At the time of the name change, the participants became eligible and commenced vesting in employer matching contribution as of January 1, 2013. Northwest Hardwoods, Inc. is the Plan's sponsor and serves as the Plan's administrator.

Contributions: Participants may contribute up to the maximum dollar amount prescribed in the Internal Revenue Code (IRC) per year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit contribution plans (rollover). The Plan sponsor may make discretionary matching contributions and/or discretionary profit sharing contributions to the Plan. Participants must complete at least 1,000 hours of service in the Plan year and be employed on the last day of the Plan year to qualify for a pro rata portion of any discretionary profit sharing contribution. In 2013, the Plan sponsor made discretionary matching contributions of 60 percent for the first 7 percent of compensation that salaried and non-union employees contribute to the Plan, and 60 percent for the first 5 percent of the compensation that union employees contribute to the Plan, per the collective bargaining agreement. Compensation is defined under the Plan as all earnings reported on Form W-2.

Participant accounts: Each participant's account is credited with the participant's contributions, allocations of the Plan sponsor's contributions and investment earnings, and charged with the participant's benefits paid and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested portion of his or her account.

Vesting: Participants are fully vested in their contributions plus actual earnings at all times. Vesting in contributions received from the Plan sponsor, plus earnings thereon, is graded based on years of continuous service. A participant vests 20 percent per year in his or her share of Plan sponsor contributions plus earnings thereon beginning after two years of service and is fully vested after six years of service.

Participant loans: Participant loans from the Plan are not permitted.

Payment of benefits: Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested account balance. Participants no longer employed by the Plan sponsor may elect to receive a lump-sum distribution of their vested account balances at any time, subject to certain rules and regulations prescribed in the IRC.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Hardship withdrawals: Under certain conditions a participant, while still employed, is permitted to take hardship withdrawals from the employee contribution portion of his or her account balance. These conditions include payments of postsecondary education tuition, education-related expenses; medical expenses for participant, spouse or dependents; funeral or burial expenses for parents, spouse or dependents; payments to repair damage to a participant's primary home that would be tax deductible; or to purchase or prevent eviction from the participant's principal residence. A participant's right to contribute to the Plan is suspended for six months after the receipt of a hardship withdrawal.

Forfeited accounts: At December 31, 2013 and 2012, forfeited non-vested accounts totaled \$26,487 and \$8,037, respectively. These accounts will be used to reduce future employer contributions. Also, in 2013, employer contributions were reduced by \$0 from forfeited non-vested accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The Plan's financial statement have been prepared in accordance with accounting principles generally accepted in the United States of America using the accrual method of accounting.

Use of estimates: Preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation: Investments are stated at fair value, as certified by the Plan's custodian and trustee, Vanguard Fiduciary Trust Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date (see Note 4 for discussion of fair value measurements).

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common collective trust (underlying investment of a stable value fund). The statements of net assets available for benefits present the fair value of the investment in the common collective trust, as well as the adjustment of the investment in the common collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Excess contribution payable: Amount payables to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2013 excess contribution to the applicable participants on June 19, 2014.

Payment of benefits: Benefits are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events: The Plan has evaluated subsequent events through September 30, 2014, which is the date the financial statements were available to be issued.

Note 3. Investments

Total Investments at fair value	<u>\$24,253,865</u>	<u>\$16,575,992</u>

* Investment was less than 5 percent at year-end shown and is included in other investments.

During the year ended December 31, 2013, the Plan's investments (including gains and losses on investments purchased, sold and held during the year) appreciated in fair value as follows:

Registered investment companies	\$3,022,978
Common collective trust	<u>22,168</u>
Net appreciation in fair value of investments	<u>\$3,045,146</u>

Note 4. Fair Value of Investments

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted, quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Northwest Hardwoods, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value of Investments (Continued)

Basis of fair value measurement:

Level 1 - Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Registered investment companies: Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The assets are classified as Level 1 of the valuation hierarchy.

Common collective trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. The unit value for an observable collective investment fund is classified within Level 2 of the valuation hierarchy.

These instruments include guaranteed investment contracts (GICs), security-backed contracts (synthetic GICs), and cash equivalents. The investments selected for the fund are not expected to experience price fluctuations in most economic or interest rate environments.

Notes to Financial Statements

Note 6. Income Tax Status

The Plan adopted a non-standardized prototype plan sponsored by Vanguard Fiduciary Trust Company effective August 1, 2011. The Plan was amended and restated effective November 30, 2011 and September 28, 2012, using the same non-standardized prototype plan. The prototype plan received an opinion letter dated March 31, 2008, in which the Internal Revenue Service (IRS) stated the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The prototype plan opinion letter has been relied upon by the Plan. The Plan has been amended since receiving the opinion letter; however, the Plan administrator believes the Plan is currently designed and operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2009.

Note 7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. It is reasonably possible, given the level of risk associated with investment securities, which changes in the near term could materially affect a participant's account balance and the amounts reported on the statements of net assets available for benefits.

Note 8. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Vanguard Fiduciary Trust Company. Vanguard Fiduciary Trust Company is the trustee and investment custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services, annual recordkeeping services, and hardship determination services were \$61,096 for the year ended December 31, 2012. The Plan sponsor pays directly any other fees related to the Plan's operations.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right to terminate the Plan and discontinue its contributions at any time subject to the provisions of ERISA. If the Plan is terminated, Plan sponsor contributions and earnings thereon become fully vested to the participants.

Note 10. Reconciliation to Form 5500

The following are reconciliations of the total assets per the financial statements to Form 5500 at December 31:

	<u>2013</u>	<u>2012</u>
Total assets per the financial statements	\$24,253,865	\$16,575,992
