Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report on the Financial Statements

We have audited the accompanying financial statements of Beacon Credit Union Cash Balance Defined Benefit Plan and Trust, which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of Beacon Credit Union Cash Balance Defined Benefit Plan and Trust as of December 31, 2013 and 2012, and the changes in its financial status for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedules listed in the table of contents are presented for purpose of additional analysis are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Beacon Credit Union Cash Balance Defined Benefit Plan and Trust

Notes to Financial Statements December 31, 2013 and 2012

Note 1: Description of the Plan

The following description of the Beacon Credit Union Cash Balance Defined Benefit Plan and Trust (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan is a noncontributory defined benefit plan that covers substantially all employees of Beacon Credit Union (Credit Union) and provides for retirement, death and disability benefits. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Kevin Willour, Dustin Cuttriss and Kenneth Dale are the Trustees of the Plan. CFMG Life Insurance Company (CUNA Mutual Group) and Pershing Advisor Solutions served as Plan custodians through October 31, 2013. Effective November 1, 2013, MG Trust Company, LLC replaced Pershing Advisor Solutions and CUNA Mutual Group as the Plan custodian.

Contributions

The Credit Union is required to contribute such amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Credit Union's present intention is to make contributions in amounts sufficient to annually fund the Plan's current service cost and the initial past-service costs plus interest on them over a period of 30 years. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits

Participants whose continuous employment began prior to January 1, 2012, who are not rehired on or after January 1, 2012, and have five or more years of service are entitled to annual pension benefits beginning at normal retirement age (65) equal to 1.68% of average salary, multiplied by the years of service at retirement. Final average salary is a 60 month highest consecutive average in the last ten years of service. The Plan permits early retirement after age 55 with five years of service with one-half percent (0.50%) of reduction for each month of early retirement.

Beacon Credit Union Cash Balance Defined Benefit Plan and Trust

Notes to Financial Statements December 31, 2013 and 2012

Participants whose continuous employment began on or after January 1, 2012, or who are rehired on or after January 1, 2012, the benefit formula is based upon benefits accrued using a “hypothetical allocation” for each Plan year if the participant completes a year of service in that Plan year. Hypothetical Account Balance means the accumulation of the hypothetical allocations and interest credits as of the determination date. Hypothetical allocation means the allocation made to the participant’s hypothetical account of 3% of pay for 7 years of service or less and 4% of pay for 8 or more years of service. Interest credits for the Plan year means one-twelfth of the 10-year treasury rate as defined in the Plan multiplied by the sum of the participant’s hypothetical account balance as of the beginning of the Plan year and the participant’s hypothetical allocation for the Plan year, if any. Interest is credited for each complete calendar month during the Plan year excluding any months or partial months following a distribution from the Plan. The maximum number of years of credited service is 40.

Accrued benefits are payable as an annuity over the participant’s lifetime or as a qualified joint and one half-survivor annuity. Participants may elect to receive the portion of the accrued benefits attributable to the participant’s contributions in the form of a lump-sum payment.

Death and Disability Benefits

If an active participant dies at age 55 or older, a death benefit equal to the value of the participant’s accumulated pension benefits is paid to the participant’s beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are computed as though the participant had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

Vesting

Eligible employees are fully vested upon completion of five years of service. If employees terminate before rendering five years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Credit Union’s contributions.

Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.

Beacon Credit Union Cash Balance Defined Benefit Plan and Trust

Notes to Financial Statements December 31, 2013 and 2012

- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
- d. Vested benefits not insured by the PBGC.
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Marketable securities are stated at fair value. Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year-end.

The fair value of the guaranteed interest account contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Credit Union or the Plan at the Credit Union's discretion.

Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Present employees or their beneficiaries

Benefits under the Plan are based the formulas described in the Pension Benefits section of Note 1. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Plan Tax Status

The Plan obtained its latest determination letter on June 6, 2012, in which the Internal Revenue Service stated that the Plan and related Trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. With a few exceptions, the Plan is no longer subject to U.S. federal, state and local or non-U.S. income tax examinations by tax authorities for years before 2010.

Note 3: Investments

Except for its guaranteed interest account with an insurance company (Note 4), the Plan's investments are held by a bank-administered trust fund. The fair value of the Plan's investments at the end of the year is as follows:

	2013	2012
Mutual funds		
Allocation funds	\$ 855,216	\$ 488,357
Bond funds	2,089,004	2,134,007

Guaranteed interest account	<u>774,929</u>	<u>1,205,217</u>
	<u>\$ 9,652,598</u>	<u>\$ 8,017,452</u>

During the years ended 2013 and 2012, the Plan's mutual fund investments (including investments bought, sold and held during the year) appreciated in fair value by \$1,172,092 and \$602,913, respectively.

Beacon Credit Union Cash Balance Defined Benefit Plan and Trust

Notes to Financial Statements December 31, 2013 and 2012

The fair value of individual investments that represented 5% or more of the Plan's net assets available for benefits were as follows:

Vanguard Tax-Managed Intl Adm	977,686	—

Interest and dividends realized on the Plan's investments for the years ended 2013 and 2012 were \$114,563 and \$41,150, respectively.

Note 4: Guaranteed Interest Account With Insurance Company

In 1997, the Plan entered into an investment contract with CUNA Mutual Insurance Society (CUNA). The investment contract is a stable value guaranteed interest account (Account). The Accounts' assets consist of a nonbenefit-responsive investment contract, which are included in the financial statements at fair value, which approximates contract value. The Account's contract value represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value, which approximates fair value. There are no reserves for credit risk against contract value for the contract issuer or otherwise. The Fund's contract value was \$774,929 and \$1,205,217 at December 31, 2013 and 2012, respectively. The average interest return rate was 1.88% and 2.19% for 2013 and 2012, respectively.

Beacon Credit Union Cash Balance Defined Benefit Plan and Trust

Notes to Financial Statements December 31, 2013 and 2012

Note 5: Accumulated Plan Benefits

An actuary from CUNA Mutual Insurance Society determines the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the end of each plan year was as follows:

	<u>January 1, 2014</u>	<u>January 1, 2013</u>
Actuarial present value of accumulated plan benefits		
Vested benefits		
Active participants	\$ 5,881,487	\$ 4,118,309
Other participants	<u>591,972</u>	<u>762,464</u>
	6,473,459	4,880,773
Nonvested benefits	<u>140,354</u>	<u>466,644</u>
 Total actuarial present value of accumulated plan benefits	 <u>\$ 6,613,813</u>	 <u>\$ 5,347,417</u>

Changes in the actuarial present value of accumulated plan benefits were as follows:

	<u>January 1, 2014</u>	<u>January 1, 2013</u>
Actuarial present value of accumulated plan benefits, beginning of year	\$ <u>5,347,417</u>	\$ <u>6,508,228</u>
Increase (decrease) during the year attributable to		
Change in actuarial assumptions	600,653	(1,003,302)
Benefits accumulated	848,589	1,170,458
Increase for interest due to the decrease in the discount period	326,940	308,400
Benefits paid to participants	<u>(509,786)</u>	<u>(1,636,367)</u>
Net increase (decrease)	<u>1,266,396</u>	<u>(1,160,811)</u>
 Actuarial present value of accumulated plan benefits, end of year	 <u>\$ 6,613,813</u>	 <u>\$ 5,347,417</u>

Significant assumptions underlying the actuarial computations are:

- Assumed rate of return on investments: 4.0% in 2014 and 2013
- Mortality basis: RP 2000 combined table projected to 2014 and 2013 by scale AA before and after retirement for 2013 and 2012, respectively
- Retirement: At normal retirement age (65)
- Asset valuation: Market

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Notes to Financial Statements December 31, 2013 and 2012

Note 6: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan invests in an investment contract with the Plan custodian and recordkeeper. The Plan paid \$5,942 of administrative fees to MG Trust Company, LLC during 2013. There were no fees paid to the Plan custodians and recordkeeper by the Plan during 2012. The Credit Union provides certain administrative services at no cost to the Plan.

Note 7: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Beacon Credit Union Cash Balance Defined Benefit Plan and Trust

Notes to Financial Statements December 31, 2013 and 2012

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2013. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy and include mutual funds. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. There are no investments classified as Level 2 investments. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy and include a guaranteed interest account. See the table below for inputs and valuation techniques used for Level 3 securities.

Fair value determinations for Level 3 measurements of investments are the responsibility of Plan management. Plan management contracts with CUNA Mutual Group to generate fair value estimates on a monthly or quarterly basis. Plan management reviews reasonableness of the assumptions used and the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	<u>Guaranteed Interest Account</u>
Balance, January 1, 2012	\$ 1,921,937
Interest earnings	38,578
Purchases	881,069
Sales	<u>(1,636,367)</u>
Balance, December 31, 2012	1,205,217
Interest earnings	17,276
Purchases	772,833
Sales	<u>(1,220,397)</u>
Balance, December 31, 2013	<u>\$ 774,929</u>

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value measurements.

	Fair Value at December 31, 2013	Valuation Technique	Unobservable Inputs	Range (Weighted Average)
Guaranteed Interest Account	\$ 774,929	Discounted cash flow	Contract crediting rate	1.75%

	Fair Value at December 31, 2012	Valuation Technique	Unobservable Inputs	Range (Weighted Average)
Guaranteed Interest Account	\$ 1,205,217	Discounted cash flow	Contract crediting rate	2.15%

Note 8: Differences Between Financial Statements and Form 5500 Information

Differences between the financial statements and Form 5500 information are due to the financial statements being prepared on the accrual basis of accounting and the Form 5500 being presented on the cash basis of accounting.

Beacon Credit Union Cash Balance Defined Benefit Plan and Trust

Notes to Financial Statements December 31, 2013 and 2012

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financials statements were available to be issued.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
