NOTES TO FINANCIAL STATEMENTS

December 31, 2013 and 2012

1. DESCRIPTION OF THE PLAN

The following description of the Bourns, Inc. Profit Sharing and Retirement Savings Plan (the "Plan") provides only general information. A complete description of the Plan's provisions is contained in the Plan document.

General

The Plan is a defined contribution profit sharing and 401(k) plan established by Bourns, Inc. on January 1, 1993, at which time the assets from four previously existing plans were transferred into the Plan. The Plan covers all United States employees of Bourns, Inc.; its subsidiary, CAI Barrington, Inc.; and, in addition, Bourns, Inc. has made an election to cover eligible employees of certain foreign affiliates (collectively referred to as the "Company"). To be eligible for the Company's profit sharing contribution, employees must be at least 21 years of age and have one year of service. To be eligible to participate in the 401(k) portion of the Plan, employees must be at least 21 years of age and have completed three months of service. Starting in 2008, new employees who have met the 401(k) eligibility requirements are automatically enrolled in the Plan at a contribution rate of 2 percent for the first year, increasing automatically by 1 percent each year to a maximum of 10 percent. Participation in the 401(k) plan is voluntary and the employee has the option to opt-out of the Plan and also to opt-out of the automatic 1 percent increase. Contribution rates for employees enrolled prior to 2008 do not increase automatically unless the employee elects to participate in the automatic increase option.

Vanguard Fiduciary Trust Company ("Vanguard") serves as trustee and custodian of the trust assets. The trustee accounts for all assets of the trust, independently determines the value of trust investments, and is required to regularly provide an accounting of all receipts, disbursements and transactions made on behalf of the trust.

Under the terms of the Plan, the Investment Review Committee, consisting of members appointed for indefinite terms by the Board of Directors of the Company, has primary oversight authority for matters related to Plan investments and Plan investment choices. The Audit Committee of Bourns, Inc. has primary oversight authority for matters related to the financial statements of the Plan. The Executive Compensation Committee of Bourns, Inc. has primary oversight authority for matters related to plan design and plan benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, ("ERISA") and is in conformity with all subsequent applicable tax law changes.

Contributions

The Company may, but is not required to, make a profit sharing contribution to the Plan in an amount determined at the sole discretion of the Company's Board of Directors. Company profit sharing contributions are allocated among eligible participants in the ratio that each eligible participant's number of credits bears to the total number of credits of all eligible participants. Each eligible participant receives one credit for each $100 of eligible compensation, subject to maximum compensation limitations, and one credit for each year of service. For the 2013 Plan year, the Company made a contribution of $1,200,000 to the profit sharing portion of the Plan.

1. DESCRIPTION OF THE PLAN (Continued)

Contributions (Continued)

Under the 401(k) plan, participants may elect to defer up to 50 percent of eligible compensation per pay period up to the amount allowed by the Internal Revenue Code ("IRC") on either a pre-tax or after tax basis. In 2013, the Company provided a discretionary matching contribution of $860,349, equal to 100 percent of each participant's contribution up to three percent of eligible compensation and 50 percent of each participant's contribution above three percent up to a maximum of five percent of eligible compensation for the 2013 Plan year. Both Company and participant contributions are allocated to various investment funds based on the elections made by the participant.

Vesting

Participants are 100 percent vested in their contributions, the Company matching contributions and any earnings thereon. Participants become vested in the Company profit sharing contributions and any earnings thereon in the following manner:

Years of Service	Percent Vested
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

In the event of termination of employment at age 60 or above, permanent disability or death, participants are 100 percent vested in the Company profit sharing contributions regardless of the number of years of service.

Participant Accounts

An account is maintained for each participant. The participant's account is credited with the participant's contributions, employer matching contributions, employer's profit sharing contributions, and the participant's plan earnings and losses. Participants' contributions are credited to their participant accounts at the time the contribution is made.

Participants direct the investment of their account balance into various investment options offered by the Plan and may change their investment options at any time, subject to the terms of the investments. Plan earnings are credited to a participant's account according to the type of investments in which balances are invested. Participant-directed redemptions may be redeemed daily with the exception that an exchange out of Vanguard Retirement Savings Trust must be exchanged into a noncompeting fund and remain in the noncompeting fund for 90 days before that amount can be exchanged into a competing fixed income fund.

1. DESCRIPTION OF THE PLAN (Continued)

Forfeitures

In the event a participant terminates employment prior to becoming fully vested, the participant is entitled to receive a distribution of the vested portion of his or her account balance. The non-vested portion of the participant's account balance becomes a forfeiture. Forfeitures are maintained in a separate account and are allocated among eligible participants based on the same formula used to allocate Company profit sharing contributions. $26,903 and $15,423 in forfeitures were allocated to participants in 2013 and 2012, respectively. At December 31, 2013 and 2012, forfeited non-vested accounts totaled $51,937 and $30,921, respectively.

Payment of Benefits

Upon death or termination of employment with the Company, or anytime thereafter, a participant (or if the participant is deceased, the beneficiary) may request a distribution of vested benefits. If no request for distribution is made, a participant's vested benefit will remain in the Plan until the participant is required to begin distributions in accordance with IRC section 401(a)(9)(c). A participant eligible for a distribution may elect one (or a combination) of the following methods of distribution: (1) one-time partial distribution; (2) lump-sum distribution; or (3) installment payments. If the participant's vested account balance does not exceed $1,000, the participant's account will be distributed in a lump sum upon death or termination of employment with the Company. In addition, in accordance with IRC section 401(k)-1(d)(3)(i), hardship withdrawals are allowed to satisfy an immediate and heavy financial need.

Plan Termination

While the Company has not expressed any intent to discontinue the Plan, the Company has the right to discontinue contributions at any time and terminate the Plan. In the event the Plan is terminated, the accounts of all participants will become fully vested and all assets remaining in the Plan shall be converted into cash, and the net amount realized after the payment of fees and expenses associated with the conversion shall be distributed to the participants in proportion to the participants' relative account balances as of the date of such termination.

Plan Earnings

The net investment gain (loss) from the trust investment accounts results primarily from interest and dividends, realized gains or losses on sales of investments, net unrealized gains or losses, trustee and management fees, and other payments in accordance with provisions of the trust agreement.

Administrative Expenses

Administrative expenses consist of recordkeeping, account maintenance and other administrative fees.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America.

Income Recognition

Interest income is recorded on the cash basis that approximates the accrual basis. Dividend income is recorded on the ex-dividend date.

Valuation of Investments

The Plan's investments are stated at fair value. The trustee determines the value of mutual fund, individual company stock and bond issue investments based on available quoted market prices. Vanguard Retirement Savings Trust, a common/collective trust, is valued by the trustee at its contract value. The Plan's investment in Vanguard Retirement Savings Trust is reported at fair value in the accompanying Statements of Net Assets Available for Benefits. See Note 5, *Vanguard Retirement Savings Trust (Stable Value Fund)*, for more information. Purchases and sales of securities are recorded on a trade-date basis.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update 2011-04, or ASU 11-04, *Fair Value Measurements - Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 11-04 changes the wordings used to describe many requirements for measuring fair value and for disclosing information about fair value measurements. Additionally, the amendments clarify the FASB's intent about the application of existing fair value measurement requirements. The guidance was adopted by the Plan during the year ended December 31, 2012 and did not have a material impact on its financial statements.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments and notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012.
- Investment income and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013.
- Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2013 (contract value for the Vanguard Retirement Savings Trust).
- Schedule H, Line 4(j) – Schedule of Reportable Transactions for the Year Ended December 31, 2013.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

4. INVESTMENTS

The fair values of individual investments that represent 5 percent or more of the Plan's net assets as of December 31 are as follows:

	2013	2012
Vanguard 500 Index Fund Investor Shares	$ 10,546,982	$ 8,552,775
Vanguard Prime Money Market Fund	$ 5,849,205	$ 7,342,078
Vanguard PRIMECAP Fund Investor Shares	$ 9,556,900	$ 7,185,663
Vanguard Wellington Fund Investor Shares	$ 8,681,426	$ 7,276,664
Vanguard Windsor II Fund Investor Shares	$ 10,728,417	$ 8,932,821
Vanguard Target Retirement 2025 Fund	$ 5,324,525	N/A
Vanguard Total Bond Market Index Fund Investor Shares	$ 5,513,433	$ 6,768,632
Vanguard Retirement Savings Trust (at contract value)	$ 17,942,481	$ 18,105,532

During 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $11,439,086 as shown below:

Investments, principally in common stock, held in brokerage accounts	$ (69,238)
Vanguard mutual funds	11,508,324
	$ 11,439,086

5. VANGUARD RETIREMENT SAVINGS TRUST (STABLE VALUE FUND)

The Vanguard Retirement Savings Trust holds certain guaranteed investment contracts and other fixed income securities (the "Contracts") that are reported at estimated fair value based on current interest rates for similar investments at December 31, 2013 and 2012. The Contracts are fully benefit-responsive, which allows participants to initiate all permitted transactions, such as withdrawals, loans or transfers to other funds within the Plan at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the FASB, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. In addition, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the Vanguard Retirement Savings Trust.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Management does not believe the occurrence of any events which would limit the ability of the Plan to transact at contract value with the issuer is probable.

During the years ended December 31, 2013 and 2012, the average annual yield earned by the Vanguard Retirement Savings Trust was 1.98 percent and 2.22 percent, respectively, and the average annual yield paid to participants was 1.56 percent and 1.82 percent, respectively.

6. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB's guidance are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

6. FAIR VALUE MEASUREMENTS (Continued)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Vanguard money market funds – Valued at the NAV of shares held by the Plan at year end.

Common stocks – Valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trust funds – Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund, minus its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The fair value differs from the contract value by the change in the market value of the underlying assets. The common/collective trust funds are included at fair value in the line "Investments, at fair value" and adjusted to contract value in the line "Adjustments from fair value to contract value for fully benefit-responsive investment contracts" to derive on the line "Net assets available for benefits" in the accompanying Statements of Net Assets Available for Benefits. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

6. FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan believes its valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

6. FAIR VALUE MEASUREMENTS (Continued)

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

	Level 1	Level 2	Level 3	Total
December 31, 2013				
Mutual funds				
Domestic equity funds				
Large cap	$ 30,839,657	$ -	$ -	$ 30,839,657
Mid cap	1,543,121	-	-	1,543,121
Small cap	3,503,035	-	-	3,503,035

6. FAIR VALUE MEASUREMENTS (Continued)

In accordance with the fair value measurements and disclosures guidance, the following table presents the category, fair value, redemption frequency, and redemption notice period for Plan investments, the fair values of which are estimated using the NAV per share as of December, 31:

	2013 Fair Value	2012 Fair Value	Frequency (if currently eligible	Redemption Notice Period
Vanguard money market fund [a]	$ 6,013,343	$ 7,626,507	Daily	Up to one day
Common/collective trust fund [b]	$ 18,758,418	$ 19,511,893	Daily	Up to one day

[a] The fund invests in highly-quality, short-term money market instruments, including certificates of deposit, banker's acceptances, commercial paper, and other money market securities.

[b] The fund invests primarily in synthetic investment contracts backed by high-credit-quality fixed income investments and traditional investments issued by insurance companies and banks.

7. INCOME TAX STATUS

The Internal Revenue Service ("IRS") issued a determination letter dated March 31, 2008 indicating that the Plan qualifies, in form, under Section 401(a) of the Internal Revenue Code of 1986, as amended (the "Code"), and the underlying trust is, therefore, exempt from federal income taxes under Section 501(a) of the Code. The Plan is required to operate in accordance with the Code to maintain its tax exemption status. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Code and, therefore, believes that the Plan is qualified and the related trust is exempt from tax.

8. PARTY-IN-INTEREST TRANSACTIONS

The Plan has not considered Company contributions to the Plan or benefits accrued or paid by the Plan for participants as party-in-interest transactions.

The Company provides certain services, such as accounting and auditing, to the Plan without compensation.

Certain Plan investments are shares of mutual funds managed by Vanguard Investment Group. Vanguard Fiduciary Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for administrative expenses were $36,171 for the year ended December 31, 2013.

9. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

10. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 9, 2014, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events which would require recording or disclosing in the financial statements.
