RELIANT MEDICAL GROUP, INC. PROFIT SHARING AND 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF PLAN

The following description of the Reliant Medical Group, Inc. Profit Sharing and 401(k) Plan ("the Plan") is provided for general purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan for the benefit of the employees of Reliant Medical Group, Inc. ("the Company"). The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Effective December 31, 2007, the Board of Trustees of Reliant Medical Group, Inc. approved a freeze of the Plan. An employee who is not a participant in the Plan on December 31, 2007 shall not become a participant. No employer and employee contributions shall be made to the Plan after December 31, 2007.

Participants' accounts – Each participant's account is credited with investment earnings. Allocations are based on account balances. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting – Participants are 100% vested in their contributions account balance, including employer contributions, plus actual earnings thereon.

Payment of benefits – Upon separation of service with the Company due to death, disability, retirement or termination, a participant whose vested account balance exceeds \$1,000 may elect to receive a lump-sum payment. A participant whose vested account balance is \$1,000 or less will automatically receive an immediate lump-sum distribution equal to their vested account balance.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Participants must receive their entire account balance in a lump-sum payment on or before the April 1st following the later of the end of the calendar year in which they terminate employment (for any reason) or attain age 70-1/2.

Expenses – With the exception of fees associated with disbursement transactions, all expenses are paid by the Company, as provided in the Plan document.

1. DESCRIPTION OF PLAN (CONTINUED)

Participant notes – Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years. A participant may not have more than one loan outstanding at any point in time. The loans are secured by the balance in the participant's account and bear interest at a rate of one percent plus the Prime interest rate as published in *the Wall Street Journal* on the first business day of the month in which the loan is made. This rate will remain fixed for the duration of the loan. Principal and interest are paid ratably through payroll deductions.

Plan termination – Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The Fidelity Managed Income Portfolio invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant notes – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits – Benefits to participants are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and uncertainties – The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rate, credit and market risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent events – The Company has evaluated subsequent events through August 8, 2014, the date the financial statements were available to be issued.

3. INVESTMENT INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations under ERISA.

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2013 and 2012, and the net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2013 and 2012, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

The fair values of individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31 are as follows:

	2013	2012
Vanguard Institutional Index Fund	\$ 18,254,482	\$ 14,724,031
Fidelity Freedom Index 2020	10,551,247	**
Artisan Mid Cap Institutional Fund	8,623,902	6,927,543
PIMCO Total Return Institutional Fund	7,886,523	8,580,542
American Funds Europacific Growth	7,495,170	6,858,790
Fidelity Managed Income Portfolio*	6,421,384	6,997,893
Fidelity Freedom 2020 Fund	**	10,591,222

*The contract value of the Plan's investment in Fidelity Managed Income Portfolio Fund was \$6,324,594 and \$6,797,632 at December 31, 2013 and 2012, respectively.

**Less than 5% of Plan's net assets available for benefits

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation method include: quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation method are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds – valued by the Plan at year end as reported on the active market on which the shares are traded.

Common Collective Trust (CCT) – valued based on the net asset value (NAV) of shares held by the Plan at year end. The NAV as provided by the trustee is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no redemption restrictions associated with the CCT.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Stock investments	\$ 51,082,054	\$ -	\$ -	\$ 51,082,054
Target date investments	25,981,648	-	-	25,981,648

Total investments at fair value	<u>\$ 85,688,074</u>	<u>\$ 6,421,384</u>	<u>\$ -</u>	<u>\$ 92,109,458</u>

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Stock investments	\$ 40,493,195	\$ -	\$ -	\$ 40,493,195

Total investments at fair value	<u>\$ 76,152,787</u>	<u>\$ 6,997,893</u>	<u>\$ -</u>	<u>\$ 83,150,680</u>

5. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated August 31, 2008, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of differences between these financial statements and Form 5500 as of December 31:

	2013	2012

Net assets available for benefits per Form 5500	<u>\$ 93,227,700</u>	<u>\$ 84,211,021</u>

The following is a reconciliation of net increase per the statement of changes to net income of Form 5500 for the year ended December 31, 2013:

Net increase per statement of changes as reported in the financial statements	\$ 9,120,150
2013 adjustment from fair value to contract value for fully benefit-responsive investment contracts	96,790
2012 adjustment from fair value to contract value for fully benefit-responsive investment contracts	<u>(200,261)</u>
Net income as reported in Form 5500	<u>\$ 9,016,679</u>

7. PARTY-IN-INTEREST

The Plan assets are invested in shares of mutual funds managed by Fidelity Management Trust Company, the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, the transactions are exempt from the prohibited transactions rule under ERISA. Fees paid by the Plan for investment management services are included in net appreciation in fair value of investments.

RELIANT MEDICAL GROUP, INC. PROFIT SHARING AND 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF PLAN

The following description of the Reliant Medical Group, Inc. Profit Sharing and 401(k) Plan ("the Plan") is provided for general purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan for the benefit of the employees of Reliant Medical Group, Inc. ("the Company"). The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Effective December 31, 2007, the Board of Trustees of Reliant Medical Group, Inc. approved a freeze of the Plan. An employee who is not a participant in the Plan on December 31, 2007 shall not become a participant. No employer and employee contributions shall be made to the Plan after December 31, 2007.

Participants' accounts – Each participant's account is credited with investment earnings. Allocations are based on account balances. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting – Participants are 100% vested in their contributions account balance, including employer contributions, plus actual earnings thereon.

Payment of benefits – Upon separation of service with the Company due to death, disability, retirement or termination, a participant whose vested account balance exceeds \$1,000 may elect to receive a lump-sum payment. A participant whose vested account balance is \$1,000 or less will automatically receive an immediate lump-sum distribution equal to their vested account balance.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Participants must receive their entire account balance in a lump-sum payment on or before the April 1st following the later of the end of the calendar year in which they terminate employment (for any reason) or attain age 70-1/2.

Expenses – With the exception of fees associated with disbursement transactions, all expenses are paid by the Company, as provided in the Plan document.

1. DESCRIPTION OF PLAN (CONTINUED)

Participant notes – Participants may borrow from their accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years. A participant may not have more than one loan outstanding at any point in time. The loans are secured by the balance in the participant's account and bear interest at a rate of one percent plus the Prime interest rate as published in *the Wall Street Journal* on the first business day of the month in which the loan is made. This rate will remain fixed for the duration of the loan. Principal and interest are paid ratably through payroll deductions.

Plan termination – Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The Fidelity Managed Income Portfolio invests in fully benefit-responsive investment contracts. These investment contracts are recorded at fair value (see Note 4); however, since these contracts are fully benefit-responsive, an adjustment is reflected in the statements of net assets available for benefits to present these investments at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant notes – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits – Benefits to participants are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risks and uncertainties – The Plan provides for various investment options. Investment securities, in general, are exposed to various risks, such as interest rate, credit and market risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent events – The Company has evaluated subsequent events through August 8, 2014, the date the financial statements were available to be issued.

3. INVESTMENT INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations under ERISA.

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and the adjustment from fair value to contract value for fully benefit-responsive investment contracts at December 31, 2013 and 2012, and the net appreciation in fair value of investments, interest and dividends for the years ended December 31, 2013 and 2012, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

The fair values of individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31 are as follows:

	2013	2012
Vanguard Institutional Index Fund	\$ 18,254,482	\$ 14,724,031
Fidelity Freedom Index 2020	10,551,247	**
Artisan Mid Cap Institutional Fund	8,623,902	6,927,543
PIMCO Total Return Institutional Fund	7,886,523	8,580,542
American Funds Europacific Growth	7,495,170	6,858,790
Fidelity Managed Income Portfolio*	6,421,384	6,997,893
Fidelity Freedom 2020 Fund	**	10,591,222

*The contract value of the Plan's investment in Fidelity Managed Income Portfolio Fund was \$6,324,594 and \$6,797,632 at December 31, 2013 and 2012, respectively.

**Less than 5% of Plan's net assets available for benefits

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation method include: quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation method are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds – valued by the Plan at year end as reported on the active market on which the shares are traded.

Common Collective Trust (CCT) – valued based on the net asset value (NAV) of shares held by the Plan at year end. The NAV as provided by the trustee is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no redemption restrictions associated with the CCT.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total

5. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service (IRS), dated August 31, 2008, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

These transactions qualify as party-in-interest transactions; however, the transactions are exempt from the prohibited transactions rule under ERISA. Fees paid by the Plan for investment management services are included in net appreciation in fair value of investments.
