ABM 401(k) EMPLOYEE SAVINGS PLAN

Notes to Financial Statements
(Modified Cash Basis)

December 31, 2013 and 2012

(1) Description of the Plan

The ABM 401(k) Employee Savings Plan (the Plan) is a defined contribution plan, which is intended to qualify under Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code), as a profit sharing plan with a qualified cash or deferred arrangement that satisfies Code Section 401(k) and is funded by a trust intended to be exempt from tax under Code Section 501(a). The Sponsoring Employer under the Plan is ABM Industries Incorporated, a Delaware corporation (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The plan document was last amended and restated effective January 1, 2007. Subsequent to that date, there have been other amendments to the Plan. The following is a brief description of the Plan's provisions. Refer to the plan document for a more complete description of the Plan's provisions.

(a) Eligibility

In general, all employees of the Company and its domestic subsidiaries which are under common control with the Company within the meaning of Code Section 414(b), (c), (m), or (o) are eligible to participate in the Plan (A) unless they are (i) eligible to participate in the ABM 401(k) Employee Savings Plan II (Plan II), (ii) members of a collective bargaining unit whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of bargaining, (iii) certain nonresident aliens who received no earned income (within the meaning of Code Section 911 (d)(2)), or (iv) seasonal or temporary employees and (B) provided that the Plan has been adopted by the board of directors of the subsidiary which employs such employee. An employee is eligible to participate in the Plan on the first day of the month following completion of 12 months of service, during which the employee completed at least 1,000 hours of service. On June 30, 2010, the Company acquired Diversco, Inc. The Diversco, Inc. employees were eligible to participate in the Plan effective August 1, 2011. Participant account balances totaling \$1,237,783 were transferred into the Plan on December 21, 2012.

(b) Contributions

Participants may elect to contribute between 1% and 50% of eligible compensation by salary deferral. Contributions are subject to applicable Code restrictions and limitations.

Individuals age 50 and over are allowed to make additional elective pre-tax catch-up contributions each year.

Participants may also contribute amounts representing distributions from former employers' qualified retirement plans (rollover).

The Plan operates under a safe harbor employer matching contribution formula that applies to all participants in the Plan. Under this matching formula, the employer made a monthly matching contribution for eligible participants equal to 100% of the first 3% of the participant's compensation contributed to the Plan, plus 50% of the next 2% of compensation contributed to the Plan.

(c) Vesting

The value of the participant's account, including the Company's matching portion and any former profit sharing contributions, is fully vested at all times.

(d) Participant Accounts

Each participant's account is credited with the participant's contribution, employer matching contribution, and plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on the participant's specific investments or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's entire account balance.

(e) Notes Receivable from Participants

The Plan permits participant loans. Loans are limited to the lesser of \$50,000 reduced by the highest outstanding loan balance in the prior twelve-month period, or 50% of the participant's vested account balances. The minimum loan amount is \$1,000. Loans are repaid via payroll deductions, generally have a term of not greater than 60 months, and bear a fixed interest rate equal to the prime rate as published in *The Wall Street Journal* on the last business day of the calendar quarter preceding the date the loan is finalized, plus 1%. As of December 31, 2013, the interest rates on loans ranged from 3.25% to 10.00% with maturity dates through December 2018.

(f) Payment of Benefits

Upon termination of service, retirement, or permanent disability, a participant may receive a lump-sum amount equal to the value of the participant's vested account balance. If the participant's account balance is \$1,000 or less, a lump-sum payment may be made without the participant's written consent. If the value of a participant's account is between \$1,000 and \$5,000, and if the participant does not specify the form of payment, the Company is authorized to rollover the vested amounts into an Individual Retirement Account established by the plan administrator for the participant.

In the event of the death of a participant, the vested balance becomes payable to the beneficiary or beneficiaries as designated by the participant.

(g) Administrative Expenses

Generally, administrative expenses are paid by the Plan. However, certain administrative expenses may be paid by the Company. Loans and other transaction specific fees are charged to the accounts of participants electing such transactions. In addition, certain investment related expenses reduce investment income presented in the accompanying statements of changes in net assets available for benefits.

Merrill Lynch, Pierce, Fenner & Smith Incorporated (Merrill Lynch), a wholly owned subsidiary of Bank of America Corporation, provides certain administrative services to the Company pursuant to a Master Plan Services Agreement between the Company and Merrill Lynch, effective as of January 1, 2013 (the MSA). As described in the MSA, Merrill Lynch receives revenue from processing fees,

ABM 401(k) EMPLOYEE SAVINGS PLAN

(Modified Cash Basis)

service fees, distribution fees and other fees from mutual fund or collective trust providers, which revenues are attributable to the Plan's assets invested in such funds. This revenue is used to offset certain amounts owed to Merrill Lynch in connection with the administration of the Plan. If the revenue received by Merrill Lynch from such mutual fund or collective trust providers exceeds the amount owed to Merrill Lynch under the MSA, Merrill Lynch remits the excess to the Plan's trust. The determination of whether such revenues exceed or fall below the amount due Merrill Lynch under the MSA is made on a quarterly basis. The amount of any such excess is deposited in the Plan trust no later than forty-five (45) days following the end of any such quarter. Such amounts are held in an unallocated account and may be applied to pay administrative expenses, used to fund Plan contributions, and/or allocated to the accounts of Plan participants.

(h) Plan Investments

Participants direct the investment of their contributions and account balances within various investments offered by the Plan. Plan assets are held in a trust administered by the plan trustee.

(i) Asset Transfers

From time to time, asset transfers occur between the Plan and Plan II due to changes in employee classifications.

(j) Plan Administration

The Plan is administered by the Administrative Committee appointed by the Compensation Committee of the Board of Directors of the Company. Bank of America, N.A. (Merrill Lynch) serves as trustee of the Plan and Merrill Lynch serves as the recordkeeper of the Plan. Invesco National Trust Company serves as custodian of the Invesco Stable Value Retirement Trust (Stable Value Fund).

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accounts of the Plan are prepared on a cash basis of accounting modified to carry investments at fair value, whereas additions are recognized when received rather than when earned, and deductions are recognized when paid rather than when the obligation is incurred. Accordingly, the financial statements are not intended to present net assets available for benefits and changes in net assets available for benefits in accordance with U.S. generally accepted accounting principles.

Investment contracts held by a defined-contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to a fully benefit-responsive investment contract, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust, Stable Value Fund. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment for the fully

Notes to Financial Statements
(Modified Cash Basis)

December 31, 2013 and 2012

benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

(b) *Use of Estimates*

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(c) *Investment Valuation and Income Recognition*

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 10 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a settlement-date basis. Interest and dividend income are recorded when received. Net appreciation in fair value of investments consists of the change in unrealized appreciation or depreciation during the years, and the realized gain or loss on the sales of investments during the year. Acquisition costs are included in the cost of investments purchased, and sales are recorded net of selling expenses.

(d) *Notes Receivable from Participants*

Notes receivable from participants are valued at amortized cost. Delinquent participant loans are reclassified as a distribution based upon the terms of the plan document.

(e) *Risks and Uncertainties*

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(f) *Payment of Benefits*

Benefits are recorded when paid.

(3) *Trustee and Custodian Certifications*

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator has obtained certifications as of and for the years ended December 31, 2013 and 2012 from the Trustee, that all of the information provided by the Trustee is complete and accurate. Invesco National Trust Company, custodian of the Stable Value Fund, has certified the completeness and accuracy of the Plan's fair value of the Stable Value Fund as derived from the certified ratio of contract value to fair value adjustment for the Stable Value Fund at December 31, 2013

ABM 401(k) EMPLOYEE SAVINGS PLAN

and 2012. Information included in the accompanying financial statements (modified cash basis) and notes to financial statements (modified cash basis) as to investments, notes receivable from participants, investment income, interest from notes receivable from participants and all investment information in the supplemental schedule is presented in reliance solely upon those certifications.

(4) Investment in Stable Value Fund

Certain employer initiated events (e.g., termination of the Plan, loss of the Plan's qualified status, material breaches of responsibilities that are not cured, material and adverse changes of the provision of the Plan or the employer elects to withdraw from the fund in order to switch to a different investment product) are not eligible for book value disbursements even from fully benefit-responsive contracts. These events may cause liquidation of all or a portion of a contract at a market value adjustment. Plan management does not believe that the occurrence of any of these events, which could limit the Plan's ability to transact at contract value with participants, is probable.

Effective May 1, 2013, the notification period for full liquidation of the Plan's interest in the Stable Value Fund was changed from a one-year notice provision to a two-year notice provision.

(5) Investments

The following table presents the fair value of investments as of December 31, 2013 and 2012. Individual investments that exceed 5% of the Plan's net assets as of December 31, 2013 and 2012 are separately identified.

Notes to Financial Statements
(Modified Cash Basis)

December 31, 2013 and 2012

During the years ended December 31, 2013 and 2012, the Plan's investments (including gains and losses on investments bought, sold, and held during the year) appreciated by \$22,494,053 and \$13,397,025, respectively, as follows:

	2013	2012
Common/collective trusts	\$ 9,800,110	4,506,514
Mutual funds	12,693,943	8,890,511
	<u>\$ 22,494,053</u>	<u>13,397,025</u>

(6) Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 29, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan is designed in compliance with the applicable requirements of the Code.

The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2010.

During the 2009–2013 plan years, certain operational failures occurred that resulted in both the improper inclusion of ineligible employees and exclusion of eligible participants. The Company intends to correct the operational failures through the Internal Revenue Service's Employee Plans Compliance Resolution System, as set forth in Revenue Procedure 2013-12. The Company does not believe the outcome of the correction will be material to the Plan's financial statements.

(7) Transactions with Related Parties

Certain Plan investments are managed by the Trustee or an affiliate of the Trustee, and therefore, these transactions qualify as party-in-interest transactions.

(8) Administrative Committee

The Plan provides that a committee shall serve without compensation until the resignation or the termination of this committee by the Company. The Administrative Committee, by majority agreement, oversees the operation and administration of the Plan.

(9) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA or the Code. In the event of termination of the Plan, all assets would be distributed based on the participants' account balances.

(10) Fair Value Measurements

Accounting Standards Codification (ASC) 820 defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. ASC 820 establishes a fair value hierarchy that requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and thus are included within Level 1 of the valuation hierarchy.

The equity index of the common/collective trust fund is reported at NAV value of units held by the Plan on the last business day of the plan year as a practical expedient. This investment is included in common/collective trusts within Level 2 of the valuation hierarchy.

The Stable Value Fund is reported at the fair value NAV of units held. The fair value NAV is calculated by the issuer utilizing quoted market prices, most recent bid prices in the principal market in which the securities are normally traded, pricing services, and dealer quotes. The fair value of the underlying wrapper contracts is calculated using a discounted cash flow model, which considers recent fee bids as determined by recognized dealers, discount rate, and the duration of the underlying portfolio securities. The Stable Value Fund is included in common/collective trusts and is classified within Level 2 of the valuation hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or

assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
