1. Description of Plan

The following description of the SunGard Data Systems Inc. Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan for the employees of SunGard Data Systems Inc. (the "Company") and its participating subsidiaries covering all U.S. eligible employees on a voluntary participation basis. Participants are eligible for the Plan upon one hour of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was originally adopted in February 1983 for the benefit of employees of certain of the Company's subsidiaries. Following that date, other subsidiaries have adopted the Plan for the benefit of their employees. Amounts transferred into the Plan from these subsidiaries are allocated among the investment options as directed by the participants.

Contributions

Contributions consist of participant contributions and Company matching contributions. The Company's policy is to remit contributions to the Plan's trustee concurrent with the Company's payroll disbursement schedule.

Eligible employees may contribute 1% to 50% of their eligible wages on a pre-tax and/or Roth after-tax basis subject to IRS limits of \$17,500 and \$17,000 for 2013 and 2012, respectively. Additionally, participants may elect to contribute from 1% to 6% of eligible wages on a traditional after-tax basis.

Participants who are at least age 50 or will celebrate their 50th birthday during the 2013 calendar year and are scheduled to contribute 50% or \$17,500 (whichever is less) on a pre-tax and/or Roth after-tax basis are eligible to elect catch-up contributions. The maximum rate of contribution is 75% of eligible compensation up to the IRS combined limit of \$5,500. Catch-up contributions represent an additional opportunity to save for retirement because they enable employees to save beyond the normal IRS limits for pre-tax and/or Roth after-tax contributions, which is \$17,500 for 2013. The maximum catch-up contribution amount for 2013 is \$5,500.

Company matching contributions are made on pre-tax and Roth after-tax contributions up to the first 4% that each participant contributes to the Plan on a combined basis. These contributions are allocated among the investment options in a manner consistent with participant contributions.

New employees are automatically enrolled in the Plan at a pre-tax savings rate of 4% via payroll deduction with contributions being directed to a Target Retirement Fund, chosen based on the employee's age and projected retirement date. Employees have the option to opt out of this program or to contribute an amount different than the automatic contribution amount and to invest in funds other than the Plan's default fund. The Plan offers an annual increase feature which automatically increases participants pre-tax contribution rate by one percentage point every January until it reaches the contribution cap of 10%. For the years ended 2013 and 2012, the contribution cap was 10%. The Plan also provides for the Company to make discretionary Company profit-sharing contributions as a percentage of net income. No discretionary Company profit-sharing contributions were made during the years ended 2013 or 2012.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participant contributions and the related plan earnings are 100% vested and nonforfeitable. Company matching and profit-sharing contributions and the related plan earnings are 100% vested upon the earlier of completion of one year of employment, attainment of normal retirement age, death, or total disability of the participant.

Notes Receivable from Participants

Loans are available to participants based with certain limitations, on the lesser of 50% of the participant's aggregate vested account balance or \$50,000. Participant loans bear interest at a fixed rate, commensurate with local prevailing rates as of the date of the loan, which approximates the prime interest rate plus 1%. Interest rates on loans at December 31, 2013 range from 4.25% to 10.5% with the maturity ranging from 2013 to 2034. Loans are repayable within five years unless the loan was taken for the purpose of acquiring or rehabilitating the participant's principal residence, in which case the term of the loan may be for a period longer than five years.

Repayments of loan principal are made through periodic payroll deductions. Payments of interest on loans, also made through semi-monthly payroll deductions, are allocated to the participant's investment funds in a manner consistent with the allocation of the participant's elective contributions.

Payment of Benefits

Distributions from the Plan are permitted upon retirement, death, permanent disability, termination of employment, qualified hardship or age 59-1/2.

Distributions in excess of \$1,000 are made in either single lump sum payments or installments as designated by the participant. Distributions of less than \$1,000 are made in single lump sum payments.

Forfeitures

Forfeitures of unvested matching and profit-sharing contributions may be used to reduce future Company matching contributions or defray administrative expenses borne by the Plan. Forfeited non-vested account balances were \$87,631 and \$92,752, at December 31, 2013 and 2012, respectively. Forfeitures used to offset employer contributions in 2013 and 2012 were \$365,304 and \$486,809, respectively. Forfeitures used to defray administrative expenses borne by the Plan were \$301,846 and \$174,590 in 2013 and 2012, respectively.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Summary of Accounting Policies

The following accounting policies, which conform to accounting principles generally accepted in the United States of America, have been used consistently in the preparation of the Plan's financial statements:

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reported period. Actual results could differ from those estimates.

As described in Financial Accounting Standards Board (FASB) Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the "FSP"), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust. Contract value for this common collective trust is based on the net asset value of the fund as reported by the investment advisor. As required by the FSP, the Statements of Net Assets Available for Benefits present the fair value of the investment in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. The fair value of the Plan's interest in the common collective trust that has investments in fully benefit-responsive investment contracts is determined using the market price of the underlying securities and the value of the investment contracts. The Plan's interest in this common collective trust is valued based on information reported by the investment advisor using the audited financial statements of the common collective trust at year-end. Non-benefit responsive common collective trusts are valued at the net assets value of shares held by the Plan at year end. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

The net appreciation (depreciation) in the fair value of investments consists of realized gains and losses and unrealized appreciation and depreciation on those investments.

Vanguard Brokerage Option

The VGI Brokerage Option is a fund option that allows participants to self-direct investments in a wider variety of mutual funds and equity securities. Within the VGI Brokerage Option, the fair value of mutual funds and equity securities are based on quoted market prices.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Expenses of the Plan include investment advisory, consulting, account maintenance, recordkeeping and information management services. The Company, at its discretion, may pay a portion of expenses related to administering and operating the Plan.

In 2013, the Plan reconsidered its strategy for investing in Target Retirement Funds, and decided to invest in Target Retirement Trusts. In doing this, the Plan was able to lower fees paid by its participants.

During 2013 and 2012, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2013	2012
Mutual funds	\$201,395,050	\$112,709,500
Common collective trusts	12,281,764	-
Brokerage option	150,369	(249,004)
	<u>\$213,827,183</u>	<u>\$112,460,496</u>

4. Fair Value Measurements:

The Plan measures its investments at fair value on a recurring basis in accordance with a three-level hierarchy that prioritizes the inputs used in measuring fair value. The three levels of the hierarchy are as follows:

Level 1—quoted prices in active markets for identical assets or liabilities

Level 2—quoted prices for similar assets and liabilities in active markets or inputs that are observable

Level 3—inputs that are unobservable (for example, cash flow modeling inputs based on assumptions)

The Vanguard Retirement Savings Trust ("VRST") holds a common collective investment trust, VRST Master Trust ("Master Trust") with a fair value of \$66,488,174 and \$67,404,997 at December 31, 2013 and 2012, respectively. The Master Trust invests primarily in synthetic investment contracts backed by high-credit-quality fixed income investments and traditional investments issued by insurance companies and banks. The Master Trust seeks to achieve its objective by diversifying among high-credit-quality investments and investment contracts that are structured to smooth market gains and losses over time. As of December 31, 2013, the overall average credit rating for the Master Trust portfolio was Aa1 (by Standard & Poor's and Moody's Investors Service). Vanguard Retirement Savings Trust seeks to provide current and stable income, while maintaining a stable share value of \$1. There were no unfunded commitments in VRST at December 31, 2013 and 2012. Shares or units of VRST represent a proportionate undivided interest in the Trust, are of equal value and none have any priority or preference over any other. VRST shares are valued on a daily basis and, if redeemed, are redeemable as of each valuation date at their net asset value per share, as long as Trust notification requirements are met.

The Plan invests in shares of mutual funds as well as common collective trusts managed by an affiliate of Vanguard Fiduciary Trust Company ("VFTC"). VFTC acts as trustee and custodian for Plan investments. Vanguard Brokerage Services is a self-clearing brokerage house that handles all participant activity and recordkeeping for the Vanguard brokerage option. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Dividend and interest income earned from party-in-interest investments were \$36,560,344 and \$26,665,833 in 2013 and 2012, respectively.

Accordingly, VFTC has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

* The fair value of the Vanguard Retirement Savings Trust IV at December 31, 2013 and 2012 was \$66,488,174 and \$67,404,997, respectively. The fair value information for the common collective trust in 2013 and 2012 was not separately included in the certified financial information above, but was determined from information provided by the trustee.

7. Tax Status

The Internal Revenue Service determined and informed the Company by letter dated June 24, 2013 that the Plan, as amended, was qualified under IRC Section 401(a). Although the Plan was amended in April 2014, the Plan administrator and the Plan's ERISA council believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore believe that the Plan is qualified, and the related trust is tax-exempt. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing

jurisdictions. An IRS examination was completed in November of 2013 for the 2011 tax year and resulted in no changes to the Company's filed return.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with investment securities, it is at least reasonably possible that such changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Plan Mergers and Transfers

In 2012 as a result of the divestiture of the Company's Higher Education business, participant accounts and participant loans of \$163,683,150 were transferred out of the plan.

In 2013, the Company acquired XSP, a small business. As a result of the acquisition, the Plan transferred in participant accounts and participant loans related to the XSP 401(k) plan in the amount of \$115,228.
