Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Advanced Dermatology 401(k) Plan, (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, appearing on pages 14 and 15, as of and for the year ended December 31, 2013 are required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis, and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Advanced Dermatology 401(k) Plan (the "Plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan established effective January 1, 1993 and includes all eligible employees of Advanced Dermatology, P.C. and, effective October 21, 2009, all eligible employees of Advanced Dermatology of NJ, P.C., who have completed three consecutive full calendar months of employment and attained the age of 21. The above companies are collectively referred to as the "Company". The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The plan administrator of the Company is responsible for oversight of the Plan. Management of the Company determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the plan administrator of the Company.

Effective January 1, 2008, the Plan was restated to a volume submitter defined contribution plan with Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan.

Contributions
Participants may contribute a pre-tax amount equal to not less than 1 percent and not more than 100 percent, of their pretax annual compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan accepts Roth Elective Deferrals made on behalf of participants. The Company may elect to contribute a matching contribution or a discretionary contribution. Contributions are subject to certain Internal Revenue Service ("IRS") limitations. For the years ended December 31, 2013 and 2012, the Company made no matching or discretionary contributions into the Plan.

Participant Accounts
Each participant's account is credited with the participant's contributions and Company matching or discretionary contributions as well as an allocation of (a) plan earnings, and (b) an allocation of plan losses and expenses. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Company discretionary contributions vest on the basis of the participant's number of years of continuous service. A participant is vested in their allocated discretionary contribution account with a six-year graded vesting schedule. However, if an active participant dies or becomes totally and permanently disabled prior to attaining the normal retirement age, the participant's account becomes 100 percent vested.

Note 1 - Description of Plan (continued)

A participants' vested interest in their matching and discretionary contributions shall be determined in accordance with the following schedule:

Years of Vesting Service	Vested Interest
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Forfeited Accounts
Forfeitures of non-vested accounts are used to reduce plan expenses and contributions by the Company. There were no forfeited non-vested accounts at December 31, 2013 and 2012.

Payment of Benefits
On termination of service, including death, disability or retirement, a participant with a vested interest over $5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the vested interest is less than $5,000, a participant shall receive the value of the vested interest in his or her account as a lump-sum distribution. Distributions are subject to the applicable provisions of the Plan agreement.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 1-5 years or a longer repayment period allowed by the administrator for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25%, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract (a stable value fund) as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared using the contract value basis for fully-benefit responsive investment contracts.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in the stable value fund, (the "Fund"), a pooled separate account of Fidelity, is based on the fair value of the underlying investments as reported and certified by the trustee. The Fund has an investment objective to receive a constant rate of return on funds held in the separate account. Generally, there are no restrictions on a participant's ability to redeem investments in the Fund; however, withdrawals prompted by certain events (as described in Note 5) may restrict a participant's ability to redeem the investment. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, trustee, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses have been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid by the Plan.

Administrative Expenses
The Plan's expenses are paid either by the Plan or the Company as provided by the plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of net assets available for benefits. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through September 18, 2014, the date the financial statements were available to be issued.

Note 3 - Investments

Other than the fair value of the stable value fund and the related adjustment from fair value to contract value for fully benefit responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statement and supplemental schedules, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in the fair value of investments, interest and dividends for the years then ended, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity. The contract value of the stable value fund was certified by the trustee.

The assets of the Plan are invested at the direction of the participants in various investment funds at December 31, 2013 and 2012.

Note 3 – Investments (continued)

The following presents investments that represent 5 percent or more of the Plan's net assets:

	December 31, 2013	December 31, 2012
Investments at fair value:		
FA Freedom 2020 A		
61,530 and 55,075 units, respectively	$ 822,655	$ 688,991

Investments at contract value:		
FA Stable Value		
327,912 and 287,509 shares, respectively	327,912	287,509

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated for the years ended December 31, 2013 and 2012 by $306,498 and $275,564 respectively, as follows:

	2013	2012
Mutual funds	$ 303,704	$ 270,836
Common/collective trusts	2,795	4,728
	$ 306,499	$ 275,564

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the hierarchy and those investments included in each are as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4 - Fair Value Measurements (continued)

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Fair Value of Investments in Entities that Use NAV

The following table summarizes the investments measured at fair value based on NAV per shares as of December 31, 2013 and 2012, respectively.

December 31, 2013

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common/Collective trusts				
Fidelity Management Trust Company				
FA Stable Value	$334,275	n/a	Daily	30 Days

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common/Collective trusts				
Fidelity Management Trust Company				
FA Stable Value	$297,472	n/a	Daily	30 Days

Note 5 – Valuation of Stable Value Fund

The Plan entered into a benefit-responsive investment contract with Fidelity which maintains the contributions in a common collective trust. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Fidelity, represents contributions made to the fund, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $334,275 and $297,472, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2013	2012
Based on actual earnings	0.92%	1.11%
Based on interest rate credited to participants	1.70%	1.69%

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

Note 7 - Tax Status

The plan administrator has been provided with a determination letter dated March 31, 2008 by the Internal Revenue Service ("IRS"), which indicated that the volume submitter defined contribution plan adopted by the Company is qualified and the underlying trust is tax-exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2010.

Note 8 - Related Party Transactions

The investments owned by the Plan are managed by Fidelity, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid by revenue sharing, rather than direct payment.

As described in Note 2, the Plan made direct payments to the third party administrator of $1,700 and $1,190 for the years ended December 31, 2013 and 2012, respectively; which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013 and 2012:

	2013	2012
Net assets available for benefits per the financial statements	$ 4,340,731	$ 3,511,147
Adjustment from contract value to fair value	6,363	9,963
Net assets available for benefits per Schedule H to the Form 5500	$ 4,347,094	$ 3,521,110

The following is a reconciliation of the changes in net assets per the financial statements to the Form 5500 for the years ended December 31, 2013 and 2012:

	2013	2012
Net increase in assets available for benefits per the financial statements	$ 829,584	$ 572,107
Adjustment from contract value to fair value for investment contracts at beginning of year	(9,963)	(8,588)
Adjustment from contract value of fair value for investment contracts at end of year	6,363	9,963
Net increase in assets available for benefits per form 5500	$ 825,984	$ 573,482

Note 11 – Untimely Participant Contributions

During 2013, the Company failed to remit to the Plan's trustee certain employee contributions and loan repayments within the period prescribed by Department of Labor regulations resulting in nonexempt prohibited transactions. Under the regulations, amounts withheld by an employer from a participant's wages for contribution and loan repayments to a plan are plan assets on the earliest date that they can reasonably be segregated from the employer's general assets. The Company intends to make contributions to the affected participants' accounts to compensate those participants for potential lost income due to the untimely remittances. Management believes that the lost earnings due to the untimely remittances will not be material to the Plan's financial statements as of and for the year ended December 31, 2013.

Note 12 – Subsequent Events

Effective June 2014, the Plan changed the date in which an eligible employee may enter the plan from quarterly to monthly. In addition, the Plan has added an automatic enrollment feature for eligible employees at 3 percent pre-tax deferrals unless they change their election percentage or opt out of the Plan. The Plan also added an annual increase program for any employee who is automatically enrolled in the Plan whereby the employee's contribution percentage will be increased by 1 percent annually until they reach their plan limit.

To the Plan Administrator
Advanced Dermatology 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Advanced Dermatology 401(k) Plan, (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, appearing on pages 14 and 15, as of and for the year ended December 31, 2013 are required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis, and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Advanced Dermatology 401(k) Plan (the "Plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan established effective January 1, 1993 and includes all eligible employees of Advanced Dermatology, P.C. and, effective October 21, 2009, all eligible employees of Advanced Dermatology of NJ, P.C., who have completed three consecutive full calendar months of employment and attained the age of 21. The above companies are collectively referred to as the "Company". The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The plan administrator of the Company is responsible for oversight of the Plan. Management of the Company determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the plan administrator of the Company.

Effective January 1, 2008, the Plan was restated to a volume submitter defined contribution plan with Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan.

Contributions
Participants may contribute a pre-tax amount equal to not less than 1 percent and not more than 100 percent, of their pretax annual compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan accepts Roth Elective Deferrals made on behalf of participants. The Company may elect to contribute a matching contribution or a discretionary contribution. Contributions are subject to certain Internal Revenue Service ("IRS") limitations. For the years ended December 31, 2013 and 2012, the Company made no matching or discretionary contributions into the Plan.

Participant Accounts
Each participant's account is credited with the participant's contributions and Company matching or discretionary contributions as well as an allocation of (a) plan earnings, and (b) an allocation of plan losses and expenses. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Company discretionary contributions vest on the basis of the participant's number of years of continuous service. A participant is vested in their allocated discretionary contribution account with a six-year graded vesting schedule. However, if an active participant dies or becomes totally and permanently disabled prior to attaining the normal retirement age, the participant's account becomes 100 percent vested.

Note 1 - Description of Plan (continued)

A participants' vested interest in their matching and discretionary contributions shall be determined in accordance with the following schedule:

Years of Vesting Service	Vested Interest
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Forfeited Accounts
Forfeitures of non-vested accounts are used to reduce plan expenses and contributions by the Company. There were no forfeited non-vested accounts at December 31, 2013 and 2012.

Payment of Benefits
On termination of service, including death, disability or retirement, a participant with a vested interest over $5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the vested interest is less than $5,000, a participant shall receive the value of the vested interest in his or her account as a lump-sum distribution. Distributions are subject to the applicable provisions of the Plan agreement.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 1-5 years or a longer repayment period allowed by the administrator for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25%, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract (a stable value fund) as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared using the contract value basis for fully-benefit responsive investment contracts.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in the stable value fund, (the "Fund"), a pooled separate account of Fidelity, is based on the fair value of the underlying investments as reported and certified by the trustee. The Fund has an investment objective to receive a constant rate of return on funds held in the separate account. Generally, there are no restrictions on a participant's ability to redeem investments in the Fund; however, withdrawals prompted by certain events (as described in Note 5) may restrict a participant's ability to redeem the investment. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, trustee, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses have been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid by the Plan.

Administrative Expenses
The Plan's expenses are paid either by the Plan or the Company as provided by the plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of net assets available for benefits. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through September 18, 2014, the date the financial statements were available to be issued.

Note 3 - Investments

Other than the fair value of the stable value fund and the related adjustment from fair value to contract value for fully benefit responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statement and supplemental schedules, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in the fair value of investments, interest and dividends for the years then ended, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity. The contract value of the stable value fund was certified by the trustee.

The assets of the Plan are invested at the direction of the participants in various investment funds at December 31, 2013 and 2012.

Note 3 – Investments (continued)

The following presents investments that represent 5 percent or more of the Plan's net assets:

	December 31, 2013	December 31, 2012

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated for the years ended December 31, 2013 and 2012 by $306,498 and $275,564 respectively, as follows:

	2013	2012
Mutual funds	$ 303,704	$ 270,836
Common/collective trusts	2,795	4,728
	$ 306,499	$ 275,564

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the hierarchy and those investments included in each are as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4 - Fair Value Measurements (continued)

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Fair Value of Investments in Entities that Use NAV

The following table summarizes the investments measured at fair value based on NAV per shares as of December 31, 2013 and 2012, respectively.

December 31, 2013

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period

Note 5 – Valuation of Stable Value Fund

The Plan entered into a benefit-responsive investment contract with Fidelity which maintains the contributions in a common collective trust. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Fidelity, represents contributions made to the fund, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $334,275 and $297,472, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2013	2012
Based on actual earnings	0.92%	1.11%
Based on interest rate credited to participants	1.70%	1.69%

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

Note 7 - Tax Status

The plan administrator has been provided with a determination letter dated March 31, 2008 by the Internal Revenue Service ("IRS"), which indicated that the volume submitter defined contribution plan adopted by the Company is qualified and the underlying trust is tax-exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2010.

Note 8 - Related Party Transactions

The investments owned by the Plan are managed by Fidelity, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid by revenue sharing, rather than direct payment.

As described in Note 2, the Plan made direct payments to the third party administrator of $1,700 and $1,190 for the years ended December 31, 2013 and 2012, respectively; which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013 and 2012:

	2013	2012
Net assets available for benefits per the financial statements	$ 4,340,731	$ 3,511,147
Adjustment from contract value to fair value	6,363	9,963
Net assets available for benefits per Schedule H to the Form 5500	$ 4,347,094	$ 3,521,110

The following is a reconciliation of the changes in net assets per the financial statements to the Form 5500 for the years ended December 31, 2013 and 2012:

	2013	2012
Net increase in assets available for benefits per the financial statements	$ 829,584	$ 572,107
Adjustment from contract value to fair value for investment contracts at beginning of year	(9,963)	(8,588)
Adjustment from contract value of fair value for investment contracts at end of year	6,363	9,963
Net increase in assets available for benefits per form 5500	$ 825,984	$ 573,482

Note 11 – Untimely Participant Contributions

During 2013, the Company failed to remit to the Plan's trustee certain employee contributions and loan repayments within the period prescribed by Department of Labor regulations resulting in nonexempt prohibited transactions. Under the regulations, amounts withheld by an employer from a participant's wages for contribution and loan repayments to a plan are plan assets on the earliest date that they can reasonably be segregated from the employer's general assets. The Company intends to make contributions to the affected participants' accounts to compensate those participants for potential lost income due to the untimely remittances. Management believes that the lost earnings due to the untimely remittances will not be material to the Plan's financial statements as of and for the year ended December 31, 2013.

Note 12 – Subsequent Events

Effective June 2014, the Plan changed the date in which an eligible employee may enter the plan from quarterly to monthly. In addition, the Plan has added an automatic enrollment feature for eligible employees at 3 percent pre-tax deferrals unless they change their election percentage or opt out of the Plan. The Plan also added an annual increase program for any employee who is automatically enrolled in the Plan whereby the employee's contribution percentage will be increased by 1 percent annually until they reach their plan limit.

Independent Auditor's Report

To the Plan Administrator
Advanced Dermatology 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Advanced Dermatology 401(k) Plan, (the "Plan") which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2013 and 2012, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, appearing on pages 14 and 15, as of and for the year ended December 31, 2013 are required by the Department of Labor (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis, and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - Description of Plan

The following description of Advanced Dermatology 401(k) Plan (the "Plan") provides only general information. Participants should refer to the summary plan description for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan established effective January 1, 1993 and includes all eligible employees of Advanced Dermatology, P.C. and, effective October 21, 2009, all eligible employees of Advanced Dermatology of NJ, P.C., who have completed three consecutive full calendar months of employment and attained the age of 21. The above companies are collectively referred to as the "Company". The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The plan administrator of the Company is responsible for oversight of the Plan. Management of the Company determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the plan administrator of the Company.

Effective January 1, 2008, the Plan was restated to a volume submitter defined contribution plan with Fidelity Management Trust Company ("Fidelity"), the trustee of the Plan.

Contributions
Participants may contribute a pre-tax amount equal to not less than 1 percent and not more than 100 percent, of their pretax annual compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan accepts Roth Elective Deferrals made on behalf of participants. The Company may elect to contribute a matching contribution or a discretionary contribution. Contributions are subject to certain Internal Revenue Service ("IRS") limitations. For the years ended December 31, 2013 and 2012, the Company made no matching or discretionary contributions into the Plan.

Participant Accounts
Each participant's account is credited with the participant's contributions and Company matching or discretionary contributions as well as an allocation of (a) plan earnings, and (b) an allocation of plan losses and expenses. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Company discretionary contributions vest on the basis of the participant's number of years of continuous service. A participant is vested in their allocated discretionary contribution account with a six-year graded vesting schedule. However, if an active participant dies or becomes totally and permanently disabled prior to attaining the normal retirement age, the participant's account becomes 100 percent vested.

Note 1 - Description of Plan (continued)

A participants' vested interest in their matching and discretionary contributions shall be determined in accordance with the following schedule:

Years of Vesting Service	Vested Interest
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Forfeited Accounts
Forfeitures of non-vested accounts are used to reduce plan expenses and contributions by the Company. There were no forfeited non-vested accounts at December 31, 2013 and 2012.

Payment of Benefits
On termination of service, including death, disability or retirement, a participant with a vested interest over $5,000 may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account. If the vested interest is less than $5,000, a participant shall receive the value of the vested interest in his or her account as a lump-sum distribution. Distributions are subject to the applicable provisions of the Plan agreement.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan terms range from 1-5 years or a longer repayment period allowed by the administrator for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate of 4.25%, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contract (a stable value fund) as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared using the contract value basis for fully-benefit responsive investment contracts.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment in the stable value fund, (the "Fund"), a pooled separate account of Fidelity, is based on the fair value of the underlying investments as reported and certified by the trustee. The Fund has an investment objective to receive a constant rate of return on funds held in the separate account. Generally, there are no restrictions on a participant's ability to redeem investments in the Fund; however, withdrawals prompted by certain events (as described in Note 5) may restrict a participant's ability to redeem the investment. Management of the Company determines the Plan's valuation policies utilizing information provided by the Plan's investment advisers, trustee, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses have been recorded as of December 31, 2013 and 2012. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits
Benefits are recorded when paid by the Plan.

Administrative Expenses
The Plan's expenses are paid either by the Plan or the Company as provided by the plan document. Certain administrative expenses of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of net assets available for benefits. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events for potential recognition or disclosure in the financial statements through September 18, 2014, the date the financial statements were available to be issued.

Note 3 - Investments

Other than the fair value of the stable value fund and the related adjustment from fair value to contract value for fully benefit responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statement and supplemental schedules, including investments and notes receivable from participants held at December 31, 2013 and 2012, and net appreciation in the fair value of investments, interest and dividends for the years then ended, was obtained and derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity. The contract value of the stable value fund was certified by the trustee.

The assets of the Plan are invested at the direction of the participants in various investment funds at December 31, 2013 and 2012.

Note 3 – Investments (continued)

The following presents investments that represent 5 percent or more of the Plan's net assets:

	December 31, 2013	December 31, 2012
Investments at fair value:

Investments at contract value:		
FA Stable Value		
327,912 and 287,509 shares, respectively	327,912	287,509

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated for the years ended December 31, 2013 and 2012 by $306,498 and $275,564 respectively, as follows:

	2013	2012
Mutual funds	$ 303,704	$ 270,836
Common/collective trusts	2,795	4,728
	$ 306,499	$ 275,564

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The levels of the hierarchy and those investments included in each are as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4 - Fair Value Measurements (continued)

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2013 and 2012.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 - Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2013 and 2012:

Note 5 – Valuation of Stable Value Fund

The Plan entered into a benefit-responsive investment contract with Fidelity which maintains the contributions in a common collective trust. The account is credited with earnings on the underlying investments and charged for participant withdrawals and certain administrative expenses. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fund. The fund is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by Fidelity, represents contributions made to the fund, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2013 and 2012 was $334,275 and $297,472, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average yields:	2013	2012
Based on actual earnings	0.92%	1.11%
Based on interest rate credited to participants	1.70%	1.69%

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

Note 7 - Tax Status

The plan administrator has been provided with a determination letter dated March 31, 2008 by the Internal Revenue Service ("IRS"), which indicated that the volume submitter defined contribution plan adopted by the Company is qualified and the underlying trust is tax-exempt under the appropriate sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013, no uncertain positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to tax examinations for years prior to 2010.

Note 8 - Related Party Transactions

The investments owned by the Plan are managed by Fidelity, the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid by revenue sharing, rather than direct payment.

As described in Note 2, the Plan made direct payments to the third party administrator of $1,700 and $1,190 for the years ended December 31, 2013 and 2012, respectively; which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations.

Note 9 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2013 and 2012:

	2013	2012
Net assets available for benefits per the financial statements	$ 4,340,731	$ 3,511,147
Adjustment from contract value to fair value	6,363	9,963
Net assets available for benefits per Schedule H to the Form 5500	$ 4,347,094	$ 3,521,110

The following is a reconciliation of the changes in net assets per the financial statements to the Form 5500 for the years ended December 31, 2013 and 2012:

	2013	2012
Net increase in assets available for benefits per the financial statements	$ 829,584	$ 572,107
Adjustment from contract value to fair value for investment contracts at beginning of year	(9,963)	(8,588)
Adjustment from contract value of fair value for investment contracts at end of year	6,363	9,963
Net increase in assets available for benefits per form 5500	$ 825,984	$ 573,482

Note 11 – Untimely Participant Contributions

During 2013, the Company failed to remit to the Plan's trustee certain employee contributions and loan repayments within the period prescribed by Department of Labor regulations resulting in nonexempt prohibited transactions. Under the regulations, amounts withheld by an employer from a participant's wages for contribution and loan repayments to a plan are plan assets on the earliest date that they can reasonably be segregated from the employer's general assets. The Company intends to make contributions to the affected participants' accounts to compensate those participants for potential lost income due to the untimely remittances. Management believes that the lost earnings due to the untimely remittances will not be material to the Plan's financial statements as of and for the year ended December 31, 2013.

Note 12 – Subsequent Events

Effective June 2014, the Plan changed the date in which an eligible employee may enter the plan from quarterly to monthly. In addition, the Plan has added an automatic enrollment feature for eligible employees at 3 percent pre-tax deferrals unless they change their election percentage or opt out of the Plan. The Plan also added an annual increase program for any employee who is automatically enrolled in the Plan whereby the employee's contribution percentage will be increased by 1 percent annually until they reach their plan limit.
