitative information.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The Plan's investment in the Master Trust includes an investment in the Prudential Stable Value Fund, which is a benefit-responsive fund. As described in Note 2, because the investment fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to this fund. Contract value, as reported to the Plan by Prudential Insurance Company of America, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield rate based on actual earnings of the fund was approximately 2.05% for 2013 and 1.17% for 2012, and the average interest rate credited to participants was approximately 1.87% for 2013 and 1.67% for 2012.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) communications from the Plan's sponsor designed to induce participants to transfer from the fund, (4) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (5) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments are managed by Fidelity Management Trust Company, the trustee of the Plan and its affiliates; therefore, transactions in these investments qualify as exempt party-in-interest transactions under ERISA. The Trustee and its affiliates also receives indirect fees from investments which are deducted from investment returns. Direct fees paid by the Plan to the Trustee and its affiliates totaled $34,937 in 2013.

The Employer provides certain accounting, administrative and investment management services to the Plan for which it receives no compensation.

Notes receivable from participants are permitted party-in-interest transactions.

NOTE 7 - PLAN AMENDMENTS

Effective January 1, 2013, the Plan Agreement was amended to clarify the determination of compensation under the Plan for certain expatriates of the Plan Sponsor, update the listing of affiliates to the Employer allowed to participant under the plan, and permit the imposition of various fees which may be charged to the Plan participants at the discretion of the Plan Sponsor.

Effective January 14, 2013, the Plan Agreement was amended to allow for loans to Plan participants under the Plan, and to update matching contribution provisions for certain bargaining participants to the Plan.

The Plan Agreement was amended on October 15, 2013 to allow for the merger of the Aspen Surgical Products, Inc.
