EXTRON ELECTRONICS 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2013 AND 2012

1. DESCRIPTION OF PLAN

The following description of the Extron Electronics 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement as well as any plan amendments for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Extron Electronics and its subsidiary, The Ranch (collectively the Company). Excluded employees from the Plan include interns, non-resident aliens, on-call, union and leased employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Employees who have attained at least 21 years of age are eligible to participate in the Plan on the first day of the month following completion of 30 days of service.

Plan Service Providers

John Hancock Life Insurance Company (John Hancock) is the appointed custodian and record-keeper managing the pooled separate accounts and guaranteed investment contracts. Charles Schwab & Co., Inc. (Charles Schwab) is the appointed custodian and record-keeper managing the self-directed brokerage accounts. National Retirement Services, Inc. is the third party administrator of the Plan.

Administration

The Plan is administered by the Company.

Contributions

Participants may elect to contribute an amount up to 100% of eligible pre-tax or post-tax compensation, not to exceed the limits of the Internal Revenue Code (IRC). Participants direct the investment of their contributions into various investment options offered by the Plan, including a self-directed brokerage account option. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary matching and/or profit sharing contributions as determined each year by resolution of the Company's Board of Directors. For the year ended December 31, 2013, the Company matched 50% of an employee's deferral up to 6% of a participant's eligible compensation. The Company did not make any profit sharing contributions for 2013.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary contributions, if any, and (b) Plan earnings and charged with an allocation of administrative expenses. Allocations are based on the participant's eligible compensation, contributions, participant investment elections, and/or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN - (Continued)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may also elect to rollover their account to another tax deferred account or remain in the Plan until they are legally required to begin taking distributions. All vested account balances exceeding $1,000, but not exceeding $5,000, may be rolled into an Individual Retirement Account or other qualified plan. All vested account balances not exceeding $1,000 may be immediately distributed in a lump-sum payment. With the plan administrator's approval, participants may withdraw all or part of their aggregate contributions in the event of financial hardship.

Vesting

Participants are immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's discretionary contributions, plus actual earnings thereon, is based on years of service according to the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures

The unvested portion of a terminated participant's account will be forfeited and used to reduce future Company contributions or to pay Plan expenses. During 2013, employer contributions were reduced by $57,901 from the application of forfeited nonvested accounts. As of December 31, 2013 and 2012, the amount of available forfeitures totaled $6,662 and $136 respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or within a reasonable period of time that is longer than 5 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and generally bear interest at a rate commensurate with the rates that a bank or other professional lender would charge for making a loan in a similar circumstance. Principal and interest is paid ratably through payroll deductions. Under the provisions of the Plan, participants are allowed two outstanding loan balances at any given time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. Delinquent participant loans are reclassified as distributions based upon the terms of the plan agreement.

Payment of Benefits

Benefits are recorded when paid.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Plan, unless paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditors' report, which is the date the accompanying financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Pooled separate accounts: These investments are valued at the net asset value (NAV) of shares held by the Plan at year end. The NAV of pooled separate accounts is based upon a combination of the net asset value of the underlying investments and contract charges. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

3. FAIR VALUE MEASUREMENTS - (Continued)

Unallocated cash: Consists of funds held within the Charles Schwab self-directed brokerage accounts that have not yet been invested. The carrying value is believed to be representative of its fair value based on its short term nature and are classified within level 1 of the valuation hierarchy.

Money market: Money market funds consists of interest-bearing cash investments. The carrying value is believed to be representative of fair value based on their short term nature and are classified within level 1 of the valuation hierarchy.

Registered investment companies: These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Common stocks: These investments are public investment vehicles valued daily at the closing price reported on an active market using observable inputs. The net asset value (NAV) of these securities provided by the custodian is classified within level 1 of the valuation hierarchy.

Other investments: Other investments includes corporate bonds, real estate investment trusts, limited partnerships, and other investments. These investments are public investment vehicles valued daily at the closing price reported on an active market using observable inputs. The net asset value (NAV) of these securities provided by the custodian is classified within level 1 of the valuation hierarchy.

Guaranteed investment contracts: The fair value of the guaranteed investment contracts is determined by multiplying the contract value by a factor which takes into account the remaining number of months until maturity, the composite rate being earned, the declared rate and various pre-established rates of return contractually established by the issuer. Guaranteed investment contracts are classified within level 3 of the valuation hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS - (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013 and 2012:

*Based on nature and risks, the Plan has determined presenting as a single class is appropriate.

In regards to the classification of investment options offered by the Plan, there were no reclassifications in or out of levels 1, 2 or 3 during the year ended December 31, 2013. The nature, risks and investment objectives of the investment categories described above, for which fair value is estimated at NAV, can be found in the Plan's enrollment literature. Investments in these funds can be redeemed immediately and no redemption notification period exists. As of December 31, 2013, there were no unfunded commitments associated with any of these investments.

3. FAIR VALUE MEASUREMENTS - (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's guaranteed investment contracts for the year ended December 31, 2013:

	Guaranteed Investment Contracts
Balance, beginning of year	$ 3,751,716
Purchases	685,011
Interest income	32,225
Sales	(289,447)
Fees	(1,295)
Balance, end of year	$ 4,178,210

The following table represents the Plan's level 3 investment, the valuation techniques used to measure the fair value of the investment, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	*Fair Value*	*Principal Valuation Method*	*Unobservable Inputs*	*Range of Significant Unobservable Inputs*	*Weighted Average*
Guaranteed investment contracts	$ 4,178,210	Discounted Cash Flow	Various Assumptions	(A)	(A)

(A) Fair value is determined primarily using an income approach. The parameters used for discounting in the calculation were estimated using the perspective of the principal market which consists of similar contracts. Additional assumptions were made regarding participant behavior and product management actions.

4. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan invests in contracts with John Hancock. John Hancock maintains the contributions in guaranteed investment contracts. The accounts are credited with earnings on the underlying investments and charged with Plan withdrawals and adjustments for fair value. The guaranteed investment contracts are reported at contract value by John Hancock. The guaranteed investment contracts should be reported at fair value as they are non-fully benefit responsive. The difference between fair value and contract value is not material. In 2013 and 2012, the crediting interest rates ranged from 0.10% to 0.75% and 0.10% to 0.40%, respectively. The crediting interest rates are reset upon the maturity of the contracts.

5. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. 7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. TAX STATUS

The Company adopted a Prototype Non-Standardized Profit Sharing Plan which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the IRC. The Plan has since been amended. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes had been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and during 2014, the Plan underwent an audit by the Department of Labor for the plan years covering 2009 through 2013. As of the date of the independent auditors' report, results of the audit were not made known to the Company. Management does not believe such findings will have a material impact on these financial statements. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

9. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are managed by John Hancock and Charles Schwab, the custodians of the Plan. The Plan paid contract administration fees of $9,587 to John Hancock, third party administration fees of $16,800, and $752 to other administrative fees during 2013. The Company paid certain administrative expenses of the Plan, including recordkeeping fees. These transactions qualify as party in interest transactions for which a statutory exemption exists.

The Plan has an expense reimbursement arrangement with John Hancock whereby a certain percentage of revenues collected by the custodian is used to pay eligible plan expenses or reallocated on a prorata basis to plan participants. During the year ended December 31, 2013, the Plan's expense reimbursement account received $139,358 from the custodian. The reimbursement was reallocated to participants.

10. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
