1. Description of the Plan

The following description of the Enesco, LLC Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Enesco, LLC (the "Company") to provide eligible employees, as defined, with a program to save for retirement. There is no age or service requirement to participate in the Plan. Eligible employees may begin participation in the Plan on the first day of each calendar month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute a minimum of 1% up to a maximum of 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans.

The Company makes a safe harbor matching contribution up to 50% of a participant's contributions up to 5% of the participant's annual compensation. Beginning January 1, 2012, the Company may elect to make additional discretionary profit-sharing contributions to the Plan. The discretionary profit-sharing contribution will be equal to a uniform percentage of each participant's earnings, as determined each year by the Company. Participants must have completed 1,000 hours of service during the Plan year and must be employed on the last day of the Plan year to receive any discretionary profit-sharing contributions. The Company did not make any such contributions in 2013 or 2012.

Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company safe harbor matching contributions, as well as allocations of any Company discretionary profit-sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, Company safe harbor matching contributions, and any Company discretionary profit-sharing contributions, plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50% of their account balance. Loans are secured by the balance in the participant's account and bear interest based on the prime interest rate plus 1% as listed in The Wall Street Journal on the first business day of the calendar quarter in which the loan is issued. Principal and interest payments are made through payroll deductions and are payable within 5 years, except for loans used to acquire a principal residence, which are payable within 20 years.

Payment of Benefits

Participants (or their beneficiaries, as applicable) may elect to have the value of their vested account distributed to them in a lump-sum payment or in the form of installments, upon permanent disability or death, upon reaching normal retirement age (65), or upon termination of employment. If a participant's vested account balance is $1,001 or more but less than or equal to $5,000 and a distribution election has not been exercised, the balance of the account will be automatically rolled over by the Plan to an individual retirement account ("IRA") with the Vanguard Group as soon as practicable after termination of employment. The account balance will be automatically invested in Vanguard Prime Money Market Fund. If the value of the terminated account is $1,000 or less and a distribution election has not been exercised, a lump-sum distribution will be processed as soon as practical after termination of employment. Under certain circumstances, a participant may be allowed to take a withdrawal from the Plan for financial hardship.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions to and deductions from Plan assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policy utilizing information provided by Vanguard Fiduciary Trust Company, the trustee of the Plan. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA as of and for the years ended December 31, 2013 and 2012. Accordingly, the Plan's trustee, Vanguard Fiduciary Trust Company, has certified that the following data included in the accompanying financial statements and supplemental schedule as of and for the year ended December 31, 2013 and as of December 31, 2012 is complete and accurate.

a. Investments and note receivable from participants, as shown in the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012.

b. Investment income and interest income on notes receivable from participants, as shown in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2013.

c. The schedule of assets (held at end of year) as of December 31, 2013.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information provided by the trustee to the related information included in the financial statements and supplemental schedule.

4. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

December 31,	**2013**	2012
Registered Investment Companies:		
Vanguard Extended Market Index Fund	**$ 3,203,549**	$ 2,391,884
Vanguard International Growth Fund	**2,166,943**	1,771,810
Vanguard Prime Money Market Fund	**4,253,970**	4,247,571

Vanguard Total Stock Market Fund	**2,666,739**	2,066,624
Vanguard Total Bond Market Index Fund	**2,784,274**	3,250,180

5. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *"Fair Value Measurements and Disclosures,"* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no charges in the methodologies used at December 31, 2013 and 2012.

Registered Investment Companies: Registered investment companies are valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end funds registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

		Assets at Fair Value as of December 31, 2013
		Level 1
Mutual funds:		
Blend funds	**$**	**10,607,919**
Fixed income funds		**2,784,274**
Growth funds		**6,337,471**
Other funds		**4,253,970**
Value funds		**7,274,020**
Total Investments at Fair Value	**$**	**31,257,654**

		Assets at Fair Value as of December 31, 2012
		Level 1
Mutual funds:		
Blend funds	$	8,125,590
Fixed income funds		3,250,180
Growth funds		4,858,656
Other funds		4,247,571
Value funds		5,847,584
Total Investments at Fair Value	$	26,329,581

6. Related-Party and Parties-in-Interest Transactions

The Plan invests in shares of mutual funds managed by an affiliate of Vanguard Fiduciary Trust Company ("VFTC"). VFTC is the trustee for the Plan, and therefore these transactions qualify as party in interest transactions. Fees paid to VFTC were $24,552 for 2013. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would remain 100% vested in their Company contributions.

8. Tax Status of the Plan

The Plan has received a favorable determination letter dated September 6, 2002 from the Internal Revenue Service indicating that it is qualified under Section 401(a) of the Internal Revenue Code ("Code") and therefore the related trust is exempt from tax under Sections 501(a) of the Code. Although the Plan has been amended since receiving the determination letter, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require a plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits and the changes there in per the financial statements to the Form 5500 as of and for the year ended December 31, 2013 and as of December 31, 2012:

11. Subsequent Events

The plan administrator has evaluated subsequent events through October 7, 2014, the date the accompanying financial statements were available to be issued. No material subsequent events have occurred through the date that required recognition in the financial statements.
