(1) Description of Plan

The following description of the Intrawest 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan established by Stratton Corporation (Stratton) in June 1978. All employees of Stratton, Intrawest U.S. Holdings Inc., Snowshoe Mountain, Inc., Intrawest California Holdings, Inc., Intrawest Resort Ownership U.S. Corporation, Intrawest Retail Group, Inc., Playground Destination Properties, Inc., Moguls, Inc., IRG Restaurant Company, Intrawest Shared Services, Inc., Intrawest U.S. Commercial Property Management, Inc., Intrawest Resorts, Inc., Intrawest Hospitality Management Inc., Intrawest/Winter Park Operations Corporation, Steamboat Ski & Resort Corporation (Steamboat), Intrawest Restaurants California, LLC, and Intrawest Imagine Hospitality Management, LLC (collectively referred to as the Company) are able to contribute to the Plan if actively employed, and have attained the age of 21 on the first day of the subsequent calendar quarter following date of hire. Those employees who have completed one year of service of at least 1,000 hours are eligible to receive a Company match. Participation is voluntary. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(b) Contributions

Each year, participants may contribute pretax annual compensation, as defined in the Plan, not to exceed $17,500 in 2013 and $17,000 in 2012. If a participant is age 50 or older, they can contribute $23,000 in 2013 and $22,500 in 2012. Participants may also contribute amounts representing rollovers from other qualified defined benefit or contribution plans.

Subject to certain limitations, the Company will match participant contributions at a rate determined by the sponsor of the Plan. The Plan also provides for discretionary Company contributions, which are allocated to participants' accounts based on the relative compensation of participants. Subject to certain limitations, the Company's matching contribution is 50% of deferral contributions not to exceed 1% of eligible compensation per pay date. There were no discretionary Company contributions during 2013 and 2012.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching and discretionary contributions, and earnings (losses) thereon.

(d) Vesting

Participants are immediately vested in their contributions plus earnings thereon.

(Continued)

Company contributions vest based upon the following schedule:

Years of service	Vesting percentage
1	20%
2	40
3	60
4	80
5	100

(e) Investment Options

Upon enrollment in the Plan, a participant may direct employee and Company contributions into various investment options. Participants may change their investment options daily.

(f) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 minus all outstanding loans from the plan minus the excess of the highest total amount of outstanding loan balances in the previous 12-month period over the outstanding balance on the date the loan is made or 50% of their vested account balance. Loan terms range from one to ten years. The loans are secured by the balance in the participant's account. Interest rates on participant loans range from 4.25% to 11% as of December 31, 2013, and maturity dates on participants' notes receivable are through to 2023.

(g) Hardship Withdrawals

Participants may receive hardship withdrawals for reasons of financial hardship. Participation in the Plan is suspended for six months following the receipt of a hardship withdrawal.

(h) Payment of Benefits

Participants are entitled to receive benefit payments in the form of a lump-sum payment or installments equal to 100% of their accrued benefit upon reaching the early retirement age of 55, the normal retirement age of 65, termination of employment, or upon death or disability. The accrued benefit includes the sum of the value of the participant's contributions, allocations of earnings (losses), and the vested portion of Company contributions. Participants employed beyond age 59½ may withdraw their accrued benefit.

(i) Forfeited Accounts

Forfeited accounts are used by the Company to either satisfy its future matching contribution requirements or to pay administrative expenses of the Plan. At December 31, 2013 and 2012, forfeited accounts totaled $41,000 and $68,000, respectively. In 2013 and 2012, the amount of forfeitures used to pay Plan expenses were approximately $84,000 and $149,000, respectively. In 2013 and 2012, the amount of forfeitures used to reduce employer contributions were approximately $2,000 and $0, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

(b) Valuation of Investments

Investments in mutual funds and money market funds are valued at fair value determined by quoted market prices. Investment transactions are recorded on the trade date. Interest is recorded when earned. Dividends are recorded on the ex-dividend date.

(c) Notes Receivable from Participants

Notes receivable from participants are recorded at amortized cost.

(d) Administrative Expenses and Benefit Payments to Participants

Administrative expenses are either paid directly by the Plan or through the use of forfeited nonvested accounts. Benefit payments to participants are recorded when paid.

(e) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions in net assets during the reporting period. Actual results could differ from those estimates.

(f) Realized and Unrealized Gains and Losses

Net realized and unrealized appreciation in the fair value of investments is determined as the difference between the market value at the beginning of the year (or date purchased during the year) and selling price or year-end market value. Such income (loss) is allocated to participants' accounts.

(3) Plan Termination

Although the Company has not expressed any intention to terminate the Plan, it may do so at any time. Under the provisions of the Plan, if the Plan is terminated, the accounts of all participants would become vested and the Plan trustee would distribute the assets in the Plan to participants.

Additionally, the Plan sponsor may amend the Plan at any time without the consent of any participant or any beneficiary, provided that no amendment deprives any participant of the participant's vested accrued benefit.

(4) Investments

The following investments represent 5% or more of the Plan's net assets at December 31, 2013 and 2012:

During 2013 and 2012, the Plan's investments in mutual funds (including investments bought and sold, as well as held during the year) appreciated in value by $10,995,664 and $5,454,441, respectively.

U.S. generally accepted accounting principles establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair market value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 – Prices or valuations that require inputs that are both significant to the fair value and are unobservable.

A financial instrument's level with the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following tables set forth by level within the fair value hierarchy the investment assets and liabilities at fair value, as of December 31, 2013 and 2012. Assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement.

Certain investments are reported at fair value on a recurring basis in the statements of net assets available for plan benefits. The following methods and assumptions were used to estimate the fair values:

Mutual Funds and Money Market Accounts – These investments consist of various publicly traded money market funds, and mutual funds. The fair values are based on quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the Plan's investment assets measured at fair value on a recurring basis at December 31, 2013:

	Quoted prices in active markets for identical asset (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total fair value

(5) Summary of Financial Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (Fidelity), the trustee of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2013 and 2012.
- Investment income, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2013 and 2012.
- Investment amounts in note 4 as of and for the year ended December 31, 2013 and 2012.
- The schedule of assets (held at end of year) as of December 31, 2013, as shown on Schedule 2.

(6) Income Taxes

The Internal Revenue Service has determined and informed the Company by a letter dated June 15, 2012 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently operated in

compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2010.

(7) Delinquent Participant Transactions

As reported on Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain participant contributions and loan repayments were not remitted to the trust within the time frame specified by the Department of Labor's Regulation 29 CFR 2510.3-102, thus constituting nonexempt transactions between the Plan and the Company.

(8) Risks and Uncertainties

The Plan provides for various investments. Investments, in general, are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

The Plan provides participants the ability to invest in various mutual funds and a money market account, which may, in turn, invest in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, and could potentially include securities backed by subprime mortgage loans. The value, liquidity and related income of those securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(9) Related-Party Transactions

The Plan invests in certain investments managed by Fidelity; therefore, these transactions qualify as party-in-interest transactions.

(10) Subsequent Events Evaluation

Management has evaluated the need for disclosures and/or adjustments resulting from subsequent events through October 3, 2014, the date these financial statements were issued. The evaluation determined that there were no subsequent events that necessitated disclosure and/or adjustments.
