The purpose of the Plan is to enable eligible employees to save for retirement. In addition to retirement benefits, the Plan provides certain benefits in the event of death, disability, or other termination of employment. The Plan is for the exclusive benefit of eligible employees and their beneficiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA). T. Rowe Price Trust Company (T. Rowe Price) serves as both the trustee and the custodian.

Eligibility

Employees of the Company are eligible to participate in the Plan if they have completed a period of service of 90 days.

Contributions

Each active Plan participant may make contributions up to a maximum of 50% of his or her compensation on a before-tax basis, and up to a maximum of 50% on an after-tax basis, as long as the sum of the after-tax and before-tax percentages does not exceed 100% of the Plan participant's compensation. Contributions are also subject to certain limits specified by the Internal Revenue Code (IRC). Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions.

The Plan Sponsor matches 50% of each Plan participant's before tax contributions not to exceed 6% of the Plan participant's gross compensation.

Participant Accounts

A separate account is established for each participant. The account is credited with the participant's salary deferral contributions, the Company's contributions, and the participant's share of Plan earnings. Participants direct the investment of their account into the various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant's account.

NOTE A – PLAN DESCRIPTION – CONTINUED

Vesting

Participants are immediately vested in their rollovers and participant contributions plus actual earnings thereon at all times. Vesting in the Company's contributions plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of service.

Forfeitures

An employee may forfeit the non-vested portion of their account if employment ceases and the employee is less than 100% vested in any Company contributions made to their account. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Plan Sponsor contributions. During the year ended December 31, 2013, $15,080 of forfeitures were used to reduce Plan Sponsor contributions. The balance of forfeited nonvested accounts were $3 and $2 as of December 31, 2013 and 2012, respectively.

Payment of Benefits

Upon retirement, disability, death or termination of service, a participant may receive either a lump sum or a rollover amount equal to the value of the vested portion of his or her account. Distributions are subject to the applicable provisions of the Plan document. The Plan allows in-service withdrawals, such as hardship withdrawals, under certain conditions based on participant eligibility and approval by the Plan administrator.

Notes Receivable from Participants

Participants may borrow from their vested fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of 50% of the borrower's vested account balance or $50,000 less the amount of the highest outstanding loan balance in the prior 12-month period. The loans are secured by the balance in the participant's account and bear interest at the prime rate in effect at the time of the application of the loan and will be fixed for the entire term of the loan. The maximum term of a general loan is 5 years and the maximum term of a residential loan is 15 years.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invests in investment contracts through a collective trust. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2013 or 2012. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2014, the date the financial statements were available to be issued.

NOTE C – INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets at either December 31, 2013 or 2012:

	2013	2012
T. Rowe Price:		
T. Rowe Price Stable Value Fund (fair value $6,312,298 and $6,532,812, respectively)	$6,224,084	$6,263,542
Retirement 2020 Fund	2,246,263	2,076,209
Retirement 2025 Fund	1,626,173	1,365,102
PIMCO Total Return Admin. Fund	947,750	1,402,987
Thornburg International Value R-5	1,510,754	1,495,666

NOTE D – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE D – FAIR VALUE MEASUREMENTS – CONTINUED

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund – The stable value collective trust fund is stated at fair value and then adjusted to contract value. Fair value is measured at the NAV of units held. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities.

NOTE D – FAIR VALUE MEASUREMENTS – CONTINUED

[1] See Note E for a discussion of the T. Rowe Price Stable Value Fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with industry practices, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E – STABLE VALUE FUND

The Plan's investments include an investment in the T. Rowe Price Stable Value Fund (the "Fund"), a common collective trust fund that is considered to be a stable value fund with underlying investments in investment contracts and is valued at fair value and then adjusted by the issuer to contract value. Fair value of the stable value fund is the NAV of its underlying investments and contract value is principal plus accrued income and deposits minus withdrawals. The Fund is a stable value fund that is an open-end commingled pool dedicated exclusively to the management of assets of defined contribution plans. The Fund's investment objective is to maximize current income consistent with the maintenance of principal and to provide for withdrawals for certain participant-initiated transactions under a retirement plan without penalty or adjustment. To achieve its investment objective, the Fund invests in underlying assets (typically fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into a "wrapper" contract issued by a third party. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Withdrawals for benefit payments and participant transfers to noncompeting investment options to be paid to plan participants shall be made 30 days after written notification has been received. Withdrawals, other than for benefit payments and participant transfers to noncompeting investment options may be made up to one year after notification is received. At December 31, 2013 and 2012, there were no restrictions or unfunded commitments.

Certain events can limit the ability of the Plan to transact at contract value with the Fund, and the Fund itself may be subject to circumstances that affect its ability to transact at contract value. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value are probable of occurring.

NOTE F – INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T. Rowe Price, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, notes receivable from participants and adjustment from fair value to contract value for fully benefit-responsive investment contracts, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2013 and 2012.

- Investment income and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2013.

- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2013.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE G – TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments are held and managed by T. Rowe Price. Therefore, these transactions qualify as party-in-interest. T. Rowe Price also performs administrative and record-keeping services for the Plan. Transactions in such investments qualify as party-in-interest transactions that are exempt from the prohibited transaction rules.

NOTE H – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in the Company contribution portion of their accounts.

NOTE I – TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated July 8, 2010, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is being operated, in all material respects, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2013 and 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

NOTE J – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is a least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
