SCHENCK ACCURATE SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Schenck AccuRate Savings and Investment Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan was a defined contribution plan covering all full-time employees of Schenck AccuRate, Inc. ("Company"). It was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Employees became eligible to participate on the first day of the next pay period after they attained age 21 and completed one month of service for employee deferrals and twelve months of service for Company contributions.

The Plan merged into the Schenck Process 401(k) Retirement Savings Plan (formerly known as the Mac Process 401(k) Retirement Savings Plan) effective December 31, 2013. At that time, all of the Plan's assets (\$13,135,369) were transferred to the Schenck Process 401(k) Retirement Savings Plan.

Contributions:

Participants could make pre-tax contributions of any amount up to 100% of their compensation subject to certain limits imposed by the Internal Revenue Service. Participants directed the investment of their contributions into various investment options offered by the Plan.

The Company had adopted a "safe-harbor" provision whereby its non-elective contributions equaled 3% of participants' eligible compensation. The Company also matched 25% of the first 4% of employee elective deferrals, and provided for a discretionary profit sharing contribution which equaled 2% of participants' eligible compensation for 2013. The discretionary profit sharing contribution was discontinued in April 2013. Participant and Company contributions, along with note repayments, were remitted to the Plan within the guidelines set forth by ERISA.

Participant Accounts:

Each participant's account was credited with the participant's contribution and an allocation of the Company's contributions, Plan earnings, and charged with an allocation of administrative expenses as defined by the Plan agreement. The benefit to which a participant was entitled was the amount that could be provided from his or her account.

Notes Receivable From Participants:

The Plan permitted limited borrowing by a participant against the value of his or her account not to exceed \$50,000 or 50% of a participant's account balance. Repayments of principal and interest were made through payroll withholdings and were credited to the participant's separate investment funds as elected by the participant. Until such repayments were received, the notes receivable from participants were accounted for in the participant loan fund.

Vesting:

All funds in a participant's account were fully vested and nonforfeitable at all times.

SCHENCK ACCURATE SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Description of Plan (Continued)

Payment of Benefits:

A participant, or his or her beneficiary, was entitled to withdraw the entire vested amount upon termination, death, retirement, disability, attainment of age 59½, or under hardship circumstances, as defined by the Plan. In the event of a participant's separation from service due to death, disability, or retirement, the participant could choose to have the vested benefits paid in a lump-sum or in periodic payments, as defined by the Plan.

Note 2. Summary of Accounting Policies

- A. Basis of Accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

The Plan has evaluated subsequent events through October 3, 2014, which is the date the financial statements were available to be issued.

- B. Investment Valuation and Income Recognition – Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities were recorded on the trade-date basis. Interest income was recorded on the accrual basis. Dividend income was accrued on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan had entered into a benefit-responsive guaranteed investment contract with Great-West Life & Annuity Insurance Company of First Great-West Life & Annuity Insurance Company of New York. The contributions were maintained in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the statements of net assets available for benefits present the fair value of the investment as well as the adjustment of the investment from fair value to contract value. The statement of changes in net assets available for benefits was prepared on a contract value basis.

Certain events limited the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that caused a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Accounting Policies (Continued)

B. Investment Valuation and Income Recognition (Continued)

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment in the CCT at December 31, 2013 and 2012 was \$-0- and \$1,630,932, respectively. The crediting interest rate was based on a formula agreed upon with the issuer, which was reset at least annually.

The investment in the CCT did not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Based on actual earnings	1.21%	1.59%
Based on interest rate credited to participants	1.46%	1.95%

- C. Notes Receivable From Participants – Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants were reclassified as distributions based upon the terms of the Plan document.
- D. Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
- E. Payment of Benefits – Benefits were recorded when paid.
- F. Administrative Expenses – Expenses of the Plan were paid by the Company or the Plan at the Company's discretion. Transaction and maintenance fees incurred by participants who initiate loans and fees for benefit payments were charged directly to the accounts of the affected participants.

Note 4. Fair Value Measurements

At December 31, 2012, the Plan estimated the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value were classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that were corroborated by market data
- Level 3 – Unobservable inputs in which little or no market data existed

The following is a description of the valuation methodologies used for plan assets measured at fair value:

- The fair value of mutual funds was determined based on their quoted closing market prices in active markets for identical investments, and was classified as Level 1.
- The investment in the common/collective trust was valued at its closing net asset value. Because the net asset value was based primarily on observable inputs, most notably quoted prices of similar assets, this investment was classified as Level 2.

The methods described above may have produced a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. There were no changes in the methodologies used from 2012 to 2013. Furthermore, while the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

Note 5. Federal Income Tax Status

The prototype document on which this Plan was based obtained a determination letter from the Internal Revenue Service ("IRS") on September 25, 2002, in which the IRS stated that the basic prototype document and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code. The Plan was amended since the adoption of the prototype. However, the Company believed that the Plan was currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, it believed that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

The plan administrator had analyzed tax positions taken by the Plan and had concluded that, as of December 31, 2013, there were no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. In general, the Plan's previous three tax years remained subject to examination by the Internal Revenue Service, as well as various other taxing authorities.

Note 6. Party-in-Interest Transactions

Great-West Life & Annuity Insurance Company of First Great-West Life & Annuity Insurance Company of New York was the custodian and Great-West Trust Company, LLC was the trustee as defined by the Plan and both are paid fees from the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the custodian and trustee totaled \$4,100 for the year ended December 31, 2013.
