NOTE A - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the MTC, Inc. 401(k) Plan (the Plan) are prepared on the accrual basis of accounting.

Income Recognition: The basis of investments held by the Plan are adjusted annually to closing market value and unrealized gains and losses are recorded as part of this adjustment. Realized gains and losses on investments are computed using adjusted basis (beginning of year market value) on the first-in, first-out method. Security transaction expenses are considered in computing realized gains and losses on investments.

Investments: Investments are held in pooled separate accounts and invested in mutual funds which are reported at current market value (net asset value), as determined by quoted prices in an active market. Dividends are considered in the fair market value determination. Gains and losses (realized and unrealized) are reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

Fixed income investment is held in the general funds of the insurance company and valued at contract value, which approximates fair market value. The average yield and crediting interest rates were approximately 1.50% for 2013, the first year of the contract. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on an annual basis for resetting.

Participants' Notes Receivable: Participants' notes receivable are stated at their unpaid principal balance plus any accrued interest. Interest is recognized as accrued. An allowance was not required at either year end. If a participant ceases to make a loan payment and the Plan Administrator deems the participant loan to be in default, the loan balance is reduced and a benefit payment to the participant is recorded.

Benefit Payments: Benefits are recorded when paid.

Administrative Expenses: Substantially all expenses incurred to administer the Plan are paid by the Plan Sponsor.

Concentration of Credit Risk: Concentration of credit risk with respect to mutual fund is reduced as a result of the diversity of the underlying investments.

Subsequent Events: Subsequent events have been evaluated by management through the date of the independent auditor's report. Material subsequent events, if any, are disclosed in a separate footnote to these financial statements.

New Accounting Pronouncements: Management is not aware of any new accounting pronouncements that have been released, and are not yet effective, which will have a significant impact to its financial position or results of operations in future periods.

Use of Estimates: The preparation of the financial statements in conformity with U. S. generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Reclassification: Certain amounts from 2012 have been reclassified for comparative purposes to 2013.

NOTE B - DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a cash or deferred profit sharing plan covering all eligible employees of MTC, Inc. (the Plan Sponsor) who have one year of service and are age twenty one (21) or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Each year participants may elect to contribute up to 100% of pretax and after tax annual compensation, subject to IRS limitations, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investments of their contributions to various investments options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Plan Sponsor may elect to contribute a profit sharing contribution, the amount of which is determined by the Board of Directors and allocated based on each participant's compensation. Participants also direct the investment of any profit sharing contribution received.

Participant Accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Plan Sponsor's contributions and (b) Plan earnings and (c) charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant contributions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus earnings thereon. Upon completion of two full years of service, vesting in the Company's contribution portion of their account balance is at 20%, increasing by 20% each year until after six years of service when the participants' account balance becomes fully vested. If a participant terminates due to death, disability, or normal retirement, the participant becomes 100% vested in the account balance.

Benefits: Benefits are paid in a lump sum. The participant or beneficiary is entitled to a benefit equal to the vested balance and non-forfeitable interest in his account as of the distribution date.

Forfeited Accounts: Forfeited non-vested accounts totaled $18,691 at December 31, 2013 and $743 at December 31, 2012. These accounts will be used to reduce future employer contributions or pay Plan expenses.

Termination of Plan: Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested.

Participant Loans: Participant loans are available to all eligible actively employed participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Interest rates are established daily by the Custodian. Principal and interest are repaid through salary reductions each pay period according to an amortization schedule based on the life of the note.

NOTE C – INVESTMENTS (Unaudited)

Investments in excess of 5% of net assets available for benefits include the following at December 31:

	2013	2012
BlackRock LifePath 2020	$ 833,815	$ 737,258
BlackRock LifePath 2030	681,008	576,538
BlackRock LifePath 2040	403,082	354,429
BlackRock LifePath Retirement	375,001	409,298

NOTE D – TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain administrative fees for 2013 and 2012 have been paid for by the Plan Sponsor and are not included in the Plan's statements of changes in net assets available for benefits.

NOTE E – INCOME TAX STATUS

The Internal Revenue Service has ruled that the Plan qualifies under Section 401(a) of the Internal Revenue Code (IRC) and is, therefore, not subject to tax. The Plan has been amended since it determination; however, the Plan's administrator believes it is operating in accordance with applicable IRC regulations.

Management is not aware of any tax positions that would have a significant impact on its financial position. Its federal tax returns for the last four years remain subject to examination.

NOTE F - FAIR VALUE MEASUREMENTS

In accordance with U.S. generally accepted accounting principles, the Plan utilizes a fair value hierarchy that prioritizes the inputs for the valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means
- if the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE F - FAIR VALUE MEASUREMENTS - continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Fair Value Measurements Using			
	Level 1	Level 2	Level 3	Total
December 31, 2013:				
Mutual funds in pooled separate accounts:				
Asset allocation/Balanced	$ -	$ 2,292,906	$ -	$ 2,292,906
International/Global	-	42,296	-	42,296
Small cap	-	10,415	-	10,415
Mid cap	-	21,708	-	21,708
Large cap	-	47,184	-	47,184
Bond	-	12,536	-	12,536
Fixed income	-	18,691	-	18,691
Total investment, at fair value	$ -	$ 2,445,736	$ -	$ 2,445,736
December 31, 2012:				
Mutual funds in pooled separate accounts:				
Specialty funds	$ -	$ 2,077,523	$ -	$ 2,077,523
Growth and income funds	-	40,192	-	40,192
Small-cap funds	-	7,564	-	7,564
Value funds	-	32,228	-	32,228
Other funds	-	21,913	-	21,913
Money market	-	1,361	-	1,361
Total investment, at fair value	$ -	$ 2,180,781	$ -	$ 2,180,781

The above mutual funds are held in pooled separate accounts and are, therefore, considered Level 2 assets.

There have been no changes in methodologies used during 2013 and 2012. Following is a description of the valuation methodologies used for various types of assets measured at fair value:

Mutual Funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Fixed income: Valued at contract value which represents the contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Contract value reasonably approximates fair value at December 31, 2013.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
