POTLATCH NO. 1 FEDERAL CREDIT UNION 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

The following description of the Potlatch No. 1 Federal Credit Union 401(k) Plan and Trust (Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Potlatch No. 1 Federal Credit Union, and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Potlatch No. 1 Federal Credit Union (Credit Union) is the Plan's sponsor and serves as Plan administrator.

Eligibility – Employees of the Credit Union are eligible to participate in the Plan upon reaching age 21. Employees are eligible to receive matching and profit sharing contributions after completing 90 days of service. The effective date of entry into the Plan is the first pay period after the requirements are satisfied.

Participant contributions – Each year, participants may contribute pretax annual compensation up to the maximum amount allowed by law, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit sharing contributions – The Credit Union may elect to make discretionary matching and profit sharing contributions to the Plan. The Credit Union matches 100% of employee contributions, up to 5% of eligible compensation deferred to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no profit sharing contributions for the year ended December 31, 2013.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contributions and Credit Union matching contributions as well as allocations of the Credit Union's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

POTLATCH NO. 1 FEDERAL CREDIT UNION 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan (continued)

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Credit Union’s contribution portion of their accounts is based on years of continuous service. Participants vest in the Credit Union’s contributions based on the following schedule:

<u>Years of service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant’s account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time. Under the terms of the Plan agreement, Plan loans will bear a reasonable rate of interest determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions. As of December 31, 2013, the rate of interest on outstanding loans was 4.25% with various maturities through December 2018.

Payment of benefits – On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant’s vested interest in his or her account, substantially equal installments, or partial withdrawals. The Plan also permits in-service distributions for participants who have attained age 59 1/2 and hardship distributions.

Forfeitures – Forfeitures are the nonvested portion of a participant’s account that is lost upon termination of employment. Forfeitures are retained in the Plan, must be used before year end, and will first be used to pay Plan administrative expenses, with any remaining amount used to reduce future Credit Union contributions. For the year ended December 31, 2013, Credit Union matching contributions were reduced by \$5,889 from forfeited nonvested accounts. There were no forfeitures outstanding as of December 31, 2013 and 2012.

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are stated at fair value. The Plan's custodian, CMFG Life Insurance Company, certifies the contract value of the guaranteed investment contracts and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

As of December 31, 2013 and 2012, the contract value approximated fair market value; therefore, there is no adjustment to contract value shown on the statements of net assets available for benefits.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

POTLATCH NO. 1 FEDERAL CREDIT UNION 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the Plan Agreement.

Payment of benefits – Benefits are recorded when paid.

Expenses – General Plan administrative expenses may be paid out of the forfeiture account or paid by the Credit Union. Investment management, distribution and loan transaction fees are paid by the Plan participants.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 2, 2014, which is the date the financial statements were available to be issued.

Reclassification – Certain amounts from the prior year statement of net assets available for benefits have been reclassified, in order to conform to the current year presentation.

USF Moderate Allocation I	\$ 854,625	\$ 686,774
USF Aggressive Alloc I	569,246	414,095

During 2013, the Plan's investments (including gains and losses on investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

Investments	<u>\$ 696,724</u>
-------------	-------------------

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.
- Level 2** Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

POTLATCH NO. 1 FEDERAL CREDIT UNION 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Note 4 – Fair Value Measurements (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Guaranteed investment contracts – The guaranteed investment contracts (GIC) are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 5).

Pooled separate accounts – Units held in pooled separate accounts (PSAs) are valued using the net asset value (NAV) of the PSA as reported by the account managers. The NAV is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. The NAV of a PSA is calculated based on a compilation of primarily observable market information.

The Plan investments include the following PSAs:

Oppenheimer International Growth VA – The investment seeks long-term capital appreciation. The fund will invest at least 65% of its total assets in equity securities of issuers that are domiciled or that have their primary operations in at least three different countries outside of the United States and may invest 100% of its total assets in foreign companies. It mainly invests in “growth companies,” which are companies whose earnings and stock prices are expected to increase at a faster rate than the overall market. The fund may invest up to 25% of its total assets in emerging markets.

Ultra Series Large Cap Value I – The investment seeks long-term capital growth, with income as a secondary consideration. The fund will, under normal market conditions, maintain at least 80% of its assets in stocks of large-capitalization issuers (generally, stocks with a market capitalization of the companies represented in the Russell 1000 Value Index). It follows what is known as a “value” approach. The fund may invest up to 25% of its assets in foreign securities, including American Depositary Receipts (ADRs), and may invest in exchange traded funds (ETFs) that are registered investment companies.

POTLATCH NO. 1 FEDERAL CREDIT UNION 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Note 4 – Fair Value Measurements (continued)

Ultra Series Mid Cap I – The investment seeks long-term capital appreciation. The fund invests generally in common stocks, securities convertible into common stocks, and related equity securities of mid-size companies (generally, stocks with a market capitalization similar to those companies in the Russell Midcap Index). It will maintain at least 80% of its assets in such mid cap securities. The fund may also invest in ETFs that are registered investment companies, warrants, preferred stocks, and debt securities, including noninvestment grade convertible debt securities, and up to 25% of its assets in foreign securities.

Ultra Series Moderate Allocation I – The fund invests primarily in shares of other registered investment companies (underlying funds). The fund will be diversified among a number of asset classes and its allocation among underlying funds will be based on an asset allocation model developed by the fund's investment adviser. Under normal circumstances, the fund's total net assets will be allocated among various asset classes and underlying funds, including those whose shares trade on a stock exchange (exchange traded funds or ETFs), with target allocations over time of approximately 60% equity investments and 40% fixed income investments.

Ultra Series Aggressive Allocation I – The fund invests primarily in shares of other underlying funds. The fund will be diversified among a number of asset classes and its allocation among underlying funds will be based on an asset allocation model developed by the fund's investment adviser. Under normal circumstances, the fund's total net assets will be allocated among various asset classes and underlying funds, including those whose shares trade on a stock exchange (exchange traded funds or ETFs), with target allocations over time of approximately 85% equity investments and 15% fixed income investments.

Ultra Series Conservative Allocation I – The fund invests primarily in shares of other registered investment companies. The fund will be diversified among a number of asset classes and its allocation among underlying funds will be based on an asset allocation model developed by the fund's investment adviser. Under normal circumstances, the fund's total net assets will be allocated among various asset classes and underlying funds, including those whose shares trade on a stock exchange (exchange traded funds or ETFs), with target allocations over time of approximately 35% equity investments and 65% fixed income investments.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 – Guaranteed Investment Contract with National Insurance Company

The Plan has entered into a benefit-responsive guaranteed investment contract with CMFG Life Insurance Company (CUNA). CUNA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value, which approximates fair value. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012, was \$435,698 and \$283,892, respectively. The crediting interest rate is currently 1.75%, and is reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	2013	2012
Average yields		
Based on actual earnings	1.75%	2.15%
Based on interest rate credited to participants	1.75%	2.15%

The average yield is based upon annualized earnings of the investment, which may differ from the crediting interest rate, which is based upon the annualized earnings credited to participant accounts.

POTLATCH NO. 1 FEDERAL CREDIT UNION 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Note 6 – Tax Status

The Internal Revenue Service has determined and informed the Credit Union by a letter dated November 8, 2010, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes the Plan administrator has evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 8 – Information Certified By the Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, CMFG Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2013 and 2012.
- Net appreciation in fair value of investments, dividends, and interest, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2013.
- Investments reflected on the schedule of assets (held at end of year).

POTLATCH NO. 1 FEDERAL CREDIT UNION 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Note 9 – Party in Interest Transactions

The Credit Union is the Plan sponsor and administrator. Trustees who serve on the Plan's administrative committee are also participants of the Plan.

The Plan investments include units of pooled separate accounts managed by CUNA Mutual Group. CMFG Life Insurance Company is the custodian of the Plan and an affiliate of CUNA Mutual Group and, therefore, transactions with these entities qualify as exempt party in interest transactions.

The Plan also has notes receivable from participants that qualify as party in interest transactions.

Note 10 – Plan Termination

Although it has not expressed any intention to do so, the Credit Union has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

Note 11 – Reconciliation to Form 5500

The Plan invests in pooled separate accounts that are not direct filing entities; therefore, these investments are classified as mutual funds on Form 5500 and pooled separate accounts on the financial statements.

SUPPLEMENTARY SCHEDULE REQUIRED BY THE DEPARTMENT OF LABOR
