Notes to Financial Statements
December 31, 2013

Note 1 - Description of Plan

The following description of the Murad Inc. 401(K) Savings Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

a) General

The Plan is a defined contribution plan covering eligible employees who have been employed by Murad, Inc. (formerly known as Skin Research Laboratories, Inc.) (collectively, the "Company" and the "Plan Sponsor") for 30 days and have attained 21 years of age. Meeting this criteria an employee is considered a "Participant". It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b) Contributions

Each year, participants may defer up to 100% of their pretax annual compensation subject to the IRS limitations. There are two types of elective deferrals available to Participants: pre-tax deferral and Roth deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers at a minimum 3 investment options.

The Plan provides for discretionary Company matching contributions and for the year ended December 31, 2013, the Company matched each participant's deferral at the rate of 50 percent of the participant's deferral up to a maximum of \$3,000. The Company matching contribution was \$279,419, net of forfeitures of \$40,388, for the year ended December 31, 2013. The Plan also provides for discretionary employer profit sharing contributions. There was none for 2013.

c) Participant Accounts

Each participant's account is credited with their respective contributions an allocation of the Company's contribution and Plan earnings and charges with any withdrawals of distributions requested by the participant, investment losses and allocation of administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on a 5-years graded vesting schedule.

Note 1 - Description of Plan (Continued)

e) Notes Receivable from Participants'

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$50,000 less the highest outstanding loan balance during the prior 12 months or 50 percent of their account balance. The loans are stated at the unpaid principal amount, secured by the balance in the participant's account and bear interest at 4.25 percent. Principal and interest are paid ratably through payroll deductions.

f) Payment of Benefits

Generally, on termination of service due to death, disability, retirement or other, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in their account.

g) Forfeitures

Forfeitures of Company contributions may be used to pay Plan administrative expenses or to reduce future Company contributions. During the year ended December 31, 2013, forfeitures of \$5,594 were utilized to pay Plan administrative expenses and \$40,388 was utilized to reduce Company contributions. As of December 31, 2013 and 2012 forfeitures of \$3,724 and \$79,383 are available for future use.

h) Plan amendment

The plan has been amended effective January 1, 2013 to exclude bonuses for the purposes of determining contributions. This amendment had no effect on the financial statements.

Note 2 - Summary of Accounting Policies

a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Note 2 - Summary of Accounting Policies (Continued)

b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

c) Valuation of Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements. Securities traded on the national securities exchange are valued at the last reported sales price on the last business day of the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

e) Payment of Benefits

Benefits are recorded when paid.

f) Operating Expenses

Except for certain administrative expenses, substantially all expenses of maintaining the Plan are paid by the Company. Investment related expenses are included in net appreciation of fair value of investments.

g) Date of Management's Review

Subsequent events were evaluated through September 9, 2014, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying Statement of Net Assets Available for Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

Level 1 Fair Value Measurements

The fair value of mutual funds, is based on quoted net asset values of the shares held by the Plan at year-end. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Level 2 Fair Value Measurements

The fair values of common collective trusts are valued at the NAV (net asset value) of units of collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Level 3 Fair Value Measurement

BC Baseball Academy, LLC Partnership – The BC Baseball Academy, LLC is privately held and value based on an independent appraisal that utilizes unobservable inputs and therefore classified as Level 3 with in the Valuation hierarchy. The investment is self-directed and held by one participant in the Plan.

Note 5 - Tax Status

The Plan was formed based on a prototype plan offered by the custodian, which is subject to a favorable tax opinion letter from the IRS dated March 31, 2008. The plan administrator did not elect to obtain an individual determination letter. Although no determination letter has been received, the plan administrator believes the Plan, as it is currently designed and operated, is in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

Note 6 - Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by City National Bank, which is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation of fair value of investments.

Note 7 - Reconciliation to Form 5500

Below is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500 as of December:

Net assets available for plan benefits per the Form 5500	<u>\$11,225,573</u>	<u>\$8,891,377</u>

Certain Plan investments are shares of mutual funds managed by City National Bank as the trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net depreciation of fair value of investments.

Note 9 - Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
