AMERICAN LABELMARK COMPANY
EMPLOYEES' SAVINGS AND RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

Note 1 – Description of the Plan

The following description of the American Labelmark Company Employees' Savings and Retirement Plan (the Plan) provides general information only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of American Labelmark Company (the Company) who have completed three months of service. Employees can enter the Plan on the first day of each calendar quarter coinciding with or following the completion of the service requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute the lesser of $17,500 and $17,000 in 2013 and 2012, respectively, or up to 50% of their pretax annual eligible compensation (elective contribution). Beginning April 1, 2013, participants are also permitted to designate that a portion or all elective contributions be classified as Roth contributions, in which the deferral would be included in the participant's gross income at the time of the deferral. Participants may also contribute amounts representing distributions from other qualified plans. Plan participants who are eligible to make salary deferrals and have attained age 50 by December 31 of a calendar year may make "catch-up" salary deferrals in addition to regular salary deferrals for that year. Catch-up contributions are limited to $5,500 in 2013 and 2012. The Company may make a matching 401(k) contribution equal to a percentage of elective contributions. Beginning April 1, 2013, additional profit sharing contributions may be contributed by the Company at the discretion of management. The Company contributed 50% of each participant's elective contribution limited to 3% of gross compensation as defined by the Plan in 2013.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's discretionary matching and profit sharing contribution, if any, Plan earnings, Plan losses, and administrative expenses. Allocations are based on participant compensation or account balances, as defined. Earnings include interest, dividends, realized gains or losses on sale of investments and the net change in unrealized appreciation or depreciation of investments. All investment accounts of the Plan are directed by the participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of the Plan (Continued)

Vesting
Participants are 100% vested immediately in their contributions and investment earnings thereon. A participant is 100% vested in the Company's matching and profit sharing contribution upon completing five years of credited service. In the event of death, disability or retirement at designated ages, participants become fully vested.

Investment Options
Participants may direct contributions in a variety of investment choices as more fully described in the Plan agreement. Participants may change their investments daily.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 and up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 7.00%, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits
On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts
At December 31, 2013 and 2012 forfeited nonvested accounts totaled $236 and $0. These accounts will be used to reduce future Company contributions. In 2013 and 2012, employer contributions were reduced by $9,404 and $3,832, respectively, from forfeited nonvested accounts.

Administrative expenses
Certain administrative operating expenses of the Plan are paid by the Company, as provided in the Plan agreement.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Shares held in Common / collective trusts consist primarily of fully benefit-responsive investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits at December 31, 2013 and 2012 was not impacted because contract value approximated fair value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 10 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon terms of the Plan agreement.

Note 2 – Summary of Significant Accounting Policies (Continued)

Payment of Benefits

Benefits are recorded when paid. No amounts were allocated to accounts of persons who have elected to withdraw from the Plan but were not yet paid as of December 31, 2013 and 2012.

Net appreciation in fair value of investments:	
Registered investment companies	$ 1,378,652
Common / collective trust	5,765
Total	$ 1,384,417

Note 5 – Tax Status

The Internal Revenue Service ruled on March 31, 2008 that the Volume Submitter Profit-Sharing Plan with CODA (the Volume Submitter of the Trust Company upon which the Plan is based) qualifies under Section 401(a) of the Internal Revenue Code (IRC) and the related trust is, therefore, not subject to tax under present income tax law. The Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 7 – Related-Party Transactions

Certain Plan investments are shares of registered investment companies managed by Charles Schwab Trust Company. Charles Schwab Trust Company is the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The notes receivable from participants are also party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return on each fund.

Note 8 – Reconciliation of the Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements as of December 31, 2013 and 2012 to the Form 5500:

	2013	2012
Net assets available for benefits per financial statements	$ 10,045,859	$ 8,472,261
Excess contributions payable	14,931	-
Net assets available for benefits per Schedule H to the Form 5500	$ 10,060,790	$ 8,472,261

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the year ended December 31, 2013 to the Form 5500:

Changes in net assets available for benefits per the financial statements	$ 1,573,598
2013 liability for excess contributions	14,931
Changes in net assets available for benefits per Schedule H to the Form 5500	$ 1,588,529

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 10 – Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Registered investment companies and interest bearing cash: Valued at the net asset value ('NAV') of shares held by the Plan at year end.

Common / collective trust: Valued at the net asset value ('NAV') of units of the common trust fund. The NAV as provided by the Trustee, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Plan transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of the common trust fund, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 10 – Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:
